THE DAILY REVIEW.

VOL. VIII. WILMINGTON, N. C., THURSDAY, JUNE 12, 1884. NO. 140

The *Daily Review* has the largest bona fide circulation, of any newspaper published in the city of Wilmington.

The Prince of Wales has revived the fashion of wearing plaid waistcoats.

The New York Democratic State Convention meets at Saratoga next Wednesday.

Six thousand vendors of fruit and vegetables are licensed to walk the streets of Paris.

A proposition is being considered in Boston to make Monday a school holiday instead of Saturday.

Mr. W. H. Mallock, author of "Is Life Worth Living?" is to be a candidate for Parliament, so he will soon find out.

It is said that the enthusiasm for Blaine and Logan at Chicago was a put-up job. The latter, it is said, had one thousand paid claquers in the house.

It costs about \$1,000 a year to educate a boy at Eton College, \$900 at Harrow and \$550 at Rugby. Charter House and Marlborough, respectively.

Lord Chief Justice Coleridge is correcting the last proofs of his "Reminiscences of America," and the book is announced for publication during the present month.

Edmund Goose, who is coming over here to lecture, has a beautiful red-haired wife, who is sister of the wife of Alma Tadema, and both have figured favorably and extensively in that artist's pictures.

The New York *Graphic* states that Miss Sprague, of New York, makes \$5,000; Miss Palmer, of Utica, \$8,000, and Miss Ballentine, of Rochester, \$5,000 a year by the practice of short hand. If these figures are correct—and there is no reason to doubt them—stenography will doubtless receive a large boom as a lucrative profession for women.

Heinrich Heine's family are a queer set. One brother, Gustav, paid the poet's widow a pension on condition that she should make no attempts at biography. Another, Maximilian, got hold of the manuscript of the autobiography lately published and destroyed all which revealed the Jewish ancestry of the family, with no pretence to rank or station.

A fiddle upon which Washington used to play is now in the possession of Col. J. Washington and an effort is being made to raise \$1,500 to purchase it that it may be placed in Miss Custis' music room at Mount Vernon, where are already the harpsichord presented by the General to Mrs. Custis on her wedding day and the flute upon which he used to accompany her.

Queen Victoria has a mania for putting up memorials. Now that every spot at all connected with John Brown is thus decorated, she is busily marking an itinerary of her son Leopold. Her latest achievement is to inlay a brass cross in the deck of the yacht *Osborne*, over the spot where his coffin rested during the voyage from Cherbourg.

The latest craze among collectors is that of saving breakfast rolls of ladies of note, actresses, and for that matter also of distinguished men, from which rolls a bite has previously been taken and the remnant of which is then ticketed by the collector in this wise: "This roll was bitten into by Miss So-and-So on May 12, 1884, while taking her coffee."

Advices from Berlin state that the affliction from which Emperor William has for some time been suffering is becoming more stubborn and debilitating. It is said that although the aged Kaiser still insists upon maintaining the appearance of performing all his official military duties, the real work of receiving the necessary official visitors and performing imperial civic functions is now done by the Crown Prince Frederick William.

It is significant of the progress of female employment in England that the Prudential Company, one of the greatest insurance offices, is now entirely served by female clerks, and that 4,333 are employed in Government offices; but the excess of women is still so great that Lord Shaftesbury has just declared that the greatest benefit that could be conferred on England would be the emigration of from 300,000 to 500,000 women.

Now is the time to give Smith's Worm Oil.

The streets of Springfield, Vermont, have been fairly deluged with rain. Eighteen inches fell there in one day and night—the 10th. The streets became as rushing rivers and thousands of tons of earth were displaced.

Reports have reached Cairo to the effect that the rebels nine days ago massacred Hussein Pacha Khalifa, commander at Berber, and all his family; the garrison which was faithful to the Khedive, and the European traders who remained there.

A dispatch to the *Herald* from Yankton, D. T., 10th inst. says:

A special despatch from Springfield says Indians bring reports that last week some Brule Sioux at Rosebud agency got into a fight among themselves. Three were killed. Balance of band, which numbers about six thousand, taken sides and general engagement in progress. Indians all well armed and mounted. This information comes wholly from Indian runners and may not be reliable.

Mr. Tilden has spoken at last and he declines to allow his name to go before the Democratic Convention. He has written an honest, manly, patriotic letter to be laid before the New York State Convention and his declination is positive. We regret this but it is not by any means a vital matter to the party. The success of the Democracy is not conditional upon the inclination of any one man and with either Cleveland or Bayard or Flower, we believe that they can win this year. Present indications point to Cleveland as the man upon whom Tilden's mantle will fall. There is no doubt as to his ability to carry New York State by a tremendous majority and we feel sure also New Jersey, Connecticut and Massachusetts. With the Vice-President taken from Ohio or Indiana these States may also be counted upon to give majorities for the ticket.

"La Mascotte"

Mr. F. E. Samuell, Music Teacher, La Mascotte, Burnett street, St. Kilda, Melbourne, Australia, writes to the *Argus*, of that city: "I had suffered for years with painful chilblains, and tried all kinds of remedies and received only temporary relief. After two applications of St. Jacobs Oil, the great pain-cure, they were entirely cured and I have not been troubled with them since."

President Arthur virtually says that Blaine cannot carry New York. The result in the State, he says, will depend on the vote in the city. If Mr. Blaine can command the support of the business men he will succeed; otherwise he will fail. It looks now very much like a failure.

We were pleased to receive a call this morning from Mr. Frank B. Galloway, formerly of this city, but now of Ocala, Fla., and recently of the Jacksonville *Herald*. Mr. Galloway will visit relatives at Smithville, Goldsboro and other points and will then return to Florida.

Half a Century.

Fifty years ago yesterday our esteemed German fellow citizen, Mr. A. Adrian, made his debut into this world of care, and an impromptu celebration of the happy event was gotten up by his host of friends in this city which took him quite by surprise. While enjoying himself last night at his residence with his family and friends, the Cornet Concert Club, to whom he has been a warm and devoted well-wisher, and is appreciated as such, went quietly into the piazza of his house, and the first he knew of their presence was when the rich harmony of their instruments fell upon his surprised but delighted ear. As soon as the sounds had subsided the club was cordially invited to enter, where mutual—(champagne)—congratulations—(your health, sir)—were—(thank you)—passed—(many happy returns)—enlivened by—(another glass)—fine vocal music—(don't care if I do)—furnished by the club. An hour was passed quite pleasantly and at the hour of separation he felt happy to think he was so highly appreciated by our citizens, and the guests happy at the privilege of thus being able to make the hour and the occasion a time for manifesting their respect for one of our best and most public spirited fellow citizens.

Railroad Meeting.

The meeting of those interested in the Wilmington, Wrightsville & Onslow Railroad, which stood adjourned from May 28th, was held at the Produce Exchange this noon, Mr. B. G. Worth in the Chair, and Messrs. T. D. Meares and C. H. Robinson acting as Secretaries. The meeting was very fully attended by citizens, merchants and business men of Wilmington, while Onslow was represented by Messrs. E. Murrill, J. W. Spicer, R. Everett, George King, Bryant Williams and Col. S. B. Taylor. Pender was represented by Maj. C. W. McClammy, Dr. W. C. Murphy and Messrs. J. W. Sidbury and J. T. Foy.

The chairman stated the object of the meeting which was to hear the report of committee appointed at the previous meeting to ascertain the cost of a preliminary survey of the proposed Wilmington, Wrightsville and Onslow railroad, and also the route from Wilmington to Fayetteville, connecting with the Cape Fear and Yadkin Valley railroad.

The Committee, through its Chairman, Hon. A. H. VanBokkelen, reported that the estimated cost of both surveys would be \$1,000. Of this amount it would cost \$750 to survey the latter, and \$250 to survey the former route.

On motion of Mr. O. G. Parsley, Sr., a committee of three was appointed by the chair to raise the \$1,000 necessary for the survey of both routes. The chair appointed Messrs. B. F. Hall, and John H. Currie and Col. Roger Moore a committee for that purpose, who were instructed to report immediately upon the accomplishment of the purpose, and also to notify the people of Onslow, through Mr. E. Murrill, of the same.

On motion of Mr. O. G. Parsley, Sr., a committee of three was appointed by the chair to confer with the officials of the present Wilmington, Wrightsville & Onslow Railroad to ascertain upon what terms that road can be secured. The same committee as that under the first motion was appointed.

On motion a committee consisting of Sheriff E. Murrill, Col. S. B. Taylor and Mr. J. W. Spicer, all of Onslow, was appointed to confer with the people of that county to ascertain what assistance would be given the enterprise by her people, and report at a railroad meeting to be held at Jacksonville on the first Monday in July.

On motion of Col. S. B. Taylor, of Onslow, it was voted that if the \$250 estimated as the cost of the preliminary survey of the Onslow Road would be sufficient to carry the survey to Jacksonville that it should be made.

It was voted that the Chair appoint a committee of — to attend the meeting to be held at Jacksonville on the first Monday in July next. Committee not yet named.

Adjourned.

LADIES' SUITS TO ORDER.

An Appeal From Onslow.

We submit herewith a communication from Sneed's Ferry, relative to the proposed Onslow R. R. The writer has previously spoken upon this subject through our columns and his communication attracted much attention here. In a private note to the Editor he says that the majority of the people in his section think that Sneed's Ferry is the best place for the road, as the public road crosses there and it is the narrowest place on the river for 15 or 20 miles, that is, should the road ever be continued on from that point. He says that steamers run into New River nearly every week and they have already carried off a good deal of freight that otherwise would have come to Wilmington. He further says that several of the schooners that generally trade to this port from New River are now laid up for the want of cargoes; the people, he says, hate to be cut off from Wilmington but unless they get the railroad they will be compelled to ship their produce elsewhere. Following is the communication referred to:

MR. EDITOR:—I see in the account of the railroad meeting in your city on the 30th ult., that something was said about Onslow being in earnest about the railroad. She is in earnest, and no doubt will do all she can towards developing such an enterprise. A great many people in this section would take stock, and I don't think there is a single man through whose land it would pass, who would not give the right of way, as well as timber for crossings. Let the books for subscriptions be opened immediately and let the thing be thoroughly canvassed.

That a railroad is badly needed from Wilmington to some point on this river is an undoubted fact—these people, and their fathers before them, have for many years past been sending their produce to Wilmington and getting their supplies from that place, and it would be with great reluctance that they cease to do so now, unless compelled to ship their produce to other markets to which better facilities for transportation are offered.

The agricultural resources of this section are great; and our waters are not only bountifully supplied with the finest fish and oysters, but afford many inducements to pleasure seekers; such as boating, surf bathing &c.

THE MEMBERS OF WILMINGTON STEAM FIRE ENGINE COMPANY, No. 1, will have a meeting at their Hall to-night for the purpose of drill and exercise.
