The greatest mortality prevailed among children. There were 8 deaths from cholera infantum, 5 from measles, 3 from dysentery consequent from measles, and 5 from consumption. The number of deaths caused by bad sanitary conditions were very few, showing that our efforts for the prevention of disease have been attended with good results.

**Sick in Baltimore.**  
We regret very much to hear of the serious illness of Mrs. James A. Willard, of Baltimore, recently of this city. All that is known is through the medium of a telegram received here yesterday stating that she was very ill and calling for a relative here to go to her bedside. No further news was received to-day and it is earnestly hoped that the condition of the sick lady has improved.

The Board then adjourned.

We would again remind our country friends that while fruit of all kinds, especially apples and peaches, may be plentiful with them it is very scarce with us and commands high prices. So send it along.

**Fine Fruit.**  
Mr. H. S. Alderman, of Pt. Caswell, gave us the pleasure of a call this morning and left upon our table some of the finest apples we have seen this year. They were raised on the farm of his father, Mr. Owen Alderman, near Pt. Caswell, and were of two varieties the June Sweeting, a deep red, and a striped apple with no special name. Both were very beautiful in appearance and finely flavored.

**In a Blaze.**  
A couple of young gentlemen were seated last night in the room of one of them, on the corner of Front and Market streets, when by some accident the lamp was turned over and the kerosene running out was at once ignited and for a few moments there was danger of a serious fire. The flames, however, were speedily extinguished by the young men, doing no further damage than to break a lamp and create a big scare.

**County Commissioners.**  
The regular monthly meeting of the Board of County Commissioners was held yesterday afternoon, present, H. A. Bagg, Esq., Chairman, and Commissioners Pearce, Moore and Montgomery.

The matter of convicts for larceny at the County Work House was ordered to be left to the Chairman to make such disposition of as may seem to be to the best interests of the county.

Mr. W. S. O'B. Robinson, Solicitor of the U. S. District Court for the Eastern District of North Carolina, arrived in the city last night and registered at the Purcell House.

Mr. J. T. Collins, of Burgaw, who is here to-day, gives very encouraging reports of the crops in his locality. There has been a great deal of rain, but no serious damage has resulted.

Ex-Judge George V. Strong, of Raleigh, arrived in the city this morning. He will go hence to Wrightsville Sound where will remain about a month to enjoy the invigorating breezes of the ocean, at the residence of his son-in-law, Norwood Giles, Esq., from Mr. H. Vollers, of Point Caswell, who was also in the city to-day, we are glad to learn that although there has been a great deal of rain in that section yet that thus far no serious injury has been sustained and that the crop prospects continue very bright.

Mr. John H. Clark, of Clarkton, was in the city to-day, and we are sorry to learn that the recent rains have very seriously affected the crop prospects in his neighborhood. There were very heavy rains there last Sunday and they left pools of water in the low places in the fields which have resulted in parching the roots of the corn and cotton and thereby causing a very serious injury. Potatoes are promising well.

**Important Meeting.**  
The Historical and Scientific Society, of this city, met last night, at which much important business was transacted. Among other matters it was decided that the Society should make an exhibit at which all the early and late plans of the city should be placed in order to show its development, accompanied by photographs of places and buildings of historic interest. All persons who feel an interest in the matter and are willing to help the object are invited to communicate with Mr. E. S. Martin, the President of the Society.
