Subscribers will report any and all failures to receive their paper regularly.

The Daily Review has the largest circulation of any newspaper published in the city of Wilmington. Great changes are contemplated at Westminster Abbey, which is shortly to be lit up with the electric light. An action is proceeding in Dublin against Oscar Wilde for a sum due for the unsanitary commodity of manure for his farm in Cong. county Galway.

The first actual settler of Minneapolis, Minn., John H. Stevens, is still a resident there, and is editor of the agricultural department of the Minnesota Tribune. Notwithstanding his avowed dislike for Boston and Bostonians, President Arthur has accepted an invitation to be present at a military ball in that city January 27.

A giantess named Ann Dunn died in London a few days ago, aged 39. She weighed nearly 500 pounds, was nearly nine feet high, and measured round the shoulders over three feet.

The New York Times (Rep.) declares that "if Mr. Randall carries out the investigation and reform of the department service at Washington which he promises he will receive the thanks of the public."

The life size portrait of Miss Jennie Chamberlain, the American beauty, which was ordered by the Prince of Wales, has been placed in Marlborough House. The Chamberlain family are about to visit the Duchess of Edinburgh at Eastwell Park.

It is said that Kansas bids fair to become an active competitor of the South in the raising of cotton. Quite a quantity of this staple was raised the past season in the southern counties of the State, and cotton gins at Oswego and Independence have plenty of material on which to work.

In tendering his resignation as Congressman to Gov. Butler, the Hon. George D. Robinson gave as his reason the fact of his election as the Governor of Massachusetts. In reply Governor Butler accepted the resignation, "the reason prompting the same being so entirely satisfactory to a majority of the people of the State."

A new word, "collectivism," has become current among British medical men. It is used to express all that is embodied in a phrase, "collective investigation of disease," an idea which is attracting the earnest attention of England and Germany, and will soon be practically carried out in the United States.

The Savannah News thinks the American Socialists are people of gigantic ideas. They have been abolishing monarchies and everything of that kind at long range for some time, and now they want to go a step further and abolish the United States Senate. The only thing they have been eminently successful in annihilating seems to have been beer.

The stock of the North River Construction Company, which a year ago was quoted at 128, has lately been sold at 19, and on Friday commended 21. The company was formed to build the West Shore Railroad, and the projectors expected the stock would go as high as 175. Henry Willard was one of the directors, but whether he sold out when the price was high or still holds his shares is not known.

The minstrel festival in Music Hall, Cincinnati, closed Saturday night with an audience of barely 800. At no performance of the week was the hall half filled. It is said that the chorus of 300 was made up almost entirely of colored "dummies" taken from the alleys of Cincinnati. Policemen who missed some of the old-timers on their beats during the week were surprised to learn that they were doing duty on the Music Hall stage. Scattered among the "dummies" were the Callender Minstrels, who did the work.

The New York World is of opinion that in accepting the Chairmanship of the Committee on Expenditures in the Department of Justice Mr. Springer obtains a position in which he can do more good for his party than by any tariff agitation. He can tear open the secret department and expose its rottenness and infamy. The fraudulent character of the star route prosecutions, the corrupt "settlements" made with public robbers, the plunder of the treasury through counsel fees are all at his mercy, and these will be the real live issues of the Presidential campaign.

THE DAILY REVIEW.

VOL. VIII. WILMINGTON, N. C., FRIDAY, JANUARY 11, 1884. NO. 10

Hon. Henry B. Payne has been elected United States Senator in Ohio, to succeed Hon. George H. Pendleton. Both are Democrats. The Senator elect was born in 1810, and is consequently between 73 and 74 years of age. He was the Democratic candidate for Governor of Ohio 27 years ago, but was defeated by Hon. Salmon P. Chase, the Republican candidate, by a small majority.

Turner's Almanac promises snow or rain for to-morrow.

The receipts of cotton at this port today foot up 194 bales.

Full moon to-morrow morning at 13 minutes past 10 o'clock.

Eggs continue to be retailed from our stores at 25 cents per dozen.

This morning the weather was pleasant, soft and Spring-like.

Clarendon Council, No. 67, A. L. of Honor, will meet to-night, at 7 o'clock.

We counted seventeen flats loaded with wood at Princess street dock this morning.

A cold in the head is one of the best things that can happen to a lady with a lace handkerchief, and Dr. Bull's Cough Syrup is decidedly the best remedy to cure that cold.

There has been quite a brisk breeze blowing during the day and a good many hats have been unceremoniously blown from the craniums of the wearers and tumbled off on their brims.

Two young draymen got into a scuffle on the wharf yesterday, for which the Mayor imposed a fine of \$3 each this morning. This being the only matter for His Honor's consideration the Court adjourned.

The Board of Aldermen will meet in monthly session at the city Hall at 7 o'clock this evening. This is an adjournment from last Monday evening, which was the regular time, but at which there was no quorum present.

The Wadesboro Times appropriates from our columns, as its own, a lengthy local article which appeared in Monday's REVIEW, and was written by the local editor of this paper. This is thoroughly in keeping with the weather.

A good many young men and boys were rushing around at a break neck speed last night in quest of the fire, for which the bells were ringing. They failed to find the fire, but we understand that some of them found the bell(s), in consequence of which they were in no haste to return home.

Fire caught in an ash box on the upper piazza of a building on Princess, between Front and Second streets, last night. The alarm of fire was sounded, but the blaze was extinguished before any damage had been done, and the services of the fire department were not needed.

The receipts of cotton and all kinds of naval stores, save rosin, have been unusually light in the last week or two. This may probably be accounted for in part on account of the cold weather which has been unfavorable for shipping but mainly in consequence of the low price at which those products are sold. If prices should advance there is not much doubt that there would be a material increase in the receipts.

Yesterday's News and Observer says The sad death, while hunting, of Mr. W. J. Gordon, of Wilmington, by the accidental discharge of his shot-gun, excites the deepest sorrow of those here and elsewhere in the State who knew him, and who knowing him, could not but love him. The writer was his friend and would fain bear testimony to the lofty character, the amiable disposition, the gentle manners of the dead, Green be the turf above him!

Has Left Us.

Mr. John M. DeSaussure, who for some time past has been ticket agent at the Front Street depot, has resigned that position and has accepted a situation with a mercantile house in St. Louis, Mo., for which place he left last night. His successor at the ticket office is Mr. R. E. Branch.

The Lecture To-Night.

We trust that the Library Rooms may be crowded to-night to listen to the eloquent Dr. Milburn. His subject—Stonewall Jackson—is one that is dear to every Southern heart, and it will be made deeply interesting by the speaker. The object of the lecture is for the benefit of the Library Association, an institution of which every Wilmingtonian has reason to be proud.

An Attachment.

We were shown to-day by Mr. C. M. D. Humphrey, of the firm of Humphrey, Jenkins & Co., a curious freak of nature in the shape of an oyster and a clam, firmly joined together and both alive. They were taken from the oyster garden of Mr. J. L. Winner, on Myrtle Grove, and seemed to be perfectly satisfied in each other's company, for we heard no complaint from either of them.

Exports Foreign.

Br. barque Venus, Harris, cleared to-day for Newcastle-on-Tyne, with 300 casks spirits turpentine and 2,505 barrels rosin, valued at \$8,900, shipped by Messrs. Alex. Sprunt & Son, Ger. barque Auguste Jeanette, Turgeon, cleared for Stettin with 3,190 barrels rosin, valued at \$4,800, shipped by Messrs. E. Peschan & Westermann. Sch. Cook Borden, Lunt, cleared for St. Martin's, W. I., with 75,736 feet lumber, 250,000 shingles, 1 cask spirits turpentine, 10 barrels pitch, 2 barrels tar and 2 barrels rosin, valued at \$2,440.15, shipped by Messrs. Parsley & Wiggins; making an aggregate value of exports of \$16,140.15.

The Rivals.

There is quite a list of dramatic and musical attractions booked for the Opera House in this city during the months of January and February, the first of which will be "The Rivals," by Mr. Joseph Jefferson and his excellent company, on Monday night, the 14th inst. "The Rivals" has recently been presented in New York with Mr. Jefferson as Bob Acres, and had a long and profitable run. Since then it has been produced at the Arch Street Theatre, in Philadelphia, where it has called for the highest praise from the press of that city. The company is composed of actors and actresses of acknowledged ability and excellence in their respective parts, and their tour has been attended with the success true and genuine merit demands. Tickets are now on sale at Dyer's.

A Stranger Here.

The steamer Seth Low, Capt. W. H. Crawford, having in tow the hull of the steamer Frederic D. Berry, which was recently burned at Jacksonville, Fla., arrived at Smithville from that port yesterday. The Seth Low left the tow and came up to the city yesterday and took in a supply of coal at Messrs. Fowler & Morrison's yard. She will probably leave here to-morrow. The captain reports that he has experienced very heavy weather nearly all the time since leaving Jacksonville, having been obliged by stress of weather to put into Tybee, Charleston, Georgetown and Smithville. He is bound for Wilmington, Del. The Seth Low was used in honor of the Mayor of Brooklyn, is a side wheel steamer of about 100 tons, is owned in Jacksonville, and is used as a tow boat, for which she appears well adapted, on the St. John's river.

Attempted Burglary and Chicken Stealing.

Between the hours of 11 o'clock last night and 1 o'clock this morning an attempt was made to break into the dwelling house of Mr. Joseph Sylvia, on the corner of Harnett and Seventh streets, but which was frustrated by a young daughter of Mr. Sylvia. She was awoke by some noise and after listening sometime without hearing it repeated she became sleepy again, but happening to cast her eyes towards a window in her room she saw outlined the form of a large colored man. She threw her slipper at the intruder, which frightened him away, and then alarmed her father. The same, or some other thief, was heard again towards morning, but he became alarmed at hearing people talking in the house and cleared out. During the night some thief, probably the same, broke into the chicken coop, on the premises of Mr. George Peterson, on the opposite side of the street, where he succeeded in stealing three tows.

Mother's Spinning Wheel.

Concerning One Article that was Not For Sale, and Another which is Cheap at Any Price.

"No, sir, I wouldn't sell you that for any money; that spinning-wheel was my mother's! It was one day, when she was singing like a lark and making this old wheel hum, that my father, then a young medical student, afterwards a farmer, fell in love with her—some fifty years ago."

So spoke the proprietor of a rough bit of farm land in Ulster County, N. Y., to a relic hunter, and "mother's" spinning-wheel remained among her children and grandchildren.

"My mother," writes Rev. J. W. Phelps, pastor of St. Paul's M. E. Church, Chicago, has used PARKER'S TONIC, and wishes me to say that she has found it more effective than anything she ever used for invigorating and strengthening the system debilitated by malaria. She desires me also especially to mention the certainty with which it aids digestion and overcomes exhaustion."

Ever since the first household was established "mother's" opinion has been more potent in this world than that of judge, jurist or physician. Her hand has always cooled the fever and her voice has been blessed with hope. With each day's decline, PARKER'S TONIC is becoming more deservedly popular with the women who guard alike husband and children. It eradicates malarial poison from the blood, from which there is now such wide spread suffering.

Please observe: DR. PARKER'S TONIC is not an inferior. It is a combination of general ingredients, of which none singly can produce anything like its effect. For Kidney, Stomach and Liver troubles, it is the standard and unfailing remedy. In two sizes, 10 cents and \$1. The latter the cheaper. HIXSON & Co., Chemists, New York. Jan 11-Ind&W
