Ketered at the Postoffice at Wilmington, N. C.,

In the new Paris school of medicine it is proposed to keep a registry of all legally recogniz d doctors in the world. The list would include about 65,000 names in the United States, 35 000 in Great Britain, 32,000 in Germany and Austria, 26,000 in France, 10,000 in Italy and 5,000 in Spain.

Mme. Patti tossed her head and her eyes sparkled as she talked to an inter viewer in New York thus: "Marquis an English protectorate, against which de Caux is not my husband. We were the Egyptians will struggle, as the divorced, consequently there could be people of Ireland are struggling, until no reconciliation. There is not the they obtain what every people may slightest lots of truth in the rumor justly claim-the right of self-govern-The idea that he and I were to be reunited. A year after the Marquis and I were divorced I married Signor Nicolini. Does the public expect me to have two husbands? Am I to desert the Signor and go back to the man I left years ago and who no longer bears any legal relation to me? Such nousense!"

Are you sure that your portemonaie is made of alligator's skin? Calf and other skins are made to resemble alligator skins by a very ingenious process. A photograph having been made of a genuine alligator hide, a copy of it is produced in bichromated gelatine, which gives in relief all the curious markings, and from this latter relief representation a metal die is readily executed. This die is pressed heavily on the cheap leather, with the result of making it look like the leather manufactured from the skin of the alligator as to deceive experts unless it is handled and examined. Any spitable stain can be imparted to the fictitious product.

The New York Evening Post recently devoted more than a column to a savis nomnitated it will bolt the ticket and support the Democratic candidate. It divides its indictment of him into six parts. Two of the counts charge him with prostituting the speakership to forward Little Rock and Fort Smith Railroad schemes; the third with suspicious Northern Pacific Railroad transaction; the fourth with breaking his word regarding the Mulligan letters; the fifth with sensational, unsound and unsafe administration of the Secretary of State, and the Sixth with packing the convention and organizing literary

A New York letter says: 'The publie are manifesting a larger interest than it was supposed they would in the movement that has been set on loot by Gen. Gordon, of Georgia, and others to provide a home for disabled ex-Confederate soldiers. The manly letter of Gen. Grant expressing his 'hearty ap proval of the object' and 'regretting the morning. that he cannot be present at a pub i: meeting to aid subscriptions' at Cooper Institute on Wednesday, evening, has won over to its support many who would otherwise have held back, and there is reason to suppose that the gentlemen having the undertaking in charge will in a short time obtain all the money that is required. It is not less to the credit of the Grand Army of the Republic that they have resolved to hire the Metropolitan Opera House on the evening of the 30th instant for an entertainment in aid of the fund. Nearly all the city clergy have a good word for it, and some of the churches have promised to take an active interest in making it a success."

The new standard time of the railways has come already into almost universa, use. Returns made to the secre tary of the Time Convention show that of the one hundred principal cities of the country, exclusive of the cities on the Pacific Coast, seventy-eight have adopted railway standard time as their official local time. The Pacific line, including the Union and Central Pacifics. are to adopt the standard time when their spring schedules go into effect, and it is expected that the entire Pacific DALIS seems to effect such a marked good. I got a box of Brandreth's Pills Coast will then come into the system. It has been a quiet revolution, but much more thorough than the most sanguine friends of the reform expected flammatory Rheumatism for the last within so brief a time, and it is easy to twelve months I was induced to try see now that the towns still adhering to your preparation, Rosadalis, and I the old order of things will inevitably and feet are still enlarged, but I feel so be forced into the new system before much better, that I want to continue Moors the licking of the thumb was relong. Excepting in Ohio, where six cities, and in Pennsylvania, where three cities still maintain their old local time, there are not more than two cities East of the Rocky Mountains where local time different from the railway standard is now used.

he ever returns it is likely to be by an even gleater feat of heroism than any in his past career. Nubar Pasha has Absolute Truth with Collateral resigned the office of Prem'er of Egypt and refuses to resume his duties unless Mr. Clifford Lloyd retires from the service. The English or Ezyptians must resign their offices. Had Gordon and Nubar both received adequate support they might have succeeded in establishing good government, both in the Soudan and in Egypt, employing natives as far as possible in its administration, just as Irishmen ought to be employed to administer the govern ment of the United Kingdom in Ireland. If Gordon is killed and Nubar is driven into retirement again the Soudan will be abandoned to El Mahdi, while Egypt will probably be placed under

APRIL ANTICS.

The question "What shall I wear?" never worries the average country editor. What puzzles him is to find some clothing house willing to advertise and "trade it out."

The lives of all newspaper men are made happy at some time or another by some delightful person who likes to warn the company with "Better lookout-he'll put your name in the paper!"

"Why did you put that nickle with a hole in it in the contribution box?" asked one man of another. "Because I couldn't put the hole in without the nickle, and I had to put in something.

An Illinois girl's heart is located on he right side, and all the medical faculty of the region are puzzled about it Her "best young man" says he always knew her heart was on the right side, and doesn't see why any fuss should be made about it.

Dr. Hammond thinks that great harm results sending children to school at too early an age. The best way to do is to send them out to worry the neighbors. It will help the children and give the schoolma'am a rest.

The Great Southern Remedy. For the cure of all diseases arising from diseased blood is ROSADALIS. It cares Scrofula, Rheumatism, White Swelling, Gout, Goitre, Consumption, Bronchitis, Neryous Debility, Malaria and all diseases of a kindred nature arising from an impure condition of the blood. For the past three years we have had a standing offer of \$5,000 for any statement of cure published by us which was not, so tar ss we know, bona fide. We did this in order that all readers might know the absolute truth of all assertions and that they were based upon the value of our remedy and not upon idle words. Below we give a few extracts from recent letters, which speak for themselves. We will only add that we could furnish one hundred thousand more of a similar nature did occassion require, but we believe the entire American public is now convinced of the positive value of Warner's Sate Cure. Cure of Rheumatism.

OCEANUS POST OFFICE. ROCKAWAY BEACH, N. Y..

March 1, 1883. I have been a great sufferer from Rheumatism. Some six weeks ago I had a bad attack and was laid up for a month; nothing appeared to me of any at last, and took three and four every night for a week. I got better every day, and in a week I was well. On this beach we have no doctor, and our main reliance is on Brandreth's Pill's and Allcock's Porous Plasters
