Alexander Sullivan, President of the Irish National League of America, says that his determination to refuse a reelection is unalterable.

Senator Edmunds is said to be living in absolute retirement at his home in Burlington, Vt, going out very little and avoiding publicity as much as possible.

Lieutenant Greely weighs forty pounds more now than he ever before weighed. He is so weak, however, that he can barely crawl up stairs, and his muscles refuse to harden.

John Daly, who was recently arrested at New York for displaying two revolvers, a knife and brass knuckles was discharged on the ground that he was from Texas and did not know any better.

General Beauregard, the first great commander of the Southern Confederacy, is to-day one of the straightest figures on Canal street, New Orleans. He is of short stature, with white hair, mustache and imperial, and notwithstanding his advanced years, is as nimble and cheerful as many men years his junior.

Brooklyn has the largest tin box factory in the country. A feature is the manufacture of decorated tinware. This consists of tin plate on whose surface there is a picture or other design. The work is done by a tin lithographing press similar to that employed upon paper. The decorated ware costs but a trifle more than the plain, and is in great demand.

Plans have been proposed for a ship canal across Ireland from Dublin to Galway—a distance of 197 miles. The estimated cost for ocean ships of various sizes is as follows: For ships of 1,000 tons, \$40,000,000; for ships of 2,000 tons, \$60,000,000; for ships of 3,000 tons and upward, \$100,000,000. The plans have been prepared by a London engineer, assisted by Captain Eads.

A white child, 10 years of age, who cannot write his name is by some supposed to be a rarity in this country, but tables prepared by Dr. Charles Warren and issued by the Bureau of Education prove that such children numbered more than half a million in 1870 and nearly six hundred thousand in 1880. Thirteen white children out of a hundred in the year 1880-escaped the combined influences of church, day school, Sunday school and family teaching.

VOL. VIII. WILMINGTON, N. C., SATURDAY, AUGUST 16, 1884. NO. 195

Here is all there is of the Blaine scandal libel matter, so far as it has gone. Those who do not want to read it can skip to the next column:

INDIANAPOLIS, Aug. 14—On the 8th inst. the *Sentinel*, of this city, contained an editorial article charging that Blaine had seduced his present wife in Kentucky and then fled to Maine; that the young woman and her father followed him, and that he married her at the point of a shot gun. This having reached Mr. Blaine, he sent the following dispatch:

BAR HARBOR, Me., Aug. 14.  
 Col. W. R. Holloway:

I have this moment received the atrocious libel of the Indianapolis *Sentinel*. It is utterly and abominably false in every statement and in every implication. Political slanders I do not stop to notice, but this editor assails the honor of my wife and my children. I desire you without an hour's delay to employ the proper attorney and have the responsible publisher of the *Sentinel* sued for libel in the United States District Court of Indiana. It is my only remedy. I am sure that honorable Democrats alike with honorable Republicans will justify me in defending the honor of my family, if need be with my life.

JAMES G. BLAINE.

Col. Holloway placed the matter in the hands of Senator Harrison's law firm, and this evening they filed the following complaint with the Clerk of the United States Circuit Court:

James G. Blaine, plaintiff, agt. the Indianapolis *Sentinel* Company and John C. Shoemaker, defendants, for libel. James G. Blaine, plaintiff, above named, a citizen of the State of Maine, complains of said defendants of the Indianapolis *Sentinel* Company, a corporation created by and under the laws of the State of Indiana, and a citizen of said State, and John C. Shoemaker, who is also a citizen of said State of Indiana, and says that the defendant company is owner and publisher of a daily newspaper called the Indianapolis *Daily Sentinel*, which is printed and published at the city of Indianapolis, in said State of Indiana; that the defendant, John C. Shoemaker, is President and business manager of said company, and, as such, directs and controls the publication of said newspaper; that on the 8th day of August A. D., 1884, said defendants, wickedly intending to injure, defame, and scandalize plaintiff, did maliciously print and publish in the regular daily issue of said paper for that day, of and concerning plaintiff, a certain false, scandalous, and defamatory article in the words following:

Caceres, the Peruvian general, has taken upon himself the supreme power of the State.

The Island of Ceylon has made remarkable progress during the last 50 years. Its revenue in 1837 was only £372,000 and its population did not exceed 1,500,000. Last year its revenue was £1,300,000 and its population nearly 3,000,000. Nine years ago it exported only 19,000 pounds of Cinchon bark, while the amount exported last year was 7,000,000 pounds. The number of Buddhists in Ceylon is 1,700,000; of Hindus, 600,000; of Mahomedans, 200,000; of Roman Catholics, 220,000; of Protestants, 50,000.

He was taken sick on Tuesday last, but was not considered seriously ill until yesterday, when he grew rapidly worse until death ensued this morning, as stated. The deceased was a native of Carteret county and has been a resident of this city about two years. He was about 30 years of age and leaves a wife and one child who were absent from the city when the sad event occurred.

**The Druggists.**  
 We condense, from the *Charlotte Observer*, the report of the proceedings of the second and closing day of the druggists' convention held in Charlotte this week:

 The committee on exhibits made their report, which was received, and the committee discharged from the further consideration of the subject.  
 The president appointed the following named delegates to the American Pharmaceutical Association, which holds its annual session at Milwaukee, Wis., August 26th, 1884:

 H. R. Horne replied to query No. 4 which was to "what extent, if any, are pharmacists justified in manufacturing or endorsing proprietary preparations, the compositions of which are kept secret," stating that in his opinion pharmacists were justified in supplying the legitimate demands of their customers. In reply to query No. 10, "hollow suppositories claiming to be made from Cocoa butter, and from gelatine, are now much advertised and to some extent used. Will their use attain the objects intended in rectal medication, and would this method of dispensing suppositories or prescriptions be legitimate?" Dr. V. O. Thompson read an instructive paper which was ordered to be published in the proceedings.  
 Query No. 14 "It is asserted that the foreign quinines are not as pure as the American" was answered by Dr. W. H. Green in a paper taking ground that certain brands were as pure as the American brands.

**A Horse Fish.**  
 We were shown this morning, by Mr. S. Van Amringe, Superior Court Clerk, a marine curiosity which is popularly known as a horse fish. Its head, neck and shoulders very much resemble those of the ordinary horse, while it has a tail shaped something like that of a lizard. It was about three inches in length, was caught in a shrimp net at Masonboro, and was indeed a curiosity.

**City Court.**  
 The following cases were brought up for the Mayor's consideration this morning:  
 Henry Burnett, for allowing his hogs to run at large in violation of the city ordinance, and for resisting an officer while in the discharge of his duty. On the first charge a fine of \$10 was imposed, but the judgment was suspended until another complaint of the same character should be made. Judgment suspended as on the latter charge.  
 Frank Abraham, a white sailor, and Louisa Waddell, a colored damsel of the Hollow, for being drunk and disorderly on Front and Chestnut streets, were the next parties. The former was fined \$3 and the latter \$5 for the offense.

The receipts of cotton at this port to-day foot up 4 bales.

An important meeting of the Ladies' Memorial Association will be held in the school room in rear of St. James' Church on Monday afternoon, at 5 o'clock.

**Wants to Compromise.**  
 Pompey Sneed has been heard from again, and this time through the medium of the U. S. mails. A gentleman found in his box at the Postoffice this morning the following, addressed to the "Wilmington Board." It is an offer of "compromise" and we give it verbatim:  
 What did you outlaw me for i have a member who join my gang tuesday last who holds that he kill a man last saturday night in fred hawes bar White fred hall and John gibson was in a fight gibson on hall he in the act of parting them take his chance and cut gibson I am Pompey sneed and this man join our gang.

**Stealing Extraordinary.**  
 Mr. N. Hullen, who keeps a grocery on the corner of Red Cross and Fourth streets, bought a nice new, two story chicken coop yesterday afternoon and set it down just outside the door on the sidewalk for a short time while he could make arrangements for placing it in the yard. Just after dark he was called away from the store for a few moments and when he returned he found that some one had stolen the coop during his absence. Fortunately there were no chickens in the coop. It was taken right in the busy hours of the evening when hundreds are passing every hour, yet not a soul saw the robbery.

**The State Exposition.**  
 The North Carolina Exposition will be opened at Raleigh on Wednesday, the first day of October next, and will continue until the 28th of the same month. There will be 45 days between now and the time of the opening during which time much may and will have to be done to make the Exposition what it should be and what its promoters and friends hope that it will be. Appropriations have been made for county exhibits by 30 counties. A combination of counties known as the "Albemarle section" has been formed which embraces 13 counties, and another combination known as the "Newbern Association" will represent 5 counties, while 9 counties will be represented through individual effort. This will make 57 counties which will be represented in the Exposition. It is very probable that other counties will take such action as will give them representation as the time for the opening approaches, although there will be much to do and little time to spare. New Hanover is one of the counties which will be represented and we trust that those interested will be energetic and active in making her part of the Exposition attractive and creditable.
