

MISCELLANEOUS
To Dyspeptics.

The most common signs of Dyspepsia, or Indigestion, are an oppression at the stomach, nausea, flatulency, water-brash, heart-burn, vomiting, loss of appetite, and constipation. Dyspeptic patients suffer untold miseries, bodily and mental. They should stimulate the digestion, and secure regular daily action of the bowels, by the use of moderate doses of

Ayer's Pills.

After the bowels are regulated, one of these Pills, taken each day after dinner, is usually all that is required to complete the cure. Ayer's Pills are sugar-coated and purely vegetable—a pleasant, entirely safe, and reliable medicine for the cure of all disorders of the stomach and bowels. They are the best of all purgatives for family use.

**AYER'S
Ague Cure**

contains an antidote for all malarial disorders which, so far as known, is used in no other remedy. It contains no Quinine, nor any mineral nor deleterious substance whatever, and consequently produces no injurious effect upon the constitution, but leaves the system as healthy as it was before the attack.

WE WARRANT AYER'S AGUE CURE to cure every case of Fever and Ague, Intermittent or Chill Fever, Remittent Fever, Malarial Ague, Bilious Fever, and Liver Complaint caused by malaria. In case of failure, after due trial, dealers are authorized, by our circular dated July 1st, 1882, to refund the money.

The Daily Review.

The Daily Review has the largest bona fide circulation, of any newspaper published in the city of Wilmington.

WEDNESDAY, SEPTEMBER 24, 1884.

STATE NEWS.

Fayetteville Sun: Late Saturday night Mrs. A. H. Watson heard a grunting sound under the back steps of her residence as if a hog had gotten under the house and was making himself comfortable for the night. Mrs. Watson passed into the yard to investigate (Mr. Watson being at the store) and in going near the end of the stairs was grasped at by a negro man secreted beneath. She immediately called for a pistol, which her sister brought her from within, when this nocturnal belligerent fled into the darkness.

Danbury Reporter: There were specimens from about thirty veins of iron ore exhibited in Danbury last Friday, all taken from deposits within not more than four miles from this place, yet not one half of the deposits were represented that exist in our twenty-five square miles of iron just over the river. Mr. Jas. A. Pepper, head manager and mining engineer of the Pepper Mining Company, of this place, while mining for coal last week to send to the Exposition, struck on the lands of Mr. John Marshall, on Town Fork, near the C. F. & Y. V. Railroad, in this county, a vein of fine soft coal four feet thick and only twelve feet from the surface. He took out several hundred pounds of the coal, which will be sent with the county exhibit to the State Exposition, and as soon as the Exposition is over his company proposes to commence mining coal for market.

Charlotte Observer: In Rowan county the Democrats are going to work in a manner that means business. They are aiming to carry Rowan by 800, and are determined to do it. It has been done before and in this instance history will be made to repeat itself. A Charlotte man who has just returned from a trip through Davie county, tells us of the celebration by Mr. and Mrs. G. W. Johnston, of their golden wedding in Farmington, on the 18th. Mr. Johnston is 75 years old and his wife is 68, yet both are still hale and hearty and lively as crickets. There were present 100 invited guests, among them being one old lady who was one of the bridesmaids 50 years ago. Her husband, whom she met at that wedding, was also present at the golden celebration.

Mr. Wm. L. Suggs, an aged citizen of Berryhill township in this county, died last Sunday from injuries received by a fall from a wagon on the 15th inst. Though 70 years old, Mr. Suggs was very stout, fleshy and heavily built, and weighed 280 pounds. On the day of his fall, himself and his son were hauling a saw stock to mill, the son doing the driving. Mr. Suggs was seated on top of the log. The wheels of the wagon struck a rough place in the road and the old man losing his place, was hurled violently to the ground. The fall broke his thigh and three ribs.

Greensboro Workman: The editor called on Gen. Scales this morning for a brief interview as to the accident which befell him last week in crossing the Cowee mountain. It seems that the way was winding and narrow, and that at one place it was found necessary to guide the horse a little farther from the verge of the road, in doing which, owing to the steepness of the descent, the head of the horse turned in a contrary direction from that of its body. At this moment, seeing the peril, Dr. Schenck, who was driving, urged Gen. Scales to jump. Seeing that the precipice was on his side of the buggy, Gen. Scales hesitated a moment, then sprang out, making a leap of uncertain measurement down the mountain. With the momentum given by this leap, Gen. Scales continued the descent, grasping shrubs, weeds and undergrowth, and finally lodging against the body of a chestnut tree, the horse and buggy going down by a parallel line a little way off. He was much scratched and bruised by the fall, but Dr. Schenck, with much difficulty, rescued the horse unhurt, and setting Gen. Scales on the animal, the Dr. leading, they made their way four miles to a place of entertainment. For what subsequently happened between Gen. Scales and Dr. York, which took a kinder turn from the circumstances of the accident, we have not room this morning. Gen. Scales would have been on the canvass to-day, but the state of his wounded leg is such that he is compelled to wait at home yet a few days longer. He has our sincere sympathies, and we trust that he may soon be himself again.

News and Observer: Yesterday at the Centennial graded school 606 pupils were in their seats. This is the greatest number ever present at any graded school in the State, it is claimed. Gov. Jarvis returned to the city Sunday morning, from Charlotte, where he met York Saturday. Yesterday morning the Governor was very busy, and in the afternoon he left for Asheville. At the latter place he speaks to-day. Formally opening the first fair of the "Western North Carolina Agricultural Association," for which great preparations have been made, and which it is said, will be a brilliant success. About two years ago Rev. E. K. Baldwin had his attention called to the Berber people, in North Africa, especially to that portion of them called the Kabyles. He found that previous to that time not a single Christian missionary was laboring among that 10,000,000 of people, and even now only one. The matter bore heavily upon his mind, and he told it to the Baptists at Richmond, subsequently to the Baptist convention at Edenton, in this State, and also to the Baptist Convention at Baltimore. The result was that he was requested to cross the sea and ascertain the full facts. He did so in the Spring, and after an absence of four months returned and reported the condition so favorable to a mission with good results that he was asked to go as a missionary. Mr. Baldwin will set sail on the 8th of October for Algiers, where he will be located at Tangiers, opposite Gibraltar, at a distance of fifteen miles.

FREE FOR TRIAL

The treatment of cases of Herpes, Scabies, and other skin diseases, is a matter of great importance, and one which should not be neglected. The use of the "Free for Trial" medicine is a most effective and reliable method of curing these diseases. It is a most valuable and reliable medicine, and one which should be used in all cases of these diseases. It is a most valuable and reliable medicine, and one which should be used in all cases of these diseases.

1884.

Harper's Weekly.

ILLUSTRATED.

Harper's Weekly stands at the head of American illustrated weekly journals. By its unpartisan position in politics, its admirable illustrations, its carefully chosen serials, short stories, sketches, and poems, contributed by the foremost artists and authors of the day, it carries instruction and entertainment to thousands of American homes.

It will always be the aim of the publishers to make Harper's Weekly the most popular and attractive family newspaper in the world, and, in the pursuit of this design, to present the constant improvement in all these features which have gained for it the confidence, sympathy, and support of its large army of readers.

Harper's Periodicals.

Per Year:
HARPER'S WEEKLY..... \$4 00
HARPER'S MAGAZINE..... 4 00

1884.

Harper's Magazine.

ILLUSTRATED.

Harper's Magazine begins its sixty-eighth volume with the December Number. It is the most popular illustrated periodical in America and England, and always fully abreast of the times in its treatment of subjects of current social and industrial interest, and always advancing the standards of literary, artistic, and mechanical excellence. Among its attractions for 1884 are: a new serial novel by William Black, illustrated by Abbey; a new novel by E. P. Roe, illustrated by George H. Boughton, Frank D. Millet, C. H. Farnham, and others; important historical and biographical papers; short stories by W. D. Howells, Charles Reade, &c.

THE SUN.

NEW YORK, 1884.

About sixty million copies of THE SUN have one out of our establishment during the past twelve months.

If you were to paste end to end all the columns of all THE SUNS printed and sold last year you would get a continuous strip of interesting information, common sense wisdom, and a most reliable and long range of news from Printing House square to the top of Mount Copernicus in the moon, then back to Printing House square, and then three-quarters of the way to the moon again.

But THE SUN is written for the benefit of the earth; this same strip of intelligence would girdle the globe twenty seven or twenty-eight times.

Every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfather has spent another hour, this newspaper in 1884 has afforded the human race thirteen thousand years of steady reading, night and day.

It is only by little calculations like these that you can form any idea of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions of American men and women.

THE SUN is, and will continue to be, a news paper which sells the truth without fear of consequences, which gets at the facts no matter how much the process costs, which presents the news of all the world without waste of words, and in the most readable, special, and interesting manner.

Which is working with all its heart for the cause of honest government, and which therefore believes that the Republican party must go down and up in this coming year of our Lord, 1884.

If you know THE SUN, you like it already, and you will read it with accustomed diligence and profit during what is sure to be the most interesting year in its history. If you do not yet know THE SUN, it is high time to get into the sunshine.

TERMS TO MAIL SUBSCRIBERS.

The several editions of THE SUN are sent by mail, postpaid, as follows:
DA. 10 cents a month, \$6 a year; with Sunday edition, \$7.
SUNDAY—Eight pages. This edition furnishes the current news of the world, special articles of exceptional interest to everybody, and literary reviews of new books of the highest merit. \$1 a year.

WEEKLY—\$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequalled value, special market reports, and literary, scientific, and domestic intelligence make THE WEEKLY THE SUN the newspaper for the farmer's household. To clubs of \$10, an extra copy free.
