THE DAILY REVIEW.

VOI. VIII. WILMINGTON, N. C., FRIDAY, MARCH 14, 1884. NO. 63

The British have again defeated the Egyptian fanatics, and this time it is probable that peace will be the result.

A terrible disaster is reported from a coal mine at Pocahontas, Tazwell county, Va. There was an explosion in the mine, and it is almost certain that all of the men employed therein, about 150 in number, have lost their lives.

Col. Cash, who was arrested upon the charge of complicity in the murder of town marshal Richards, at Cheraw, S. C., by Mr. Boggan Cash, has been released on a \$2,500 bail bond. So it seems that hard cash has again become a circulating medium in South Carolina.

Baseball making is one of those quiet industries which attract little or no attention from the busy world, but prove unusually remunerative to those engaged in them. Last year over 5,000,000 balls were manufactured in this country; and as the makers now have a larger number of orders than ever before it is estimated that 7,000,000 baseballs will be knocked into the great nowhere the coming season.

The Russian army consists of: Generals, staff and superior officers, 28,074, and men, 837,145; in all, 864,219. The following is the distribution of the main force among the great military districts: St. Petersburg, 82,470 men; Finland, 13,415; Wilna, 104,366; Warsaw, 110,287; Kiev, 56,784; Odessa, 73,433; Kharkoff, 63,147; Moscow, 84,535; Kazan, 39,826; Caucasus, 90,854; Eastern Siberia, 17,058, and Turkestan, 26,679.

None know St. Jacobs Oil but to like it; none name it, but to praise.

Burglary.

The dwelling house of Mr. J. D. T. Cox, corner of Front and Wright sts., was entered last night by a burglar, who succeeded in stealing about \$20 and escaping without detection. Mrs. Cox was awakened by the noise and saw the burglar leaving the house, but was so frightened that she dared not give the alarm until was too late.

An Ancient Volume.

Mrs. E. Warren, of this city, has in her possession a very interesting ancient book, which she has showed to us. It is called "The Mariner's Compass. Rectified." It was printed in London in 1743, and is therefore 141 years old. It has an inscription on the fly leaf of "Thomas Gamble, Deptford, May 20, 1753" and is in an excellent state of preservation.

Madison Square.

The box sheet is now open for the sale of reserved seats to the performance next Monday night of "Young Mrs. Winthrop," by the Madison Square Theatre Co. "Young Mrs. Winthrop" deals with a phase of social life different from either "Hazel Kirke" or "Esmeralda;" yet, the moral which it points is no less effective than the lessons taught by these two great plays.

St. Patrick's Day.

There will be no regular celebration on Monday next, which is St. Patrick's day, but the Hibernian Association will meet at Hibernia Hall in the morning and will march thence to St. Thomas' Catholic Church, where a sermon will be preached by the pastor. At the conclusion of the services at the church the Association will return to their Hall, where they will elect the customary officers to serve for the ensuing year.

From Sampson.

Some of the finest beef cattle we have seen in many days were driven into the city this morning by Mr. Everett Peterson, of Sampson county. They were steers and were raised and fattened by Mr. D. R. Watson, of the same county, and were purchased by Mr. W. M. Hays, Jr., of Front Street Market, who will have them on sale in a few days, notice of which will be made through our columns. The two heaves weighed in the aggregate 3,004 pounds.

Robbery.

Mr. G. M. Robbins, who keeps a general store at Meares' Bluff, was robbed a few nights since, but the loss was not large. Mr. Robbins' clerk sleeps in the second story of the building, immediately over the store, which the thief, who must have been familiar with the situation, entered and took the key of the store from the clerk's pocket. He then went down and opened the store and rummaged around for money, which seemed to be his only object, and after taking all he could find, which was not more than a dollar, he went out in the same way he went in, leaving the key in the door. There is no clue as yet to the thief.

A Freak of Nature.

We saw this morning a strange freak of nature. It was in the shape of a chicken with four legs which was hatched yesterday on the premises of Mrs. L. A. Jewett, on Fourth street, but which was unfortunately killed in the nest. The four legs are perfect and are well developed. The two extra ones, or front legs, grow out near the breast bone, and just opposite the wings. If it had lived to leave the nest it might have thrived and become as great a curiosity as the headless rooster.

Warning to Cigarette Smokers

In regard to the results of cigarette smoking, physicians say it affects seriously the functions of the stomach, especially in the young. It has a tendency to increase the action of the heart, causes palpitation. It is a fruitful source of indigestion. It has a decided tendency to produced catarrh in the head. This, it is said, arises from the fact that a cigarette, being much shorter than a cigar, more of the smoke finds its way into the mouth and nasal organs, a very much larger percentage of smoke being inhaled by the smoker from a cigarette than from a cigar.—Cigarette smoking, it is averred, has also a decided tendency to produce asthma, and renders the system more liable to the attacks of pneumonia and bronchitis. In its effects upon the nervous system, cigarette smoking is said to be in the highest degree pernicious, both directly and indirectly. It destroys a healthy appetite for solid food, and, by the constant expectoration it produces, leads to a morbid craving for drink. Injury or destruction of the nerves of the eyes, it is alleged, has been, in hundreds of instances, produced by cigarette smoking.

A citizen of the Quaker City, Mr. F. Freed, living at 122 Vine St., recently spoke as follows: "Being afflicted with a distressing cough, Dr. Bull's Cough Syrup was recommended to me for relief. I am happy to say that a few doses not only gave me instant relief, but effected a complete cure."
