ULCEROUS "At the age of two years one of "Hutto, Tex., Sept. 28, 1882. SORES my children was terribly afflicted with ulcerous running sores on its face and neck. At the same time its eyes were swellen, much inflamed, and very sore.

SORE EYES Physicians told us that a powerful alterative medicine must be employed. They united in recommending AVER'S SARSAPARILLA. A few doses produced a perceptible improvement, which, by an adherence to your directions, was continued to a complete and permanent cure. No evidence has since appeared of the existence of any scrofulous tendencies; and no treatment of any disorder was ever attended by more prompt or effectual results.

The Daily Review.

SENATE. WASHINGTON, March 24.-The Sen-

for that purpose. The Chair- laid before the Senate a week." communication from the Attorney cover claims amounting to \$6.500,000. have been referred was passed only last

Mr Vance presented the views of the minority of the committee on Foreign Relation relative to the action and report of the committee on the subject of the exclusion of American meats from

foreign countries. The bill to regulate the salaries of U

S District Judges was taken up.

Mr Coke offered an amendment
making it uniawful for any relative of a Circuit or District Judge of the United S ates to hold office in the courts with which such Judges are connected and making it a misdemeanor for a Judge to knowingly appoint any of his relatives to office in his court.

The bill was discussed until 2 o'clock, without a vote being reached, when Mr Blair's educational bill came up.

In the course of the debate which followed, Mr. Vance spoke in support of the bill. The Southern States had lost so much, and had been so bled by Republican carpet-bag governments, that they had not been able to do as they other wise could have done for the education of these people. Yet those States had been held by public opinion of the North to as high a standard of advancement in educational and other respects as was expected of ace, was laid. States-or people whose civilization and society had not been disturbed for one hundred years. Now, a bill was brought in to aid those States in educating their colored people, and the singular spec tacle was presented of opposition by a gentleman who had been moving all the powers of Congress in order that the | biggest stock of Window Glass and sick calves of Kansas might be doctor lowest prices for good articles be sure ed. But Mr. Vance did not expect the to go to Jacobi's Hardware Depot. bill to pass. He had long believed, and he now saw the confirmation of his belief, that Senators on the other side of the Chamber were louder in professions that in acts in behalf of the colored people. He had no doubt that the Senator from Ohio (Mr. Sherman) attached more value to the negro as an ignorant person-as a fruitful source of investigation-than be would attach to an intelligent man and an intelligent voter. No doubt he answered the purposes of that Senator better in ignorance than with intelligence.

Mr. Ingalis congratulated Mr. Vance on the very adroit appeal he had addressed to Northern sentiment on the subject. The census tables showed that the white illiteracy of North Carolina was 32 per cent, hence the gratuity would be very largely to the whites as ell as the blacks.

Mr. Vance denied that money was needed by the white people for themselves. They would be able to take care of their own education if they did not have so large a colored population. Mr. Ingalls said that in the haleyon

days of the old regime, there were over 80 000 whites in North Carolina who could not read or write, and that was a larger proportion of illiteracy than even the present.

Mr. Vance said that North Carolina. a poor State, had paid into the treasury twelve times as much money as Kansas. a rich one; North Carolina having paid in, in 1880. \$2.372,226. while Kansas paid only \$239,762.

Silver Plated Spoons, Forks and Knives of best quality, and at manufacturer's prices, can be found at JA-COBI'S Hardware Depot.

ROME, March 23-While discussing the report of the Pope's intended departure from Rome with your corres pondent to-day, Cardinal Howard ridiculed the notion of the Pope having any bona fide circulation, of any newspaper thought of leaving the Vatican.
