

THE DAILY REVIEW.

VOL. VIII. WILMINGTON, N. C., WEDNESDAY, SEPTEMBER 3, 1884. NO. 210

THIS PAPER published every evening, Sundays excepted by JOSH T. JAMES, EDITOR AND PROPRIETOR. SUBSCRIPTIONS POSTAGE PAID: One year \$4.00; Six months, \$2.00; Three months, \$1.00; One month, 35 cents. The paper will be delivered by carriers free of charge, in any part of the city, at the above rates, or 10 cents per week. Advertising rates low and liberal. Correspondents will report any and all failures to receive their paper regularly.

The Daily Review has the largest circulation of any newspaper published in the city of Wilmington.

DEMOCRATIC TICKET.

Election Tuesday, Nov. 4.

FOR PRESIDENT: GROVER CLEVELAND, of New York.

FOR VICE PRESIDENT: THOMAS A. HENDRICKS, of Indiana.

FOR GOVERNOR: ALFRED M. SCALES, of Guilford.

FOR LIEUT. GOVERNOR: CHARLES M. STEDMAN, of New Hanover.

FOR SECRETARY OF STATE: WILLIAM L. SAUNDERS, of Wake.

FOR STATE TREASURER: DONALD W. BAIN, of Wake.

FOR AUDITOR: W. P. ROBERTS, of Gates.

FOR ATTORNEY-GENERAL: THEODORE F. DAVIDSON, of Buncombe.

FOR SUPERINTENDENT OF PUBLIC INSTRUCTION: S. M. FINGER, of Catawba.

ASSOCIATE JUSTICE SUPREME COURT: A. S. MERRIMON, of Wake.

FOR ELECTORS AT-LARGE: W. H. KITCHEN, JOHN N. STAPLES.

FOR CONGRESS: R. T. BENNETT, of Anson.

ELECTOR, SIXTH DISTRICT, ALFRED ROWLAND, of Robeson.

The average depth of the Pacific and Atlantic Oceans is 2,500 fathoms. Bottom has been obtained at 4,580 fathoms a short distance South of the Banks of Newfoundland.

Mrs. Skidmore, of New York, is one hundred and twenty years old, has had five husbands, has smoked the same pipe for fifty-five years, and was once kissed by George Washington.

Solutions of chloral should be kept in dark glass bottles. Sunlight decomposes it into chloroform. The change is not easily perceived, and has caused a number of accidents in the past five years.

Thirty New England farmers who are abundantly supplied with grasshoppers have discovered that a bushel of these insects boiled in salted water will make soup enough to last about a dozen persons a week. This dish is esteemed a great delicacy by the Piute Indians.

In the City of Mexico street cars are used for conveying the dead to the cemeteries. It does away entirely with the necessity for hearses and their accompanying hacks. The funeral car is appropriately fitted up to receive the coffin, and the mourners follow in passenger cars draped in black.

Le Matin, the paper started with a flourish in Paris a year ago as a branch of the London News, has been seized for debt. Apparently its backer tired of sinking in it any of the millions which came to him through marrying the daughter of Jayne, the patent medicine man.

M. Paul Bert, in the recent discussion in the French Chamber on the sanitary condition of the country, said that, next to Spain and Turkey, France was the most backward in sanitary matters. Making allowance for the increase in population, there were 6,000 more deaths per annum in Paris than in London, though the number of children under five years of age in London is more than double that in Paris.

Following is the comparative showing of the heights of the great statues of the world: Statue of Liberty (Bartholdi's) 220 feet; London Monument, 202; Nankin porcelain tower, 200; Arc de Triomphe, Paris, 160; Colonne Vendôme, Paris, 144; Trajan's Pillar, Rome, 120; Pompey's Pillar, Alexandria, 114; "Germania" Statue, 110; Charles Borromeo, 106; Colossus of Rhodes, 105; "Bavaria" statue 90; Statue of Memnon, 65.

It is not necessary for the force of an epigram that it should be strictly true. Lord Randolph Churchill, being asked what he thought of Irving, said: "I don't know that I should call him a great actor, but he is certainly a curious one." He is always Irving on the stage, and always Hamlet in private life.

The increased severity of the administration in Spain in collecting taxes is producing marked results. Much taxable wealth which hitherto evaded the tax gatherers is continually coming to light. The cases of defalcations in Madrid alone now exceed 2,000, and the evasions of direct taxation all over the peninsula reach a large amount.

This is the stanza of a song which threatens to rival the popularity of the "jingo" ballad of Disraeli's time in England, and John Bright joined with the twenty thousand in singing it at Manchester:

The naughty Peers must pass the bill,
And stand not in the way;
Peers over people must not rule
In this enlightened day.

It is an insult to the intelligence and decency of workingmen to call Butler their candidate. He has not a principle or an impulse in sympathy with labor. An insincere office-hunter and shameless demagogue he will get the vote of no working man who is not wholly misled, nor the vote of any intelligent person who does not look upon the Presidential canvass as a farce or a game.

When Hartmann, the Nihilist, was with Sophia Perovskaja (hanged in 1881) working at the mine, beneath a line of railroad, with the view of killing the Czar while passing, he became in need of funds to finish the work, and Sophia suggested that he pawn his watch, which he did for eight roubles. This absence of the watch caused him subsequently to make an error in the time of firing the match, and to this the Czar owed his life.

Soothing Influence.
Pains and inflammations resulting from severe injuries are greatly relieved and cured, at once, by the outward application of St. Jacobs Oil, the great pain-banisher.

LOCAL NEWS.

INDEX TO NEW ADVERTISEMENTS.

Attention Democrats
C W YATES—School Books
JOE H HART—Sea Side Park Hotel
HEINBERGER—Great Musical Wonder
TAYLOR'S BAZAAR—Closing Out Sale
HORACE M EMERSON—Strayed or Stolen
F C MILLER—Friends and Fellow-Citizens
MUNDS BROS. & DE ROSSET—Drugs and Patent Medicines

Ricebirds are high in price, but poor in quality.

It is said to be very delightful on the Sounds now.

Fullest assortment of Fishing Tackle can be found at JACOBI'S.

Rev. Dr. Patterson is expected to preach at St. John's Church next Sunday morning.

Scuppernong grapes are in good supply but they are too dear. They sell for 40 cents a peck.

A dude collar for 10c, all linen, four ply, is the latest thing advertised by John Dyer & Son.

These cool nights will wait lots of Summer absentees homeyards.

There were four cases of disorderly conduct brought before the Mayor this morning, all of which were discharged.

The steam yacht *Passport* made the trip from Smithville to Wilmington yesterday afternoon in two hours, including two stoppings. The distance is 28 miles.

The match game of base ball between the Seaside Park and Electric Nines, played at the Athletic Grounds yesterday afternoon, resulted in a victory for the former in a score of 26 to 8 for the latter.

The oyster dealers are looking forward to a good season for the bivalves. The reports are that they will be plentiful and fat, the frequent rains and the cool Summer having been good for them. First arrivals are looked for about the 20th inst.

With pain we feel called upon to record the death of little Henry Walker Leonard, infant son of H. L. and A. J. Leonard, of Beatty's Bridge, Bladen county, who died on the night of August 31st, after a long and severe illness, of cholera infantum, aged about 13 months.

Now is the time to give Smith's Worm Oil.

The receipts of cotton at this port to-day foot up 9 bales.

Don't forget the meeting of the Young Democrats at the City Court Room to-night.

Remember the grand masquerade ball which is to be given at Seaside Park Hotel on Friday night, the 5th inst. It will be an elegant affair. See advertisement elsewhere.

We invite the attention of our citizens to the fact that first quality shirts are being made to order at one dollar at the Wilmington Shirt Factory.

The steam yacht *Dudine*, which has suffered some delay on account of a missing piece of machinery, has had it supplied and she will be ready to convey passengers to the beach by to-morrow.

Mr. Wm. McEvans is registrar in the first division of the First Ward and not T. C. McEvans, as it appeared yesterday in our report of the proceedings of the County Commissioners. "Chas. Hines," poll-holder in the same division of the First Ward, should be Charles Hayne.

The excursion on the *Passport* to-day under the auspices of Germania Lodge K. of P. was well attended, and the company was an agreeable one. As the weather has been pleasant we have no doubt that the excursionists have had a day of pleasure and that all have enjoyed the occasion.

The Wounded Policeman.

Policeman Latham was suffering considerable pain this morning, although his condition was no worse than might reasonably have been expected. The ball has yet been extracted, and that, lodged among the muscles of the shoulder, aside from the rugged track it made across the breast, tearing flesh and muscle in its course, would necessarily cause considerable pain and uneasiness.

In our report in yesterday's issue, we made it appear that Officer Latham was at his own house, off duty, when he heard the shooting and rushed to the scene, when, in fact, he was on duty and was in another street at the time on his way to meet his sergeant, but hearing the shots and screams repaired to the place where the tumult was in progress.

Success of a Pender Boy.

A competitive examination was held last Saturday in this city for a clerkship in the Auditor's department of the Wilmington & Weldon Railroad Company. A number of candidates presented themselves in accordance with an advertisement calling for a young man for a clerkship in said department. The examination, fair and impartial, was rigid and protracted. The choice fell upon S. S. Satchwell, Jr., as having passed the best examination. He is a lad of only sixteen years of age, and is the son of Dr. S. S. Satchwell, of Pender. The creditable success of this lad, over so many older applicants for the desirable position thus won, is complimentary to Pender and to the Warsaw High School, of which he has been a pupil for the last twelve months.

Pompey Sneed.

This notable individual is wanted. "He is lost to sight," although "to memory dear," and there seems to be a determination to hunt him up, to ascertain his whereabouts and bring him, will-nilly, within the hands and power of the law. Officer Strode this morning was busy in serving summons upon 50 good and true white men as a posse *comitatus* to go and assist in searching for the aforesaid Pompey and each person was warned to appear with "sword and pistol by his side" or in other warlike array. None wanted to go; they had no relish for the job, and they had so much business to attend to that to leave would send everything to the "demnition powwow." The officer was in nearly every instance inexorable and they were compelled to put themselves in "martial array" and "root hog or die," which means that they had to go or run the risk of being defendants in contempt at the next term of court. They went and whether they "saw and conquered" remains to be ascertained. Among those summoned was a well-known gentleman who is in such feeble health that he has made all his arrangements to leave for New York on Saturday next, where he will be treated by an eminent physician. His excuse of ill-health didn't count worth a cent, and he was obliged to obtain a medical certificate of disability before he could be excused.

Everybody in want of Paints, White Lead, Glass &c., should go to JACOBI'S

The Exposition.

Mr. S. G. Worth, Fish Commissioner of North Carolina, whose arrival in the city is announced in our personal column, gave us the pleasure of a call this afternoon. He informs us that he has seen many of the exhibits prepared by our citizens for the State Exposition and is highly gratified at the display which will be presented by this city and county, as they will be highly creditable and important in aiding to advance the best interests of the section and State.

The Kazoo.

The small boy is now in his glory. He has got a "kazoo." We should imagine that all the boys in the city had been supplied and the way they "kazoo" the city throws Guy Wright's band entirely in eclipse. We heard a band of about 6,000 of them judging from the noise—last night and they furnished music for the eastern section of the city which was a foe to all ideas of sleep. The small boy of Wilmington is a lively creature and the kazoo is his latest inspiration.

Wilmingtonians Abroad.

In the New York *Naval Stores and Tobacco Reporter* we find a list of the officers of the Naval Stores and Tobacco Exchange among whom are the names of Messrs. G. W. Baily and Harry P. Russell, both well known names in this city. Both occupy important and trust-worthy positions on the different committees of the Exchange, places for which they are eminently well qualified. Mr. Baily appears as a member of the Arbitration Committee and of the Trade Committee on Naval Stores and Mr. Russell is Chairman of the Committee on Finance, a member of the Committee on Naval Stores Quotations and one of that Board of Trustees of the Exchange.

Registration of Druggists.

It is a fact not generally known that at the last session of the legislature the pharmacy act was amended so as to apply generally throughout the State. Heretofore there was a clause exempting towns of less than five hundred inhabitants from the operation of the law. It is now necessary under this law for all druggists to be registered. All having three years experience and those now in business on their own account are entitled to such registration. Applications can be made to the secretary of the board of pharmacy, Mr. Simpson, of Raleigh, who will furnish the necessary blanks for registration. Such registration can be made within ninety days by simply applying and remitting the fee, which is nominal. After the ninety days have expired registration can only be effected by applying for examination as to qualifications.

Personal.

Dr. S. S. Satchwell, of Rocky Point, was in the city to-day.

Mr. George Harriss, Jr., has been appointed a Notary Public. He received his appointment to-day and will qualify at once.

Mr. S. G. Worth, Fish Commissioner of North Carolina, was in the city to-day and registered at the Purcell House.

Mr. W. E. King, of the late firm of F. M. King & Co., with his family leave to-night for Anniston, Ala., where he will make his home for the future.

Mr. B. F. Penny, of the firm of W. J. & B. F. Penny, left here yesterday morning for the Northern markets for the purchase of Fall and Winter goods.

Mr. J. Elsbach has returned to the city after an absence of several months looking, we are pleased to say, much improved by his sojourn in the mountains.

Our musical friend, Prof. J. D. Smithdeal, arrived in the city this morning and registered at the Commercial Hotel. He will leave again to-night for the North.

Mr. G. Prigge, Jr., formerly of this city, but now the Manager of the Bortsmouth, Va., Telephone Exchange, has been elected a member of the American Institute of Electrical Engineers, and is now in attendance at the Electoral Convention of Electricians, which is in progress at Philadelphia, having obtained a leave of absence for that purpose. Congress has made a liberal appropriation for the convention and good results are expected from the deliberations of the body. Mr. Prigge has prepared a pamphlet, upon the subject of the use and nature of telephones. He has had considerable practical experience in the management and working of telephones, and we have no doubt that his pamphlet will be an interesting and instructive work.

This is just the best sort of weather for harvesting fodder, and it is equally as good for spinning cotton.

Some one has declared conceit worse than consumption, and the comparison is a true one. Many are the "conceited" who cry down legitimate remedies and who delude suffering humanity, whose only salvation is the immediate use of Dr. Bull's Cough Syrup.

The September Moon.

The September moon falls on the 5th at 56 minutes after 5 o'clock in the morning standard time. On the 10th the moon is in conjunction with Neptune; on the 12th with Saturn; on the 15th with Venus; on the 16th with Jupiter; on the 19th with Mercury and Uranus, and on the 22nd with Mars. No planet is occulted by the moon in September in any part of the globe, but some favored mortals may see her pass over Aldebaran on the 10th, and observers here will see her in this vicinity.

One of the most charming of lunar phenomena will occur during the first autumnal month, when, after the full, the moon will rise for four consecutive evenings with an average interval of only thirty-five minutes between the risings. We may not think with the agriculturalists of old that by a merciful interposition of providence the day is thus prolonged to help the husbandman in his labor. But we may be equally grateful for the beauty of the scene, when floods of silvery moonlight quickly succeed the short September twilight, and show the artistic skill of our satellite in producing effects of light and shade that no human pencil can reproduce in its perfection of restfulness, softness, and serenity, so deliciously harmonizing with nature's great harvest festival.

"Rough on Pain" Plaster.

Porous and strengthening, improved, the best for backaches, pains in chest or side, rheumatism, Neuralgia. 25c. Druggists or mail.

Another large consignment of Sash, Doors & Blinds at Factory prices, just received at JACOBI'S Hardware Depot.

NEW ADVERTISEMENTS.
