To Leave Us.
Prof. W. D. Munson, who has been here for the past two months engaged in giving instructions to the Cornet Concert Club, has fulfilled his engagement and will leave here to-morrow for Millen's Depot, S. C., where he has been engaged as a teacher for the band there during the month of June. Since he has been here Prof. Munson has made friends with all with whom he has become acquainted. He is a quiet, unobtrusive gentleman, a thorough musician and a pains-taking and conscientious teacher, and we wish that he could have been induced to remain with us. He expresses himself as delighted with our city and people and speaks with gratified pride of the cordial, whole-hearted kindness and courtesy of the members of the Concert Club, and states that they are excellent musicians as well as gentlemen, who by rigid practice could be made to excel any band in the South—all of which we most heartily and unqualifiedly endorse.

Silver Plated Spoons, Forks and Knives of best quality, and at manufacturer's prices, can be found at JACOBI'S Hardware Depot.

City Court.
John Moore, a Nova Scotia-sailor, was brought before the Mayor this morning charged with stealing a hat and pair of shoes from a room at Bryson's boarding house, on Nutt street. He pleaded guilty to the charge, which was a wise proceeding, as he appeared at the Court Room with the shoes upon his feet, and was required to give a bond in the sum of \$100 for his appearance at the present term of the Criminal Court, in default of which he was committed.

Buck Hill, colored, for assault and battery with a deadly weapon with intent to kill, was the next case, which was continued. (An account of this case will be found in another column.)

Shooting Affray.
At about 3 o'clock this morning John Price, colored, who is a private scavenger, was passing through Millis' Alley, which runs from Dawson to Wooster street, between Eighth and Ninth, when he was shot, as he declares, by Buck Hill, also colored, who lives in that alley. The ball struck Price in the small of the back a little to the right of the bank bone and passing through the body lodged in the left groin. The wounded man was able to reach his home, which was not far off, and surgical aid was summoned. His condition is considered as extremely critical. The police were notified and officer Everett arrested Hill this morning and took him to the guard house. He says that Price was at his house last night and was seated with him on the piazza in friendly conversation until after midnight, when Price left to go home and that he all he knows about the affair. He says, further, that he and Price were on the most friendly terms and it all appears like a dream. His statements, however, were conflicting, and the matter will be thoroughly investigated by the authorities.

We acknowledge the reception from Prof. Quackenbush of an invitation to the Commencement Exercises of Laurinburg High School to take place on Thursday, June 12th. The address will be delivered by Hon. A. M. Wadell.

THE DAILY REVIEW.

VOL. VIII. WILMINGTON, N. C., TUESDAY, MAY 27, 1884. NO. 126

On to Onslow.

We publish herewith a communication from a gentleman at Sneed's Ferry, relative to the proposed railroad and the resources of Onslow county. It will be read with peculiar interest at this time in view of the fact that a meeting is to be held in the City Court Room to-morrow to consider the matter of building this road to Onslow. Our correspondent says:

MR. EDITOR:—Permit me to say a few words through the columns of your valuable paper in behalf of this section, though in a feeble way.

This country is inhabited by as kind neighbors and hospitable a people as can be found anywhere. Much interest seems manifested, both in schools and churches. The resources of this section, the principal of which I want to note, are surpassed by none in Eastern Carolina, though the people here to contend with many disadvantages, the greatest of which is the want of proper transportation to enable them to get their produce to market. The shutting up of New Inlet has increased freights to your city, thus reducing the value of produce, and incurring additional risks in passing around Frying Pan Shoal. Five vessels are regularly employed and two others occasionally, in carrying the produce of this section to your city, and sometimes for the want of a fair wind, they are detained at the mouth of this river several days or even weeks. On one occasion one was known to have been detained there six weeks. Think of that! A vessel loaded with cotton, naval stores, &c. lying at the mouth of a river six weeks! This section is highly favored by nature, backed up as it is by rich and fertile lands on both sides of the river, and what is badly needed is a railroad from Wilmington touching some point on the river; and unless this is done soon, the people will have to look somewhere else for help, and we fear that Wilmington will lose a great portion of this part of the Onslow trade, as we understand that an inland route is soon to be opened from here to Norfolk. And to avoid shoals of sand (for it is one of the sandiest roads from here to Wilmington you ever saw), the people will ship their produce to other markets. Now, can Wilmington afford to lose this trade? Let us see. I am informed by responsible parties, and those who ought to know, that the sales of oysters alone now amount to nearly fifty thousand dollars, and they are hauled in carts over forty miles of deep sand. It is thought that the annual sales of fish and oysters of this market are one hundred thousand dollars, saying nothing about the cotton, turpentine, &c., which are made around here in great abundance. And is it not reasonable to suppose that if a railroad ran here, the sales would amount to at least three times the amount, if not more? And if it pays to run a railroad to a turpentine country, would it not pay to run one to such a country as this?

New River, for several miles on both sides, would make fine oyster gardens and I am told that the oyster rocks are almost inexhaustible, there being thousands of them, and it is said that when taken from the rocks, those left grow faster and made finer oysters. As to the fisheries of this section, they are as good as can be found almost anywhere—both inside and outside fisheries. As many as eight hundred barrels of fish have been known to have been caught at one haul at Goose Bay Fishery, at the mouth of the river. Sharpies run regularly up this river from Beaufort and Morehead City during the fishing season and carry a great many fish to those places, which no doubt would be sent to Wilmington, if there were better facilities for transportation. Now, as to what point a railroad should strike this river: Either of three places, Sneed's Ferry, Fulcher's Landing or Peru would make a good place. The public road crosses the river at Sneed's Ferry, and there is also good water and a good harbor. The same could be said of Fulcher's Landing which is more in the midst of fish and oysters, white at Peru it be in sight of the ocean and more convenient to the fisheries on the coast. There is but little difference in the distance from Wilmington to either of the three places provided the road runs with the Sounds which would be through a fish country as well as a good farming country all the way; also a good timber country, composed of live oaks, which are used for ship-building. Now, Mr. Editor, with this railroad, and a steamer connecting with it from Tar Landing, this section would spring from its long sleep and your city would feel the influence of such an enterprise.

SNEED'S FERRY.
A Bad Driver.
During one of the showers this forenoon the colored driver of a loaded dray in passing through from Princess to Market street, on North Second, droye against the sign post of Mr. John G. Bauman and knocked the sign down. Mr. Bauman ran out to save the sign when he was knocked down by the dray and came near being run over. The drayman seemed much more intent on seeing how many antics he could make the animal show than he did for the safety of anybody, and finally drove off without any regard to the damage he had done. We saw him a few moments after come around the corner to go up Market street, but turned the horse and made him back for a considerable distance.

Board of Aldermen.

The Board of Aldermen met in called session at 8 o'clock p. m. May 26th, 1884. Present, His Honor Mayor E. D. Hall and Aldermen DeRosset, Boney, Bear, Dudley, Chadbourn, Sweet and Howe.

The Mayor stated the object of the meeting to be for the purpose of receiving the report of the committee appointed at the meeting of May 5th, to confer with the Board of Audit and Finance on the subject of the tax levy and ordinances relating thereto, and appropriation for the current fiscal year.

Alderman DeRosset, for the committee, submitted the following report:
The tax levy for the current fiscal year shall be \$1.75 on the \$100 valuation, divided as follows:
For current expenses..... 66 cents
Interest on debt..... 80 "
Sinking fund..... 6 "
North Water St. debt..... 23 "
Approp'n for current expenses, \$68,566.

Alderman Dudley moved to concur.
Alderman DeRosset offered an amendment that the item of general repairs in Fire Department be changed from \$1,000 to \$1,500; that the item of drainage in Sanitary Department be changed from \$340 to \$490, and that the appropriation for water works be changed from \$6,750 to \$6,800.

Alderman Chadbourn offered an amendment that the appropriation for salaries be increased \$300, and that the appropriation for water works be made \$8,250.

Upon this amendment a division of the question was called for.
The amendment relating to salaries was adopted. The amendment relating to water works was lost. The amendments offered by Alderman DeRosset were adopted.

The report, as amended, was then adopted.
Alderman Boney offered the following resolution:
Resolved, That the Chairman of the Board of Audit and Finance, R. J. Jones, be and is hereby appointed a committee of one, on the part of the city, to receive, settle upon and arrange the proposed compromise between Mrs. Dawson and the city, as to the removal of the Bank piazza or portico, and the said R. J. Jones is empowered to agree upon any and all plans and estimates proposed, provided, the city is in no event to pay more than one half the cost of the removal and the construction of a new entrance of the street.

Alderman Dudley moved to lay the resolution on the table. Motion withdrawn by request.
Motion to lay on the table renewed. Lost.

Alderman Bear moved to adjourn, subject to the call of the Mayor. Lost.
Alderman Bear moved that action on the resolution be indefinitely postponed. Lost.

Alderman DeRosset moved to a mend by striking out the name of R. J. Jones, Chairman of the Board of Audit and Finance. Amendment accepted by Alderman Boney.

Alderman Boney then, by permission of the Board, withdrew the resolution.
Alderman Boney then presented the petition of E. G. Barker & Co., for permission to store lime in the brick store on the N. E. corner of Water and Princess streets, for a short space of time—two or three months.

A counter petition was also presented protesting against the storage of lime in the above described premises.
Alderman Bear moved that the petition of E. G. Barker & Co. be not granted.

Alderman Dudley offered as a substitute that the petition be granted until September 1st, giving as a reason that he had been told by Mr. E. G. Barker that the vessel containing the lime had arrived and was now in the stream and she must be discharged or pay would be demanded for her detention.

Alderman DeRosset demanded the yeas and nays which were ordered.
Yeas—Aldermen Boney, Dudley, Chadbourn, Howe, Sweet
Nays—Aldermen DeRosset and Bear.
The substitute was adopted.
Permission was granted S. VanAurige to erect a wooden building with a tin roof on his lot on the corner of Fourth and Walnut streets.
Adjourned.

We saw an elegant peach this morning, large, luscious and fully matured, which was picked from a young tree on Mr. Jao. R. Turrentine's premises in this city. It was assuredly, we think, the finest peach ever grown hereabouts in the month of May.

The largest and best stock of Windows, Doors, Blinds &c., and at Factory prices is at N. Jacobi's Hardware Depot.

A Promising Outlook.

We are glad to hear such favorable reports in regard to the crops. The good news comes in to us from all directions. We heard from sections of Duplin and Pender counties to-day. Mr. A. D. Black, of Kenansville, and Mr. H. S. Alderman, of the Point Caswell section, tell us that the outlook with them is very promising and that everybody is greatly encouraged in hoping for excellent crops of all kinds this year.

Don't Pay Rent!

WHY PAY RENT WHEN THE SAME MONEY will buy you a home? In this city I have sold over one hundred and fifty Lots and Houses and Lots to parties who have paid in full for them, by instalments—monthly payments. Also, I have a large number now on my books, who are making regular monthly payments and will soon own homes and get clear of landlord's rule. Money loaned to those wishing to build. Apply to
