50 CENTS A BOTTLE.

Sold by all Druggists and Dealers.

THE CHAS. A. TAYLOR & CO. Baltimore, Md., U.S.A.

Well known specific for Lipothymic Fits, Neuralgia, Migraine and Falling Sicknesses. Nervous weakness, it instantly relieves and cures. Cleanses blood and opens sluggish circulation. Neutralizes poisons of disease and saves sickness. Cures...

A SKEPTIC SAID

Dr. J. M. G. Pheeton's Remedies.

Dr. J. M. G. Pheeton is a U.S. Ex-Surgeon, residing now at Bloomington, Ind. He writes to say: "I recommend *Samaritan Nerve* because it cures epilepsy. Physicians, generally, are its friends."

SAMARITAN NERVE

For the cure of Epilepsy, Hysteria, and other nervous diseases. It drives out the poison, and restores the system to its normal condition.

THE GREAT NERVE CONQUEROR

Restores the brain of morbid fancies. Promotes circulation by routing it. Restores life-giving properties to the blood. Guaranteed to cure all nervous disorders.

NEVER FAILS

Diseases of the blood own it a conqueror. Endorsed in writing by over fifty thousand leading chemists, druggists and physicians in U.S. and Europe.

Doctors and Doctrines.

Whatever Cruel Creeds May Say, Truth is Always Orthodox.

Doctors and Doctrines.

Whatever Cruel Creeds May Say, Truth is Always Orthodox.

Dr. S. A. Richardson's Specific.

For the cure of Epilepsy, Hysteria, and other nervous diseases.

Dr. S. A. Richardson's Specific.

For the cure of Epilepsy, Hysteria, and other nervous diseases.

Dr. S. A. Richardson's Specific.

For the cure of Epilepsy, Hysteria, and other nervous diseases.

Weak Nervous Men

Whose debility, exhausted powers, premature decay, and other nervous diseases, are caused by errors of youth, excess, or other causes, and who desire a permanent restoration to robust health.

The Excursion and Picnic

Season is over and the theatrical and ball season has opened again.

The Daily Review.

A DARWINIAN'S VALENTINE.

When you and I were monkeys, A million years ago, We lived among the nutmeg trees, On the coast of Borneo.

So many other things we did, My recollection fails, But where we couldn't use our paws, We hung on with our tails.

But since we've shuffled off these tails, Have hands instead of paws, We must, like human bipeds, live Obedient to the laws.

Ape, monkey and chimpanzee! Love led us from your line, And bids us choose each other For a life-long valentine. —Life.

The Death of the Dude.

Who killed the Dude? "We who with pen," said the newspaper editor, "killed the Dude." "Who?" "Who?" "I saw him die," said the "Dude." "How?" "I saw him die," said the newspaper editor. "I saw him die," said the "Dude." "How?" "I saw him die," said the newspaper editor.

U. S. Surgeon Recommends.

ADDRESS TO THE AFFLICTED

HEALTH IS WEALTH; you cannot be truly unhappy if in health; it is our Capital in life.

A Remarkable Horse.

The Walton, Ga. News says: "When General Sherman passed through this section of country in 1864 his men took from Mr. Robt. Crawley every horse and mule he had, and left in his lot their place, a small, skinned up, worn out mare, as she was altogether worthless to them. Uncle Bob, as Mr. Crawley was usually called, finding this helpless and apparently useless animal in his lot, and having none other, began to nurse her. He daily greased her sores, for several weeks, until they healed. As she was his only chance, he then began to use her. He found her willing to do all she could, and with extra pains she became a first-rate animal, and afterwards brought him eight fine colts, all of which made splendid horses. He named the old mare Fanny and kept her until his death. Just before his death, as he realized that his time was short in this world, he gave the faithful Fanny to his daughter Tempie, afterwards Mrs. Baker and now Mrs. George W. Knox, to be well cared for. She served her mistress well until the 22d inst., the date of her death. She was thought to be eight years old when Sherman's army left her, and she was consequently at least 28 at her death. She leaves a young mare colt 2 1/2 years old, bearing the same color and name as old Fanny. The old mare was almost human, as she seemed to understand everything said in her presence. For years she was required to carry her mistress to church and her master a fishing, and when the latter would get on a pond in a boat the faithful old animal would closely watch him and frequently neigh to warn him apparently of danger. She always seemed to be elated when her master succeeded in catching a good string of fish for her mistress as she would never fail to express it by being particularly bright and anxious to go home and bring her head to Mrs. Knox."

Among the Follies of the Age

which the introduction of SOZODONT long since exploded, was the use of abrasive and corrosive tooth preparations, which either contained minerals which scratched their enamel, or acids which dissolved it. SOZODONT, a health promoting substitute for these empirical articles, is a botanic, skillfully prepared, highly sanctioned preparation, which not only beautifies, cleanses and invigorates saffron colored and defective teeth, but divests the breath of an objectionable odor and restores to it that of health.

Mary Anderson's Bank Roll.

Mary Anderson, I am told by one who knows, is worth a cool \$350,000. The bulk of it is invested in United States bonds and mortgages on valuable real estate. She owns some property in Brooklyn, a good deal of land in Long Branch, and some more real estate here in New York. She is also the possessor of a pretty pile of New York Central stock and some little Lake Shore. At one time she owned a block of Louisville and Nashville, but she was out of it when those shares rolled down hill. Mary has \$30,000 in cash to her credit in a bank in this city. That is the extent of her ready money. Her only great extravagance, they tell me, takes the direction of large expenditures upon her younger sister, whose education she is taking care of in a most munificent way. It is pleasing to know that Mary Anderson has assumed the full control of her own affairs at last. They used to be absolutely in the hands of Dr. Griffin, who "allowed" her a little money now and then with a stingy hand. Now she dictates to him supremely. He receives a liberal salary from her for managing the business of the concern, and he has to account to her every week as rigidly as though she didn't descend from an old boot. —A Y World.

Advertisement Literature.

Not long ago a man stood absorbed in thought at the counter of a newspaper office in this city. He was writing something on a scrap of paper, and as a friend passed him he caught at him as a drowning man catches at a straw. "Give me a word," he exclaimed. "Certainly," said his friend; "what kind of a word?" "Oh, anything you can think of. It doesn't matter what." "How would collaborate do?" "Couldn't be better. Thanks ever so much," and he inserted the word and handed in the advertisement. The next morning the friend read: "Furniture sold on collaborated time to parties desirous of going to collaborated housekeeping."

A Detroit paper gravely announces in its advertising columns: "To rent—An elegantly furnished room to a gentleman already heated."

"Among the artistic advertising notices are the following: "Two young women want washing." "Wood and coal split." "Teeth extracted with great pains." A cheerful advertisement is this: "Try our coffins. You will never use any other." —Detroit Free Press.
