# THE DAILY REVIEW.

VOL. VII. WILMINGTON, N. C., SATURDAY, SEPTEMBER 22, 1883. NO. 226

The Daily Review has the largest bona fide circulation, of any newspaper published, in the city of Wilmington.

The new ironclad *Monadnock* was successfully launched at Mare Island navy yard, San Francisco, last Tuesday.

Mr. Parnell has paid off a mortgage on his estate amounting to £13,000 from the proceeds of the Parnell testimonial fund.

Alexandre Dumas, fils, has undertaken a crusade against the increasing luxury and realism of scenery and dress on the stage.

H. W. Goldman and George Moseler fought a duel with swords near Milwaukee, Tuesday night, about a young girl, and Moseler was seriously wounded.

The Illinois State board of health has information that a mild form of scarlet fever is spreading throughout the State, in some places assuming the proportions of an epidemic.

The Emperor of Brazil has given Professor Lacerda \$20,000 for his discovery of permanganate of potassium, hypodermically injected, as an antidote for the bite of the cobra.

The Norfolk *Virginian* thinks that if the country had the option of exchanging Billy Mahone for Lieutenant Greedy it might go hard with the Senator. He would surely be left out in the cold.

The Christian convention under the guidance of D. L. Moody, the evangelist, began a three days' session in Chicago last Tuesday. About three thousand persons, chiefly ministers and evangelists, were present.

The last clause of the constitution of the new State of Dakota was passed upon at Sioux Falls Tuesday, and the convention adjourned, leaving the final arrangement of the documents in the hands of a committee.

The first of the many tokens received by Mrs. "Stonewall" Jackson and her daughter during their stay in Boston was a superb basket of roses, "with the compliments of a few members of the Grand Army of the Republic."

The loss by Tuesday night's fire at Broadway and Spring streets, New York, proves to be much heavier than was at first anticipated and will probably reach a million. Several firemen were injured by the excessive heat.

Of the rich newspaper men James Gordon Bennett runs two yachts and four-in-hands, Robert Bonner is the owner of 170 horses; Charles A. Dana keeps a Pullman parlor car, while we are putting in a foundation for a kite.

The largest diamond ever brought to this country has just been imported by a New York jewelry firm. The stone is as yet uncut, but has been sent to the lapidary at Boston. The stone was found in Africa and weighs 125 carats.

Jay Cooke has not only paid dollar for dollar his vast indebtedness, but is now worth at least a million dollars, fortunate mining speculations in Colorado having made him again a millionaire. The other members of the old firm have also done well.

As the New Orleans treasury case now stands, the council refuses to amend the budget, the treasurer refuses to pay the warrants, issued under the present budget and the council is prohibited by the court from impeaching the treasurer.

Dispatches from Silver City, N. M., announce the finding of Charley McComas, the little son of Judge and Mrs. McComas, who were butchered by Indians in Arizona some months ago. The parties who have him claim the \$15,000 reward, which will be paid.

The New York *Times* says that the attempt of Senator Mahone and his Virginia Campaign Association to intimidate and plunder the department clerks is a clear violation of the civil service law and demands the prompt attention of the Attorney General or some of his representatives. The *Times* is a Republican paper.

The general passenger and ticket agents association of the United States have been in session this week in Chicago. A resolution to reaffirm the rule allowing only 250 pounds of baggage was passed. A motion to return to schedule rates on all lines represented in the association on October 1 and maintain them rigidly passed.

The man who painted the spire of the Roman Catholic Church in Omaha was photographed standing on the cross, 210 feet above the pavement.

The postal telegraph promises to be a success. Bonanza Mackey, at least, is satisfied with it. A day or two ago it is alleged that two operators sent and received 542 messages in three hours. The average was about ninety messages an hour for each operator. It is understood that between New York and Boston the best operators on the ordinary wires cannot send over seventy-five messages an hour.

**In Distress.**  
Schr. *Alice Iearn*, Fleming, hence for Philadelphia, has returned in distress, and was coming up the river when our report closed. The extent of her damage is not known but she will have to be discharged, as Capt. Fleming has telegraphed to Messrs. George Harris & Co., the consignees, to that effect.

**Cotton.**  
The receipts of cotton at this port for the week ending with to-day foot up 1,852 bales, as against 2,830 bales for corresponding week of last year, a decrease this week of 978 bales. The receipts of the crop year to date foot up 3,972 bales, as against 4,074 bales to same date last year, a decrease this year of 102 bales.

**More Light.**  
The street lamps in the particular locality mentioned by us yesterday were lighted in due season last night, but the complaint from other portions of the city was greater this morning than it has been for a long time. Somebody should be responsible for the regular lighting of the street lamps, but it would seem that no one is.

**The Courts.**  
The country people generally look to their almanacs to tell them when the courts meet, and this Fall the almanacs fool them completely. Brunswick court convenes next week, and yet, according to both Turner's and Branson's almanacs, the term does not fall due until the second week in October. There is a big mistake somewhere.

**Onslow Mail.**  
We hear much complaint from the citizens of Scott's Hill, Topsail and others on the post route from this city to Jacksonville, Onslow county, about the irregularity of the mails running in that direction. They seem to think that the mail carrier runs a schedule entirely to suit his own convenience, and say that it is nothing unusual to receive mail two days behind its proper time of arrival.

**City Court.**  
Lley Elliott, colored, was before Mayor Hall this morning charged with disorderly conduct, but the case was continued until Monday next for examination.

W. H. Scott, colored, was charged with the same offense, but was absent. His case was continued until Monday.

James Hill, colored, for throwing rocks in the street, was found guilty, but judgment was suspended in his case.

**To Kill Flies.**  
It is stated in the *British Medical Journal* that the castor oil plant, when placed in a room, will kill the flies, that plant possessing an essential oil or some toxic principle which is a powerful insecticide. We have but little faith that there is anything which will kill flies in hot weather, but we propose to send for a lot of the plants and have one half of them set out in our sleeping room so that they will be just above our pillow, and the other half we will have arranged around our dining table. By this means, if the plant works half as faithfully on flies as the oil does on humanly, numberless flies will die of colic, and we shall be able to sleep and eat in some sort of peace.

**Sell's Brothers' Great Exhibition.**  
This combination of Enormous Railroad Shows, and whose announcements are causing the public to await its coming in anxious expectation, will reach this city on the 29th inst. The single fact that this Combination requires more tents than any other existing show, will bear testimony to its comparative immensity and to the reflecting mind, comes the epigram—How can a combination so vast, and one requiring, for its daily expenditure, such a necessarily enormous outlay of money, ever take enough money at its doors to make its financial success a certainty? We give it up! But from the nerve its plucky managers evince in assembling and putting before the people a show of such unprecedented magnitude, it would seem that they are strong in the belief that there is no limit to public patronage, when features are piled on features and novel attractions are massed in such astounding proportions, as the union of their various popular amusement ventures have enabled them to accomplish.

The celebrated Fish Brand Gills Twine is sold only at JACOBI'S Hardware Depot.

**Board of Aldermen.**  
The Board of Aldermen met in called session yesterday afternoon, at 4 o'clock; present, His Honor Mayor E. D. Hall, and Aldermen DeRosset, Boney, Dudley, Bear and Howe.  
The Mayor explained that he had called the Board together to take into consideration the matter of the placing of telephone poles along certain streets, granted at the last meeting of the Board.  
The Committee on Streets offered the following resolutions, which, on motion, were adopted:

Resolved, That the permission granted for the erection of telegraph poles in certain streets is hereby withdrawn.

2. That no telegraph or telephone pole shall be erected on Water or Nutt streets, except where the sidewalks are not less than six feet in width.

3. That poles (not 12 inches in diameter where they enter the ground) may be erected immediately within the curb, or on a line with the outside of the curb; but not in any case in any position outside of the curb, or the place where the curb should be; and in all cases in such position as to present the least obstruction to passage or traffic.

4. That all questions relating to the erection or proper maintenance of poles shall be under the general supervision of the committee on Streets, who shall have power to act on all applications made for permission to erect such poles, which application must be in writing and endorsed with the approval of a majority of said committee, before the work shall be commenced.

5. That the W. U. Telegraphic Company be notified to remove all of their poles, which in the judgment of the committee on Streets and Wharves are obstructions to the proper use of streets for passage or traffic, to positions within the curb, as above provided for; but in no case nearer than six feet from the outside of pole to the line of the street as established.

6. That no person shall be allowed to deface or disfigure any of the poles referred to, by advertisements printed or cut thereon or attached thereto in any manner.

Petition of G. W. Williams & Co., for permission to erect on their property one or more sheds, with tin roof, was granted.

Petition of W. H. Green, for permission to erect a stable with shingle roof on his lot, was not granted.

Alderman DeRosset offered the following, which was adopted:

Resolved, That it be referred to the committee on Fire Department to consider and report upon the propriety of reducing the extent of the fire limits within which no wooden buildings shall be erected.

Petition of McDougall & Bowden, for the privilege of erecting a wooden shed, with tin roof, immediately in the rear of their place of business, was taken up, and, after some discussion, Alderman DeRosset called for the yeas and nays, and the petition was voted down; only Alderman Dudley voting in its favor.

On motion of Alderman Bear the petition was then referred to the committee on Fire Department.

The Board then adjourned.

**Judge Lynch.**  
From a friend and subscriber at Laurinburg, we learn that Archie Johnson, a colored boy, aged about 15 years, who made a dastardly assault upon the person of a little daughter of Mr. William Mason several weeks ago, and who was confined in jail at Rockingham awaiting trial for the offense, was taken from jail on the night of the 20th inst., by a party of masked men and carried to the front of the house at Mason's X Roads, where the attempt was made, and hanged on a branch of a cherry tree. There were about 40 men engaged in the affair. They at first demanded the keys of the jail, and upon his refusal to surrender them, they took them by force. At 4 p. m., on the 21st inst., the body was still suspended to the tree, awaiting the arrival of the coroner, who had been notified of the killing.

A fine assortment of Guns and Pistols at JACOBI'S Hardware Depot.
