A FAIR PROTECTIVE TARIFF.

The National Democratic Platform Indorsed by Grover Cleveland.

"We believe that LABOR is best rewarded where it is freest and most unobstructed. It should therefore be fostered and cherished."

"The Democratic Party insists that it is the duty of this Government to PROTECT with equal fidelity and vigilance the rights of its citizens, native and naturalized, at home and abroad."

"We demand in behalf of the Democracy freedom for AMERICAN LABOR by reducing taxes to the end that these United States may compete with unhindered powers for the primary among nations in all the arts of peace and fruits of liberty."

"The great issue of reform and change in administration is submitted to the people in calm confidence that the popular voice will pronounce in favor of new men and new and more favorable conditions for the growth of industry, the extension of trade, the employment and due reward of labor and of capital and the general welfare of the whole country."

"In making reduction in taxes it is not proposed to injure any DOMESTIC INDUSTRIES, but rather to PROMOTE THEIR HEALTHY GROWTH. From the foundation of this Government taxes collected at the Custom House have been the chief source of Federal revenue. Such they must continue to be. Moreover, many industries have come to rely upon legislature for successful continuance so that any change of law must be at every step careful of the labor and capital thus involved; the process of reform must be subject in the execution to this plain dictate of justice. All taxation shall be limited to the requirements of economical government. The necessary reduction in taxation can and must be effected WITHOUT DEPRIVING AMERICAN LABOR OF THE ABILITY TO COMPETE SUCCESSFULLY WITH FOREIGN LABOR, AND WITHOUT IMPOSING LOWER RATES OF DUTY THAN WILL BE AMPLIFIED TO COVER ANY INCREASED COST OF PRODUCTION WHICH MAY EXIST IN CONSEQUENCE OF THE HIGHER RATE OF WAGES PREVAILING IN THIS COUNTRY."—Platform Unanimously Adopted by the National Convention of the Democracy at Chicago.

Taking the cue from Mr. Blaine's bloody shirt speeches in Indiana, Mr. Mears, a Republican member of the Vermont Legislature, on Thursday introduced a resolution declining to make an appropriation for the proper representation of that State at the New Orleans Exposition, on the ground that the States of the South, by "unjust ballot-laws, massacres, riots, murder and violence have succeeded in depriving large numbers of citizens, white and colored, of the free, unobstructed exercise of the right of suffrage." The mover of the resolution supported it in a violent speech, but after debate it was dismissed, Mr. Mears only voting for it, and the Green Mountain boys will be represented at New Orleans despite Mr. Blaine's single convert.

John T. Raymond never ate a vegetable in his life. He has an invincible repugnance to that kind of food. He recently told an interviewer that the mass of English people know nothing of America. "It is," he said, "a blank wall to them. They know there is a New York and a Philadelphia, but whether New York is in Philadelphia or Philadelphia in New York, or both some other place, they don't know."

Recently, off Cape Horn, the fastest sailing vessel in the world was lost. She was called the Oracle. She once made the passage from Liverpool to Cape Henlopen in twelve days, the quickest passage ever made by any sailing vessel. The latter part of the Oracle's passage was remarkable, she having overtaken and distanced the famous Guion line steamship Alaska, and the Iman steamship City of Berlin, and was reported at the Delaware Capes, when the English steamers were seen off Fire Island, Long Island, on their way to New York.

The Independent Republicans of Utica, N. Y., in a manifesto signed by 140 well known citizens, including lawyers, doctors, business men and capitalists, give seven reasons why Blaine should not be elected. Among the reasons given are "prostitution of his official position as Speaker of the House of Representatives to private gain and emoluments," "falsehood and evasion," "lack of statesmanship," "ignorance in diplomacy," &c. In conclusion they say: "We reluctantly separate on this issue in grief, not in anger, and, like old reformers, we say, 'Here we stand; we cannot do otherwise.' God help and save the Republic." Most of the signers are stalwart Republicans and intimate personal friends of Hon. Roscoe Conkling.

The executive committee of the Anti Blaine Club of New York City have issued in circular form an address setting forth the principles of the organization, and appealing to all printers of the United States to boycott Mr. Blaine. "The Republican party," it asserts, "is the enemy of trades' unions," and the assertion is sustained by reference to the action of Whitelaw Reid, of the New York Tribune, and also to other Blaine organs, who have "driven union printers from their cases and substituted the cheapest non-union workers that can be obtained." In conclusion, after reproducing the platform of principles adopted by the Printers' Union, the address says: "To insure success we must unite upon some one candidate whose possibility of election insures the defeat of James G. Blaine, and that, with due respect and consideration for the opinions of those who may favor other candidates, it is a self-evident fact that their efforts will be futile, and that the exigency of the occasion demands that all who seek the defeat of James G. Blaine, as champion of the 'rat' Republican newspapers of New York, must concentrate their efforts to insure the election of Grover Cleveland."

New York World: There is comparatively little change in the financial situation, operations generally being held in abeyance by the approaching election, in which business men are taking unusual interest. Outside of purely speculative matters, the only feature of special significance is the drift of specie from Europe to this country. Last week about \$2,000,000 gold was shipped from London to New York and unless the Bank of England rate of discount is advanced additional amounts will be forwarded in the early future. The foreign exchanges are low and show conclusively that the present movement of specie is not forced but is the natural result of the more favorable condition of the foreign trade of the United States. Our exports may not be quite as large in money value as in former years, but on the other hand the consumption of foreign goods is smaller in proportion hence our position as a creditor nation is being strengthened.

This country at the moment is really in no need of having its stock of the precious metals replenished, and the real importance of the influx lies in the fact that it is a reflection of the improvement of our trade with the outer world. The city banks now have \$25,940,000 more specie than in 1883, and in other respects are in a much stronger position than then. It is not surprising therefore that money goes begging at merely nominal rates of interest, and that all apprehensions of stringency for some time to come are rapidly passing away.

OCTOBER ODDS.

Mr. Isaac Came, a rich shoemaker of Liverpool, who left his property to public charities, opened his first shop opposite the building where he had been a servant, and put up a sign which read: "I, Came—from over the way."

A wealthy bank officer being applied to for aid by a needy Irishman, answered petulantly, "No, no; I can't help you I have fifty such applicants as you every day." "Sare and ye might have a hundred without costing you much," was the response.

"Ever had a cyclone here?" asked a Kansas man who was visiting a countryman in the east. "A cyclone? O, yes," said his aunt; "Deacon Brown's son brought one from Boston a spell ago; but, law! he couldn't ride it. Tumbled off every time he tried it."

A full-bearded grandfather recently had his beard shaved off, showing a clean face for the first time in a number of years. At the dinner-table his three-year-old grand-daughter noticed it, gazed long with wondering eyes, and finally she ejaculated: "Grandfather, whose head you got on?"

"My dear," said a wife who had been married three years, as she beamed across the table upon her lord and master, "tell me, what was it that first attracted you to me? What pleasant characteristic did I possess which placed me above other women in your sight?" And her lord and master simply said, "I give it up."

"Little boy," said a gentleman, "why do you carry that umbrella over your head? It's not raining." "Nop." "And the sun is not shining." "Nop." "Then why do you carry it?" "Cause when it rains pa wants it, an' when the sun shines pa wants it, an' it's only when it's this kinder wedder that I kic git ter use it at all."

Great Prejudice to Onions

HAS EXISTED AMONG AMERICANS since the remarkable courtship of Miles Standish. Since that time men have been doing their own courting, and have been debarred the privilege of partaking of this fragrant vegetable. We have solved the problem by selling the VALENCIA ONION, which leaves neither smell nor taste, and can be relished by all. They are worth 5 cents per pound, and weigh from one to three pounds.
