

The Daily Review.

JOSH. T. JAMES, Editor & Prop. WILMINGTON, N. C.

WEDNESDAY, SEPT'BER 26, 1883

Entered at the Postoffice at Wilmington, N. C., as second-class matter.

Edison says that the idea of propelling vessels by electricity is impracticable. He says the dynamo and batteries necessary to drive the steamer Alaska across the ocean at the speed she now makes would weigh 63,348 tons.

In 1866 the best railroad time between New York and New Orleans was five days, and a passenger had to make nine changes, many of them long rides from depot to depot. In 1869 the time was reduced to four days; in 1873 to three and a half days, and in 1878 to three days and only one change.

Propos of losses in Wall street, a New York letter says: Did any one ever see a thousand million dollars all at once? Hardly, I think. That's the estimated sum total of the shrinkage of Wall street values in the past two years.

The Baltimore Day, commenting on the Herald's boom in behalf of a better navy, says that there is no doubt a great need of a better navy, but that it must not be forgotten that the money voted for naval purposes has been spent in hiring men to vote the Republican ticket.

A queer question is puzzling the Washington Postoffice people. It is the amount of postage due that should be charged on a letter three-quarters of an ounce in weight, upon which three cents is paid, mailed in New York at 9 P. M., September 30, arriving at its destination the next morning.

The New York Herald of Thursday says that, according to the Commercial and Financial Chronicle's figures, the amount of cotton used by the Southern mills during the year ending September 1 was three hundred and thirty-one thousand bales.

Woman and her Diseases is the title of a large illustrated treatise, by Dr. R. V. Pierce, Buffalo, N. Y., sent to any address for three stamps. It teaches successful self-treatment.

Jerseys are much worn, but only for fatigue, shopping and traveling costumes. 'Mother Swan's Worm Syrup' is intangible, tasteless, harmless, cathartic, for feverishness, restlessness, worms, constipation.

New Bloomfield, Miss., Jan. 2, 1880. I wish to say to you that I have been suffering for the last five years with a severe itching all over. I have heard of Hop Bitters and have tried it. I have used up four bottles, and it has done me more good than all the doctors and medicines that they could use on or with me.

amount of debt, less cash in the treasury, was two thousand seven hundred and fifty six millions in 1865. This is to be contrasted with less than eleven millions in 1883.

MOONSHINE.

A pair of suspenders.—The hangman and his assistant.—The Judge. It will be a crushing blow to dime, novel worship if Frank James is convicted and hanged.

There are said to be tribes of dirt-eaters on the shores of the Amazon. It wouldn't be strange at all if dirt-eaters were plenty along the banks of Salt river.

The English needn't spare us any more English sparrows. If this sparrowgraph meets the eye of the English, they will please govern themselves accordingly.

Young men whose feelings when writing to their girls are such as to interfere with their penmanship, should bear in mind that the Dead Letter Office is full of miss-directed letters.

Said the conductor of a slow-going Western train to an impatient traveller: "No, we are not much on annihilating space on this road, but we do manage to kill a good deal of time."

SHORTS.

Twelve locomotives were shipped from Philadelphia for Brazil last week.

The town of Butler, Pa., uses natural gas for illumination and for fuel. The whole town is supplied one well.

Hannibal Hamlin proposes to give the town of Paris, Me., his native place, a clock, to be placed in the tower of the Baptist church on Paris Hill.

Lightning ran along the wire into an Indiana telegraph office. The operator thought that a phenomenal man was at work on a hasty message.

Illiteracy has increased in Maine, New Hampshire, Nevada and California, and decreased in Georgia, Mississippi, North Carolina, Tennessee and Virginia within the past ten years.

At the Friends' yearly meeting in Plainfield, Ind., it was reported that the ten Indian girls whom the Commissioner of Indian Affairs sent to Trinity College, North Carolina, had proved detrimental to the school.

Gen. Withers, the Kentucky horse breeder, says that the best stock follows the limestone rather than clay and sandstone formations. It forms a perpetual fertilizer for the land, and gives out a pasturage upon which is knit fine bone and firm muscular tissue.

A Massachusetts cattle trainer having arrived at the New England fair with two trick steers named "Ben Butler" and "Bob Ingersoll," the Worcester Spy testifies that they do some marvelous acts, and the Boston Post comments that "if they don't they belie their names."

Very low cut slippers, with a tie across the instep, are the favorites. Cured Six Years Ago. "It has been 6 years since I was cured of fits," says Mr. W. Ford, of Wirt, Jefferson Co., Ind.

The shell-shaped straw hat meets with only a limited amount of popularity. "I would not be without Dr. Benson's Celery and Chamomile pills if they cost \$1. a pill. They cured me of neuralgia, of 9 years standing."

Joseph Snyder, Paxions, Pa. 50 cts. per box, at druggists. Jerseys are much worn, but only for fatigue, shopping and traveling costumes.

'Mother Swan's Worm Syrup.' Intangible, tasteless, harmless, cathartic, for feverishness, restlessness, worms, constipation. Short bodices, with long points back and front, grow more and more numerous.

The Old-Fashioned Doctor.

It is very interesting to read the writings of some of the doctors of the olden time, and see how modern science and recent discoveries have knocked to pieces many of their old theories.

After a while the doctors found out that blood was just what a sick man needed, and that he needed it pure and rich. Modern science has found that iron gives the blood its rich red color, and that if there is not enough iron in the blood, the vital fluid is pale and thin and poor.

The doctors and the chemists experimented and tinkered a great deal with various forms of iron. Most of the early preparations of iron for the blood did as much harm as good.

The doctors and the chemists experimented and tinkered a great deal with various forms of iron. Most of the early preparations of iron for the blood did as much harm as good. Sometimes more. They hurt the teeth and injured the stomach, and worked other mischiefs.
