YORK'S STRENGTH.

The revenues place great stress on York's popularity, says the *News and Observer*. They suppose that he is going to sweep the State. His candidacy is to be as a besom of destruction to our Democratic majority and his prestige as a victorious leader is to overwhelm all opposition. Such is the chimerical and delusive hope that buoy up the falling spirits of the revenueurs. When Candler, from across the Blue Ridge, pleaded for an old Republican to lead the ticket, and Price, of Wilmington, spoke feelingly of the wishes of his constituents that the Republican flag should be committed only to a Republican, and Holton, of Yadkin, represented that the old fire tried Republicans of Yadkin and the surrounding counties could never be persuaded to swallow Dr. York, the revenueurs pooh-poohed them and declared that Republicans always voted the ticket. And Dr. York, they said, would carry so many Democrats with him in his old district that he would be elected while the nomination of a Republican would mean defeat from the start. It then becomes desirable to see on what this claim of York's strength is based. What is the foundation of it? Below we give Buxton's vote when he ran for Governor in 1880, Dockery's in 1882 and York's in 1882:

Counties.	Buxton.	York.	Dockery.
Alexander,	375	353	312
Alleghany,	217	504	255
Ashe,	1,032	1,185	1,137
Davie,	898	1,080	1,065
Forsyth,	1,796	671	1,126
Iredell,	1,603	1,714	1,656
Rowan,	1,359	1,411	1,374
Surry,	352	1,163	958
Watauga,	592	611	673
Wilkes,	1,548	1,899	1,576
Yadkin,	1,153	824	814
Total,	11,563	11,415	10,896

From these figures it appears that York, running as an Independent Democrat, received a considerable Democratic vote in Alleghany, Ashe, Surry and Wilkes—four counties. But our information is that he cannot hold any of these Democrats now except in Wilkes. As an offset he lost heavily in Forsyth and Yadkin, and from what Mr. Holton said on the floor of the convention we suppose that he will not now poll the full Republican strength in those counties.

Buxton got in those counties 147 more votes than York; and York beat Dockery 519 votes. Leaving out Wilkes county Buxton beat him in the district 498 and York beat Dockery 168. That is the measure of his personal popularity, when running as an Independent Democrat, outside of Wilkes county. If that vote is maintained, then, in the State at large York will fall 4,000 behind Buxton's vote. We do not invoke these figures. We base no argument upon them. We merely quote them to show how ill-founded are the pretensions of the revenue ring that the figures prove that York is going to sweep the State. Let it be remembered that on the basis of the votes cast York falls behind Buxton about 4,000 in the State. Evidently the revenueurs had no examined these figures. They were in ignorance of what a comparison of them would show. They forced the nomination of a weak candidate in utter disregard of the wishes of the Republican masses in the State, on the unfounded notion that York would get more votes than Buxton.

A florist in Chambersburg, Pa. has a remarkable rose bush. During the last three years, and including the present time, over 10,000 buds were plucked from its numerous branches. Some idea may be had of the value of this vice when we state that these buds sold during the winter at \$15 a hundred. At this time not less than 2,000 buds can be counted on the vine. It is believed that with two exceptions it is the largest and most prolific Marechal Neil in the United States.

William H. English, the last Democratic candidate for the Vice-Presidency, is in Washington trying to influence the decision of the committee on elections in favor of his son, Will E. English. The latter is contesting the seat of Congressman Poelle, of the Indianapolis District. The Washington correspondent of the *Louisville Courier-Journal* says that it appears to be the opinion of the House that Mr. English is not entitled to the seat.

In 1876, when it was announced that Jim Keene had started from San Francisco in a palanquin with \$5,000,000 to clean out Wall street, Mr. Gould is credited with saying: "We'll send him back in a freight car." Keene, with many ups and downs, lasted eight years, but Wall street has finally "downed him," and the prophecy suggested in Mr. Gould's remark has nearly been fulfilled.

Now is the time to give Smith's Worm Oil.

The London *Spectator* belittles the danger from dynamite and says: "It will hardly more than double the danger to which property is already exposed from ordinary fires. Either dynamite will become one of the risks against which the existing fire offices undertake to hold us harmless, or new offices will be set up to undertake this new kind of insurance business."

The Roosevelt Hospital in New York was endowed by James H. Roosevelt, who died in 1863. Early in life a stroke of paralysis prevented his union to the lady of his choice, and he walked on crutches for a whole generation, enjoying the friendship of the woman he loved, and when he died he left her an annuity and executrix of his will. His nephew survived him about a month, and the whole estate then reverted to the hospital. It now amounts to several millions.

Many ladies admire gray hair—on some other person. But few care to try its effect on their own charms. Nor need they, since Ayer's Hair Vigor prevents the hair from turning gray, and restores gray hair to its original color. It cleanses the scalp, prevents the formation of dandruff, and wonderfully stimulates the growth of the hair.

Rosalalis.

ROSALALIS is a great remedy for Scrofula, and all taints and diseases of the blood. It is not a secret medicine, but is well known to physicians, very many of whom regularly prescribe it in their practice. It is a strengthening medicine, enriching the blood and building up the system. It should be taken at all times and seasons, but especially in the Spring and Fall, when the sudden changes in the weather disturb the functions of the system, and induce disease. Read the following letter:

MOORE'S CREEK, N. C., Jan. 17, 1881. I have suffered 37 years with Liver complaint, Rheumatism, Sick Headache and disordered Stomach. I was at one time raving distracted, rubbing my hands and half crazy with pain. My wife sent for a doctor, and he attended me 9 months. He said he could do me no good. I felt I was in the jaws of death. Another physician took me in charge and doctored me 18 months. I paid him \$33 and owe him \$40 more, but one bottle of ROSALALIS did me more good than all the medicine the doctors ever gave me. J. H. WALKER.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self addressed envelope to the REV. JOSEPH T. INMAN, Station D, New York City. eod d&w ly

The Doctor's Endorsement.

Dr. W. D. Wright, Cincinnati, O., sends the subjoined professional endorsement: "I have prescribed DR. WM. HALL'S BALMSAM FOR THE LUNGS in a great number of cases and always with success. One case in particular was given up by several physicians who had been called in for consultation with myself. The patient had all the symptoms of confirmed Consumption—cold night sweats, hectic fever, harassing coughs, etc. He commenced immediately to get better and was soon restored to his usual health. I found DR. WM. HALL'S BALMSAM FOR THE LUNGS the most valuable expectorant for breaking up distressing coughs and colds.

THE SUN.

NEW YORK, 1884.

About sixty million copies of THE SUN have gone out of our establishment during the past twelve months.

If you were to paste end to end all the columns of all THE SUNS printed and sold last year you would get a continuous strip of interesting information, common sense wisdom, sound doctrine, and sane wit, long enough to reach from Printing House square to the top of Mount Olympus in the moon, then back to Printing House square, and then three-quarters of the way back to the moon again.

But THE SUN is written for the inhabitants of the earth; it is the same strip of intelligence would grudge the globe twenty seven or twenty-eight times.

Every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfather has spent another hour, this newspaper in 1883 has afforded the human race thirteen thousand years of steady reading, night and day.

It is only by little calculations like these that you can form any idea of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions of American men and women.

THE SUN is, and will continue to be, a newspaper which tells the truth without fear of consequences, which gets at the facts no matter how much the process costs, which presents the news of all the world without waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which therefore believes that the Republican party must go, and must go in this coming year of our Lord, 1884.

If you know THE SUN, you like it already, and you will read it with accustomed diligence and profit during what is sure to be the most interesting year in its history. If you do not yet know THE SUN, it is high time to get into the sunshine.

TERMS TO MAIL SUBSCRIBERS. The several editions of THE SUN are sent by mail, postpaid, as follows: DAILY—50 cents a month, \$6 a year; with Sunday edition, \$7. SUNDAY—Eight pages. This edition furnishes the current news of the world, special articles of exceptional interest to everybody, and literary reviews of new books of the highest merit. \$1 a year. WEEKLY—\$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequalled value, special market reports, and literary, scientific, and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. Clubs of \$10, an extra copy free. Address
