THE DAILY REVIEW.

VOL. VII. WILMINGTON, N. C., SATURDAY, AUGUST 25, 1883. NO. 202

The *Daily Review* has the largest bona fide circulation, of any newspaper published, in the city of Wilmington.

The government has sold 8,000,000 acres of land in Dakota within a year.

John Gould, the father of Jay, was the first white child born in Roxbury. Jay was known at school as a "bawl baby."

The corner-stone of the Garfield monument at San Francisco will be laid, on the 24th, and Governor Stoneman has made the day a legal holiday.

Some German capitalists have bought an extensive tract of ground in Africa, and are preparing to carry out a colossal scheme of colonization.

Louise Viardot, daughter of the famous French opera singer, has been appointed professor of singing at the Frankfort Conservatory of Music.

The Michigan Prohibitionists have resolved to raise a State campaign fund of \$100,000, and use it in beating the Republican party. They have the money raised already—all but about \$99,875.

Martin Van Buren used to take part in the quadrilles and minuets at Saratoga, and judges, senators and other dignitaries were regularly seen upon the dancing floor. Nowadays, only very young folks dance there.

Ex-Senator Pinchback, the colored statesman from Louisiana, says President Arthur is the favorite of the Republicans of Louisiana for the next President. He regards ex-Senator McDonald as the choice of the Southern Democrats.

The Chinese are flocking into Siam at the rate of 2,000 annually. They are so shrewd and enterprising that the whole trade of the country has fallen into their hands, and if the immigration continues they will very likely capture the country itself.

Monsieur Capel, the eminent English divine, will lecture in Baltimore in the latter part of September. Archbishop Gibbons has extended to him the hospitalities of the archiepiscopal residence during his stay in Baltimore and will be present at the lecture.

It is evident that the reduction of single rate letter postage from three to two cents has not been made too soon. The estimated surplus of the postoffice department for the last fiscal year is \$2,400,000, or \$1,100,000 more than the surplus for the preceding year.

The story of the strange sinking of a piratical vessel bearing the black flag off Beach Haven, thirteen miles North of Atlantic City, has been pronounced "a sheer fabrication" by Dr. Edgar Holden, of Newark, who had been credited with having seen the occurrence.

The New York Times attributes the failure of the strike of the telegraphers to the remissness of the Knights of Labor. The leaders of that body associate clothes with labor, and could not fully sympathize with strikers who wore store clothes and smoked cigarettes.

Boss Mahone, says the Richmond State, has dated his "General Orders" this week in Wall street. He is said to have a million dollars of his own, but when he wants campaign funds he either assesses his followers or looks round among the monopolists of New York.

Miss Mary Anderson will appear at Mr. Irving's London Theatre, the Lyceum, on the 1st of September, and she will remain there until December 17; then she will travel in England and Scotland until August 1, 1884. In September of that year she will return to this country.

The debt of England amounts to \$3,814,000,000. Her statesmen think the debt ought to be paid, and the House of Commons has decided that the task shall be undertaken as soon as possible. It will require about \$43,325,000 year for ninety years to complete the job.

George H. Anthony, a son of the wealthy ex-Governor Anthony, of Kansas, and a cousin of Susan B. Anthony, surprised some of the St. Louis people the other day by quietly marrying Miss Nell Ross Campbell, of that city. The two called at the house of a clergyman to whom they were unknown and were married. Mr. Anthony is in the railway business at Chihuahua, Mexico, and is wealthy.

Gen. Joseph E. Johnson is 76 years of age. He is erect, weighs 160 pounds and is 5 feet 8 1/2 inches high.—*Star*.

The last time we saw Gen. Johnson, about one year ago, he was about 5 feet 7 inches high and weighed about 130 pounds. But perhaps he has grown since then.

Senator Vance, of North Carolina, is at war with the railroads in his State, and it is said he will stump this Fall against their interests, says the *News and Courier*. There is a war, too, against the railroads in South Carolina, and the result is a victory for the commissioners in driving capital out of the State.

An Indianapolis paper thus summed up the divorce market in that locality: "Brisk competition among our local lawyers has brought down the prices of divorces. We quote: Common separation, \$15; small alimony, \$25; large alimony, \$50 to \$100, according to circumstances. Business good and increasing."

City Court.
There were two persons brought before the Mayor this morning, charged with disorderly conduct. In one case the sentence was \$20 or 30 days in the city prison, and in the other the sentence was \$10 or 20 days. The fine was paid in the latter case, while in the former the party went below.

Rain in the Country.

We are informed by passengers who arrived from the North by last night's train, that there were fine and frequent showers yesterday on the line of the Wilmington & Weldon Railroad, extending from the vicinity of Enfield, Halifax county, to Teachy's in Duplin county. They were much needed and will prove of much benefit to the section through which they reached.

Musical.

The Wilmington Cornet Concert Club, considering their numbers and the opportunities they have for practice, discoursed some excellent music during the recent Fair. We are glad to learn that there is a prospect of an increase of members, and that they intend to work and practice until they stand at the head of the musical bands of the State. We hope they may be successful, as they are an honor to our city and are worthy of every encouragement from our people.

Camphor for Mosquitoes.

Somebody says, "I have tried the following, and find that it works like a charm." Take of gum camphor a piece about one-third the size of an egg and evaporate it by placing it in a tin vessel and holding it over a lamp or candle, taking care that it does not ignite. The smoke will soon fill the room and expel the mosquitoes. One night, not long since, I was terribly annoyed with them, when I thought of and tried the above, after which I neither saw nor heard them that night, and next morning there was not one to be found in the room, though the window had been left open all night.

A Good Work.

The Seaboard & Roanoke, Raleigh & Gaston, Raleigh & Augusta and the Carolina Central Railroads, composing what is known as the "Seaboard Air Line System," are getting out a handbook descriptive of the country traversed by the several roads named for distribution at the approaching Boston Exposition. The object of the book will be to call the attention of those who would like to make homes in the South, to the advantages offered along these roads, and to do that most effectually photographic views have been taken of the factories, villages, colleges and other objects of prominent interest along the respective routes. These photographs will be engraved and the book will be illustrated with them. Aside from the pictorial embellishments, the work will contain a description of the country bordering on these roads, with a description of the soil, products, climate, water power and other useful knowledge for the benefit of those who contemplate migrating to this section. Its purpose will be to invite immigration, and we commend the plan as one of great importance to our people.

Well Canned.

The Fruit Growers' Association held a meeting last evening at which Captain R. P. Paddison, the President, was presented with the following address:

President Paddison:
The delightful reunion of the Fruit Growers' Association has drawn to a close. The days that we have spent together, with all their bustle and activity, all their triumphs, all their keen and ever varying enjoyments, are now things of the past. But they are recorded and treasured up in faithful memories, where they will be fondly cherished and often awakened and reviewed. Our paths are about to diverge; but before separating, we desire to give expression to the feelings of unalloyed pleasure and the deep gratification that have filled every day and almost every hour of our stay here. Especially would we here recognize the generous, self-sacrificing kindness the uniform consideration and your ceaseless and ever successful efforts to make our visit as pleasant as possible to us. You command our esteem and admiration as a model President of our association, while you enjoy our warm gratitude and affection as a friend and brother. It is, therefore, that we cannot refrain from offering you this tribute, while we pray the Giver of every good and perfect gift, to fill your days and your years with ever-renewing happiness, and to bestow upon you and your dear ones His choicest blessings. In conclusion, allow me, in the name of the Fruit Growers' Association, to beg you to accept this testimonial of our affectionate regard.

At the conclusion of the address, Mr. E. W. Lineback, of Forsyth county, in a neat appropriate speech, in behalf of the society, presented Capt. Paddison a gold-headed cane. Capt. Paddison, in brief, but well chosen words, accepted the testimonial.

Exports Foreign.
Ger. barque *Marie*, Capt. Permin, cleared today for Hamburg with 4,951 barrels rosin, valued at \$7,199, shipped by Messrs. Paterson, Downing & Co.

Cotton.
The receipts of cotton at this port for the week ending with to-day foot up 111 bales, as against 293 bales for the corresponding week of last year, a decrease this week of 182 bales. The receipts of the crop year to date foot up 127,614 bales, as against 136,746 bales to same date last year, a decrease this year of 9,132 bales.

Some Changes.
Some changes have been made lately in Portner's Tivoli Beer Agency in this city. Mr. Julius Liens, late agent, will be sent to Norfolk, Mr. Zoese, Assistant Agent, returns to Alexandria and Mr. John H. Tiencken, of this city, so long in the employ of the Agency, is placed in charge of the office here. Mr. Wallace, a former agent, has been here for a few days en route to Alexandria.

Fine Crayon.
At Yates' bookstore is a very fine life-size crayon portrait of Mr. Neill McLaurin, for many years a well known merchant of this city, and father of Messrs. John, Joseph H. and Hugh W. McLaurin. The picture was copied from a daguerreotype which was taken when he was more than 60 years of age and is pronounced by those who were familiar with Mr. McLaurin to be a remarkably correct likeness.

Improvements.
Capt. B. M. McIntire is making some very decided improvements in the interior arrangement of his store on North Front street, preparatory to the reception of his Fall stock, which will begin to arrive in a few days. In a portion of the rear a new floor has been laid, and room has been utilized for better accommodation of both goods and customers. The rear portion of the room, as far forward as the main shelving, is to be supplied with a nice new carpet, and that part of the building will be devoted to the exhibition of carpets, cloaks, suits and dress wear, exclusively. When all is completed this store will be in entire keeping with the times, and will compare favorably with any store in the South.

Removals.
Messrs. W. I. Gore & Son and Mr. J. Corbett have purchased the store now occupied by Messrs. Cronly & Morris, and after making some necessary repairs and alterations, will occupy the same on or about the 1st of October next. We were mistaken yesterday in saying that this store would probably be occupied by Messrs. D. L. Gore & Co. It was a confusion of names.

Capt. George Sloan has purchased the McRae house, on Mulberry, between Second and Third streets, now occupied by Capt. S. W. Skinner, and will get possession and move in October 1st. Capt. Skinner will remove to the Williams house, on Fifth, between Dock and Orange, and his son-in-law, Mr. H. H. Heide, who has been residing with him, will occupy the Weuzel house, corner Chestnut and Seventh streets.

Messrs. E. J. Powers & Co. will remove in October to the office now occupied by Mr. J. I. Macks, in the old Bank building, corner Front and Princess streets, and Mr. Macks will remove one door East.

The kitchen on the premises of Mr. Henry Schutte, on Market street, near Third, fell yesterday afternoon with a loud crash and is a complete wreck. Fortunately there was no one in it at the time, a servant having left it but a few moments previous to its fall. It was a very old building.
