# THE DAILY REVIEW.

VOL. VII. WILMINGTON, N. C., SATURDAY, SEPTEMBER 1, 1883. NO. 208

Gen. Grant wears an old fashioned watch fob, which is one of his particular eccentricities of dress.

Gen. Francis A. Walker is suggested as a suitable candidate for the presidency of the University of Minnesota.

Charles A. Dana has invested \$10,000 in a henery. He claims to have the finest lot of game chickens in this country.

It is reported in London that Freddie Gebhard will take his stable of horses across the ocean next year, with the view of racing them on the English turf.

A correspondent of the Nashville American, writing from Washington, has no doubt that Mr. Randall will be speaker of the 49th Congress and Mr. Atkins Clerk.

Hon. John Sherman and Editor Pulitzer shake hands on the subject of an income tax. They both imagine that it would reach rich men who dodge existing taxes.

In his recent speech Mr. Sherman called attention to the singular fact that in Ohio the last three Democratic candidates for Governor were not Democrats at all, simply Republicans off on a tangent—Ewing, Bockwiler and Hoadly.

The Texas cotton crop of this year is estimated at 1,036,000 bales, a falling off from last year of 464,000 bales. Drouth affected the crop. Texas has suffered severely from scarcity of rain, while further North there was an abundance of it.

Rufus Hatch says: "If Conkling were nominated Beck would support him and the Democrats would elect him over their own ticket." It is said that this idea was hatched out by Uncle Rufus alone, and without any outside assistance.

In the Pennsylvania Senate the resolution which passed the House, requesting the Senators and members of the Legislature to resign in view of their inability to agree on the apportionment question, was referred to the appropriation committee.

The Philadelphia and Reading Coal and Iron Company yesterday issued a circular making an advance of 10 to 25 cents per ton in the prices of coal for Eastern shipment. The only sizes that are not increased in price are lump, steamboat and pea.

Residents of towns on both sides of the Rio Grande have contributed \$500 for a purse, in addition to the stakes, in order to have the Slade-Mitchell fight take place over the Mexican line, and it is said that the Mexican authorities have agreed that there shall be no interference.

The trial of Isaac H. Lockwood was begun in New Haven, Conn., on Tuesday. It is charged that he issued a fraudulent circular, representing that a banker, whose early dishonesty had been condoned by a kind benefactor had died, leaving \$780,000 to be devoted to aiding men who had yielded to dishonest impulses. When he had received communications from guilty parties he would blackmail them and use their confessions to secure hush money.

Suit has been begun by Edmund Stephenson against Thomas Murphy, ex-collector of the port of New York, for the recovery of the amount of an alleged fraudulent draft upon Hugh Hastings, editor of the Commercial Advertiser. The plaintiff states that Mr. Murphy asked him to cash a draft on Mr. Hastings for \$500, and said that he had been authorized to draw on him for that amount. Mr. Hastings denies having authorized Mr. Murphy to draw on him.

Lieutenant-Governor Chauncey F. Black sent the following letter to Speaker Faunce, of the Pennsylvania house of representatives: "The joint resolution of the senate and house upon the death of the late Jeremiah S. Black, a private citizen for well nigh a quarter of a century, is, I believe, without a parallel in the history of our state. His widow and children direct me to tender, through you, to the members of the house of representatives their most profound and grateful acknowledgments for a tribute at once so grateful and so exceptional."

The fat men had a good time at South Norwalk, Conn., the other day. Here are some of the light weights: Charles Wolf, of Staten Island, 308

pounds; A'derman Thomas Duffy, of New York, 287 1/2; Patrick Murphy, of the Italian Legation, 301; H. H. Brockway, of the Ashland House, New York, 211; William Ottman, of Fulton Market, 281 1/2; George Lumbrecht, New York, 291; Edward W. Wellman, New York, 248; A. J. Herkins, of New York, 205 pounds. Fragile Charley Bradley, of New Haven, tipped the beam at 300, while Mr. Henry Anderson, the young skeleton of the association, weighed 204. When George Hatzel stepped on the platform the gauge passed 400 before the beam trembled. But when Murphy took his foot from the scales the beam rose at 230. Other solid men were: C. Stegman, Bridgeport, 215; A. Bennett, Fairfield, 214; E. Jeffers, Bridgeport, 214; E. T. Jennings, Danbury, 229; A. W. Wallace, Bridgeport, 220; J. E. Wheeler, Westport, 300; Andrew Hill, Danbury, 240; Amos Roberts, 300, and Harvey Elliott, Guilford, 251 1/2-16.

Here is the feed, as given in the World:

A tall pyramid of stones and seaweed covered with canvas served as a receiving vault for 1,000 chickens, 500 pounds of blue fish, 500 pounds of deep water sea bass, 1,500 lobsters, 3,000 ears of green corn, 24 bushels of hard clams, 10 bushels of soft clams, 20 bushels of oysters, 4 barrels of sweet potatoes and as many Irish potatoes.

The boys were all weighed again after the feed and the average gain was 11 pounds!

There is still much talk of a telegraphic consolidation in opposition to the Western Union monopoly, as witness the following, from the Philadelphia Ledger:

There was a rumor in Philadelphia yesterday that a consolidation had been or was about to be made by the American Rapid, Bankers and Merchants and Postal telegraph companies to operate as a competing line with the Western Union company. General Superintendent J. A. Sherman, of the American Rapid company, was registered at the Continental Hotel, and during the day held a conference with city superintendents Pennock and others. The Bankers and Merchants company is said to have ten wires between Philadelphia and New York, and extensions as far south as Charleston; the American Rapid has wires between Boston, New York, Philadelphia and Cleveland, and the wires of the Postal Company are said to extend as far west as Chicago. With a combination of this sort it is thought a strong competition with the Western Union could be inaugurated. The report was generally believed, and developments are expected in a few days. At the office of the American Rapid Company it was learned that five branch offices are to be started in this city before September 10. It was also asserted that an effort was on foot to connect the offices of the companies mentioned, or rather those of the Bankers and Merchants and American Rapid, in order to save expenses.

Rev. J. M. P. Atkinson, D. D., brother of the deceased Bishop Atkinson, of this State, died at Hampton Sydney College, Va., on last Tuesday evening. The Petersburg Index-Appal says:

The deceased was a grandson of Roger Atkinson, of Mansfield, Dinwiddie county, who emigrated from England to Virginia about 1750, and married Anne, the daughter of John Pleasants, a descendant of John Pleasants, of "Curles," Henrico county, Va., who emigrated from Norwich, England, in 1665. He was born at "Mansfield," the old family homestead, near Petersburg, and was the tenth child of Robert and Mary Tabb (Mayo) Atkinson. In early manhood he went to the then republic of Texas as a missionary, but his health was not equal to the labor. Returning, he was for a time pastor of the Prince George Presbyterian Church and afterwards pastor of the church at Warrenton and the church at Georgetown, D. C., and for the last twenty years or more president of Hampton Sydney College in Prince Edward county, in this State. In all these several positions he was honored and beloved. His health failing him, he tendered his resignation as president of the college, and, in July last, his resignation was accepted and he was elected emeritus professor for life. Rev. Richard Mellwaine, D. D., was elected his successor in July last. He was married three times. His first wife was Elizabeth Harrison, daughter of Rev. Peyton Harrison, of Baltimore; his second was Mary B. Bauldwin, by whom he had two daughters who survive him; and his third was Fannie, the daughter of Hon. A. H. H. Stuart. The deceased was the brother of Mrs. C. J. Givens of this city, and nearly related to many of our best citizens.

It is the fourth death in the immediate family in the past two years; first Bishop Atkinson, of North Carolina, then Mr. M. P. Patterson in this city; third Robert A. Atkinson, of Gonzales, Texas, and now the subject of this sketch.

Day's length 12 hours and 53 minutes

This month has five Saturdays and five Sundays.  
The receipts of cotton at this port today foot up 2 bales.

Sunset to-morrow afternoon at 11 minutes past 6 o'clock.  
There were no interments in Oakdale Cemetery this week.

There was one interment—a child—in Bellevue Cemetery this week.  
At 3 o'clock to-day the thermometer in this office registered but 79 degrees.

The Register of Deeds issued one marriage license this week. It was to a colored couple.  
There were seven interments in Pine Forest Cemetery this week—five adults and two children.

The evening service at the First Baptist Church will begin hereafter at 8 p. m., instead of 8:15 p. m., as heretofore.  
The steamer *Minnehaha* has been thoroughly overhauled and repaired and will resume her regular trips to-morrow.

Rev. Frank H. Wood, after a brief absence, has returned to the city, and will preach at the Front Street M. E. Church to-morrow.

Some of the pigeons that have made a roosting place at the City Hall came to an untimely end this morning by being shot with an argun.

There was one case of disorderly conduct before the Mayor this morning which was disposed of by a fine of \$20 or 30 days in the city prison.  
Native champagne, said to be superior to the imported article, can be had at the Old North State Saloon. Also some of the best beer in the city. See ad.

The latest soundings at the mouth of the river, taken at mean low water, give the following depths: Bald Head Bar, 13 feet 6 inches; Western Bar, 11 feet 5 inches.

We are glad to learn that Mr. John C. Heyer, who has been sick and confined to his room for several weeks, is improving in health, although we regret to say he is not yet able to leave the house.

Mr. John F. Garrell, after an absence of about a month, has returned to the city looking well and hearty. His visit was to the Western portion of the State and extended into Tennessee, and he expresses himself as delighted with his trip.

This was one of the finest mornings of the season, although between the hours of 3 and 4 o'clock it was quite cold with a very heavy dew. At least so we have been told by those whose duties called them up at that time in the morning.

**Unfortunate.**  
Mr. G. L. Grubbs, of this city, but who has been working at Smithville during the Summer, had the misfortune to lose \$33 overboard as he was coming up on the *Passport* this morning. He was seated on the rail of the boat with the money and a handkerchief in his hip pocket, when having occasion to use the latter he pulled it out and the money came with it and dropped into the river and was lost.

**On His Travels.**  
Mr. William A. French, of the firm of Messrs. George R. French & Sons, left here last May for a general trip around the country, hoping that his health, which was rather feeble, might be benefited thereby. In his travels he has "taken in" all the principal cities and places of importance in the Eastern, Central and Western sections of the United States, and he has now gone further West. At last accounts from him he was in Dakota Territory, where he was enjoying himself in hunting and fishing, and in the rough but healthy pleasures of camp life. His health has much improved during his absence. After a week or two spent in Dakota, he will start on his return, coming by the way of Niagara Falls to Boston, where he will spend some days in visiting the Exposition, and will arrive here about the middle of October.

For Pocket Knives or Table Cutlery, go to JACOB's Hardware Depot.

## Cotton.

The receipts of cotton at this port for the month of August, just closed, foot up 83 bales, as against 1,204 bales, for the same month last year. The receipts of the crop year, which closed yesterday, foot up 127,495 bales, as against 137,311 bales for last year, a decrease this year of 9,816 bales.

**Rev. Mr. Wood.**  
Rev. Frank H. Wood, Pastor of the Front Street M. E. Church in this city, has returned from an absence of nearly two weeks. Mr. Wood has been at the All Healing Springs, in Gaston county, and this is the first time since the year 1859 that he has been absent from duty for as long as two weeks at one time. We are pleased to see him looking so well. He will preach to-morrow at the usual hours.

**Harbor Master's Report.**  
The following is the number and tonnage of vessels arriving at this port during the month of August, 1883:  
American—Steamships, 4, 3,259 tons; brigs, 3, 1,166 tons; schooners, 16, 3,314 tons. Total American, 23 vessels, aggregating 7,860 tons.  
Foreign—Barques, 5, 2,294 tons; brig, 1, 271 tons. Total foreign, 6 vessels, aggregating 2,565 tons. Grand aggregate, American and foreign, 29 vessels, 10,425 tons.

**River Improvements.**  
The docks at the Wilmington Compress Company's property in the Northern section of the city, are being cleared out and the water made deeper, so that vessels of a larger draught of water may lie at the wharf and receive a full cargo of cotton with depth enough to keep them afloat at all times of the tide. The New York Steam Dredging Company are doing the work in a thorough manner, and when completed, it will be a great convenience to the Compress Company, as well as to the vessels which may take in their cargoes there.

The W. & W. Railroad Company are also deepening their entire water front by dredging, so that it may be conformable to the depth at the Compress Company's. When these two are completed there will be only the intervening distance occupied by the C. C. Railroad which will not afford depth of water enough to float any vessel that can pass up and down the river. The improvements in that section of the city, and in the important particular of making the river more useful, within the past two or three years, have been marked. Their importance cannot well be estimated.

**Quarantine Notice.**  
QUARANTINE FOR THE PORT OF WILMINGTON will be enforced from May 1st to November 1st as follows:  
Pilots will bring all vessels from ports South of Cape Fear to the Quarantine anchorage; also, all vessels which have had any kind of sickness on board during the passage, or on arrival, and will cause a signal to be set in the main rigging on the port side, as soon as possible after crossing the bar.  
No vessel must leave the Quarantine anchorage, or allow any person, steamer, tug boat, lighter, or boat of any kind to go alongside, unless by written authority from the Quarantine Physician, and every vessel must be anchored as far to the eastward of the channel as is consistent with safety.  
Regulations governing vessels while in Quarantine may be had on application at the office of the Quarantine Physician at Smithville.  
Applications for permits to visit vessels in Quarantine must be made to Dr. Thomas F. Wood or Dr. Geo. C. Thomas, and permits so obtained will be endorsed by the Quarantine Physician, if in his opinion, it is proper and safe to allow communication with such vessels. A penalty of \$20 for each and every offence will be enforced against any person violating any of the Quarantine Regulations of the Port.
