HANG IT, MARIA!

Why don't you buy my shirts ready-made? What's the use of wearing your eyes out over fine needle work, and breaking your back trying to save a few cents? I don't see the savin' of it. Why, you can buy shirts now-a-days for very little more than the cost of material. Look at this "DIAMOND" I've just bought. I say, Maria, I am going to buy a dozen more right away.

IN MOCKERY.

The fire of sunset fading out
Released the languid light,
And silence for a moment leaned
Against the heart of night.

A little space * * then sound-awoke,
A bird note by a rill,
In mimicry of mortal rage,
The lonely whip-poor-will!

Is there a sermon in his song
For trivial souls or great,
Of half satiric sadness born—
A travesty of hate?

THE CANDIDATES.

ATTORNEY-GENEAL.

T. F. Davidson.

Mr. Davidson is the son of Col. Allen T. Davidson, now a prominent lawyer of Buncombe county, a member of the first Confederate Congress. He was born in Haywood county in the year 1845. In early infancy his parents removed to Cherokee county, where they remained until the beginning of the war, the subject of this sketch in the meantime having been sent to the school of Col. Lee at Asheville, where he received all the scholastic training he ever enjoyed. It had been resolved by the father that his son Theodore should enter the Navy, and he held an appointment to the Naval Academy at Annapolis. But meanwhile the war broke out, and with youthful enthusiasm he joined a company raised in Buncombe, the first company from west of the Blue Ridge, and went to the field, his company being attached to the first (or Bethel) Regiment. He was afterwards transferred to the Thirty-ninth, of which Colonel David Coleman had the command. In 1863 he was placed on the staff of General Robert B. Vance, where he remained until the war closed.

After the close of the war Mr. Davidson applied himself to the study of law, and was admitted to practice in 1867. His rise was steady, if not rapid; though measured by the flight of years, it may be called sufficiency rapid, in view of the reputation so early acquired. Ardent in his nature, pronounced in his opinions, it was unavoidable that Mr. Davidson should take a very pronounced stand in politics. The condition of the country permitted of no neutrality. Mr. Davidson was too brave and candid a man to covertly support the Democratic party, to be successful, must be aggressive. He developed noble qualities for leadership, and in his capacity of chairman of the Democratic Executive Committee of Buncombe county, which position he held for eight years, he did more to create and perfect a thorough local organization of the party than had been before, or has since been attained. He was also, as his capacities became more largely known and recognized, for six years the chairman of the Democratic Executive Committee of the Eighth (now the Ninth) Congressional District.

It was not possible that a man so thoroughly equipped with all the armor and weapons of political service would be long excluded from the public councils of the State, and accordingly Mr. Davidson was sent in 1879 to represent the Fortieth District in the State Senate, and was returned in 1881. His services in that body were eminently great and useful to his section and to the whole State. He was placed on several committees in the session of 1879, being chairman of the Committee on Corporations, and a member of the Committee on the Judiciary and of Internal Improvements. In 1881 his legal reputation and his sound judgment pointed him out as worthy of higher honors, and he was made chairman of the Committee on the Judiciary, admitted to be the most important and responsible committee in either House; at the same session he was also a member of other committees.

Profoundly impressed with the necessity of such railroad legislation as would hasten to its completion the great work of the Western North Carolina Railroad, begun auspiciously years before, but halting and embarrassed by a renewed succession of difficulties; and also with enlarged and liberal views to the relief and advancement of the interests of the whole State, he gave to the attention and untiring industry to such propositions as involved the completion of the Western North Carolina Railroad. In his professional character, he gave able legislative aid to such wise and important questions as improvement in the law of evidence and practice, to the codification of the laws, to the creation of a railroad commission and other measures calling into action both the concern and the ability of the statesman, in all of which Mr. Davidson placed himself in the front rank of his co-peers.

Upon the creation of the Inferior Court of Buncombe county Mr. Davidson was made chairman of that body. The jurisdiction of this court being given to relieve the Superior Court of its overburdened docket, brings to its cognizance a very large class and a number of cases not capital, involving in their disposition a weighty degree of responsibility, of judicial knowledge, and of inflexible firmness; and under the administration of the present chairman, that court has attained a dignity and an authority only inferior, as influenced by more limited jurisdiction, to that of the Superior Court itself.

Mr. Davidson, now in the very prime of life, in the vigor of health, in the flush of well-deserved reputation, with most exemplary private character, still a young man, may justly be regarded as one of the young men coming forward to wear the mantle and bear the burden of that generation of worthies which shall soon pass away; but passing away, to leave their places well and honorably filled.

ASSOCIATE JUSTICE.

Augustus S. Merrimon.

In the judicial annals of North Carolina there is no name that ranks deservedly higher than that of Augustus S. Merrimon. As Barrister, Senator or Judge he has filled every position well.

Judge Merrimon was born in Buncombe county, September 15, 1830, and is consequently in his fifty-fourth year. He was admitted to the bar as a practicing attorney in 1851. After filling the office of County Attorney in several of the Western counties, he was elected a member of the Legislature of 1860 '61. In the latter year he was elected Solicitor of the Eighth Judicial District and served until 1865. In 1866 he was appointed by the Legislature a Judge of the Superior Court, which position he held until August, 1867, when, rather than obey the mandates of a military tyrant, sitting as a civil judge, he resigned, and returned to the practice of his profession. In 1872 he was nominated for the office of Governor, but was defeated in a heated contest and by a close vote by Governor Caldwell. On December 3, 1872, he was elected by the Legislature to the United States Senate to succeed John Pool, and took his seat March 4, 1873. At the expiration of his term of office he again resumed the practice of law.

On September 29, 1883, Judge Merrimon was appointed by Governor Jarvis to fill the unexpired term of Judge Ruffin resigned, on the Supreme Court bench. His appointment gave great satisfaction throughout the State.

His unanimous nomination to this office by the State Convention was a fitting tribute to his great abilities. His name will undoubtedly add great strength to the ticket.

To most children the bare suggestion of a dose of castor oil is nauseating. Why not, then, when physic is necessary for the little ones, use Ayer's Cathartic Pills? They combine every essential and valuable principle of a cathartic medicine, and being sugar-coated are easily taken.

Cheerful Conversation

is one of the pleasantest amenities of life. But a fluent talker whose "gems of thought" drop from lips which disclose yellow teeth going to rack and ruin, makes less impression than he or she otherwise would. Bear this in mind, conversationalists, and lend added force to your utterances by keeping your teeth white and pure with SOZODONT, wholesomest and most thorough of tooth preparations, which removes tartar, renders the gums healthy and purifies the breath.

NEW ADVERTISEMENTS.

By the Light of Day.

PAST IMPOSSIBILITIES THE FACTS OF THE PRESENT—HELP IN THE NEW ERA.

"I remember when they were putting up the poles for the first telegraph line in the State of New York, and now look there!" exclaimed a citizen of the metropolis to his friend, as the two stood on the summit of the tall Equitable Building in Broadway. "The city is strung with wires like a harp, and electric communication is the daily miracle of the world. People no longer wonder and laugh at it as they did at Morse when he first suggested its possibility."

The age marches on and prejudice must give way. Nobody has a monopoly of truth. Even the conservative guild of physicians admit that the secrets of medicine are shared by all men. I dressed his wound and God healed him," said old Galen. Once that terrible disease, Rheumatism, was supposed to be a shiftless, local ailment, now attacking the joints and now the muscles. To day it is demonstrated to be a disease of the blood.

Mrs. Henry Bogert, of No. 434 Atlantic Avenue, Brooklyn, N. Y., writes to Messrs. PARKER'S TONIC, that "she had been completely disabled from Rheumatism and pain in the back and limbs. She was advised to take the Tonic for Kidney disease. She did so, and her Rheumatism disappeared. The reason is simple. Diseased Kidneys produce rheumatic symptoms. Cure them and you destroy Rheumatism. This is now admitted by all intelligent physicians. It is the new light thrown on their time worn and mistaken theories."

PARKER'S TONIC which is a combination of the best remedies for the blood known to science, is universally successful in combating this terribly common complaint. Those who, like Mrs. Bogert, suffer from Kidney or Liver diseases or any complaint arising from impure blood, will find the Tonic a prompt and certain remedy. Prices, 75c. and \$1 per bottle. The larger size the cheaper.
