The Daily Review has the largest
circulation of any newspaper
published in the city of Wilmington.

General Sheridan will remove to
Washington on the 1st of October. He
will take his staff from Chicago.

Ex-Treasurer Francis E. Spinner is
residing at Guilford, Vt. Fish bite
at his autograph where all other wrig-
gled.

The first result of a competitive ex-
amination of candidates for clerkships
in the Philadelphia postoffice resulted
in giving the prize and place to a young
colored man.

At the recent election in Kentucky
Henry Clay, grandson of the great
Henry Clay, was defeated for the Legis-
lature after one of the hottest political
fights ever known in that State.

The Baltimore Sun complains that
the postal facilities for the transmission
of mail matter from Baltimore are ar-
ranged with reference to the convenience
of New York and Philadelphia.

The first steel rail made in America
and those who made it over \$500,000
in experiments and outlay. It was
rolled in the North Chicago Rolling Mill
Company's Works in Chicago, May 25,
1883.

The peanut crop of the year is esti-
mated at 2,485,000 bushels. We shall
have to import a lot from somewhere.
This little crop will allow an average of
only about three cents to each man,
woman and child in the United States—
a ridiculously small allowance.

A new use has been found for cotton.
Manufactured into duck it has been
successfully introduced as a roofing ma-
terial. Aside from its cheapness, it
possesses the advantage of lightness as
compared with shingles or slate; it ef-
fectually excludes water, and it is said
to be a non-conductor of heat.

Professor Baird, director of the
Smithsonian Institution and President
of the Fish Commission, while he rare-
ly fails to recognize a species of fish or
any scientific specimen on sight, is often
at a loss to call his best-known acquain-
tances by name when he meets them
casually.

The Mormons, that is the Polyga-
mists, have carried Utah, electing prob-
ably all the local officers, such as prose-
cuting attorneys, sheriffs, court officials,
&c. Indictments may be found for poly-
gamy in the future, but there will be
no convictions, as Mormons will be on
every jury. The Edmund's bill is a
failure, and Congress will have to pass
a stronger measure. The problem, to
say the least, is difficult to solve.

The Russian Empire consists of thirty
different races of people. Life there is
not individual, but collective. There
are but two cities, Moscow and St.
Petersburg, the remaining towns are
viewed but as accidents. In other
countries the urban population consti-
tutes one-third of the whole, in Russia
but one-tenth. St. Petersburg and
Moscow are the only cities, perhaps, in
the world, whose inhabitants are in
part peasant. The work-people in the
factories of these cities are engaged on
the condition that they will be allowed
vacation to sow their fields and reap
their harvests.

About 2,500 men are employed in the
Lighthouse Service, the cost of which
last year was \$2,084,000 exclusive of
\$300,000 expended on new structures.
While the number of lighthouses is 725,
the number of beacon lights on West-
ern rivers is about 900, and experi-
ments have encouraged the expectation
that gas lighted beacons can be made to
serve the purpose of costly lighthouses
in many places. Lightships, on the
other hand, are declining in favor, and
there are but thirty left in the service.
The number of buoys is about 3,400,
and the practice of lighting them is in-
creasing. The service compares favor-
ably with that of other countries, but
many improvements are needed, espe-
cially in the districts of the Atlantic
coast.

The Farmers' Dinner.
From gentlemen who were present
at the "Farmers' Dinner," at Clinton,
Sampson county, yesterday, we learn
that it was in every particular a decided
success. There was a large attendance
of ladies and gentlemen, embracing
some of the best of Sampson society.
The ladies were all dressed in white
and were truly charming in appearance
and fascinating in manner. The dinner
was excellent, abundant and—well,
good is no name for it. The address of
Hon. D. H. McLean was a scholarly
effort and was listened to with profound
attention and interest. The pleasures
of the day were closed by a grand ball
at night, with good music. The ball
was one of the best ever held in that
town, which has ever been noted for the
excellence of manner in which such
festivities are gotten up.

sionists will be made. The excursion

this city and for some years master
carpenter at the shops of the W. C. &
A. Railroad, when they were located
on the opposite side of the river, arriv-
ed here last night, and is the guest of
his brother-in-law, Mr. S. W. Holden,
on Chestnut, near Ninth street. Mr.
Kinyon is now master carpenter at the
shops of the Western & Atlantic rail-
road, and resides at Atlanta, Ga. He
left home several days ago to attend
the annual meeting of the Georgia
Grand Lodge of I. O. of O. F., of which
he is a member, at Augusta, and came
thence here, where he will remain
about a week.

Criminal Court—Sentences.

The following are the sentences of the
Criminal Court for the session.

Joshua Hewett, larceny, \$25 and
cost.

Henry Green, A. & B. 10 days in the
county house of correction.

Abram Green, larceny, 5 years in
the penitentiary.

Robert Moore, larceny, 3 years in
the penitentiary.

Geo. Washington, larceny, 5 years
in the penitentiary.

Munroe Johnson, larceny, 2 years
in the penitentiary.

David Johnson, indecent exposure of
person, 30 days in the house of correc-
tion.

Hintz Evans, larceny, 2 years in the
penitentiary.

All of the above were colored. Those
for the "pen" will be taken off in a few
days.

A Warning.

For some months past persons visit-
ing Bellevue Cemetery have been seri-
ously annoyed by boys who indecently
exposed themselves while in bathing in
Green's mill pond. So great a nuisance
had the habit become that ladies very
seldom visited the cemetery. The boys
were frequently remonstrated with
about the matter, but of late they defied
the superintendent of Bellevue and as-
serted that they were not afraid of the
law. Yesterday indictments were found
by the Grand Jury against two or three,
whose names could be ascertained.—
The boys, who are colored, and about
17 years of age, were arrested and
lodged in jail in default of bond for their
appearance at the next term of the court
to answer to the charge of "Indecent
exposure of person." This should be a
warning to others.

Did Not Get Him.

Feist Mayer thought he had one of de
poys treed this morning, and, after
two or three hours' labor working up
the points on him, approached a stran-
ger and said: "Vell, how you vas dis
mornin'?" Vell, has you got dot li-
cense?"

"Oh, yes," said the stranger, "I
have had that for the past three or four
years. I was one of the first members."

"Vell, would you be so kind as to
show me dot license?" I likes to see
'em."

"It's home. I did not bring it with
me, but it's just like the rest."

"Youst like de Tutchman's anchor;
py shiminy, dot's too tin; dot don't go
down. Vell, I sharge you dree tollars;
dot's de law."

"Why, I have paid for my license,
and have the Treasurer's receipt."

"Den py shiminy vy you don't
sho' 'em. Make no foolishness wid
me my friend, I am de chef de de-
tectal force and I take you before the
Mayor."

"Why, what have I done to be—"
just here one of the druggists of this
city happened to be passing when the
stranger said "brother so and so what
does this man mean?"

Feist was soon informed that the
stranger was a visiting druggist, when
he in a very disgusted manner said,
"vell by shingy vy you don't say
you vas one of dem farmicentis already,
how you tink I know you vas one of
dem tam vellars, any vay."

Should the Evil be Allowed to Exist any Longer?

The medical profession of the State
are much gratified with the good which
our Board of Medical Examiners is ac-
complishing. They are all the more
pleased with the law because it was
given to them a barren, lifeless thing,
and they have, by twenty years of as-
siduous cultivation, made it effective.
But, with all their influence, they have
not been able to make the law reach
a certain class of so-called doctors, and
mete out to them their deserved punish-
ment.

Recently an example of the worst
sort of pretence and ignorance has come
to the attention of our County Super-
intendent of Health, Dr. F. W. Potter,
which is only one of many instances
from the same source, which should
bring forcibly to this and other com-
munities, the necessity of defending the
people against it.

There is a rule, adopted by the com-
munity, requiring a certificate of
death from a physician, before a
permit will be issued for burial. Here
is a specimen of a certificate, copied lit-
erally:

"To the Superintendent of City—
I Dr. Jos. D. Prophet attended said
Lewis William's child of which said
child died this 27th day of June 1883
with disease known as—billious—or
splene."

Yours—Dr. Jos. D. Prophet.
Wilmington, N. C., June 28th 1883."

It has been ascertained that the au-
thor of this certificate is a negro charla-
tan, having a shop in the Northeastern
part of the city, and having a sprightly
mulatto boy as clerk. He apparently
dispenses his own mixture, and plies
his avocation with all the hardihood of
his class. It looks as though all these
medical sharks were trained by a mas-
ter hand. They resort to telling devices,
such as the following, for example: A
negro man, suffering with a chronic,
and probably incurable disease, having
been attended by a regular physician
for some months, and who had finally
made a long interval in his visits, and
these visits more to administer to char-
ity than for medical service, found at
one of his visits that the patient had
been made worse by some external ap-
plications. An enquiry elicited the state-
ment that the author of the above cer-
tificate, had been giving him some med-
icine. He had gained the patient's con-
fidence by bringing in some of his cured
patients to bear living testimony to his
skill. Excited by this array of money de-
mands, the patient was treated by the
"prophet," and after the money donated
was exhausted, and abandoned in a
most pitiable condition.

Is there any remedy for this state of
things? Certainly there is, by just
changing the phraseology of the law
establishing the Board of Medical Ex-
aminers. The section of the law bearing
on this point is as follows:

Sec. 2. Be it further enacted, That
from and after the 15th day of April,
1859, no person shall practice medicine
or surgery, or any of the branches there-
of, or in any case prescribe for the cure
of diseases for fee or reward, unless he
or she shall have been first licensed so
to do in the manner hereinafter des-
cribed: *Provided*, That no person who
shall practice in violation of this act
shall be deemed guilty of a misdemeanor.

By repealing the *Proviso* in this sec-
tion of the law or by eliminating the
negative in it, the citizens would be
defended, very greatly against the im-
position of charlatans. The weak, igno-
rant, helpless classes of our population,
the masses of the people, the majority of
the voters, are the ones who need this
protection, and if the politicians could
realize this they would give heed to the
suggestion.

Is there no municipal law or statute
law sufficient to meet the exigencies of
the case now and silence such preten-
ders? If so it ought to be applied
before more harm is done. T. F. W.

and Diarrhoea Medicine, for Dyspep-
sia, Indigestion and Diseases of the
Stomach and Bowels.
