

A HOME DRUGGIST TESTIFIES.

Popularity at home is not always the best test of merit, but we point proudly to the fact that no other medicine has won for itself such universal approbation in its own city, state, and country, and among all people, as

Ayer's Sarsaparilla.

The following letter from one of our best-known Massachusetts Druggists should be of interest to every sufferer:

"Eight years ago I had an attack of RHEUMATISM, Rheumatism, so severe that I could not move from the bed, or dress, without help. I tried several remedies without much if any relief, until I took AYER'S SARSAPARILLA, by the use of two bottles of which I was completely cured. Have sold large quantities of your SARSAPARILLA, and it still retains its wonderful popularity. The many notable cures it has effected in this vicinity convince me that it is the best blood medicine ever offered to the public."
E. F. HAMMIS,
River St., Buckland, Mass., May 13, 1882.

GEORGE ANDREWS, overseer in the Lowell Carpet Corporation, was for over twenty years before his removal to Lowell afflicted with Salt Rheum in its worst form. His sores actually covered more than half the surface of his body and limbs. He was entirely cured by AYER'S SARSAPARILLA. See certificate in Ayer's Almanac for 1883.

PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Sold by all Druggists; \$1, six bottles for \$5.

THE PROPOSAL.

He.—My darling, you look irresistibly lovely to-night!
She.—Do I? Thanks very much! you are handsome as a Prince, Charley, in your dress suit.
He.—Give the credit to the DIAMOND Shirt, my love, which I wear for the first time to-night; it is that which gives tone to my toilette. Here is its prototype (slipping the Diamond engagement ring on her finger).

She.—May your love be as enduring as the fame of
"The Diamond Shirt."

The Daily Review.

TUESDAY, APRIL, 22, 1884.

The Daily Review has the largest bona fide circulation, of any newspaper published, in the city of Wilmington.

IN CONGRESS YESTERDAY.

SENATE.

WASHINGTON, April 21.—Mr. Logan reported favorably from the Committee on Judiciary, a joint resolution introduced in the Senate by Mr. Lapham, proposing such an amendment of the Constitution of the United States as would empower the President to veto one or more items of an appropriation or of special or general legislation in an appropriation bill, while approving of the remainder of the bill.
A bill was introduced and referred, by Mr. Jonas, to provide for an Industrial and Cotton Centennial Exposition.

Mr. Pugh called up and the Senate read a third time and passed, without debate, a bill to add certain counties in Alabama to the northern district therein, and to divide said northern district, after the addition of said counties, into two districts.
The Senate then took up the Bankruptcy bill.

The bill, on Mr. Sherman's motion, was so amended as to make the examining officers of the Treasury the officers to finally examine bills for disbursements, the bills to be in the first instance sworn to by the party presenting them and certified by the judge.

The bill as amended was reported from the committee of the Whole to the Senate, read a third time and passed—yeas 32, nays 15.
The chair then laid before the Senate the next special order, being the Pleuropneumonia bill, whereupon the Senate adjourned.

HOUSE OF REPRESENTATIVES.

Mr. Eaton, of Ohio, from the committee on Laws relating to the Presidential election, reported back Senate bill to provide for the performance of the duties of the President, in case of the removal, death or resignation, both of the President and Vice President.—House calendar.

Mr. Eaton also (at the request of the chairman of the Foreign Affairs Committee), reported a resolution, which was adopted, calling upon the Secretary of State for information concerning the threatened confiscation of the American college in Italy, by any law or decree of the Italian government.

By Mr. Henley, of Cal., to encourage education in the States and territories. It provides that all newspapers hereafter published in the several States and territories, in any language whatsoever, shall be carried free of postage through the mails within the limits of the United States and territories.

By Mr. Blount, of Ga., to reduce the internal revenue tax on brandy distilled from apples, peaches and grapes, to ten cents per gallon.
By Mr. Skinner, of N. Y., to permit publishers of newspapers to send marked copies of their newspapers at second class rates.

By Mr. Ellis, of La., a joint resolution directing the Judiciary Committees of the Senate and House to inquire into and report upon certain legal questions involved in the proposed forfeiture of land grant to the New Orleans, Baton Rouge & Vicksburg R. R. Co.

Mr. Dingley, of Me., from the Shipping Committee, moved to suspend the rules and pass a bill creating a Bureau of Navigation in the Treasury Department. Agreed to.

Mr. Warner, from the committee on Pensions, Bounty and Back Pay, moved to suspend the rules and pass a bill providing that every person specified in the several classes enumerated in the pension laws of the United States, who served the field in the military or naval service, in any war in which the United States has been engaged, for a period of three months and more, and has an honorable discharge, and is not receiving a pension or a greater pension than that provided herein, but who by reason of any wound, injury or disease which there is probable cause to believe originated in said service in the line of duty, and is not the result of his own misconduct or bad habits or other known cause, occurring since such service, is now disabled in whole or in part from procuring his subsistence by manual labor, shall, upon making due proof of the facts under such regulations as may be prescribed by proper authority, not inconsistent with the provisions of this act, be placed upon the list of pensioners of the United States, and be entitled to receive a pension during the continuance of such disability, at a rate proportionate to the degree thereof; the true physical condition of the claimant to be ascertained and certified as provided by law upon examination by a competent board of surgeons, duly appointed, such pension to commence at the date of filing applications therefor. That in all applications under the general pension laws, including this act, where it appears by record evidence that the applicant was regularly enlisted and mustered into service, and served for a period of three months or more, that fact shall be sufficient prima facie evidence that he was then in good health and free from disease or cause of disability for which he claims a pension. The motion was agreed to and the bill passed—yeas 165, nays 57.

The Rosadalis

Is a potent remedy in all Chronic diseases; but in these diseases it will require long continuance in the use of the medicine, in order to carry out of the system all the poisonous humors from the blood.
ROSADALIS is a sovereign remedy for all diseases of the blood. It has no equal for the cure of nervous disorders. Read this certificate:
BALTIMORE, July 10, 1879.

I would like to bear testimony to the merits of ROSADALIS, by saying that some eight years ago I was totally prostrated and could get no relief from our family physician, but after taking one bottle of ROSADALIS I became entirely restored to health. I now weigh 175 lbs., but when I first took your medicine I weighed only 120. I cheerfully recommend it to all, and especially to those afflicted with nervous debility.
MRS. A. A. MARON.

Now is the time to give Smith's Worm Oil.

STATE NEWS.

Wilson Mirror: On Friday while Mr. Coburn Farmer was riding a young horse to the pasture he became frightened at some object, and reared up and fell backwards upon Mr. Farmer, inflicting injuries from which he died during the night.

Newbern Journal: Messrs. Manwell and Crabtree are mixing lime and will break ground to-morrow for their brick machine shops. It will be 32x70. Mr. E. M. Pavie has the contract.

The interest in the revival at the Presbyterian Church in Goldsboro continues. Rev. L. C. Vass will go up to-morrow morning and will assist in the services until Wednesday.

News and Observer: Gov. Jarvis has again revived Enoch Brown, the negro who stands convicted of murdering his wife. Brown was to have been hanged to-day at Halifax. He is reprieved until May 2.—A party to New Englanders was here Wednesday and visited the geological museum. They had been looking at mica mines near the foot of the Black Mountain. An iron master from Crown Point, N. Y., is now in the State examining our deposits.—The C. F. & Y. V. R. R. is completed to Greensboro. We learn that at an early day there will be some general excursions given complimentary to people living on the line of the road.

Charlotte Observer: Our citizens were yesterday treated to a new and novel wrinkle in bicycling known as the tandem cycle, a machine that was constructed by Mr. James Pharr, who lives near Charlotte and who is a machinist of considerable reputation. The machine is simply two large bicycle wheels connected together by an iron "backbone." It carries double and can be run with twice the swiftness of the ordinary bicycle. Yesterday its first appearance was made on our streets with Thornwell Gilmer on the front wheel and Will Pharr on the rear wheel. The backbone connecting the two wheels is pivoted, and though the wheels are connected together, they work independently of each other. If the front man strikes a rock or a rut the rear man, by a quick turn of the handle, can run round it. The idea is brought here from the North and the machine is just as good a "tandem" as can be made North. It is certainly a novel contrivance and the thing scoots along like a streak of lightning. It will be on the go during the 20th celebration.

Goldsboro Messenger: Griffin Bros. shipped green peas last Friday, and will ship again in common with nearly all our truckers on Tuesday. The pea crop in this section, was cut short more than one-half by the unfavorable Spring.—R. B. informs us that at a "spell" last week, on the place of Mr. J. H. Weeks, in Giddensville township, Sampson county, there were 346 rats captured, which when measured turned out one bushel and a peck—at least one-fourth escaped.—The board of colored teachers of this county held a meeting in the court house in this city, 1st Saturday, which was quite largely attended. Capt. Swift Galloway addressed the meeting in an able speech on education, in which he dwelt extensively upon the importance of educating the colored race, both intellectually and morally, and the responsibility that rests upon the shoulders of the colored teachers in bringing about this desired result.—Our friend, John A. Oates, Esq., of Sampson, a member of the State Board of Agriculture, called in to see us Friday evening, having been to Raleigh where he attended a meeting of the Board. We learn that they decided to push the phosphate investigation with all possible vigor, and \$1,300 were appropriated for this purpose. The success in search for phosphates is phenomenal. They extend through seven counties, and in large quantities in some of the State lands in Jones and Onslow counties.

Washington Gazette: On Tuesday of last week there was a flying rumor in town that a hiterto respectable citizen had committed a forgery of certain notes and mortgages and had attempted to negotiate them at the bank of C. M. Brown. The rumor was afterwards confirmed, and when it became known that the guilty party was Samuel J. Jones the surprise was very great. The facts are that Jones forged the names of certain parties in Hyde county to certain notes and mortgages, together with the probates and certificates of registration.—These he attempted to sell several parties in town, among them Mr. C. M. Brown, who made the discovery. It is understood that he confessed his guilt. He has since transpired that this was not the only fraudulent act committed by him. During the past few months he has been attempting to negotiate a loan with the Life Insurance Company of Virginia, through Col. R. G. Montgomery, agent, and Mr. C. F. Warren, attorney, upon certain lands in Hyde county, to which he alleged he had good title, &c. He came very near being successful. It is now known that some of these representations were false. Only a week before he had qualified as administrator upon the estate of Mrs. Penny Reid. He squandered all the money which came into his hands, attempted to sell certain securities and left his bondsmen completely in the lurch. In addition, he left many disconsolate creditors in town, from whom he had borrowed money or bought goods. They are now mourning their loss and finding consolation only in the fact that they have lots of miserable company. Colonel Jones bid the towns and his friends an affectionate adieu on Thursday morning and is now a citizen of the Old Dominion. Jones came to this town several years ago from Hyde county and has been all the time in the employ of the Singer Sewing Machine Company. He was a pious, meek looking man, very polite and courteous, a member of the church and altogether an inviting candidate for patronage. Probably his only fault during that time was that he banged his hair too much. It was not often that his smiling request for money or credit was refused. He was appointed by the Clerk a Justice of the Peace in 1883, and was subsequently elected chairman of the Board of Magistrates. He was one of the active magistrates in his township. Taken altogether the Colonel created quite a sensation and will doubtless be remembered for some years to come.

A Quick Recovery.

It gives us great pleasure to state that the merchant who was reported to be at the point of death from an attack of Pneumonia, has entirely recovered by the use of DR. WM. HALL'S BAL-SAM FOR THE LUNGS. Naturally he feels grateful for the benefits derived from using this remedy for the lungs and throat; and in giving publicity to this statement we are actuated by motives of public beneficence, trusting that others may be benefited in a similar manner.

Nashville, Tenn., has eighteen colored school teachers, a larger number than any other city in the United States.

Shrier's Suggestion.

TAKE GOODS HOME, EXAMINE THEM CRITICALLY IN ALL PARTICULAR points, such as material, make up, style of garment, and above all, the price, which tells who sells the cheapest. We have been victorious in every instance where goods from competing houses have been sent home for comparison. We do it every day, and advise you to try it once to convince yourself. Only last week a prominent business man in this city had a suit sent to his home from different houses, with one from us among them; he kept our suit and remarked: "I do not know much about clothing, but it did not take me long to decide after I had them together at home, but if I had not had them together I might have paid from \$5 to \$8 more for my suit."

We handle all grades of goods, guaranteeing every article worth what you pay for it or money refunded. After one trial you will say, as thousands have said, it pays to trade with
