# THE DAILY REVIEW.

VOL. VII. WILMINGTON, N. C., SATURDAY, NOVEMBER 24, 1883. NO. 278

The Daily Review has the largest bona fide circulation of any newspaper published in the city of Wilmington.

The Prince of Wales is getting along in years—forty two last week.

A scheme for the colonization of the River Dee has been formed in England.

The mill operatives of Manchester, N. H., have five millions of dollars in the Savings Banks.

A letter mailed in San Francisco on the afternoon of October 10 reached London October 24—just fifteen days afterward.

The British Cobden Club and its Free Trade allies in this country are reported to be very active in attempting the defeat of Mr. Randall for the Speakership.

It is steadily becoming a fixed idea that the Democrats must carry New York to win the Presidency, and that New York cannot be carried unless the Democracy be harmonious.

The "old ticket" idea is spreading. The last suggested is Lincoln and Hamlin. It seems that the old man Hannibal has a son, whom he would like to try in harness with the son of Abraham Lincoln.

Col. Paine's "grip" on the Brooklyn Bridge has not proved strong enough, and after many humiliating failures, has at last been abandoned. The directors of the railroad running over the great highway will now try the "Matthias grip," which, it is to be hoped, will be satisfactory.

The attention of the United States government has been formally invited to the International Forestry Exhibition to be held at Edinburgh during the Summer of 1884. The exhibition will be open to contributors and is designed to include everything connected with, or illustrative of, the forest products of the world.

At a meeting in Indianapolis the other day of the Travellers' Protective Association, the editor of the *Merchant Traveller*, speaking for the drummers, said: "We do not object to paying \$3 or \$4 per day, if we are furnished with accommodations corresponding with the price, but we do object to a \$4 rate at a \$1.50 house."

A suit involving \$20,000,000 was commenced in San Francisco Tuesday, the widow and heirs of John Bowie Gray bringing suit against the Quick-silver Mining Company, of New Almaden, Cal. The action is based upon the alleged fraudulent administration of the property by Robert J. Walker, formerly secretary of the treasury, who had been a partner of the deceased.

The World considers Mr. Arthur to be one of the luckiest of mortals. He had the luck to be Vice President; luck gave him the Presidency; luck gives him the Federal patronage which is counted on to nominate him for a second term. This luck may fail at the supreme moment; but the World evidently believes that, in sheer desperation, the Republican ticket will be Arthur and Lincoln.

The Charlotte Observer feels authorized to state that of the three candidates for speaker of the next House, Bennett and Skinner will vote for Carlisle; Dowd, Green and Cox will vote for Sunset Cox, and Vance and Scales will vote for Randall. York, Liberal—so-called,—from the Seventh district, will probably vote for Carlisle, and O'Hara, Republican, from the Second district, will support the nominee of the Republican caucus.

The Havana Official Gazette has published a royal decree ordering that all doubts concerning the application of any part of the law of gradual abolition of slavery shall always be resolved in a sense of the widest latitude for the liberty of the slave or patrocinado, and that owners of patrocinados, when the latter have acquired their freedom, shall not compel them to pay indemnities for their children.

It is estimated that the world's stock of locomotives consists of sixty-six thousand; of passenger cars, one hundred and twenty thousand, and of freight cars, five hundred thousand. The capital invested in railroads, which are in all two hundred thousand miles long, is four billion pounds. The commerce of the seas is carried by twelve thousand steamers and one hundred thousand sailing vessels, whose tonnage amounts to over twenty million tons.

The New Orleans Times-Democrat calculates that Northern men have, within a few years past, invested \$400,000,000 at the South.

A vessel, which arrived at New Bedford a day or two ago, brought an eagle which alighted on the masthead when the vessel was 1,500 miles from any land.

The lighthouse board give notice that on and after December 15 next a fixed white light, of the sixth order, will be exhibited from the old Cape Hatteras beacon, North Carolina.

The report of the Superintendent of the National Soldiers' Home states that \$1,500,000, are due the institution and that more accommodations are needed for the inmates.

Every one has a will and a mind to think for himself, yet many will go about hacking and coughing until a friend recommends Dr. Bull's Cough Syrup for that cough.

## Personal.

Rev. T. C. Baum, of Philadelphia, a classmate of Rev. F. W. E. Peschau, arrived here this morning. He was pastor of the First English Lutheran Church at Trenton, New Jersey, for a number of years. This is the first meeting of the two Lutheran pastors since they parted as students over ten years ago. Rev. Mr. Baum will preach in St. Paul's Evangelical Lutheran Church, in English, to-morrow at 7:30 P. M.

## "The New Jane Eyre."

Miss Charlotte Thompson appeared last night at the Opera House in Lynchburg. Monday night she plays in Norfolk, and Tuesday night, 27th, will make her first appearance in "Jane Eyre," before a Wilmington audience, with a first-class company. All who appreciate histrionic talent should not fail to see this distinguished artist, who has been so highly endorsed by the press in all the large cities of the country.

## City Court.

The following cases were disposed of by the Mayor this morning: Stanley Ebron and Abram Telfair, two colored boys, for disorderly conduct, were fined \$2 each, which they paid and were discharged.

W. H. Banks, colored, charged with an assault and battery, was not forthcoming when wanted and the case was continued until Monday next.

One case of disorderly conduct, in which we suppress the name, was fined \$2.

## Four Years of Service.

To-morrow will be the last Sunday in the Conference year of the M. E. Church, and it will also be the day upon which the Rev. T. Page Ricard will have completed four consecutive years of pastoral duty at the Fifth Street M. E. Church in this city. During those four years of faithful and unremitting service Mr. Ricard has made a host of earnest friends among our citizens as well as in the church whose welfare he has been under his care, and there will be many regrets that, by a rule of the Church, he will probably be assigned to a different charge. Wherever he may go, in his sacred mission, he may take with him the gratifying conviction that his labors here as a Christian minister have been appreciated and the warm love of his Fifth Street congregation will invoke Heaven's choicest blessings upon his head.

## The Comet Approaching.

The comet discovered by Pons, director in the observatory of Marseilles, July 20, 1812, is again approaching the sun, and, according to "science," may be expected to be visible to the naked eye about the first of December, but it is not likely to attain a brightness comparable with that of the conspicuous comets of the last decade unless it shall have undergone material change since its last appearance in 1812. It has increased in brilliancy since October, and will probably reach its maximum by January 12, when it will be as bright as a star of the third magnitude.

## An Excursion from Boston.

We see, by the *News and Observer*, that a large excursion party from Boston is expected to arrive at Raleigh on the 27th inst., and that extensive preparations are being made by the citizens for its reception. The excursion left Boston on the 22nd inst., and is composed mainly of capitalists, manufacturers, merchants and practical business men, who visit our State to examine for themselves the advantages and inducements we can offer for the investment of their capital in our midst. Our exhibit at the "Industrial Fair" in that city has undoubtedly been the cause of turning their attention to our State and awakening an interest in our productive, wealth producing possibilities. They will probably remain in the State several weeks, and will visit all of the most prominent points in which undoubtedly Wilmington will be included. Would it not be well for our city government and prominent business men to take such steps as will cause these prospecting visitors to give our city, with its many advantages for commerce, trade and manufactures, especial attention? It seems to us that it would. There is not a shadow of doubt that for many a year to come there will be a continual migration from the North and East to the South, and it would be wise in our people to take time by the forelock and secure our share of immigrants and their capital, skill and labor at as early a day as possible.

Lyon, of Bladen; W. M. Parker, of this city; A. P. Moffatt, of Columbus, and James Shackelford, of Onslow. Revs. Frank H. Wood, of the Front Street Church, and T. Page Ricard, of the Fifth Street Church, together with Capt. W. M. Parker, the delegate from this city, will leave here for the Conference on Monday next.

## Arrived Leaking.

The German brig *Hermann Friedrichs*, Capt. Neijahr, which arrived last night from Liverpool, had a very serious time while off our coast. On Saturday last, on the Gulf Stream, she encountered a heavy gale of wind, and Saturday night she commenced leaking badly which called 'all hands to the pumps. Notwithstanding the efforts of the crew the leak continued to gain upon them and they had about given up in despair when the crew of the pilot boat *Uriah Timmons* boarded them, on Thursday morning, and assisted them in bringing the vessel into port. The leak leaked at the rate of about a foot per hour, and to keep her from sinking the crew had been kept continually at the pumps more than four days, and they were completely exhausted when relief came.
