The Daily Review.

JOSH. T. JAMES, Editor & Prop. WILMINGTON, N. C.

WEDNESDAY, OCTOBER 3, 1883

Entered at the Postoffice at Wilmington, N. C. as second-class matter.

An application has been made at Buffalo for the appointment of a new executor of the estate of the late Mrs. Fillmore, relict of President Fillmore, in place of Mr. Robert Gorham. The ground given is that through Mr. Gorham's carelessness \$100,000 of bonds belonging to the estate were stolen from the Erie County Bank, and that he paid \$35,000 for the recovery of the bonds to a Baltimore lawyer acting as the agent for the thieves, without the consent of the widow, who was then ton each, the injury by drought, etc., a alive.

The fence and no fence parties in ty-five per cent. Texas are growing in strength, fierce ness and bitterness every day. Cattle dealers say they can no longer find short routes to Western markets, in consequence of the fencing of large tracts of land embracing their old trails, and much of the water they once relied upon in their long marches. In many instances they have cut the wire fences put up by the fencers in order to avail themselves of their old privileges, and the result is lawsuits without number and threats that it is feared may lead to ments." blood.

The Bankers' and Merchants' American Rapid and the Southern Telegraph Companies have effected a virtual consolidation with the National Telegraph Company, whose lines run along the West Shore and Nickel Plate Roads. This amalgamation will hereafter be under one management. The wires extend from Cleveland in the West to Boston, and Charleston in the South, with contracts for further extensions. It is reported that the automatic system wifl be abolished. All expenses are to be pooled, and the earnings divided pro- better than last year. rata.

servant,

inflicted. Hence the relatively greater alling off in prospects. Picking, says Bradstreet, in all of the cotton States with perhaps the exception of Tennessee and Virginia (where it is only just beginning) is much further advanced than in average years, owing to the drought which prevailed over nearly the whole of the cotton belt, causing the crop to ripen and open prematurely .-Should the weather continue favorable for picking if is thought that by far the

larger part of the crop will be picked by November 1, some sections being nearly finished already.

In North Carolina the decrease of yield from last year in the fourteen largest counties is estimated at about twenty-seven per cent., and in fiftyeight other counties, having less than 25,000 and more than 500 aeres of cotaffecting the ultimate yield, compared with last year, is placed at about twen-

n the fishing season, and 4,000 the rest of the year. She has a dozen canning establishments, which yield \$3,000,000 a year.

It is found now that tea and cocoa are Ceylon's most paying crops. Cinchona, too, is rapidly increasing in production. Crop prospects there are decidedly

MISCELLANEOUS. **Don't Blame your Grandmother**

Some people who are suffering from thin and impure blood, are in the habit of saying that their trouble is hereditary. They think they have inherited bad blood, weak stomachs irregular livers, and broken-dowr systems from parents or grandparents. These people often become despondent, and say that nothing can be done for them, and that they think they will die just as their grandparents died. .

This is a very bad blunder. The blood that courses in your veins. good neighbor, is not your greatgrandfather's blood; it is your own. It is your own body that is ailing: not that of some good old grandmother who has been in her grave for half a century. Instead of complaining that your ancestors have gone back on you, you had better begin to tone up your own blood regulate your own troublesome liver. in Mexico's foreign population is Ger- set your own stomach to rights, and get ready to enjoy first-rate health. You want iron in your blood. You want a tonic for those flabby muscles and those bothersome nerves. You want something which will drive out that debility and brace you up, and

give you robust health.
