THE DAILY REVIEW.

VOI. IX. WILMINGTON, N. C. SATURDAY, MARCH 28, 1885. NO. 72

WE will be glad to receive communication from our friends on any and all subjects, general interest but the name of the writer must always be attached to the Editor. Communications must be written on one side of the paper. Personalities must be avoided. And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so stated in the editorial columns.

The Daily Review has the largest circulation of any newspaper published in the city of Wilmington.

The silver plated ware manufactured in this country annually reaches a value of \$12,000,000.

A man named Cleveland, who is not related to the President, has been found at Gadsden, Ala.

Her Majesty's Colonel, Mapleson, has had a wonderfully successful season in San Francisco.

Miss Banks, the daughter of Gen. N. P. Banks, is to make her debut in New York on April 6.

The city of Paris has received a legacy of \$40,000 for the establishment of a professional library of art and industry.

Between 1864 and 1884 England spent \$1,250,500 in the purchase of paintings for her National Gallery in Trafalgar Square.

The Hon. Robert C. Winthrop, who has been president of the Massachusetts Historical Society since 1885, has tendered his resignation.

The divorce courts of Paris are driven to their wits' ends to keep up with the demands of those who wish to be untied. The new French law is a bonanza to the lawyers.

John Sherman's house on K street, Washington, is assessed at \$50,000 and with \$3,000,000 it represents the savings in the past few years from annual salaries of never more than \$8,000 and generally only \$5,000.

Mr. Cleveland is still surprising and shocking Washington society by his peculiarities. His last shock to that quiescence of snobbery was to rent a pew in an obscure church which had long since been tabooed by fashion.

Maine has no cause for complaint as long as her sea fisheries each year bring in \$3,500,000 and her river fisheries are over \$125,000, not counting the large amount of the latter caught for home consumption, and of which no record is kept.

Perhaps the richest train that has passed over any road in this part of the country was that which went over the Hannibal and St. Joe one day last week. The train was composed of two cars of gold bullion, three cars of silver, eight cars of silk and four cars of tea.

The United States tax on national banks is one-half of one per cent, every six months upon the average circulation, one-quarter of one per cent, every six months on the average deposits, and one-quarter of one per cent, every six months on the average amount of its capital stock beyond the amount invested in United States bonds.

The curious effect which the placing of a fertilizer on one side of an orange tree at Lake Jessup, Fla., and none on the other had on the fruit is noted by a Southern paper which says that the side that was fertilized bore large, bright oranges, and the other small, rusty ones.

Society women at the national capital have been having a new sensation this Spring. Redfern, the great English gown-maker, has been there, and aside from charging them double London prices, which is nothing new, by the way, has quite squelched them by his magnificent superiority and the grandiose air with which he says that he makes gowns for every one, for all the world.

The United States Government is the greatest printer and publisher in the world. The aggregate number of governmental publications issued annually amounts now to about 2,500,000, of which about 500,000 are bound volumes. This is the maximum. But a moderate estimate will put the aggregate publications of the government from the beginning until to-day at from 30,000,000 to 40,000,000.

On Friday, March the 27th, 1512, it is believed that Ponce de Leon set foot in Florida. Fifty-three years later our oldest town, St. Augustine, was founded by Menendez. On yesterday, the 27th of March, 1885, the ancient town celebrated these two events with many peculiar ceremonies and diversions. A body of Seminoles paraded who represented in their persons the descendants of the Indians whom Ponce de Leon hailed.

If the blood circulation is unobstructed there is no chance for Bright's disease, and St. Jacobs Oil will increase the circulation.

Carl Schurz, Rollin M. Squire, Hubert O. Thompson and George Gould are said to have formed a company with \$100,000 cash capital, to establish in New York a daily newspaper to be named the *Morning Telegraph*. Such a paper probably would be the organ of the County Democracy.

An old lady living near Georgetown S. C. sowed recently, as she supposed, some mustard seed. Days and weeks passed, but no signs of the seed having taken root were visible, and she decided to make an investigation, which, much to her surprise, revealed that she had planted some of her son-in-law's powder, and not mustard seed, as was supposed.

An exchange says: "Man's average life is 33 years." Dr. Bull's Cough Syrup will always live.

Day's length 12 hours and 30 minutes
The receipts of cotton at this port today foot up 9 bales.

Sunset to-morrow afternoon at 20 minutes past 6 o'clock.

There were no interments in Oakdale Cemetery this week.

Full moon Monday forenoon at 26 minutes past 11 o'clock.

There were two interments in Bellevue Cemetery this week; one adult and one child.

Four white tramps were accommodated with lodgings at the guard house last night.

The Register of Deeds issued but one marriage license this week, which was for a colored couple.

There were five interments in Pine Forest Cemetery this week, three adults and two children.

There were faint flashes of lightning, followed by peals of distant thunder at a little after noon to-day.

The streets, which have been badly washed by the winter storms, are being put in excellent repair.

Eggs were retailing at 124 cents per dozen yesterday and to day, which is eggs-actly what they are worth.

The markets were well supplied with all kinds of meats this morning, some of which was nice and fine in quality.

We rise to remark, although with fear and trembling, that the winter is over and gone. Its backbone is evidently broken.

There is no mistake about it, you will be surprised to see the elegant goods offered at \$25 a suit, made to measure at Dyer's.

Rev. D. C. Kelly will preach in the Bethel to-morrow morning at 10:30 o'clock. Seats free. The public are cordially invited.

Read the pretty poem on the third page of this issue and when you have read it cut it out and preserve it religiously. There is not a prettier thing in the English language.

Two fine palmetto trees were brought up from Smithville last night on the steamer *Louise*. They will be used in decorating St. James' Church to-morrow, which will be Palm Sunday.

Daily services in St. John's Church, during Holy Week, at 7:30 a. m., 11 a. m. and 5 p. m., except on Maunday-Thursdays, when the 11 a. m. service will be changed to 8:15 p. m.

The season tickets of the Seaside Base Ball club have just been printed and are now ready for sale. The price of the tickets has been fixed at \$5 each, which will admit the holder to witness all the games played in this city during the season.

Maj. H. H. Foster will begin his next class in vocal music at Temperance Hall on Monday, April 6th, at 8 p. m. This will give a good opportunity for those desiring to learn to read music understandingly by note to acquire the accomplishment. See adv.

Quarterly meeting will be held at Fifth Street M. E. Church to-morrow, Rev. J. P. Carraway, Presiding Elder of Wilmington District, will conduct the services. The Sacrament of the Lord's Supper will be administered at the close of the morning service.

City Court.
George Thomas, colored, was the only person for the Mayor's consideration this morning. He was charged with disorderly conduct, was found guilty and a fine of \$10 was imposed for the offense.

Indications.
For the South Atlantic States, partly cloudy weather, local rains, slight change in temperature, followed in the Northern portion by slightly colder weather. Winds becoming variable, preceded by Southwesterly winds.

Fences Burned.
Mr. John Oliver, who lives at the old Tom Williams place, five miles North of the city, on the Little Bridge Road, lost nearly all of his fencing this week by a wild fire from the woods. All of it, we understand, was burned except that portion which faces the road. Mr. Oliver runs a truck farm there and his loss is quite heavy.

The Last Week.
To-morrow will be Palm Sunday and it is the last in Lent. It is commemorative of Christ's entering into Jerusalem, when the multitude cut down branches from palm trees and spread them in his way. The week is known as Holy Week and Passion Week, and it is the most solemn of the entire penitential season. Good Friday is commemorative of the Crucifixion, and on Sunday the Church casts aside its habiliments of woe and appears in all the glad beauty of Easter, rejoicing in the Resurrection.

Dr. Pritchard.
It would seem that the Baptists in Charlotte are desirous of securing the services of Rev. Dr. Pritchard, Pastor of the First Baptist Church in this city, to judge by the following, which we clip from yesterday's *Observer*:

A congregational meeting of the Baptist Church in this city was held last Wednesday night at which it was decided to call Rev. Dr. T. H. Pritchard, now in charge of the Baptist Church in Wilmington, to the pastorate of the Charlotte Church, and a formal call has been extended to the Doctor. Dr. Pritchard is a leading man in his denomination in this State, and it is to be hoped that he will accept.

Colored Organizations.
In addition to the list of secret colored societies published in the *Review* a few days since, there is an organization known as the J. R. Giddings and Jolliffe Union, which is composed entirely of females. There are five tents of this Order in the city, viz; Rebecca Tent, Southern Light Tent, Priscilla Tent, Israel Tent and Pilgrim Tent. These several tents have a membership of nearly 2,000, and are possessed of considerable property in real estate. We were unable to obtain the names of the officers of the different tents, as they did not desire to have their names in print.

Germania Fire Insurance Co.
The Germania Mutual Fire Insurance Company of Wilmington has been organized with the election of the following gentlemen as a Directory, viz: B. G. Worth, Thos. D. Meares, R. M. McIntire, F. H. Darby, Jno. E. Lippitt, Geo. R. French, Jr., S. H. Fishblate, W. T. Daggert, L. Hansen, R. W. Hicks, W. H. Sprunt and Jno. D. Woodley.

The Board will meet in the Mayor's office in the city Hall on Monday evening next for the election of officers and for the transaction of other business. We are glad to note the organization of this company. It is a move in the right direction and we have often wondered why such an enterprise was not inaugurated here. The Board of Directors is composed of representative business men and in this respect, at all events, the new company is launched under the most favorable auspices.

Religious News.
The religious revival which has been in progress for several weeks at the Fifth Street M. E. Church continues with unabated interest. It is truly a remarkable religious awakening, and as yet there seems to be not a particle of diminution in the zeal and deep-seated earnestness which have characterized the meetings from the beginning. Up to last night there had been 191 conversions and 168 accessions to the membership of the church since the revival began, and there were 20 penitents at the altar at last night's meeting. The services will be continued through the coming week and possibly longer. The pastor, Rev. Mr. Tuttle, has worked unceasingly and earnestly in his Master's cause and has been blessed with a glorious reward for his labors.

Personal.
We regret to learn that Capt. J. C. Borden, Conductor on the Wilmington & Weldon Railroad, is quite sick and confined to his house.

Mr. J. W. S. Robinson, member of the lower house of the legislature from Sampson county, was in the city to-day. Mr. T. D. Love, of Bladen county, was in the city to-day and registered at the Purcell House.

Mr. Greer Kidder left here this morning for Greensboro where he will enter as a student in Judge Dick's law school.

Mr. Jeff. D. Smith, formerly of this city, but for three years past a resident of New Orleans, is here on a short visit.

Mr. J. T. Bland, of Burgaw, member of the lower house of the legislature from Pender county, was in the city to-day.

Dr. W. G. Curtis arrived here last night from Smithville and left on the fast mail train for the North where he has been called by the death of Mrs. Curtis' mother.

We regret to learn that Mr. J. W. Thompson, Secretary and Treasurer of the Wilmington & Weldon and Wilmington, Columbia & Augusta Railroads, is quite sick with inflammatory rheumatism.

The Passover Season.
The Jewish season of the Passover will begin at 6 o'clock on Monday next, March 30, and continue till the 7th of April. The feast is celebrated as a memorial of the departure of the Hebrews from the land of Egypt and the passage of the angel over the Jewish households. During this season certain regulations of diet and practice are observed by all strict Hebrews. The use of leavened bread or leavened provisions of any kind is prohibited, and as a substitute a large flat cake composed of unleavened flour is universally used. This cake, called matzo, signifying in Hebrew, "unleavened," weighs from two to ten ounces, the prices ranging from eight to ten cents a pound.

During the Passover season leavened food of every description is excluded from Jewish households. The ancient Israelites were accustomed to open the harvest season by a religious feast. No one tasted the new grain, not even parched or fresh ears of corn, till the first sheaf had been presented to Jehovah, and then all hastened to enjoy the new blessings of Divine goodness by eating unleavened cakes, without waiting for the tedious process of fermenting the dough. This natural usage became fixed in custom, and at a comparatively early date a new significance was added to it by a reference to the exodus from Egypt, when the people in their hasty departure had no time to leaven the dough already in their troughs.

The Art Amateur.
For April contains attractive designs for a dessert plate, (pansies), and a cup and saucer (perennial flax) repousse brass work (peacock), embroidery and jewelry. The frontispiece represents a pleasing group of recent sculpture by Theo. Baur. An article on D. Kidway Knight is copiously illustrated by clever drawings from his pencil, and there is a page of sketches from the French Water Color Exhibition for fan decoration. "Crayon Portraiture" is an article of special value to amateurs and the principal departments are, as usual, richly filled. Price, 35 cents. Montague Marks, Publisher, 23 Union Square, New York.

DIED.
KING—At 1:30 o'clock, p. m., on the 21th of March 1885, Mrs. LENOIRA KING, wife of Mr. Richard King, passed from the sufferings of this world. She leaves a husband and five children to mourn her loss. Mrs. King was a generous, kind hearted, good woman, and was respected by all who knew her. She had been a consistent member of the Presbyterian Church for many years. About one week ago she was taken with pneumonia, and last succumbed to its effects. Although racked and tortured by the most excruciating pains, she was calm and resigned. "The Lord stretch and the Lord takeeth away, blessed be the name of the Lord." Her remains were interred at Topsail Chapel, in Pender county, on the 25th. A large concourse of friends and relatives were in attendance. Mrs. King was 78 years of age. A FRIEND.

COMMUNICATION
FROM PROF. A. B. CHANDLER, PRINCIPAL OF THE ACADEMY, BROOKHAVEN, MISS.

The following extract regarding Dr. Kennedy's Favorite Remedy is taken from a private letter from Prof. A. B. Chandler, of this city. We have obtained his consent to its publication, thinking other afflicted ones might experience a like benefit from this unquestionably splendid medicine:

"I have been under Dr. Kennedy's treatment for two months, taking only the medicine in question, FAVORITE REMEDY, and the effect on my disease is already wonderful. I am daily regaining the use of my side, which had been so long like a piece of dead weight to be dragged about uncontrolled in the least. Now I walk all around the school house and grounds, unaided even by the accustomed walking-stick. I suffered from paralysis and torpidity of the liver and bowels. All this has been removed, and my general health was never better than at present."

Dr. Kennedy has a large professional practice in the Hudson river counties of New York, among the most intelligent and refined people, and during the quarter century's service in this vicinity he ascribes his great success as a physician and surgeon to the marvelous curative properties of his "Favorite Remedy." The doctor knows his medicine has the power to alleviate suffering, and he is anxious to have it known wherever disease and pain exist.

"Favorite Remedy" has large sales at the North, and I hope for the sake of suffering humanity it will soon be recognized in the South, where we are deluged with so many nostrums, many even injurious to health and happiness from their alcoholic properties, which give for a "while deceptive stimulation." "Favorite Remedy" is said to give a disjunct for strong drink, a most powerful recommendation. mch 28 It
