

THIS PAPER
Published every evening, Sundays except
JOSH T. JAMES,
EDITOR AND PROPRIETOR.
SUBSCRIPTIONS POSTAGE PAID:
One year \$4.00. Six months, \$2.00. Three
months, \$1.00; One month, 35 cents.
The paper will be delivered by carriers free
of charge, in any part of the city, at the above
rates, or 10 cents per week.
Advertising rates low and liberal.
Subscribers will report any and all failures
to receive their paper regularly.

The Daily Review has the largest
home file circulation of any newspaper
published in the city of Wilmington.

Mr. Irving's 182 performances in
America have yielded \$405,660.

Representative Reagan, of Texas, is
thought to be safely past the crisis of
his illness.

Wiggins claims to have predicted the
London earthquake, and he says there
will be another about May 20.

It is said that delirium tremens is
now a fashionable malady among army
officers idling around Washington.

Mrs. Pierre Lorillard, of New York
City, is the admitted author of the
novellets, "Those Pretty St. George
Girls."

George Elliot's "Adam Bede" is
being dramatized, and the adaptation
will be produced both in England and
America.

Twenty-seven million dollars are
represented on the passenger list of one
European steamer which sailed last
Saturday.

Gossips are making as much as possible
of the alleged fact that Senator
and Mrs. Logan have leased their Chicago
house for four years.

Speaker Carlisle and Congressman
Randall are the two members of the
House whose pictures are most sought
after by photograph collectors.

Mr. Tilden will go to Greystone the
latter part of the week for the Spring
and Summer. He had intended to
build a yacht this Summer, but will
rent one instead.

Gen. Robert Toombs not only insists
that the people of Georgia shall purchase
Alex. Stephens' Liberty Hall, but he
offers to endow it with money
enough to convert it into a college.

North Carolina girls might do well to
spend the Summer in Illinois. Accord-
ing to the report of the superintendent
of schools there appears to be a super-
fluity of about 19,000 boys under 21
years of age.

Maj. Harrod, one of the Mississippi
River Commissioners, estimates that
continuous levees of a sufficient height
to prevent overflows can be built from
Cairo to New Orleans on both sides of
the river for \$12,000,000.

Ex-Secretary Robeson's anxiety to sell
his Washington house for about half
what it cost him is an indicative straw
that he will be more apt to make his
future home, and for a very long period,
in Camden than at the capital.

The Princess de Wagram, who died
in Paris on Sunday night, was the
widow of the Prince de Wagram, son
of Marshal Berthier, who served as a
captain with Lafayette in the American
Revolution, and who afterward grew
famous as chief of staff of the first Na-
poleon.

The export of gold goes steadily on.
A total of \$38,000,000 has now left the
country since January first, and no
signs of abatement in the outward flow
appear. At this rate the silver men
will soon have the satisfaction of finding
their yellow enemy gone for good, and
the "dollar of the daddies" the only coin
in circulation.

The result of the fight between Post-
master General Gresham and the Lou-
isiana Lottery may be regarded as
rather in favor of the company, for
although the use of the United States
mails has been deeded to the lottery man-
agers, the bank which is the fiscal
agent of the lottery has been held by
the United States Court not to be sub-
ject to the decree of the Postoffice De-
partment.

Mr. Holman thinks that the Morris-
son bill will pass the House; so do
Messrs. Carlisle, Morrison and Hurd,
who mysteriously say that they have
received satisfactory assurances to that
effect. They have advised the represen-
tatives of newspapers friendly to the
bill to assure their readers that it will
pass the House before the adjournment.

During March there arrived in the
customs districts of Baltimore, Boston,
Detroit, Huron, New Orleans, New
York, Passanauquoddy, Philadelphia
and San Francisco 45,054 passengers,
of whom 38,597 were immigrants. For
the nine months ending March 31,
1884, the immigrants at these ports
numbered 304,825, and in 1883 they
numbered 339,114.

Now is the time to give Smith's Worm
Oil.

THE DAILY REVIEW.

VOL. VIII. WILMINGTON, N. C., SATURDAY, MAY 3, 1884. NO. 105

Returned.

The delegates from this city to the stockholders' meeting of the Cape Fear & Yadkin Valley Railroad, which was held at Fayetteville on the 1st inst., returned last night and express themselves as highly gratified at the result of the deliberations.

Blackfish Excursion.

It will be seen by advertisement in today's REVIEW that a Blackfish Excursion will take place on next Thursday, the 8th inst., on the steamer *Passport*. This is the first of the season and we are assured by Capt. Harper that, if the weather remains as it is, there will be a fine catch. Secure your tickets at once, if you want to have a nice time.

The Rechabites.

Rumors have been in circulation that Unity Tent, No. 60, Independent Order of Rechabites, was in financial difficulty, in consequence of which it was about to disband, but we have been reliably informed that there is no foundation for the report, as it is a flourishing condition and, after paying every dollar of indebtedness, will have a respectable balance in the treasury. The Tent will be represented at the next session of the High Tent, which will convene at Utics, N. Y., on the 27th inst.

Personal.

Col. H. B. Shoff, of Waccamaw, is in the city to-day and at the Purcell House. He is en route for New York and will be absent about ten days.

Mr. W. J. Rosenthal returned to the city last night from his trip North for the purchase of a new stock of boots and shoes. He went as far as Boston. His orders have been filed and the goods will begin to arrive in a short time.

Mr. John L. Dudley, after a prolonged absence, has returned from New Orleans and is now busy at work. He has had a pleasant trip, but complains that it was extremely warm in the "Crescent City."

Firemen's Parade.

The three white fire companies of this city held a meeting at the City Hall last night, Capt. C. D. Myers in the Chair, to consider at what time they should have their annual parade. It had been proposed to parade on the 6th inst., but as the Memorial Exercises would be held on the 10th, it was thought that some later day would be more desirable and appropriate. The meeting adjourned, to meet again next Wednesday night, by which time it is expected that the fatigue caps which have been ordered by the Little Giant and Hook & Ladder Companies will have arrived.

A New Invention.

Attached to the gas meter at the Post-office to-day is one of Sleeman's Gas Saving Governors, for the sale of which Mr. J. E. Morris has secured the State agency. This little instrument guarantees to save from twenty to forty per cent of gas; at the same time giving better light, as none of the carbon is allowed to pass through the burner without being consumed. Mr. Morris will go to New York in a few days to perfect arrangements with the general agents, and expects to open an office and have a full supply of "Governors" on hand by the 15th inst., due notice of which will appear in our advertising columns.

Baptist Convention.

The Southern Baptist Convention will begin in Baltimore, Md., on Wednesday next at the Seventh Baptist Church. The delegates from this city have not yet been selected, but it is probable that they will be to-morrow. We learn, however, that Rev. Dr. Pritchard, and Messrs. George R. French and William A. French will attend. The principal work before the body will be the reports on foreign and home missions, including work among the Indians and colored people; the educational and theological work of the church and the election of officers. During the convention the visiting clergymen will occupy the pulpits of the several Baptist churches in Baltimore. The convention is a delegated body and comprises about 400 delegates, representing all the churches and missions in the Southern States, and its sessions are interesting and of much importance to that denomination.

Prof. J. H. Casey, of Newbern, N. C., will preach at the First Baptist Church (colored), on Fifth and Campbell streets, to-morrow at 10:30 o'clock; also at night. Rev. S. W. Moyle will preach at 3 p. m. Friends are respectfully invited.

Railroad to Onslow.

EDITORIAL REVIEW:
Some of our citizens, feeling the necessity for and importance of a Railroad from Wilmington to Onslow county, propose holding a meeting in this city on Wednesday, the 28th of May, of all friends to the enterprise from New Hanover, Pender and Onslow counties to see what can be done in that direction.

The following gentlemen have been selected to act as a committee of arrangements for this meeting:

From New Hanover Co.—Col. Roger Moore, Capt. Jas. B. Huggins, Oscar Pearsall, Esq.

From Pender Co.—Maj. C. W. McClammy, J. T. Foy, Esq., D. McMillan, Esq.

From Onslow Co.—A. C. Huggins, Esq., Bryant Williams, Esq., W. H. King, Esq.

Railroad to New River.

EDITORIAL REVIEW:—I rejoice to see some evidence that Wilmington is awakening to the necessity of establishing closer commercial relations with the people of Onslow county.

Cut off from railroad facilities the latent resources of that county are not known to the world. There is, nevertheless, vast undeveloped wealth in the forests, the fields, the rivers and the sounds of Onslow county. Let Wilmington act promptly then, and put forth her energies in the construction of a railroad which shall be controlled in her interest, and that of the people who will use it. The road need not be a costly one. Several years ago Col. Fremont estimated the cost of a narrow gauge railroad along the coast from Wilmington into Onslow county, terminating at New River, at five thousand dollars per mile. Rails are now very much cheaper than then, and the estimate of cost may be correspondingly reduced. It has always seemed to me that the suggestion of Mr. O. G. Parsley, Sr., in regard to such a road and its terminus was a good one. His plan, some years ago, when the subject was undergoing discussion, was to construct the road from Wilmington along the coast to New River at a point about forty miles from the city, then to place a steamer with flats on the river, and collect the trade of the country accessible by water and the railroad, (which would include three-fourths of the county, and that the best part of it) at the railroad terminus. From that point passengers and freight would reach Wilmington in two or three hours. This would be no thorough line, and it would have no Northern connection, except that via Wilmington. With a little improvement in the river and its tributaries, a large area of fertile territory would be opened up to the enterprising merchants of Wilmington.

Besides the trade of Onslow county such a road would develop the strip of country lying along the coast in New Hanover and Pender counties, already densely populated, and contributing largely to the retail trade of the city.

I hope that the enterprising men of Wilmington will see the matter as others see it, and take steps to secure a valuable feeder to the city. BETA.

Church Services To-morrow.

St. James' Church, corner Market and Third streets. Rev. A. A. Watson, D. D., Rector. Third Sunday after Easter, May 4, 1884. Morning Prayer and Holy Communion at 11 o'clock. Sunday School at 4 o'clock. P. m. Evening Prayer at 5 o'clock.
