Chicago is to have genuine London hansom cabs. A company there has bargained for one hundred of them, made in London itself, and they will come over, with drivers and harness, in a month or two. The fare will be 25 cents for a mile and a half, 15 cents a mile thereafter, and 65 cents an hour. Says the Tribune in regard to the matter: "The striking resemblance which Chicago now bears to London will be considerably intensified."

Mr. Blaine's war record is comprised in a few words. He hired a substitute from a fund organized for that purpose, and his substitute was kept in a soft place until a safer one was found for him. This is another feather for the Plumed Knight.

Rev. Dr. Deems' view on the political situation will be found of interest. To a reporter of the World he said:
