

AYER'S Sarsaparilla

Is a highly concentrated extract of Sarsaparilla and other blood-purifying roots, combined with Iodide of Potassium and Iron, and is the safest, most reliable, and most economical blood-purifier that can be used. It invariably expels all blood poisons from the system, enriches and renews the blood, and restores its vitalizing power. It is the best known remedy for Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blisters, Sores, Boils, Tumors, and Eruptions of the Skin, as also for all disorders caused by a thin and impoverished, or corrupted, condition of the blood, such as Rheumatism, Neuralgia, Rheumatic Gout, General Debility, and Scrofulous Catarrh.

Inflammatory Rheumatism Cured.

"AYER'S SARSAPARILLA has cured me of the Inflammatory Rheumatism, with which I have suffered for many years."

W. H. MOORE.

Durham, Ia., March 2, 1882.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists; \$1, six bottles for \$5.

Jan 1 1882 d&w A 15 22

AYER'S Ague Cure

contains an antidote for all malarial disorders which, so far as known, is used in no other remedy. It contains no Quinine, no any mineral nor deleterious substance whatever, and consequently produces no injurious effect upon the constitution, but leaves the system as healthy as it was before the attack.

WE WARRANT AYER'S AGUE CURE

to cure every case of Fever and Ague, Intermittent or Chill Fever, Remittent Fever, Malarial Ague, Bilious Fever, and Liver Complaint caused by malaria. In case of failure, after due trial, dealers are authorized, by our circular dated July 1st, 1882, to refund the money.

Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists.

The Daily Review.

The Daily Review has the largest circulation of any newspaper published in the city of Wilmington.

MONDAY, NOVEMBER 10, 1884.

The Country is Safe!

The Grand Old Democratic Party has Triumphed!

Peace on Earth Good Will Towards Men!

George Waring, noted as a sanitary engineer, is arranging a sewerage system for Long Branch.

Mr. Blaine advised the people of the North to vote the way they shot. Well, it seems as if Jimmie had shot to the rear.

It is said that all the Presidents of the United States have had blue eyes except General Harrison—and he didn't live long.

The New York Times still insists that it has not changed its politics, but is a Republican paper, notwithstanding its earnest support of Cleveland.

Mr. W. H. Vanderbilt has sent a letter of congratulation to Gov. Cleveland. Yesterday's Tribune says that Mr. Vanderbilt has been a Cleveland man all along.

In Pennsylvania, the State of his birth, where he was supposed to be an idol of the people, Blaine gets a plurality of about 30,000 or 7,000 less than that of Garfield four years ago.

The New York Tribune does not concede the election of Cleveland, as was reported on the streets this morning, but there is a perceptible weakening in the tone of its talk.

To make shoe pegs enough for American use consumes annually 10,000 cords of timber, and to make lucifer matches, 300,000 cubic feet of the best pine are required every year.

The Governor, the Attorney-General, the Secretary of State and two members of the Senate—one of each party—constitute the State Board of Canvassers. They meet on the Thursday after the third Monday after the day of election, and open the returns of all the votes in all the counties and publish the result. The official determination of the result of the vote for State officers, however, is not made known until the Legislature meets. At 12 o'clock on the first Tuesday after the organization of both Houses, the votes for State officers are canvassed in joint session and the result is officially declared. The Legislature meets on Wednesday after the first Monday in January.

"Lo! the poor Indian!" tramping about in all sorts of weather, and dying with cold. Won't some "good Samaritan" send him a bottle of Dr. Bull's Cough Syrup?

STATE NEWS.

Pittsboro Home: We are sorry to learn that Mr. Murphy Bryant, one of our Chatham boys, who has been a resident of Harnett county for several years, lost his dwelling and all its contents by fire one day last week. We have not learned the particulars of the origin of the fire. —Mr. J. Q. Bryant tells us of a cure effected by tobacco. He had been troubled for several days with a very sore and painful finger, and had slept but little for several nights. Having read in the Home of the remarkable cures made by tobacco he determined to try it. On Sunday night he wrapped up his finger well with a wet tobacco leaf. Soon the pain was gone and he had a good night's rest, and on Monday he showed us the finger and pronounced it well. It showed signs, of course, of the sore, but the flesh looked natural, the swelling had gone down, and all effects of the sore will soon be gone.

Chadbourn Times: Mr Hanewacker has now at Fair Bluff about 75,000 shingles ready to be shipped to Philadelphia, where he has 800,000 waiting for the spring market. The extent of this gentleman's investment in the shingle business speaks well for his executive capacity as a business man. We are proud of such enterprisers. —On the 23d of March, 1785, Bishop Asbury, of the Methodist Episcopal Church, preached at Lake Chapel, about one mile north of Lake Waccamaw, on the Wilmington public road. No traces of this chapel are now to be seen. He was on his way from Wilmington to Elizabethtown. In his journey he says: "I preached to a few hearers lodged near Waccamaw Lake. This is a desert country, has but few inhabitants, and fewer still who have any deep sense of religion."

Chatham Record: On last Friday Mr James Howard, the miller at Howard & Mott's mill, was adjusting the belt when he was caught by it and killed. He was about 25 years old and leaves a wife and two children.

Winston Sentinel: On Sunday evening, as the church bells were ringing for service, the dwelling house of Rev. T. H. Pegram, on Old Town Street occupied by Mr. P. W. Dalton, was discovered to be on fire. Every effort was made to save the building by the fire company and citizens, but to no purpose. Mr. Dalton fortunately saved the greater portion of his furniture but not without considerable damage, however. The dwelling was insured for \$16,000 and the loss upon the same is placed at several hundred dollars. A lamp left burning in a room up stairs exploded which caused the conflagration.

Statesville Landmark: Rev. W. M. Bagby, pastor of Iredell circuit, closed a protracted meeting at Troutman's on the 13th ult., which had lasted six days. It resulted in 39 conversions and 30 accessions to the church. —Dr. Tyre York, late Republican candidate for Governor, is really sick at his home, Trap Hill, Wilkes county. He was not able to fill his appointments at Union Grove, this county, last Monday, and John Quincy Adams Bryan, and perhaps others, spoke in his stead to a small crowd. It appears that Dr. York, while in the east, contracted a malarial fever which is confining him at home. The worst that could have already befallen him, and we wish him a speedy recovery of his accustomed physical health.

Charlotte Observer: Major Lewis Reedmond, the famous North Carolina non-resident, after serving terms of imprisonment in various penitentiaries, and having at last gained his liberty from the South Carolina pen through an executive pardon, is now engaged in the peaceful pursuits of a pastoral life. —Railroad men tell us that the people in all the towns along their lines are wild with enthusiasm and are celebrating in fine style. Capt. Harry Johnston reports that every town between Charlotte and Shelby is red. Cannon are scarce, and fire crackers do not make enough fuss, so they are shooting guns. —Sometime before daylight yesterday morning Mr. Blythe Abernathy, a citizen of Paw Creek township, this county, was awakened from his slumbers by a number of loud explosions following each other in quick succession. Mr. Abernathy jumped from his bed to find a bureau that was standing in a corner of his room enveloped in flames that were springing up as high as the ceiling. By quick and active work he succeeded in extinguishing the flames and saving his residence. The bureau was almost entirely consumed, only a few pieces of charred wood being left. Mr. Abernathy had a lot of matches in one of the bureau drawers and the supposition is that they were ignited by mice. There was a pistol in one of the drawers and when the fire reached the weapon the cartridges in its five chambers exploded one after another, making the fortunate noise that waked Mr. Abernathy.

The new passenger train from the North on the North Carolina road arrived here yesterday about an hour behind time the delay being partly due to a terrible accident that happened near Lexington and that resulted in the instant death of an unfortunate colored woman. Engineer L. Bryant was in the cab of the passenger engine and was speeding along behind time. As his engine bound around the curve just beyond the long high bridge over Leonard's creek, he was started at the sight of a woman who was trying to make her way over the bridge before the train could reach it. She had not passed over the first section of the bridge and the engineer knew at once that a tragedy was at hand. He promptly reversed his lever and applied the air brakes, but his train was too near the woman, as it had dashed around the curve and was upon the bridge almost in an instant and quickly as the engineer had acted, the engine was upon the woman almost by the time the air brakes had been applied. Realizing her frightful situation and seeing that there was no escape for her, the woman turned just as the pilot of the engine reached her, threw up her hands, uttered a piercing shriek and the next instant her body was flying through the air. The unfortunate woman struck the ground below the bridge at a point just 270 feet from where she was standing when the engine hit her. The train was stopped and the train hands picked up her body and laid it in the baggage car when it was carried to Lexington. Every bone in her body was broken. His name was not known.

Wadesboro Times: Saturday last we heard of the burning of Mr. Henry Kendall's gin together with about 45 to 50 bales of cotton. Mr. Kendall lives on the Jno. S. Little place, four miles from town. The fire was undoubtedly the work of incendiaries. The persons who set fire to it were tracked across the fields to and from this town. Mr. K. had no insurance on his gin or cotton, and his loss is quite a serious one to him. —Monday morning the burning of the gin the day before of Messrs. King and Badger Briley, situated in the neighborhood of Brown Creek Church, together with their entire crop, was reported. We could not ascertain the origin of the fire or the exact loss of cotton. It is thought there was no insurance on the gin or cotton. —Monday afternoon information was received here of the destruction of the gin of Messrs. Brooks & Thomas' gin, situated near Madra. Besides the loss of the gin the three bales of cotton were destroyed. This fire occurred about mid day while everybody was at dinner. Origin unknown, and, is thought, no insurance.

A Household Treasure.

Says a shrewd writer, "only let a wife know she is precious to her husband, and she will be to him and to her children a well-spring of happiness." There is good sense in this. And there is good sense in preserving your wife's health so that she may be happy. Many women are cruelly run down by work and worry; but hardly any are beyond the power of Brown's Iron Bitters to restore. Mrs. L. D. Hamilton, Bedford, O., says, "I derived permanent good from using Brown's Iron Bitters as a tonic for general debility."

A Fair Suggestion!

OUR PATRONS KNOW BY THIS TIME THAT WE DO NOT COLOR

our advertisements, that when we say a thing in the papers we are prepared to back it by our legal guaranty.

Take Goods Home, Examine them Critically

In all particular points, such as material, make-up, style of garment, and above all, the price, which tells who sells the cheapest. We have been victorious in every instance where goods from competing houses have been sent home for comparison. We do it every day, and advise you to try it once to convince yourself. Only last week a prominent business man in this city had a spit seen,

to his home from different houses, with one from us among them; he kept our suit and remarked: "I do not know much about clothing, but it did not take me long to decide after I had them together at home, but if I had not had them together I might have paid from \$5 to \$8 more for my suit."

We handle all grades of goods, guaranteeing every article worth what you pay for it or money refunded. After one trial you will say, as thousands have said, it pays to trade with
