Senator Harrison has been honored with the LL. D. degree by Hanover College at Madison, Ind.

Mr. Farnell advises the Nationalists for the present not to hold meetings where the Orangemen are in a decided majority.

The New York Times is publishing about three columns of letters daily from people who approve its course in refusing to support Blaine.

The tax valuation of Chicago is, real and personal, about \$133,000,000; that of Cincinnati for the same year (1883) was \$169,000,000.

Mr. Talmage says that every year this country spends a billion and a half for rum. Mr. Talmage must have been in Chicago during the recent political convention.

Ex-Governor Butler's organ commends the proposition of the Harvard authorities to abolish the practice of bestowing the degree of LL. D. as a reward for a popular Gubernatorial majority.

A young man in Hillsdale, N. Y., has contracted, like Jacob of old, to work seven years for a farmer in consideration of obtaining the latter's daughter for a wife at the end of that period.

M. Laroche Joubert, Deputy Augouleme, who proposes to tax foreign workmen resident in France 20 per cent. on their wages, is an extensive paper manufacturer, presumably of the woodpulp kind.

Mrs. Tom Thumb, who is now forty-five years old, stopped growing only a few years ago, and says, as hers is a case of arrested development, she should not be surprised if she should begin to grow again.

The famous steamer Alaska, known as the "greyhound of the Atlantic," has been purchased from the Guion Company by the Cunard Line, which recently purchased from the same company the equally famous steamer Oregon.

Although Parliament refuses to extend the parliamentary franchise to females, Miss Helen Taylor, of London, is going to stand as a candidate for the House of Commons, and it is declared there is no legal obstacle whatever to the election of a woman to that body.

A Vienna dentist, who wishes to retire, advertised for a young doctor to succeed him, the business being worth five thousand dollars a year. No money is demanded, but the dentist's daughter, a young lady of seventeen, handsome and well educated, must become the wife of the successful applicant.

The Republican managers will be forced to raise money on fictitious collaterals and false representations as to government contracts. Those games have already been played for nearly all they are worth, and it will take a long time for confidence to be so far restored that they can be used to gather in the millions again.

Mrs. Almira Lincoln Phelps, the well known writer and teacher, will on July 15 celebrate the completion of her ninety-first year. She is in capital health and full enjoyment of all her faculties with the exception that her hearing is slightly impaired. She still keeps up her diary, which she began at the age of sixteen.

While United States four per cents are at a high premium the shares of the Western Union Telegraph Company, upon which a quarterly dividend at the rate of seven per cent. per annum is paid, are selling forty per cent. below par. Western Union shares bought at this rate would pay upward of eleven per cent. on the investment, provided that the payment of seven per cent. dividends was continued.

There is a place in the Blue Ridge Mountains, in West Virginia, where snow melts as fast as it falls and where the temperature of the ground never reaches the freezing point. Vegetation is always a month ahead of the surrounding sections. There is about one acre of this warm area. The State Geologist is of the opinion that there may be a volcano a few hundred feet below the surface.

Now is the time to give Smith's Worm Oil.

The New York World predicts that the Plumed Knight of Navarre will navarre be President, and we say: No, navarre!

The news comes from Illinois that Gen. Logan is by no means as popular among the people as he is among the politicians, and there are lots of people who do not believe that Blaine and Logan can carry the electoral vote of that State.

The newly elected Methodist bishop, Dr. Mallison, of Massachusetts, said at the reception given him in Boston last week, that he started preaching twenty-six years ago on a salary of two hundred and fifty dollars a year, all of which was paid.

Emperor William has sent to Charles Gibson, a member of the St. Louis bar who was Solicitor General under President Lincoln, the decoration of the second class Crown Order, in recognition of his German sympathies and his efforts for the relief of the victims of the Rhine floods.

An incident of the late convention:—Three Florida delegates came down the street together, moving toward Convention Hall. They wore Arthur badges on their coats. Asked for their views of the situation, they opened their coats and exhibited, pinned to their vests, badges with Blaine's name.

Ex-Senator Johnston predicts that the Democrats will carry Virginia by 25,000 majority. He says we carried it last year by 18,000, and then everything was against us. They had every election officer in the State, and besides that they obtained some advantage from the debt and school questions.—There were many Democratic Readjusters who were afraid that the Democrats would unsettle the debt question and that they would not do right by the public schools; but the Legislature confirmed the debt settlement, and went further than the Readjusters in providing for and maintaining public schools.

A New Nationality. The Evening News, Sydney, N. S. W., Australia, says editorially: "It has mystified doctors, delighted sufferers and dispelled the doubts of the most incredulous. Its virtues are praised by thousands who have been rescued from years of torture. The world-famed St. Jacobs Oil has come to be justly and universally recognized as the National Remedy."

The Carolina Yacht Club will hold a very important meeting to-night.

About 1,700 persons had listed their taxes up to 10 o'clock this morning.

The nights are rather too cool for the crops, but the days are all that the farmer can desire.

There was one trivial case for the Mayor's consideration this morning which was discharged at the cost of the prosecutor.

In three weeks from yesterday the Chicago Convention will assemble.—Until that time there will be plenty of time and opportunity for conjecture.

We invite the attention of our citizens to the fact that first quality shirts are being made to order at one dollar at the Wilmington Shirt Factory.

"Have you heard from Saratoga yet?" has been a very frequent question this afternoon, to which we have been obliged to answer "nix."

Steamboatmen report that there has been about a two feet rise in the Cape Fear, but that is now slowly falling off again. There is yet, however, a plenty of water for boating purposes.

Ger. brig Diana, Schroeder, cleared to-day for Liverpool with 1,000 casks spirits turpentine, 1,245 barrels rosin and 150 barrels gum thus, valued at \$15,463, shipped by Messrs. Paterson Downing & Co.

"The piercing life (or clarinet) and pealing drum" was the cause of keeping a good many small boys from bed last night until quite a late hour. There was some sort of a procession parading the streets, but we failed to learn what it was all about. We expect to hear such noises in unlimited quantities from now until the election is over.

The Excursion.

The excursion party on the *Passport* this morning under the auspices of the Fifth Street M. E. Church, was a large one and they left the wharf in the best possible spirits with bright prospects of a pleasant day before them. A good many of the excursionists who arrived last night on the Carolina Central road availed themselves of the opportunity afforded and joined the excursion party for a day's pleasure on the Cape Fear.

Onslow Items.

From a gentleman who was in the city to-day from Jacksonville, Onslow county, we gathered several interesting items, among which was the fact that the people of that county are anxious for the railroad. The people will subscribe liberally towards the enterprise and will do all in their power to forward the road to completion.

The crops in Onslow are looking finely, although there has been considerable difficulty in securing good stands, owing to the cool weather of a few weeks ago. The weather is now favorable, although the mornings are rather too cool for the rapid growth of corn or cotton. The fruit crop is excellent and of superior quality.

Interesting Discourse.

Rev. Wm. Stoudemire, of Oakland, Md., who preached at St. Paul's Evangelical Lutheran Church, on Sunday last, delivered a remarkably interesting lecture on Monday night in the same church. His subject was descriptive of the unveiling of the monument erected to the memory of the great reformer, Martin Luther, at Washington, D. C. He gave a history of the movement and also gave an account of the exercises and proceedings at the time it was unveiled. Mr. Stoudemire is a fine speaker, has good descriptive powers, and with a heart warm for his subject delivered a discourse which was both interesting and instructive.

Another large consignment of Sash, Doors & Blinds at Factory prices, just received at JACOBI'S Hardware Depot.

A Holy Cause.

Mr. James A. Willard, of 68 South street, Baltimore, Md., has sent to the Produce Exchange in this city five bags of corn which will be sold at auction, at 12.30 o'clock, p. m. to-morrow, to the highest bidder and the proceeds will be given towards the erection of the proposed Confederate Home for disabled Confederate soldiers, which is intended to be established at Richmond, Va. The cause for which this corn is donated is a noble—yea, a holy—one, and we trust that there will be sharp competition among the bidders at to-morrow's sale, and that the fund for the Home may be largely increased thereby. Mr. R. W. Hicks will be the auctioneer.

Personal.

His Honor, Judge A. A. McKay, of Clifton, Sampson county, arrived in the city last night and registered at the Purcell House.

Capt. W. W. Carraway, the genial, whole-hearted agent and correspondent of the *News and Observer*, was in the city to-day.

Mr. Bruce Williams, of Pender county, arrived in the city last night. We are glad to hear that Mr. George W. Huggins, who has been confined to his house for several days on account of an affliction of his eyes, is in a fair way of recovery. He was able to be but for a few moments yesterday afternoon, and the prospects are favorable to his speedy restoration to health.

Burglary.

About 2 o'clock this morning Mrs. Junius Mallard was awakened by an unusual noise in the house, which is on Chestnut street, between Eighth and Ninth, and feared that there was a burglar in the room and that the noise was occasioned by the accidental, or providential, falling of a trunk lid, which had slipped from the burglar's hand as he was in the act of pilfering the contents of the trunk. She at once gave the alarm, and her son, who was sleeping in an adjoining room, rushed out, but the scoundrel had made his escape through the window by which he had entered. He got nothing, although he captured a dress, but dropped it upon the piazza. Mrs. Mallard could not identify the unwelcome visitor, although she saw distinctly enough to know that he was a colored man. Mr. Mallard was absent from home at the time.

Every Farmer ought to get a "Boy Clipper Plow," greatest invention of the age. JACOBI is the Agent.

The Mail Robbery.

Col. E. R. Brink, Postmaster here, has received a letter from Postmaster Hamblin, at Magnolia, telling him that the mail pouch lost in the alleged robbery on the 10th inst., has been found with the letters remaining in it, but the registered package missing. It is rumored that there was a considerable amount of money in this package. There is no clue, as yet, to the robbers.

Yesterday's Excursion.

There was a large attendance yesterday on the excursion given by the members of St. Thomas' church, on the *Passport*, and the occasion was in every way enjoyable. It was a delightful day in every way. There was music by the harpers and the dancing was kept up almost continuously. It was a tired crowd which disembarked last night but it was one which could boast of a day of rare pleasure.

Won the Prize.

By dispatches received in this city to-day, we learn that in the trial of steam fire engines at Newbern, this forenoon, the Little Giants, of this city, won the prize. The time occupied from the sounding of the gong until the horses were harnessed, steam gotten up and a stream thrown through 50 feet of hose, was 4 minutes and 26 seconds. We did not learn what were the competing companies, but they were probably the *Atlantic*, of Newbern, and the *Eclipse*, of Goldsboro.

New Uniforms.

The new summer uniforms for the police have been received and were donned for the first time this afternoon, although it was not expected that they would be given out until to-morrow. They consist of coat, waistcoat and trousers, all of dark blue cloth, and the coat trimmed with police regulation buttons. New helmets of light brown color have also been received and will be worn with the uniforms. The helmets were furnished by A. Tower, of New York, and the uniforms by A. David, of this city, and the whole presents a very neat appearance.

The Clarendon Club.

The Clarendon Base Ball Club was organized last night, as follows: President—J. D. Hedrick. Vice President—E. E. Turlington. Captain—W. H. Grant. Ass't Captain—J. D. Hedrick. Secretary and Treasurer—A. W. McDougall.

This club will challenge the Old North State for a game on Friday next, at the Athletic Grounds, at 3:30 p. m.

The Retiring Committee.

The thanks of the Democratic County Convention, held here on Monday last, as tendered the retiring County Committee were appropriate and well-timed. We desire to add our note of appreciation. The gentleman forming this committee have worked faithfully and earnestly in all matters entrusted to their charge and the result of their labors was plainly visible in the last campaign. Mr. Boney, the chairman was ably and earnestly seconded in all of his efforts by the gentlemen of the committee and in resigning the cares and duties of an onerous office they can do so with the proud consciousness of having promoted to the best of their abilities, the important trusts confided to them.
