Warner's Clean Sweep.

ALBION, N. Y., August 26, 1884.—It is definitely settled that Bank Examiner Williams found nothing of value in the First National Bank safe, which A. S. Warner left locked when he fled.

Albionites were much surprised to-day to see W. R. Caulkins in the town. Caulkins said he had been accused of poisoning W. R. Burrows, in Boston.

A new phase of the poisoning has been developed. An old nurse of young Burrows named Botsford, who attended him for years while sick from drinking at home, says he does not believe that arsenic was ever administered at Boston.

Judge Burrows, who arrived here this morning from Richmond, Va., was to-day interviewed at length. He said: "I have been counsel for the estate in some matter since my uncle died, as I was for him before his death."

Judge Burrows was asked if any further steps would be taken in reference to the poisoning of W. R. Burrows. He said: "I don't know anything about that. I don't know what more can be done now."

The Deputy Comptroller of the Currency has appointed Henry J. Anderson receiver of the bank.

Before Foo-Chow.

PARIS, August 26.—The reports of the destruction of the whole Chinese fleet are confirmed. The French lost five men, including an American pilot, who was killed on board the heavily armed French war ship Volta.

The French are elated at the display of Chinese pugnacity, because it will conduct to protracted hostilities, in which case only the capture of Peking will effectually end the war.

Diplomatically there is very little change in the situation. Colonel Tchong Ki-Tong, Secretary of the Chinese Embassy still remains in Paris.
