It seems that the New York City Democracy, who have been at laggerheads these many years, have harmonized so far as the November election is concerned, and have united upon a ticket which will he triumphantly elected. Even John Sheman, of Ohio, concedes a Democratic success in New York, although he is inclined to the opinion that it will be by a reduced majority.

The new Guion line steamship Oregon made her first trip from Queenstown to New York in 7 days, 8 hours and 33 minutes; not the fastest run on record but very near it. The Oregon made the best time ever known on her trial trip, and on her way to New York covered 456 miles in 244 hours, an unprecedented feat in ocean voyaging .-Her captain says she can make 500 miles a day, it pushed, and he is satis fied she can cross the ocean in six days. The best record up to this time is that of the Alaska, of the same line-6 days, 18 hours and 40 minutes.

Circulars have been addressed to the chairmen of the county com. mittees in each of the sixty-three counties of the State, asking that complete lists of the voters in the various districts, so far as can be made, be furnished to the State committee within ten days. The State committee, it is said, has met with great success in raising money to carry on the canvass, over \$250,000 having been raised in financial and business circles in New York City. But little money, however, has thus far been expended, the managers preferring to wait until the Democrats in the city decide whether or not there will be a union on local nomina

The most preminent colored men of the country, including Fred Douglass, Register of the Treasury Bruce and zen. The law is now declared a dead letter, but the colored man will not suffer a particle in consequence.
