DEMOCRATIC TICKET.

Election Tuesday, Nov. 4.

FOR PRESIDENT: GROVER CLEVELAND, of New York.

FOR VICE PRESIDENT: THOMAS A. HENDRICKS, of Indiana.

FOR GOVERNOR: ALFRED M. SCALES, of Guilford.

FOR LIEUT. GOVERNOR: CHARLES M. STEDMAN, of New Hanover.

FOR SECRETARY OF STATE: WILLIAM L. SAUNDERS, of Wake.

FOR STATE TREASURER: DONALD W. BAIN, of Wake.

FOR AUDITOR: W. P. ROBERTS, of Gates.

FOR ATTORNEY-GENERAL: THEODORE F. DAVIDSON, of Buncombe.

FOR SUPERINTENDENT OF PUBLIC INSTRUCTION: S. M. FINGER, of Catawba.

ASSOCIATE JUSTICE SUPREME COURT: A. S. MERRIMON, of Wake.

FOR ELECTORS AT-LARGE: W. H. KITCHEN, JOHN N. STAPLES.

FOR CONGRESS: R. T. BENNETT, of Anson.

ELECTOR, SIXTH DISTRICT, ALFRED ROWLAND, of Robeson.

It is possible that the New York papers are devoting too much time and type to Beast Butler and too little to Mr. Blaine.

Thirty thousand two-horse trucks are employed in the business of New York City. Upward of \$20,000,000 is invested in this industry.

Actually, if we were a betting man, we would not take a bet of two to one that Cleveland will carry New York by 100,000 majority.

The Fifth Avenue Theatre, New York, rents for \$25,000 a year; the Thalia; owned by the Astors, brings \$30,000; Harrigan and Hart's rents for \$15,000; the Madison Square \$14,000, the Fourteenth-street Theatre \$1,000 a month.

Capt. Renard's alleged discovery of a satisfactory method for steering a balloon in adverse currents is generally discredited. It is rumored that the British military authorities will shortly test at Aldershot a new aerial warship, the invention of a German now a citizen of America.

Cleveland stock seems to be steadily on the boom. It has been getting better and better ever since the almost simultaneous publication of Cleveland's letter of acceptance and the publication made by Cook-eyed Beas Butler, the spoon-thief of New Orleans, and the hero of the Fort Fisher fizzle.

The blue-grass mania still possesses Pleasanton, and he is going to prove by ocular demonstration at the Pennsylvania State Fair that three-year-old colts reared under it are as big as ordinary colts at five, and that all sorts of animals become larger and more prolific. But there is not likely to be a blue-glass craze twice in a generation.

The Rev. Dr. Henry M. Scudder, of Chicago, who was for many years a missionary in India, expresses the opinion that "for undisplayed wickedness and utter moral depravity no city of Asia could equal Chicago or New York," and that this continent has a class of villians "lower and meaner than the lowest and meanest in India and China."

The Daily World, of Nashville, Tennessee, says: "The rapid improvements in the many ills to which the human race is heir, can be attributed to but one source, and that is the world renowned St. Jacobs Oil. Price 50 cents."

Now is the time to give Smith's Worm Oil.

The Republican Committee are said to be seriously embarrassed for the want of funds. A dispatch from Washington to the New York World says:

It is pretty evident that the Republicans find little success in their search for campaign funds. The cry for money is coming in to the committee every day and there seems an utter inability to meet the demand. All applicants go away disappointed. This is the occasion of a great deal of growling and dissatisfaction on the part of candidates in close Congressional districts. The New York financiers absolutely refuse, it is said, to make big political contributions. They look upon it as a poor investment at this time. The little money the Republicans get out of the Government clerks and from other sources will not amount to much. Even documents that used to be given away in the greatest quantities must now be paid for and every means possible to bring in money or save it is resorted to.

It has been the custom of the Republican Committee to purchase a few of McPherson's hand-books for distribution. This year they cannot afford to do so, and every one is told, if they want it, where the book may be procured for \$2. This state of affairs makes the Republicans blue. Congressman Taylor, of Garfield's old districts, was here to day and frankly admitted that the Republican chances in Ohio were slim without more funds.

Everybody in want of Paints, White Lead, Glass &c., should go to JACOB'S.

There was no City Court this morning, and no tramps were lodged at the guard house last night.

At 3 o'clock this afternoon the thermometer in this office registered 88 degrees.

The finest straw hats can be had at Dyer's for only one dollar. Some hats worth \$2.50 have thus been reduced in price.

Nor. barque *Deodata*, Anderson, cleared to-day for London with 1,350 casks spirits turpentine and 1,423 barrels rosin, valued at \$21,686, shipped by Messrs. Paterson, Downing & Co.

We publish the electoral vote of the several States on our editorial page to-day and advise all our readers who are interested in political matters to preserve it for reference.

Quite a number of our people have gone to Still Bluff to-day to attend the annual dinner given at that place by the farmers of Caintuck township, Pender county, and to hear the political addresses that will be made there.

There will be a Grand Ball at Stokley's Pavilion, at Wrightsville, on Friday evening next, at which there will be good music and refreshments. As it will be in the night after the regatta there will undoubtedly be a large attendance.

There will be a meeting of the Young Men's Democratic club at the City Court Room to night, and it is hoped that there may be a full attendance as important business will be transacted. Turn out, young Democrats, and make the meeting a rouser!

The "Fitch Process" is being used on some of the passenger coaches belonging to the Wilmington & Weldon R. R. at the company's shops here. This is a liquid applied to the plush on the seats, which takes out grease, smoke, etc., restores the colors, making the cloth look like new, and is done without removing the upholstery, in about ten hours. Chas. H. Fitch, the inventor and proprietor, commenced in 1863 operating on a coach for Jay Gould, then President of the Rutland & Washington R. R. in Vermont, and his process is now used on the cars of nearly every railroad in this country.

Nearly Ready.
The steamer *Wade*, having been repaired sufficiently, steamed up the river to Fayetteville last week. She will remain at the latter place until she can have some necessary finishing touches put upon her, when she will resume her regular trips as a freight and passenger boat on the river. The misfortune which befel her was serious and her owners are to be commended for the energy displayed in raising her and having her repaired so well and so quickly.

New Cotton.

The receipts of cotton at this port to-day foot up 2 bales, both of which were of the new crop. One bale was shipped from Red Banks, Robeson county, and the other from Laurinburg. Messrs. G. W. Williams & Co. and D. L. Gore were the consignees in this city. The cotton classed as middling.

Interesting Meetings.

An interesting series of religious meetings are now in progress at Brooklyn Hall. They were commenced last night and a good degree of spiritual earnestness was manifested. Several of those present asked for prayers and the entire feeling seemed to be earnest, deep-seated and healthful. There will be another meeting to-night and they will probably be continued through the entire week, possibly longer.

Tearing Down.

For several days workmen have been employed in putting up steps and making an entrance on the North side of the National Bank Building, and that job having been completed, they are now at work in taking down the steps of the former entrance on the sidewalk, on Front street. It is rather slow work, but when completed will make a decided change in the appearance of that portion of Front street.

The Lawn Party.

We hope that there may be a large attendance at the Lawn Party in aid of the North Carolina Confederate Home, which will be given at City Hall Park to-morrow night under the auspices of the Ladies Memorial Association. The object is one of the most worthy and the ladies having the matter in charge will spare no pains to make the evening pass delightfully to all who visit the Park. There will be excellent music and a plenty of refreshments of the best quality and at city prices.

That Puzzle.

It is safe to say that at least one half of the intelligent citizens of Wilmington were engaged last night in either discussing or endeavoring to solve the puzzle published by us yesterday. We have had lots of people tell us of the amount of time they devoted to the attempt but we have yet to hear of any one's success in that line. If anybody has solved it we would be glad to hear from him and will publish the solution. But we hardly expect a response.

Excursions.

The excursion yesterday of the congregation of St. Thomas' Catholic Church, to Smithville and the Forts, on the *Passport*, was well attended and the party was blessed with delightful weather. There was a good time generally, with plenty to eat and drink, good music and a company of ladies, gentlemen and children who were determined on a day of enjoyment.

The excursion to Smithville and the Forts to-day on the steamer *Passport*, under the auspices of the ladies of Front Street M. E. Church, was well attended. The excursionists have had fine weather during the day, and there is hardly a doubt that they have had a good time.

The excursion to Smithville and the Forts on the *Passport* to-morrow, gotten up under the auspices of the Second Baptist Church, will undoubtedly be a pleasant affair and will be well attended. If the weather holds as it is now the excursionists will have a delightful day, which they will fully appreciate and enjoy.

Germania Lodge, K. of P., will give a grand family excursion to Smithville and the Forts on Wednesday, Sept. 3d. It will be one of those pleasant occasions which our German fellow-citizens know so well how to arrange and conduct, and will, without doubt, be largely patronized, as it will deserve to be.

Diphtheria.

We don't want to run counter to the doctors, by publishing anything that may work injury where benefit is intended, but the following remedy for diphtheria in its earliest stages, which is said to bear the stamp of high medical authority, can do no harm while it may prove beneficial. We give it for what it may be worth:

At the first indication of diphtheria in the throat of a child, make the room close. Then take a tin cup and pour into it a quantity of tar and turpentine, equal parts. Then hold the cup over the fire so as to fill the room with the fumes. The little patient, on inhaling the fumes, will fall asleep and when it wakes it will cough up and spit out all the membranous matter, and the diphtheria will pass off. The fumes of the tar and turpentine loosen the matter in the throat thus affording the relief that has baffled the skill of physicians. The remedy is simple and parents should out this out and preserve it.

Robbery.

The residence of A. Bryant, colored, on Fourth street, was entered on Saturday night last at about 8 o'clock, while the elder portion of the family were absent temporarily, and a trunk was forced open and \$15 and Bryant's best suit of clothes were stolen. There is no clue to the thief.

Nearly Finished.

The improvements which have been in progress for the past two weeks at Heinsberger's Book and Music Store have been nearly completed. The brick wall between the two stores has been removed and heavy wooden columns introduced to support the floor overhead. The store is now in one large, airy and well-lighted room, making it much more convenient, both for the buyer and salesman. The dust incident to the change has been removed and now the painter and kalsomizer are putting on the finishing touches.

Don't Bet.

We hear of one of our business men who has three hats wagered on Cleveland's election. Of these two are that New York will go for Cleveland and the other is on the general result. The same gentleman, who is an earnest, out-and-out Democrat, has also wagered a ten cent cigar that Cleveland will not get more than 904 of the electoral votes. He makes this last wager probably because he wanted to give a good man a good cigar. Now, we are opposed to gaming of any sort, and especially are we opposed to betting on political results, but, if you are determined to bet and desire to win Cleveland is your man every time.

Bicycle Race.

We understand that a young man living at Rocky Mount has challenged one of our best bicyclers for a race for a stake of \$50, the trial to be from this city to the Sound. The challenge has been accepted and the race will probably come off at an early day. This will prove an exciting event in our city and will be apt to draw a large crowd to witness the contest. Bicycling has become a popular exercise and we are glad to note its increasing popularity. It is, aside from its economy of time in traveling, a decidedly healthful exercise, without fear of the dangerous consequences which attend many of the out-door sports of the day.

M. B. B. C.

We saw on exhibition at Heinsberger's Live Book and Music Store to-day, a block of marble a foot square, which is designed as a home base for the Mechanics Base, Ball Club, of the city. On the upper portion of the ispace of the tablet is the bared arm of a mechanic, the hand grasping a mallet. Underneath this and in the center of the block is the legend:

M. B. B. C.
and below this is a pair of bats crossed with balls between the crosses. It is a neat affair and was gotten up at the marble works of Mr. John Maunder, on Front street.

Suspicious.

Eliza Deyane, colored, had a preliminary examination before Justice Hall this morning. She was discovered a few days since in the house of Mrs. Martin, on the Southwest corner of Dook and Sixth streets, at a time when the family were absent, and when arrested claimed that she had been sent there to work by a colored man whom she did not know. In her examination this morning she made conflicting statements regarding herself, but identified Dick Herring, a colored wood sawyer, as the man who gave her the keys to the house and put her at work. On the other hand Herring positively denied ever having seen her before. She was locked up for further examination.

The Yachts.

The trial of speed of the yachts *Rosa* and *Mascotte* will not be a race between the two crafts, as has been generally supposed, but simply a trial to see how much can be gotten out of them, or, in other words, to make a test of their qualities. No challenge for a race has been made, but the owner of the *Rosa*, Capt. Pembroke Jones, as well as the owner of the *Mascotte*, Capt. W. L. Parsley, have become impressed with the idea that their respective yachts have not been tested to their utmost capacity, and they will sail them to-morrow in order to try them in every manner possible. It will undoubtedly prove an interesting and intensely exciting trial and will draw a large crowd to witness the manœuvres and to note the result.

For the Sound.

Capt. Bowdoin, of the steam dredging machine, has just had built at the millyard of Mr. J. W. Taylor a steam yacht, which is to be placed in the waters of Wrightsville Sound, where she will be used in conveying passengers from Wrightsville to the beach. The little craft has been built expressly for this business, and is now only waiting for her boilers. She will draw but about 8 inches of water.

Special Notice.

The lawn party in aid of the Confederate Home will be held in the City Hall Park, to-morrow, Thursday, evening. All persons who have promised refreshments will please send them to the City Hall in the afternoon. The committee of arrangements beg that the members of the Memorial Association and all the ladies of Wilmington, who are interested in the cause and object for which the lawn party is given, will please meet at the City Hall to-morrow at 10 o'clock, and in the afternoon at 3 o'clock, to assist in beautifying the grounds.

Personal.

Maj. James H. Hill, General Baggage Agent of the Associated Railways, is in the city to-day.

Rev. Dr. Pritchard is expected to return to the city in season to occupy the pulpit of the First Baptist Church on the first Sunday in September, which will be in one week from next Sunday.

Mr. J. C. Chase's family are in New Hampshire, near Manchester. The day they arrived there, about one week ago, the thermometer was up to 100 in the shade, and on Monday there was a heavy frost in the same locality.

Mr. Sol C. Weill left here this morning for Chapel Hill. The fall term opens to-morrow and Mr. Weill will enter the Senior class, this being his fourth year, with the expectation of graduating next June.

Mr. Geo. H. Glass, Manager of the Wilmington Telephone Exchange, left here last night on a short visit to Richmond where he goes on business connected with the Exchange. He expects to return here early next week.

We invite the attention of our citizens to the fact that first quality shirts are being made to order at one dollar at the Wilmington Shirt Factory. tl.

WILMINGTON TELEPHONE EXCHANGE.

THE CALLING WIRES ARE BEING monopolized and business delayed by persons calling Exchange repeatedly instead of giving their numbers. Remember you have the wire grounded so long as lever is pressed down in call box thus preventing others from being heard distinctly by operator at Central Office. The response from Central Office should be that of tapping your bell, unless a question is to be asked, when you will be connected on the Manager's private wire. Your own number and that of party desired for communication should be given soon as lever is pressed down and the word Exchange should not be used unless in extreme cases that your bell does not respond to your order by giving your numbers you will enable the operator to tap your bell and get you from the call wire.

The operator cannot ascertain where the word Exchange is coming from until your numbers are given him. Those who are in the habit of calling in this way will relieve the business of confusion and delay by giving their numbers as soon as lever is pressed down and thus save the unnecessary use of the word Exchange, on behalf of subscriber and also by operator, which may sound to you short and impatient over the wire in his great haste to accommodate one and all.
