

THE DAILY REVIEW.

VOL. VIII.

WILMINGTON, N. C., FRIDAY, MARCH 21, 1884.

NO. 69

THIS PAPER published every evening, Sundays excepted by JOSH T. JAMES, EDITOR AND PROPRIETOR. SUBSCRIPTIONS POSTAGE PAID: One year \$4.00. Six months, \$2.00. Three months, \$1.00. One month, 35 cents. The paper will be delivered by carriers free of charge, in any part of the city, at the above rates, or 10 cents per week. Advertisements will report any and all failures to receive their paper regularly.

The Daily Review has the largest circulation of any newspaper published in the city of Wilmington.

R. G. Ingersoll is said to have lost something like \$100,000 in New Mexican mines.

The independent republican convention of Rhode Island has nominated George H. Corliss, the famous engine maker, for governor.

London Truth says that sherry is going out of favor, and that the only wines really largely consumed in England are claret and champagne.

The only witness against a girl charged with stealing in Oswego, N. Y., recently was a boy 4 years old. He took the oath and told a very connected story.

According to recent statistics the number of telephone subscribers in the world was 72,702, of which the United States had 41,569, and all other countries 31,133.

Mr. Tabor, the millionaire ex-Senator, is in luck again. He has struck another rich vein in one of his mines. It is said that he wants to be Governor of Colorado.

Gov. Hoadly, of Ohio, has designated Friday, April 19, as Arbor Day in that State, and recommends that the day be devoted by the people to setting out forest trees.

Nearly a hundred thousand dozens of eggs have been imported into New York during the past winter from Germany, and have afforded a good profit to the dealers.

Plainfield, N. J., has been struck by a temperance cyclone, and twenty-two hundred persons have signed the pledge to abstain from tasting or handling liquor for the future.

A terrible storm raged in New Orleans Monday night and one of the levees was broken and only by the energetic efforts of 1,300 men summoned by a general alarm of fire a serious crevasse was prevented.

The Northern Accident Insurance Company, of Scotland, declines to take further risks in football and bicycling. They claim that the danger is so great that the ordinary premium will not warrant them in assuming the risk of accidents.

Henry Villard, the former president of the Northern Pacific, has lately made another fortune out of a purchase of real estate in Oregon. He has sold one-seventh of a tract of land in Portland for \$260,000, the first cost of the entire tract having been \$45,000.

A family, named Shulthies, near Loyal Hanns, Pa., have become dangerously ill from eating raw pork during the recent floods. Trichinosis set in, the mother died, the father is hourly expected to die and two sons are also probably doomed to death.

The cable passenger car road in Chicago runs 180 cars, where only 60 cars were run formerly by horse power. The horse cars carried 400,000 passengers in a year, but the cable cars convey but 150,000, the difference representing increased comfort and less waiting.

A Paris letter says: "Mr. Judah P. Benjamin may be seen every afternoon at the rooms of the Paris Chess Club, which overlook the gardens of the Palais Royal. He watches the games in progress with the deepest interest, but does not play himself, as his physicians will not allow it. Mr. Benjamin appears very broken in health."

The New York papers state that a trustee has been declared in Dr. Newaman's church to last until the end of this month. His pastoral relations cease when according to contract, and since the council has declared that he is not the permanent pastor, not having been installed, his opponents are willing to wait until the expiration of the contract before taking further action.

A meeting of over one hundred New York butchers was held Saturday and an association was formed for protection against what they style "the ruinous competition of Western dressed beef." It was stated that this beef was coming into New York at the rate of 2,000 carcasses a week, threatening to drive the wholesale butchers from the city, to ruin the business of the leather in the "swamp," to curtail the dividends of railroads and stock-yards, and to drive to the slaughter-yards of the West the oleomargarine and butter-fine manufacturers.

Mr. Edison, the electrician, is resting among the orange groves of Florida.

The Democrats of Rhode Island met in Convention on Wednesday and nominated Thos. W. Segar for Governor and Amasa Sprague for Lieutenant Governor. It is understood that the delegates to the National Convention are in favor of the "old ticket," Tilden and Hendricks.

The State Republican Executive Committee met in Raleigh on Wednesday and agreed to call the remnants of the party together in convention on May 1st. At the same time a few hungry deserters from the Democratic party met also and issued a similar call for the assembling together of the malcontents on the same date. The News and Observer says:

Chatting with the Republicans we discovered that the drift of sentiment among many of the leaders present yesterday was favorable to the nomination of a Liberal for Governor, and this we take it points to Congressman York. The matter, however, will be definitely settled only when the two conventions meet. These, we suppose, will amalgamate. We also ascertained that the Republicans from this State would probably support Arthur for President it at the time when the National Convention is held it should seem that he had a reasonable hope of carrying New York and Ohio in the fall. Blaine and Logan, however, both have strong friends.

This means, we suppose, that Judge Russell, the fire-tired and true-blue Republican, one of the earliest pioneers of the party in this State, and its brains in the East, is to be slaughtered in order that the new light, Dr. Tyre York, may become the nominee of the Convention. But won't he be more tired than ever before he gets to Raleigh!

When Howard wrote: "I find a pity hangs upon his breast," the fellow had evidently a cold and had not yet been informed that Dr. Bull's Cough Syrup was the only safe remedy.

LOCAL NEWS.

INDEX TO NEW ADVERTISEMENTS.
HEINSBERGER—Easter Presents
C W YATES—Cheap Standard Works
MISS E KARRER—Spring Hats and Bonnets
MUNDS BROS. & DEROSSET—Soda Water

The receipts of cotton at this port to-day foot up 86 bales.

The Cornet Concert Club held a meeting for practice last night.

Brunswick Superior Court convenes at Smithville next Monday, the 24th inst.

Another beautiful morning and our streets were made lively with pedestrians.

Radishes are being brought into market quite plentifully. Other Spring vegetables will soon follow.

Dock street, between Water and Front, is a fine thoroughfare since the pavers have completed their work upon it.

We were glad to see Dr. S. S. Satchwell upon our streets to-day. He has been sick for several days, but has recovered.

There was a spirit of dullness about the City Hall this morning, with no offenders to try and no tramps to send on their way.

Miss E. Karrer will leave here on Monday next for the Northern markets for the purchase of new Spring and Summer goods.

Silver Plated Spoons, Forks and Knives of best quality, and at manufacturer's prices, can be found at Jacob's Hardware Depot.

The pavers this morning resumed work again on North Water street, and have made good progress during the day. They are experience, workmen and have no time for idle talk with anyone.

Mr. Berry Godwin, of Lumberton, who has been on a visit to Florida, for several weeks past, on business connected with some land interests he has there, was in the city to-day on his return home.

The afternoon concerts in front of the City Hall are largely attended and the queen of the forceps is pulling out teeth in a way that bids fair to make us a toothless people, and is raking in the dollars so rapidly that the pockets bid fair to be as empty as the heads—we mean the mouths—of those who trust themselves to her manipulations.

Fire at Smithville.

We are sorry to learn that the dwelling of Mr. A. Bowers, situated in the eastern portion of Smithville caught fire at about 12 o'clock last night and, together with its contents, was almost entirely consumed. We could gather but few particulars but understand that the loss is probably fully covered by insurance.

Legal Holidays.

There are six days in each year recognized by law as holidays, the list being as follows: New Year's Day, January 1; Washington's Birthday, February 22; Decoration Day, May 30; Independence Day, July 4; Thanksgiving Day, the fourth Thursday in November. Christmas Day, December 25th.

Left Us.

The little steam-yacht *Minnehaha*, which has been upon the waters of the Cape Fear for the last year, has been sold to parties in New York, and left for Smithville this afternoon, whence she will proceed on her passage to that city. She is under the command of Capt. J. B. Pardee, of Catskill, N. Y., who has become one of the owners, and upon her arrival in New York will probably be put on the Hudson river during the present season.

Tight Trousers.

Tight trousers will not be fashionable this Spring. In fact comparatively wide trousers will be the extreme style. Those most worn will be neither very tight nor very wide. Frock coats will have a good run and four and five button cutaway coats will be worn. The cutaway will not be as pronounced as it has been, and will only show one waistcoat button. All the coats, even to the sacks, are curved into the figure, and will fit snugly. Top coats also will be but to show off the figure. For suits checks and stripes seem to be favored, and diagonals will be put into top coats.

The Eclipse on the 27th.

Astronomers tell us that on the 27th of this month, at 9 o'clock in the evening Neptune on his way West will encounter Venus on her way East. When these reach the same point of right ascension they will be in conjunction. There will be an occultation of one planet by the other, that is, there will be an eclipse. It is a very rare occurrence and is said to be a very beautiful phenomenon; but no one can be sure about that, because there is no one alive who ever saw it. The last recorded was in 1737, and the last before that was in 1591. It will be something you never saw before and may never see again.

The Star Service.

The following is the text of the bill introduced into the House by Hon. W. J. Green, relative to an improvement in the star-route mail service:

A bill to secure greater efficiency in the star-route mail service by requiring contractors to be residents of the State in which the route is located.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled That no contract for so-called star-route service shall be awarded to any party whose actual and bona fide residence is not in the State in which one of the terminal points of such route is situated.

SEC. 2. That such non-residence, if established, shall work forfeiture of any contract of the class named when so obtained.

Cautionary.

There are a good many fine oranges and bananas now on sale at our confectionery stores and they find ready purchasers as they are very palatable and healthy fruits. Care should be taken, however, in eating them in the streets not to allow the skins to fall and remain upon the sidewalk where passers-by would be liable to be thrown down by stepping upon the slippery things. A man may be a good Christian ordinarily, but let a piece of orange or banana peel cause him to unceremoniously seek a soft spot on the sidewalk and his moral character may not be judged by his language. And the worst of it would be that he would be very apt to think a great deal more than he would say.

Mr. Julian S. Carr, of Durham, in an interview with the editor of the *Tobacco Plant* strongly advocates the nomination of Major Chas. M. Stedman for Lt. Governor. He says that he will not accept the nomination, but shall do all he can to secure the nomination of Maj. C. M. Stedman who he says he has long known. He speaks of Major Stedman in the most complimentary terms. In another column on the fourth page of this issue we print Mr. Carr's interview.

New Uniforms.

At a meeting of the Howard Relief Fire Engine Co., held on Wednesday night, it was decided to secure new uniforms, and the following style was adopted: Cap of blue cloth, navy style, with a shield in front bearing in gold letters the legend, "H. R. F. E. Co., 1." The letters being in a semi-circle on the outside of the shield, and the figure "1" in the centre. A fine gold cord encircles the band of the cap. Belt of fancy white leather with red trimmings, the back bearing the legend "A. Adrian," and the front "No. 1." Shirt of gray color, trimmed with blue, with the monogram "H. R." in the middle of the breast, the buttons of gilt finished department pattern. The pantaloons are to be made here. The uniforms are expected to be completed and ready for use about the 1st of April.

The Fire this Morning.

The small shop on the corner of Chestnut and Ninth streets, occupied as a grocery by Mr. Charles M. Galloway was discovered to be on fire at about 4.15 o'clock this morning. The alarm was promptly given, but the flames had gained such headway that the building with its entire contents was destroyed before the fire department could be of any service. The fire was evidently the work of an incendiary. From this building the fire spread to the two story frame dwelling, occupied by Mr. Josiah H. Jones, which was only about five feet distant, and the flames worked so rapidly that nearly the entire upper part of the house was destroyed and the lower portion seriously damaged. Mr. Jones succeeded in saving nearly all of his furniture, clothing &c., for which he desires to express his gratitude to his neighbors without regard to sex or race, who worked faithfully and carefully in rescuing the household articles from the flames. There was insurance on the buildings, which were the property of the estate of the late Mr. N. R. Fowler, as follows: Dwelling house \$950, shop \$50; both in the Niagara Ins. Co., of New York, represented in this city by Messrs. John W. Gordon & Smith.

There was no insurance on Mr. Galloway's stock, valued at about \$300, which was a total loss. Mr. Jones had insurance on his furniture and household effects, mostly damaged by water, to the amount of \$300 in the Virginia Home, represented here by Messrs. Atkinson & Manning.

No one knows how the fire originated, but Mr. Galloway thinks that the store must have first been broken into and robbed and afterwards set on fire to conceal traces of the robbery.

We sympathize very sincerely with Mr. Galloway in his loss. All of his ready money was embarked in this venture, and he had just begun to build up a nice little trade. He has a wife and seven children to provide for.

If you need a real good first class cooking stove, don't fail to see the Excelsior Penn., Zeb. Vance and New Emerald, besides others. They are to be found at factory prices at JACOBI'S, who is the manufacturers' agent.

NEW ADVERTISEMENTS.

Warm Weather

HAS CREATED A DEMAND FOR SODA WATER. Our Magnificent Apparatus is ready to supply the public with Vichy, Deep Beck, Tate Epsom and Soda.

For the present we shall have the following Syrups, others to be added: Lemon, Nectar, Vanilla, Ginger, Sarsapilla, Sherbet, Orange, Raspberry, Strawberry, Pineapple, (last from the fruit themselves) and coffee, which combined with pure fresh Cream forms a delicious beverage.

We are determined to make a reputation for Soda Water, to keep it, and consequently to sell it.
