SATURDAY, SEPTEMBER 27, 1884 Entered at the Postoffice at Wilmington, N. as second-class reatter.

A union of the various Democratic tactions of New York City on a county ticket now seems probable. in which event there are indications that Tammany will receive the lion's share, viz: the mayoralty, two of the three Common Pleas judgeships and probably the controllership, which would leave for the County Democracy the district at torney, one Common Pleas judge and a coroner. Colonel John R. Felthe fayorite of the County Democracy for district attor-

ney, and Tammany's choice for mayor seems to be between Mayor Edson Alderman Hugh J. Grant and Joseph J. O'Donohue, a prominent coffee importer Itving Hall will perhaps not be considered in the deal, as that organization already has offices fully commensurate with its waning strength.

are running races to see which shall secretary of the navy!

A New York letter says: "When the committee appointed by the Chicage Convention waited upon Mr. Tilden to Pilots will bring all versels from Ports south | present him with the complimentary resolutions adopted by that body, in sickness on board during the passage or on will be remembered, they were inform ed by that distinguished statesman that he would reply to them and give his age, or allow any person, steamer or tug boat, yie ws of the general political situation lighter, or boat of any kind to go along si e, in writing as soon as his boath would in wri ing, as soon as his health would permit. Nearly a month has elapsed since that interview, and still 'the oracle is dumb.' The opponents of Mr. Cleveland are naturally disposed to interpret this prolonged reticence as confirmatory of the report that the Sage of obtained will be end reed by the Quarantine | firmatory of the report that the sage of Physician, if, in his opinion, it is proper and Greystone is not friendly to him; but at the Democratic headquarters to-day there were authoritative intimations that the long expected response will be forthcoming next week, and that as re gards the candidate, Mr Tilden's voice will give forth no uncertain sound. It is also understood that when the Governor comes to this city, week after next, he will be Mr. Tilden's guest, which stock, personal, etc., \$7,145,112. will be, of course, an all-sufficient answer to the allegation above alluded to."

> The letter of Governor Cleveland declining a pressing invitation to attend the great Democratic meeting at Hamilton, Ohio, does him great credit. He says the duties of the office he now holds for the people of his State are so imperative and press so constantly upon his time and attention that he deems it his duty to remain at his post. He takes the ground that "the chance of aiding his prospect of success in the pending canvass does not excuse the neglect of duties attached to his present overwork and underpay. Enfeebled the Democratic party is pledged to the principle that "a public office is a trust, which is violated when the interests of the people are forgotten or heedlessly disregarded," and he believes "the success of the party depends upon the assurance which the people have that the pledge to better their condition by restoring to them a pure and simple ad-Cleveland could not have put his desclination in more striking and effective

> It appears from undoubted authority that the terms of a fusion between elements of opposition to the Republican party have been arranged in Pennsylvania. The basis of agreement is that the Democrats shall have twentythree electors and the Greenback-Labor people (Butler) seven. The Democrats will retire seven of the electors on their ticket, and the vacancies thus created will be supplied by names submitted by the Butlerites Ordinarily there would be nothing in an arrangement of this sort to give the heels and was knock-kneed. Cicero Republicaus any uneasiness about was spindle-shanked and Alexander's Pennsylvania, but the labor organi- left leg was badly out of plumb." might influence a considerable vote. The fight of the union printers against a newspaper proprietor for employing non-union labor has been carried into politics. The various labor organizations of the State are in sympathy with the printers in their warfare against a Republican elector, who as a newspaper proprietor, (Mr. Wells, of the Philadelphia Press,) discharged union directly or indirectly, immediately or re and employed non-union printers. It motely. is no secret that the Democrats hope to obtain a large proportion of the labor

vote of the State through this fusion.

A Washington letter says: "A prom-

nent Republican who has been in New York for some days, and who has been in consultation with some of the leaders of the stalwart wing of the party, returned here to-day, andsays that he has it from some of Mr. Conkling's closest friends that that gentleman will within the next two or three weeks publish a letter in which he will define his position, and that it will not be favorable to Mr. Blaine. The ex-Senator from New York has on several occasions of late given out intimations of a movement on foot which will be important in a political sense.
