The growth of the cotton manufac- Brunswick Circuit at Maceturing interest in the South is wonderful, and when we take into consideration Whiteville Circuit at Fair the fact that the same industry at the North is depressed and with a learfully Cloomy ou look for the future, it affords good reason for satisfaction and pride at the progress we have made, and establishes, what we have always main tained, that the proper place to manufacture cotton goods is right where the Duplin Circuit June 21-22 staple grows. . While factories have been suspended at the North, or worked on short time, and the wages of the operatives have been reduced to starvation wages, the same industry has prospered here to an astonishing degree In our own State the increase of capital in the business since 1882 has been immense. One the first of June of that year, there were in this State 1,960 looms and 102,767 spindles, engaged in the manufacture of cotton goods. At the commencement of the present year there were 3,543 looms and

213,362 spindles engaged in the same business; a gain of 1,583 looms and 110.595 spindles. *During been put in operation, and there are many more now in course of construction, some of which are nearly comple:ed. This astonishing increase, which is nearly as large in many of the other Southern States, is having its legitimate effect upon the same industofore held entire control. In speaking of this matter, a dispatch from New York to the Louisville Courier Journal

To-day brings the first emphatic and disastrous proof that the establishment of cotton mills in the South, at the home you can pay promptly. of the raw material, will drive the cotton mills of New England into bankruptcy. The growing losses of the Tickets only \$5. Shares in pro-Eastern manufacturers culminated yes-terday when the operatives at Fall river, 30,000 strong, were cal'ed to decide be tween discharge or ruinous reductions in wages. Under the proposed reduction it was shown that the men would be unable to make more than \$8 per

The meeting of the operatives allud ed to above was largely attended; the situation was lairly discussed and many important facts were collected one of which was that since 1873 the wages of operatives in the m.lls of that city had been reduced 41 per cent, and in only one instance had a reduction been re-

In discussing this question a few days since, a cotton dealer from Georgia said to a correspondent of the Courier-Jour-

"I am not at all surprised at the result, and my only wonder is that we have not beard of it sooner. It is a simple economic problem, which anyone can understand. So long as New ence to that section how much they had to pay in way of freight to got the England had a monopoly of cotton had to pay in way of freight to get the raw material in their possession. How considerable an item this was did not appear until the cotton mill. were started on the ground where the cotton grows, and with the same facilities for perfect work. Only one result was inevitable. By degrees the New England men have been driven from point to point by this competition, until now in the Academy of Music, at New Orleans, they are practically out of the field. Tuesday, April 8, 1881-167th Monthly Draw Until the cotton prints of the South were made we stood no show with Manchester, but now we are driving 100,000 Tickets at Five Dol-English goods out of the Chinese, Japanescand Australian ports. It looks to me as if this was the end of the New England cotton goods."

Lost Faith in Physicians.

Why is it that so many persons use cines, as they are commonly called? Is it because people lose faith in their physicians? Well, this is, no doubt, frequently the case. There are in numberable instances where cures have numberable instances where cures have been effected by ROSADALIS, the Great Southern Remedy for all diseases of the blood when they had been given over by their physicians. It is one of the best remedies ever offered to the public, and sa it is prepared with the greatest care, as a specific for certain diseases, it is no wender that it should be more effectual than hastily written and carelessly prepared prescriptions made by incompetent physicians. Take ROSADALIS for all disorders arising from impure blood! It is endorsed by leading professional men as well as by eminent physicians and others. Try it.

Durham is historic. It was neutral ground during the armistice between Sherman and Johnson. Soldiers of both armies filled their pouches with the tobacco stored there, and, after the surrender, marched homeward. Soon orders came from East, West, North and South, for "more of that elegant tobacco." Then, ten men ran an unknown factory. Now it employs 800 men, uses the pink and pick of the Golden Belt, and the Durham Bull is the trade-mark of this the best tobacco in the world. Blackwell's gull Durham Smoking Tobacco has the largest sale of any smoking tobacco in the world. Why? Simply because it is the best. All dealers have it. Trade-mark of the Bull.
