

THE DAILY REVIEW.

VOL. VII.

WILMINGTON, N. C., FRIDAY, AUGUST 17, 1883.

NO. 196

THIS PAPER published every evening, Sundays excepted by JOSH T. JAMES, EDITOR AND PROPRIETOR. SUBSCRIPTIONS' POSTAGE PAID: One year \$4.00. Six months, \$2.00. Three months, \$1.00. One month, 35 cents. The paper will be delivered by carriers free of charge, in any part of the city, at the above rates, or 10 cents per week. Advertisements will report any and all fall-outs to receive their paper regularly.

The Daily Review has the largest circulation of any newspaper published in the city of Wilmington. Proctor Knott's majority for Governor of Kentucky keeps growing. The back counties are boosting him. The San Francisco Call says that California cannot be carried by any party squinting at free trade.

The managers of the Louisville exposition are fearing that pecuniary loss will result from the small attendance of visitors. Dennis Kearney was greeted by a baker's dozen of adherents on his arrival at San Francisco the other day. He has lost his hold.

The Philadelphia Press says: Dennis Kearney dresses like a dude, acts like a fool and looks like an ape, but still he imagines himself a statesman. Senator Butler and family have started in covered wagons from Asheville, N. C., to explore the mountains as far as the summit of Mount Mitchell.

The certificate of incorporation of the Bulls International Iron and Steel Company was filed in New York Monday. The capital stock is fixed at \$10,000,000, divided into 10,000 shares. There are not enough Republicans in the Georgia Legislature to supply the demand when Democratic members wish to absent themselves, and so the Democrats are taking to pairing with one another.

William Blaikie, the Harvard boatman, delicately says, in an interview, that John Morrissey and Abraham Lincoln are the only two men recently who could have stood up against Sullivan.

The Boston Herald says some facts are so plain that it would seem as if they did not require a demonstration: One of them is that it is hard to buck against \$80,000,000, with \$200,000,000 or \$300,000,000 back of it. The women of Boston seem to be losing what little interest they at first took in exercising the inestimable "right" of voting. Only 40 of them have thus far this year come forward to be assessed for a poll-tax.

The study of dressmaking has been introduced into the public schools of France by the government, which also provides for the instruction of teachers in this branch by defraying their expenses while they receive a course of lessons in Paris.

The Philadelphia Times says if the Democratic party cannot survive the election of Randall to the Speakership, as Watterson predicts—the sooner it dissolves the better. But the real trouble, as the Augusta Chronicle puts it is how to survive Watterson.

Miss Flood, the California heiress, says London Truth, has inspired Lord Beaumont, first in the list of English viscounts, and a Catholic, with the tender passion. He had previously been inspired in the same way by another heiress there, Miss Hatty Crocker.

The difference between Northern and Southern civilization is well told by the Atlanta Constitution when it says that while "the civilization of the North is whooping itself hoarse over bloody slugging matches, the poverty-stricken South is compelled to content itself with an occasional dispute between two comincker chickens."

It is now authoritatively stated that Congressman Poindexter Dunn, of Arkansas, will not vote for Mr. Randall for Speaker. He has heretofore been claimed among his supporters. Congressman Thomas B. Ward, of Indiana, who defeated the late Godlove S. Orth, is reported to have said that he is not for Mr. Randall for Speaker under any circumstances, as he does not think he would represent the Democratic sentiment of Indiana.

At the recent Episcopal Conference, held at Sewanee, Tenn., it was declared to be "entirely inexpedient, both on grounds of ecclesiastical polity and also of a due consideration of the interests of all concerned, to establish any separate independent ecclesiastical organization for the colored people dwelling within the territory of any constituted jurisdiction." This conference was composed of fifty prominent men of the Southern diocese, including thirteen of the bishops, and the resolution against separate churches for the colored race was adopted after a full and most interesting discussion of the merits and demerits.

Miss Mary Anderson will begin her London engagements on September 3.

It is said to cost from 40 to 60 cents to stop a train of cars. The man who invents a practical method of saving the energy now lost by breakers, and reapplying it to start the car, will save society a million of dollars.

Hon. William H. Barnum declares, in an interview published by the Sun, that Mr. Tilden gave his check for twenty-five thousand dollars in aid of the Hancock canvass for President, and that he stands credited with that amount. He also says Mr. Tilden gave valuable assistance to the Democracy during the campaign, and that he was not averse to the nomination or election of General Hancock.

In speaking of the birthplace of Andrew Jackson, the Fayetteville Observer says: The discussion of this subject is reviewed by the Baltimore Day and the Wilmington Star. The writer was informed by Governor Swain in 1869 that he had visited the birthplace of Jackson, and that it was within North Carolina, as Parton has it.

There is more evidence than that. A gentleman now resident in this city was in Washington City in 1834, during Jackson's second term and while there in an interview with the President he was distinctly told by him that he was a North Carolinian by birth, having been born in Mecklenburg county, near the South Carolina line, and not far from the Waxhaw settlement.

LOCAL NEWS.

INDEX TO NEW ADVERTISEMENTS.

YATES—New Styles
E. D. HALL, Mayor—Bids
W. H. GREEN—Turnip Seed
HEINSBERGER—School Books
F. C. MILLER—Florida Water, &c
MASONIC COMMITTEE—To Contractors

No cotton received here since last Tuesday.

The almanac promises wind and rain for all of next week.

Full moon to-morrow morning at 39 minutes after 7 o'clock.

Capt V. V. Richardson, of Columbus county, was in the city to-day.

For Pocket Knives or Table Cutlery, go to JACOBI'S Hardware Depot.

Bids for opening Chestnut street dock will be received at the Mayor's office.

There are quite a number of places on Market street where the sidewalk needs repairs.

We were visited by frequent and copious showers last night which were a real blessing.

We understand that there will be several family excursions next week on the Minnehaha.

The beef in the market this morning was not large in quantity and was very inferior in quality.

The rain seems to have been pretty general, extending all over the State and into South Carolina.

See ad. for bids for making alterations and additions to the Masonic building, on Market street.

There was a very heavy rain at the Sound yesterday, said to have been one of the heaviest had this season.

The construction of the Banks House at the Sound, has so far advanced that it will probably be completed in the early part of next week.

The William Sullivan who was fined yesterday in the Mayor's Court is not, be it understood, the well-known colored painter of that name.

The walls of the new freight warehouse of the Wilmington & Weldon Railroad are all laid and workmen are engaged in putting on the roof.

The Temple of Israel, now that the improvements on it are nearly completed, presents a fine and imposing appearance. It adds much to the beauty of the city.

The many friends of Mr. Alex. Sprunt will be glad to know that he is enjoying himself in "bonnie Scotland." He will not return to this country until sometime in October.

We learn that there were heavy rains yesterday and last night all along the line of the Wilmington & Weldon Railroad, which will make the farmers in that section rejoice.

A colored individual, charged with disorderly conduct, was the only case for the Mayor's consideration this morning. A fine of \$5 or 30 days in the city prison was the sentence. He went below.

The Excursionists.

The excursion train, which left here on Monday morning for Washington, D. C., left that city on its return at 5 o'clock last evening and arrived here at 12:15 o'clock this afternoon. The trip was made without accident, and would have been delightful had not an almost incessant rain interfered to mar the pleasures of sight-seeing at the Capitol.

River News.

From a letter received from Fayetteville this morning, we learn that the steamer *Bladen* had arrived at that place, notwithstanding the low water, and left this morning on the return trip. As the river was reported to be rising there is a strong probability that she will come through without delay. The *Bladen*, we believe, is the only steamer that has gone through to her destination during the present low stage of water.

A Rara Avis.

Mr. J. C. Stevenson had a large consignment of chickens to arrive this morning, and among them was one which was an actual cross between a chicken and a duck. In its general appearance the chicken predominated, but it was web-footed, short-legged and waddled just like a duck. It will probably be on exhibition at the Fruit Growers' Fair next week, as the person who got it said that he intended it for that purpose.

Supposed Suicide.

A colored man, named Freeman, was found dead in the woods, about 10 miles from Whiteville, Columbus county, in the early part of this week, under circumstances which indicate that he had committed suicide. Three pistol shots were heard in the woods by some parties who were not far distant, and when they went to ascertain the cause, they found Freeman dead, with a revolver, three chambers of which had been discharged, in his hand, and three bullet wounds on his person, evidently made within a short time, one of which had penetrated the region of the heart and was necessarily fatal. We could glean no further particulars, and are not informed of the age of the man or whether he was married or single.

Lucky Numbers.

The following numbers have drawn the large prizes in the August drawing of the Louisiana Lottery: No. 94,177, first capital, \$75,000, sold in Chicago and Rocky Mount, N. C.; No. 61,880, second capital, \$25,000, sold in Chicago and Selma, Ala.; No. 93,563, third capital, \$10,000, sold in Nashville, Tenn.; No. 75,779, drawing \$6,000, sold in New Orleans and Philadelphia; No. 76,119, drawing \$6,000, sold in Vicksburg, Miss.; Nos. 15,261, 19,167, 29,672, 43,475 and 98,252, drawing \$2,000 each, sold in Dayton, O.; Guatemala, Central America; Indianapolis, Ind.; Parsons, Kan.; New York and Chicago; Opelika, Ala.; and Fort Wayne, Ind. It will be noticed that the number for the third prize ticket, 93,563, differs from that as published in the *Star* this morning, which gives it as 97,563. We believe that our figures are correct.

The celebrated 'Fish Brand' Gills Twine is sold only at JACOBI'S Hardware Depot.

Personal.

We clip the following from the *Valdosta* (Ga.) *Times*, relative to the proposed removal from this State of our esteemed friends Mr. John R. Paddison:

Our town is soon to gain another good citizen in the person of Mr. J. R. Paddison, of Point Caswell, North Carolina. Mr. Paddison is a man of means and influence in his native State, and we are pleased to welcome him in our midst. The Farmer and Mechanic, Raleigh, N. C., endorses him as follows:

We regret to learn that Pender Co. is about to lose one of her prominent citizens, John R. Paddison, Esq., a merchant at Point Caswell. He saw in the Farmer and Mechanic an interesting letter from Valdosta, Georgia, by a lady connected with the leading families in S. C. Whether not interested him we know not, but last week he returned from a prospecting trip and decided to remove thither. Valdosta is a flourishing town of 2,000 inhabitants on the S. F. & Western R. R., 160 miles from Savannah, and is full of business at this season shipping 40 or more carloads of watermelons per day (1,000 melons to the car.) besides \$50,000 worth of melons this month. Mr. Paddison is very reluctant to leave the State and break his associations with "home folks," but "business is business." We regret his going and trust that he will soon return drawn by the gales of prosperity which we feel sure are not very far distant.

The merchants will begin to move Northward next week for the purchase of Fall and Winter stocks.

Grand Lodge K. of H.

The meeting of the Grand Lodge of Knights of Honor, in the State of North Carolina, was held this week in Greensboro, those present from this city being Messrs. N. Jacobi, Grand Guide, Dr. W. J. H. Bellamy, State Medical Examiner, and Col. Jno. D. Taylor, Representative from Carolina Lodge No. 434, all of whom returned to the city last night.

An election of officers for the ensuing year resulted as follows:

G. D.—Dr. R. F. Lewis, of Lumberton.
G. V. D.—J. T. LeGrand, of Rockingham.
G. A. D.—E. M. Nadal, of Wilson.
G. P. D.—J. M. Spraggins, of Tarboro.
G. R.—P. C. Carlton, of Statesville.
G. T.—S. C. Seofield, of Davidson College.
G. G.—Nath'l Jacobi, of Wilmington.
G. Chap.—L. A. Bikle, of Concord.
G. Guardian—C. A. Sherwood, of Raleigh.
G. Secretary—T. B. Douthitt, of Winston.

Supreme Representatives—Col. Jno. D. Taylor, of Wilmington, and T. F. Klutz, of Salisbury.

Grand Trustees—J. C. Kennedy, of Kinston; A. W. Moye, of Greenville, and T. W. Slocum, of Goldsboro.

Finance Committee—Marsden Bellamy, of Wilmington; G. W. Brinson, of Newbern, and S. C. Dodson, of Greensboro.

Dr. W. J. H. Bellamy was re-elected State Medical Examiner, receiving for the position the high compliment of a rising vote of the Grand Lodge.

Winston was selected as the next place of meeting, and the time was changed from the second Tuesday to the third Wednesday in August.

The evening session of Tuesday was devoted to conferring Grand Lodge degrees and exemplifying the unwritten work.

A banquet was given on Wednesday evening by Guilford Lodge No. 1777, to the Grand Lodge, at which over two hundred persons were present, which is reckoned by those who were present as one of the most pleasant affairs of the kind on record.

The delegates all received a cordial welcome from the people of Greensboro and are loud in praise of the hospitalities extended to them on every side.

The Fastest Yet.

Engine No. 33, on the Wilmington & Weldon Railroad, with Mr. Winfield Taylor as engineer, one day last week on the fast train made the trip from Weldon to this city in three hours and thirty-five minutes which is two minutes less time than that made by engineer Thomas Lawther a few weeks ago. The trip included four stoppages, the distance was 162 miles, the time consumed was 215 minutes, making the average speed per mile at one minute and 53-162. This is, we believe, the fastest time ever made over that road and it ought to be considered fast enough to satisfy any one.

The Greensboro *Patriot*, last Wednesday, said:

Knight Jacobi, of Wilmington, is voted the handsomest Knight attending the Grand Lodge. Fortunately Mrs. Jacobi accompanies him.

That was a hard hit at our worthy friend but it is said that at the banquet that night Mr. Jacobi got in more than one good thing in reply.

It is said that Mr. Willie Muse, a son of the late Commodore Muse, C. S. N., well-known in this city, holds a part of the ticket that drew the capital prize in the Louisiana State Lottery, on Tuesday last. Mr. Muse is resident in Rocky Mount.

General Lee's Staff.

Dr. E. Warren, late Purveyor General, C. S. A., General Lee's staff, now a distinguished practitioner in Paris, wrote officially: "Dr. Worthington's Cholera and Diarrhoea Medicine has long ago enjoyed a high reputation, both in and out of the Army."

Silver Plated Spoons and Forks, low prices, at JACOBI'S.
