

THE DAILY REVIEW.

VOL. VII. WILMINGTON, N. C., TUESDAY, SEPTEMBER 4, 1883. NO. 210

The Daily Review has the largest circulation of any newspaper published in the city of Wilmington.

The market price of trade dollars in New York, on Friday, was from 87 1/2 to 90 cents.

The public debt statement for August will show a reduction of about five and a half million dollars.

Mrs. Edwin Lee is writing a life of her father, the late General Pendleton, of the Confederate army.

Texas in 1871 had taxable values amounting to \$122,504,073; in 1882 they amounted to \$419,925,476.

The Illinois duel in which both combatants were killed at the first fire was a decidedly business affair.

Congressman-elect O'Hara, of this State, was recently entertained at dinner by prominent colored citizens in Boston.

Dr. J. M. McKnight, of St. Louis, aged 80, shot himself through the head, Friday, saying that he had lived long enough.

The Dutch polar expedition steamer Varde has arrived safely at an island in Arctic ocean, off Finnmark, and all on board are well.

These who have been figuring on the wheat crop say that there is a shortage in this season's crop in this country of 70,000,000 bushels.

Mr. Blackburn has withdrawn from the Speakership contest, and entered the race for the United States Senate, to succeed Gen. Williams.

During the month of July there were eleven deaths at Panama among the well-to-do classes, and, it is believed, twice as many among the natives and poorer classes.

A miners' strike is likely to occur in Mahoning Valley, Ohio, as the miners have asked for an advance in wages of ten per cent., which the operators have refused to pay.

At an early hour Friday morning, at Corsicana, Texas, a dozen brutes caught Martin Kelley, colored, covered him with coal oil and set fire to it and burned him to death. Horrible!

Since the adoption of local option laws in Canada in 1878, the liquor consumption in the Dominion, according to Sir Leonard Tilley, the Canadian finance minister, has fallen from 5,000,000 gallons to 1,250,000 gallons.

A new switch capable of holding fifty palace cars is being built at Richfield Springs, preparatory to the holding of the Republican State Convention. The expense to the Delaware and Lackawanna Company will be \$1,500.

The old industry of glass making has had such a revival in Venice that 15,000 people now make beads, while many others are employed in glass-blowing and mosaic. Other arts, which have lately revived, are artistic casting in metal and lace-making, and the manufacture of furniture in imitation of antique designs in ebony and ivory has been begun.

The Chicago Tribune thus muses over the hot-water bath taken by ex-Senator Conkling: "The egotism of this strutting peacock makes one shudder in contemplating what might have happened to the country if he had remained long enough in the Hot Springs bath tub to have been boiled until he was ready for the table. Such funeral baked meat might have involved a catastrophe to the country as fearful as if a cyclone had swept over it."

The friends of Ex-Speaker Randall having asserted that Mr. Carlisle has opposed bills for the improvement of the Mississippi river, a letter from Mr. Carlisle, written last December to J. G. Leach, of Mississippi, is published, which shows that he is in favor of appropriating any amount of money necessary to make the navigation of the great water way easy, cheap and safe, and promote the commercial welfare of the country along its banks.

The Western Union has at last made some concessions to its employees in regard to night work and compensation for Sunday work, as we learn from the New York Herald:

Printed notices of the concessions which the Western Union Telegraph Company on Saturday determined to grant to its operatives were yesterday posted up in all the offices of the company. These notices read as follows:—

"SEPTEMBER 1, 1883.
"Commencing to-day, seven and a half hours' actual service in this office

during week nights will constitute a day's work, or, in other words, the hours of the night force will be from half past five p m till half-past one a m, allowing thirty minutes for lunch. Sunday service will be paid for the same as other over time service—at the rate of one-seventh of a day's pay for each hour. All payments for over-time, including Sunday service, or for a fractional part of a month, will be based upon the number of week days in the month."

As far as length of hours and rate of payment for Sunday work are concerned, the concession is precisely what was demanded by the Brotherhood of Telegraphers before the late strike. The point regarding Sunday work is a very important one. If an operator hereafter works on Sundays he is to be paid extra, and if he does not work on that day no reduction is to be made from his wages. To a man receiving \$80 per month this concession would make a difference of over \$10 per month. These concessions have caused much satisfaction among the telegraphers. To a Herald reporter yesterday an officer of the company said that these concessions had been granted solely out of good feeling on the part of the company toward the operators. Western Union could not afford to grant the terms in full demanded by the brotherhood, and what it could afford to grant it would not so long as the operators were in arms against the company. Now that the telegraphers had returned to their desks what was reasonable and possible to grant had been conceded.

LOCAL NEWS.

INDEX TO NEW ADVERTISEMENTS.

YATES—School Books
HEINSBERGER—New Music
F C MILLER—Florida Water, &c
J W HARPER—Family Excursion
W H GREEN—New Crop Turnip Seed

The receipts of cotton at this port to-day foot up 125 bales.

Mr. W. B. McKay, of this city, has gone to Boston to see the Exposition.

Silver Plated Spoons and Forks, low prices, at JACOBI'S.

At 3 o'clock this afternoon the thermometer in this office registered 88 degrees.

There was much of a dullness around the City Hall this morning and as a consequence news items were scarce.

There is unmailable matter in the Postoffice in this city addressed to William Niesslie, 120 Ryerson st., Brooklyn, N. Y.

The Cape Fear Steam Fire Engine Company were out on monthly practice yesterday afternoon. They have a fine steamer and they know how to handle it to advantage.

The celebrated Fish Brand Gills Twine is sold only at JACOBI'S Hardware Depot.

A correspondent of the Goldsboro Messenger, who signs himself "Pender" and who we take to be Dr. S. S. Satchell, warmly recommends the nomination of Maj. Chas. M. Stedman for Lieutenant Governor.

There is no mistake about the fact that the crops between this city and Burgaw, with the exception of a short distance in the vicinity of Rocky Point, are sorry. The corn looks worse than we ever saw it before.

Family Excursion.

The family excursion on the Passport to-morrow will undoubtedly be well patronized as it is to be the last of the season. Capt. Harper is deservedly popular with his passengers and he makes these family excursions pleasant for every one who attends. Nothing but threatening weather will prevent the party from being one of the largest of the season.

Re-captured.

From a note received from Sheriff Taylor, of Brunswick county, we learn that Joe Goodman, the outlaw, who some months since escaped from the jail at Smithville, was retaken on Saturday, the 1st inst., by Constable S. Hickman, assisted by a posse, and is now safely confined in his old quarters in jail. The capture was effected at Mr. Bland's plantation, on Back Branch, Shallotte township.

Too Venturesome.

On Sunday, Aug. 26th, as Miss Mary E. Vann, daughter of our old friend and subscriber, John R. Vann, of Rockfish township, Duplin county, was engaged in some duty in the kitchen of her father's house, the rest of the family being absent at church, she was startled by an unusual noise and looking around she saw a hawk in hot pursuit of a peedoy which had taken to the building for protection. The young lady wasted no time in trying to "shoo" the intruder off, but caught up a stick and killed him, and then deliberately resumed her household duties.

Board of Aldermen.

The Board of Aldermen met in regular month session yesterday afternoon. The committee on Finance made their report in the matter of the claim of O. G. Parsley for damage to property on the corner of Third and Ann streets; reading the opinion of the City Attorney and the estimate of a mechanic.

Alderman Chadbourne offered the following resolution, which, on motion, was adopted:

Resolved, That the Mayor and City Attorney be empowered to effect an arrangement with Mr. Parsley, whereby both parties may set forth all the facts bearing upon the claim for damages to his property, corner of Third and Ann streets, by surface water, and submit the same to some Superior Court Judge for his decision as to the liability of the city for said damages; both parties to abide by the decision.

The committee on Finance made a report in the matter of rebates on the market stalls, which, on motion, was adopted.

Committee on Streets and Wharves made a report on the subject of paving North Water street, which, on motion of Alderman Bear, was received and placed on file, and, further, that the matter be deferred until the meeting in October.

Report of committee on Streets and Wharves, with regard to the gutter on Ann street, was referred back to the committee.

Same committee reported progress in the matter of the Sixth street bridge.

Committee on Fire Department reported, recommending that the floor of Ann Street Engine House be repaired.

On motion of Alderman Boney, the committee on Fire Department was instructed to replace the floor of the said house, either with boards or concrete, and also furnish a hose-reel driver for the company.

Alderman Bear moved that the committee on Fire Department take into consideration the matter of the alarm.

Committee on Lights made a report, which was adopted, recommending the granting of petitions for lights as follows: Oil lamp, corner of Ray and Rankin streets (Twelfth and Red Cross); oil lamp, corner of Bladen and McRae streets; gas lamp, corner of Fourth and Church streets.

Alderman Dudley tendered his resignation as chairman of the committee on Market and Fees, stating that he did not have the time longer to attend to its arduous duties.

Alderman Chadbourne moved that the thanks of the Board be tendered Alderman Dudley for his most valuable services as chairman of the Market Committee, and that he be requested to reconsider the matter of his resignation. Unanimously adopted.

The committee on the Sanitary Department, through Alderman Bear, made a report in regard to the introduction of second-hand clothing into this city, endorsing the recommendation of the Board of Health, to the effect that the same be prohibited as dangerous to the health of the city; also recommending a rigid enforcement of the regulations regarding the proper collection and removal of garbage. Report adopted.

The following petitions for the erection of wooden buildings with tin roofs, were granted: S. Burt, one story, South side of Mulberry, between Front and Water; W. C. Farrow, addition to No. 8, Mulberry street; W. Larkins, attorney for M. S. Dawson, a shed, to be used as a stable, East of B. F. Mitchell & Son's mill; Chas. Wessell, store on South side of Mulberry, between Front and Water, two stories high; Thos. H. Wright, attorney for Mrs. C. A. Fulton, to complete a frame building on her premises, on Fifth, between Princess and Chestnut; Samuel Bear, Sr., shed on his premises; J. G. Oldenbittel, one or two small frame buildings, and to repair one building on Nutt, between Mulberry and Red Cross streets.

Alderman Howe moved that the ordinance in regard to hog pens be not enforced until the 1st of November. Adopted.

It was resolved that the petition of Mr. Latimer, to erect two tin-roof buildings in rear of residences on the corner of Orange and Third streets, be granted, provided that such buildings do not stop the alley known as Hoskins' alley.

Petition of sundry citizens, for a hydrant at the corner of Brunswick and Nutt streets, was granted, the Board of Audit and Finance concurring.

Petition for the improvement of Brunswick street, was, on motion, referred to the committee on Streets and Wharves.

River News.

From a letter received to-day from Fayetteville, which was written yesterday evening, we learn that the steamer A. P. Hurt left there yesterday morning and that the river had fallen 3 inches since her departure. The river had previously been very low, and this would indicate much uncertainty as to when the boat will arrive here.

The following substitute for a resolution of Alderman Boney, providing that the police force be directed to arrest all cattle, hogs and goats found on their respective beats, and secure their confinement in the public pound, was offered by Alderman Chadbourne and adopted.

Resolved, That the Board of Audit and Finance be requested to furnish the city with ten men additional during the months of October, November and December, for the sole purpose of ridding the city of the nuisance of cattle and hogs running at large.

Alderman Dudley, Bear, Chadbourne and Howe voted aye. Aldermen Boney, Sweat and Geyer voted nay.

County Commissioners.

The Board met in regular monthly session yesterday afternoon.

The Treasurer submitted his report for the month of August, as follows: General Fund, balance on hand, \$5,528.64 Educational Fund, balance on hand, 11,859.22 Certificate of Deposit, 6,500.00 He also exhibited one coupon of the denomination of \$15.

The Register of Deeds submitted his report for the month of August, and exhibited the Treasurer's receipt for \$9.50, amount of fees received by him for marriage licenses.

It was ordered by the Board that E. P. Bailey be allowed to list his property, situated on the east bank of the Cape Fear river, and known as L. A. Hart's vineyard.

Application of J. A. McCallum, for license to retail spirituous liquors in the city was granted.

The Board proceeded to draw the jurors for the October term of the Criminal Court, as follows:

J. A. Hankins, Joseph Rich, S. Sallings, A. G. McGirt, John C. Springer, Richard B. Hall, Grier Kidder, John J. Geyer, C. B. Wright, R. F. Rowan, John McLaurin, R. L. Hutchins, Edgar D. Williams, Geo. J. Russell, John Burgwyn, Edward Stills, George N. Harriss, B. B. Harrison, Thos. J. Bell, Dennis Brown, W. T. Williams, James T. Jarman, S. R. Birdsey, O. R. Hollingsworth, W. B. Hill, John Fitzgerald, A. J. Howell, Richard Hooper, Julius Fernberger and John W. King.

The Finance Committee was empowered and instructed to turn over the tax books to the Sheriff for collection, and take his receipt for the same.

The Board then adjourned, subject to the call of the chairman.

Pender Notes.

The little village on the W. & W. Railroad, in Pender county, known as Leesburz, with the Postoffice name of Camera, has dropped both names and is now known as Willard, both as a railroad station and postoffice. Recently there have been many improvements made at Willard, (nee Leesburg-Camera) and it is in a really flourishing condition, and bids fair to become one of the promising towns of that section. Its inhabitants are sober, industrious, hospitable and public spirited and are wide awake to the demands of the age.

Among other new features worthy of note is a very fine school which has recently opened there under favorable auspices, and we are glad to learn that it has already become a pronounced success. Rev. L. T. Carroll is the principal and he has secured the services of experienced and successful teachers as his assistants.

Mr. Hosea P. Murray, one of the most promising young men of Willard, will leave in a few days for Baltimore, where he will attend his second course of lectures at the Medical College. He expects to graduate this session. He read Medicine under the tutelage of Dr. K. J. Powers, of Willard, and the latter feels a deep interest in the success of his pupil, and from an intimate knowledge of his characteristics, predicts for him a brilliant future in the profession.

Within the last two or three weeks ten or twelve valuable horses have died in the immediate vicinity of Willard, from the disease known as "blind staggers."

We have received from Yates' Bookstore a facsimile of the first number issued of the New York Sun, which is dated September 3d, 1833; just 50 years ago yesterday. It is a four-page paper with three columns to the page, and is just one fourth the size of the Sun of the present day.

Temperance Lecture.

We understand that Rev. T. Page Ricard will deliver a lecture or sermon on the subject of "Temperance," at the Fifth Street Methodist Church to-morrow evening, under the auspices of the Independent Order of Rechabites of this city, the members of the two Tents to attend in a body. The public are invited.

Mortar Bricks.

Mr. J. B. Farrar, who has just returned from Shallotte, in Brunswick county, showed us yesterday a brick as a specimen of the kind made down in that section. It is a lime brick, made from oyster shell lime and white sand, and is very nearly a pure white. It is sun-dried and as hard as a rock and might be called a brick of dried mortar. A house built of these bricks would probably present a very handsome appearance.

For the Exposition.

Messrs. Worth & Worth, of this city, have prepared a sample case of rosins, embracing all the different grades, from common strained to window glass, which they have shipped this afternoon to the Boston Exposition. The case is divided into 12 compartments, in each of which there are 40 pieces of resin, all of one grade, and the different grades are so arranged in their respective compartments as to give a pleasing and agreeable effect in color. The top of the case is of glass, so that it may all be seen without danger of becoming mutilated and wasted through careless handling.

The General Agent of Construction, of the Canada Atlantic Railway, James King, Esq. of Ottawa, says: I was troubled with boils over my whole body, but by the use of two bottles of St. Jacobs Oil I was cured.

It Will Pay

All who desire to dress well on a limited purse to buy their Clothing of A. & I. SHIFER. They buy only for Cash and allow their patrons to share in the benefits of all advantages thus gained.
