IN CONGRESS YESTERDAY.

SENATE. WASHINGTON, February 14.—Mr. Belford, of Col., spoke in opposition to the admission of Manning—in the interest, he said, of political morality and political decency.

The Senate took up the bill making all public roads and highways post-roads, which was debated by Messrs. Pumb Hale, Maxey and Sawyer, and after slight amendment passed. Consideration of the bill debated yesterday relating to National bank circulation was resumed. Mr. Beck spoke at some length in favor of the bill. Mr. Morrill opposed it. Several amendments were offered and advocated in speeches of greater or less length, by Messrs. Morrill, Vest and Morgan. Mr. Morgan's amendment provides for the use of State bonds in the same manner that U. S. bonds are now used as security for national banking circulation.

Mr. Plumb was about to address the Senate upon the bill reported from the committee, when the Senate went into Executive session and when the doors were reopened adjourned.

HOUSE OF REPRESENTATIVES

Mr. McKinley, of Ohio, presented a telegram from Cleveland, O., detailing the destruction occasioned by the Ohio floods, and recommending that Congress increase to \$1,000,000 the appropriation for the relief of the sufferers. It was referred to the committee on Appropriations.

On motion of Mr. Singleton, of Miss., Senate bill for the construction of a library building, was taken from the Speaker's table and referred to the committee on the Library. The House then resumed consideration of the contested case of Chambers vs. Manning, but pending discussion the House adjourned.

STATE NEWS.

Newbern Journal: The first installment of the 200,000 tons of steel rails said to have been purchased by Col. Whitford for the A. & N. C. R. R. have been brought up and distributed along the road and are being put down.

Goldsboro Messenger: The clam trade of Morehead this season seems to be assuming vast proportions. We were informed on yesterday by a gentleman from Newbern that from December 1st to February 8th inclusive, there came up from Morehead to Newbern, to be shipped to Northern markets per steamer, 7,165 bushels of clams.

Charlotte Observer: Our citizens will soon have the benefit of at least one electric light, which is to be suspended in front of the Southern telegraph office in the Central Hotel building. Trade street front. The light has arrived and is only waiting for the big battery to be put in, when it will flash forth nightly. It is one of the Edison incandescent and is sixteen candle power.

Lenoir Topic: A man by the name of Vance Hallman, who lives near Hickory, has been spending money around that town that proved to be counterfeit, among it \$20 to conductor Newland, of the Western Railroad. He had bought cattle from Mr C. L. Coffey, on Lower Creek, some time ago, and a message was sent to him to examine if any of it was counterfeit. The Press says that Hallman was arrested and said that he got the money from Jas Bolinger, of Danville, N. C. Hallman is held until Bolinger can be caught.

Asheville Citizen: As we go to press we learn that Mr H McIsaac, of the firm of McIsaac & Jones, dropped dead at his home in this city. He was about the streets at the morning, apparently well, but was taken after dinner with congestion of the lungs and expired instantly. He leaves a wife. While the East bound freight train was at the French Broad depot on Monday night, and engaged in shifting cars, a young colored man named Will Sevier, aged about 22, was caught between the bumpers of two cars and so crushed that he died in about an hour.

Weldon News: On Saturday the passenger train from Raleigh killed a colored man by the name of Hardy Blacknall, between Macon and Vaughan's. Blacknall was walking toward the engine as it flew along on a straight track and must have seen it. The engineer, Capt Ed Clark, saw him but thought of course that he would leave the track in time. Seeing that he had no idea of doing so Capt Clark applied the air brakes, but could not stop in time and ran over the negro, breaking a leg, crushing the skull and killing him instantly. It is supposed that Blacknall was drunk as a bottle was found in his pocket which had contained whiskey but was broken. We understand that the coroner's jury returned a verdict censuring the engineer for neglect. Blacknall's wife, it is said, will sue the railroad company for \$10,000.

Wadesboro Times: Alice Tillman, a young colored woman about 18 years of age was killed by lightning yesterday morning at the residence of her grandfather, Frank Tillman, who resides near Poplar Hill, and about six miles from this town. The electric fluid came down the chimney killing Alice instantly and severely stunned Bettie and Patsy Tillman. The fluid entered Alice's body through her fore arm, it is supposed, as the skin seems to be broken on no other portion of her body. Her clothing was set on fire but was extinguished by her mother who was in the house. Bettie Tillman was thrown from her chair into the fire place and her feet were severely burned while Patsy seems to have been more fortunate receiving only a slight shock. It is reported that Bettie is in a very critical condition, and is supposed to be dying.

Chatham Record: On last Friday Mr. Thomas Beal, of Hickory Mountain township, eat a hearty dinner in his usual good health and in a short time thereafter was seized with a hemorrhage of the lungs and died before sundown. He was one of our most respected countrymen, and was about

Mr. Caleb Dixon, a highly respected citizen of Albright township, met with a most horrible accident that caused his death in three or four hours. He had recently put up a saw-mill at his flour mill on Tick creek near Ore Hill, and on last Thursday was there to see about starting it. Late in the afternoon, everything being ready, he pulled the rope that let in the water and in doing so slipped and fell right in front of the saw which cut him almost in two. Dr. Kirkman was at once sent for, and rendered all the aid that was possible, but no human help could avail. Mr. Dixon remained perfectly conscious to the last, expressed his willingness to die, and gave several messages for his family.

Morganton Mountaineer: The first train of cars crossed the Catawba River bridge on the Chester and Lenoir Railroad last Wednesday. A large crowd of people gathered at the bridge to witness the first arrival of the iron horse in Caldwell county. Track laying will now be pushed on rapidly towards Lenoir. Last Thursday morning a sad and probably fatal accident occurred to a laborer at Mr Alden's garnet mine in the South Mountains, a few miles from Morganton. A force of hands was employed in taking out "mass garnet," a coarse variety of garnet which is ground up and used as a substitute for emery. The mine is on the face of a mountain, and the miners had worked into the mountain side for some distance. The garnet boulders are imbedded in loose earth, and on Thursday morning the miners were warned of the approaching cave by falling earth and were leaving the shaft when a huge boulder, weighing more than a ton, fell from above striking William Russ, one of the miners, and pinning him to the earth. In this horrible situation he had to remain for half an hour, until his companions could pick the rock to pieces and released him. One of his legs was broken in three places, his face was cut and bruised, and it is feared that he has sustained internal injuries which of themselves would prove fatal. The wounded man is still alive, but there is very little hope of his recovery.

Vital Questions!

Ask the most eminent physician of any school, what is the best thing in the world for quieting and allaying all irritation of the nerves and curing all forms of nervous complaints, giving natural, childlike, refreshing sleep always? And they will tell you unhesitatingly "Some form of HOP!"

Ask any or all of the most eminent physicians: "What is the best and only remedy that can be relied on to cure all diseases of the kidneys and urinary organs; such as Bright's disease, diabetes, retention or inability to retain urine, and all the diseases and ailments peculiar to Women?"

"And they will tell you explicitly and emphatically "Buchu." Ask the same physicians: "What is the most reliable and surest cure for all liver diseases or dyspepsia; constipation, indigestion, biliousness, malarial fever, ague, &c.," and they will tell you: "Mandrake! or Dandelion!"

Hence, when these remedies are combined with others equally valuable, and compounded into Hop Bitters such a wonderful and mysterious curative power is developed which is so varied in its operations that no disease or ill health can possibly exist or resist its power, and yet it is Harmless for the most frail woman, weakest invalid or smallest child to use.

For years, and given up by physicians of Bright's and other kidney diseases, liver complaints, severe coughs called consumption, have been cured. Women gone nearly crazy! From agony of neuralgia, nervousness, wakefulness and various diseases peculiar to women. People drawn out of shape from excruciating pangs of Rheumatism. Inflammatory and chronic, or suffering from scrofula! Erysipelas! Salt rheum, blood poisoning, dyspepsia, indigestion, and in fact almost all diseases frail Nature is heir to Have been cured by Hop Bitters, proof of which can be found in every neighborhood in the known world.
