Anniston Alabama, has 5,000 inhabitants, and will soon boast of a hotel that cannot be easily matched anywhere in the South. It has all the latest modern improvements. In front sixteen acres have been laid off as a park, and will be planted with trees and ornamental flower beds refreshed by fountains. It overlooks a mountain country of great grandeur and beauty. Our Wilmington folks read this with a sigh.

The cordial reception of the Duke of Edinburgh in Ireland gave great satisfaction in London. It is worthy of note that during the summer an unprecedented number of landlords have taken the trouble to visit their estates in Ireland, and if it should become the fashion to spend part of the Irish rent money in Ireland, half of the land disputes would be settled. Absenteeism is the most vicious of practices for any country.

The census of 1880 gives some interesting statistics regarding the glass manufacture. It says: "The capital employed in glass manufacture during the preceding year was about \$20,000,000; that 24,000 men, girls and boys were employed at wages aggregating 9,000,000, and that the profits of the manufacturers were \$4,000,000. Thus the average wages earned by the laborers were \$370 a year, and the profits of their employers were 20 per cent."

The Washington Post thinks that the policy of the Democratic party is to hope for a victory in Ohio next month as a welcome gratuity, not as a necessity; to rejoice over it, if it comes, as an unexpected benefaction making the election of Cleveland and Hendricks sure; but to look upon that State as the natural and indispensable meat of the Republican party, and feel no discouragement or disappointment if it goes as it has always gone in Presidential years.

Straw hats and linen dusters will not be so very popular as heretofore. Dr. Bull's Cough Syrup, however, will be as popular as ever.

INDEX TO NEW ADVERTISEMENTS.

Day's length 12 hours and 11 minutes. Change of Schedule C C R R W E DAVIS & SON—Apples, Apples HEINBERGER—Fiske's Short Method MUND'S BROS. & DEROSSET—By Steamer C W YATES—Bring Down the Little Ones F C MILLER—Friends and Fellow-Citizens

The season for excursions is about over for this year.

It is now about time to look out for the equinoctial storm.

Sunset to-morrow afternoon at 58 minutes past 5 o'clock.

The receipts of cotton at this port to-day foot up 389 bales.

There were no interments in Oakdale Cemetery this week.

There were two interments in Bellevue Cemetery this week, both adults.

The staging around the steeple of the First Baptist Church has been all removed.

There were three interments in Pine Forest Cemetery this week, one adult and two children.

The Register of Deeds issued three marriage licenses this week, one of which was for a white and two for colored couples.

Our Republican citizens are having some kind of a political meeting nearly every night in the week, and they keep it going until a late hour.

It is a foolish girl who will ask her lover which he likes best, beauty or brains. No matter which way he answers she is sure to get mad.

Voters will do well to remember that there will be an entirely new registration this year. It will begin on the 30th inst., and continue 30 days.

We invite the attention of our citizens to the fact that first quality shirts are being made to order at one dollar at the Wilmington Shirt Factory.

Rev. K. McDonald will conduct services to-morrow morning and evening at usual hours at Second Presbyterian church.

The first number of the *Tar Hee Magazine*, by Geo. I. Nowitzky, is received. It is certainly a readable magazine, is well gotten up and presents a very neat appearance. It is worth every cent charged for it, \$1.25 per annum, and we wish it an abundance of good luck. Several distinguished men of the State will write articles for the next issue. It is published at Raleigh.

"Love with intellect will perform a miracle," says an exchange. Yes, if such a combination could be made, but love and intellect do not speak as they pass by.

The passenger traffic on the different railroads leading into the city has materially increased within the last week or two, although the regular Fall travel has not fairly commenced yet.

When you see a man now, during business hours, standing on a corner and gesticulating and loudly talking about "the financial situation of our country," you can bet that if you got him by the heels and shook him awhile you couldn't shake forty cents out of his pockets.

The *Scientific American* says the best of hickory used in the arts, where toughness is required, is obtained from North Carolina and East Tennessee. Notwithstanding this fact most of the axe helvies, buggy spokes and other material for carriages is imported from other States.

City Court.

Amelia Bradley, colored, was brought before the Mayor this morning charged with disorderly conduct, and was fined \$5 for the offense.

Scip Horrell, colored, for disorderly conduct, was also fined \$5.

A colored boy, whose name we suppress at the request of his mother, was also charged with disorderly conduct and fined \$5.

Some Taters.

Mr. William Otersen, grocer, on the corner of Market and Fifth streets, sent us this morning a basket of the finest and largest sweet potatoes we have seen this year. They were raised by Mr. J. K. Jones, at Gordon's plantation, on Smith's Creek, about 5 miles from the city, and are of the variety popularly known as the "Norton yams." We weighed 4 of them and they turned the scales at 7 pounds and three quarters.

Lippincott's Magazine.

Lippincott's for October opens with a very pleasant and well-illustrated article on the "Pictured Rocks of Lake Superior." The "Personal Reminiscences of Charles Reade," which have excited general interest, are brought to a close. Readers interested in the progress of education cannot fail to be struck by the description of "A School Without Text-Books." "In an Orchard," is a paper redolent of summer. "Industries of Modern Greece," is not a statistical paper, but an account of a ramble among the shops and bazaars of Athens, where the writer resides, with sketches of the work-people and their productions. "Wit and Diplomacy in Dictionaries," notices some of the curiosities in the way of etymologies and definitions that occur in recent as well as early works of this kind. "Aurora," and "A Trip to Killarney" are continued, and there are short stories by Elizabeth G. Martin and C. R. Corson, poems by Philip Bourke Marston, Julia C. R. Dorr and Charles J. Hildreth, and the usual complement of good things in the editorial departments.

Ember Days.

The Thursday, Friday and Saturday of this week are known to some of the Christian denominations, particularly to Episcopalians and Catholics, as ember days or periodical fasts, originally instituted by Pope Calixtus in the third century for the purpose of imploring the blessings of heaven on the produce of the earth, and also preparing the clergy for ordination in accordance with the practice of the apostles as mentioned in the 13th chapter of the Acts. In the year 1095 the council of Placentia made the observance of three days regular as regards the seasons by enacting that they should be the first Wednesday, Friday and Saturday following respectively the first Sunday in Lent, Whitsun Day, Holyrood day (September 14) St. Lucy's Day (December 13.) The term ember denotes a course or circuit, the days recurring regularly at stated periods in spring, summer, fall and winter. With others the epithet is derived from the practice of sprinkling dust or embers on the head in token of humiliation, and also from the circumstance that at such seasons it was only customary to break the fast by partaking of cakes baked on embers, or ember bread. One of the canons of the English church directs that the ordination of clergymen by the bishops should take place on the respective Sundays immediately following the ember days. Animal food is prohibited by the Catholic church on all ember days.

Schr. J. P. Wyman, Torrey, cleared to-day for Port au-Prince, Hayti, with 150,205 feet lumber and 18,800 shingles, valued at \$2,363.81, shipped by Messrs E. Kidder & Son.

Those who could not get the articles intended for the Exposition in readiness for shipment to-day can have an opportunity of shipping them during the early days of next week.

It has been uncomfortably warm to-day, notwithstanding the fact that the wind was from the North. At 3 o'clock this afternoon the thermometer in this office registered 84 degrees.

Rev. W. H. Bobbitt, D. D., will fill the pulpit of Fifth Street Methodist Church on to-morrow at the usual hour, it being the fourth quarterly meeting for that charge, for the present conference year.

The hour for holding the Sunday School at the Front Street M. E. Church has been changed from 5 p. m. to 3 p. m. The night services will be at 7:30 o'clock.

Friendship supplies the place of everything to those who know how to make the right use of it; it makes your pr sperity more happy, your adversity more easy; a suit of clothes from Dyer & Son is a guarantee to friendship.

Cotton.

The receipts of cotton at this port for the week ending with to-day foot up 2,362 bales, as against 1852 bales for the corresponding week of last year, an increase this week of 510 bales. The receipts of the crop year to date foot up 3,497 bales, as against 3,972 bales to same date last year a decrease this year of 475 bales.

Carelessness.

Why will people be so careless as to throw grape hulls upon the sidewalks and thus endanger pedestrians? With a very little exertion they could be thrown into the gutters, where they could do no possible harm, but as it is, the sidewalks are strewn with them and there is hardly a day passes but some one is nearly thrown down by stepping on the slippery things.

Personal.

Prof. M. C. S. Noble, Superintendent of the Public Schools, arrived in the city last night and registered at the Purcell House.

Mr. John M. Chasten returned last night from Boston where he went a short time ago, with his daughter, Miss Annie Chasten, the latter to enter the Conservatory of Music as a pupil. Mr. Chasten speaks in glowing terms of his trip, as well as of what he saw and heard while at the "Hub."

A Work of Art.

We saw at Briggs' pharmacy, a day or two since, an elegant and elaborate piece of tapestry work, which has been forwarded to Raleigh for the State Exposition. It was the handiwork of Mrs. A. W. Rieger, of Brunswick county, and was beautiful in design, and showed to advantage the skill, patience and really artistic genius of the fair lady. The coloring and shading were very nice and were arranged by a most skillful combination of the different materials out of which the fabric was wrought.

A Just Complaint.

Guy Wright's band has become an intolerable nuisance, and there is no use in trying to deny it. We hear frequent and loud complaints daily of the disturbance and noise which is made nightly. If the music (?) would begin and leave off at reasonable hours it would not be so bad, although even with that modification it would be monotonous; but to begin just as many are getting ready to retire and keep it up until near or quite midnight, is unendurable. Guy is a clever old colored man against whom we have not a word to say, but people do not like so much of his clarionette with the drum accompaniments.

For the Exposition.

The packing of articles for the Exposition was being pushed vigorously to-day, and as fast as they were packed were sent to the Carolina Central depot for shipment. We have been surprised and rejoiced that so many of our citizens have taken an interest in the matter and have contributed so freely as to make the New Hanover exhibit both interesting and important. The articles which have come under our observation have been such as to reflect credit upon the county as well as upon the city of Wilmington, and will make the exhibit from this section one of rare excellence.

To Advertisers.

The fact that the DAILY REVIEW has the largest circulation in this city and the surrounding country of any paper published here does not seem to be properly understood and appreciated by the advertising public. And not only is its subscription list the largest but its prices on contracts are the lowest. These facts are of interest and importance to the mercantile community and should be thoroughly understood and appreciated by them. We invite those meaning business to call at this office and substantiate our assertions.
