The failure of the Exchange National Bank of Norfolk, remarks the News and Observer, is probably a greater ing. calamity to the Albemarle section even than we had supposed. Generally, it may be stated, that there is not a farmer, lawyer, merchant or other man in that section with money, but to some extent did business with that institution.

At Queen Victoria's last drawing room there were some splendid Eastern costumes, and an Italian lady, having kissed the Queen's hand, offered Her Majesty an Oriental salaam as she retired, to the great amusement of the changed is a prized memento in the circle. There is a Scottish Land League of America devoted to remedying the grievances of Scotch crofters. The executive committee met in Chicago last week and decided to raise a subscription of \$20,000 before July 4 for the defence of crofters unduly evicted, the relief of the families of imprisoned crofters, and for agitation. #### More Thieving.

We have received a copy of the "Report of the Seventh Annual Meeting of the Alabama State Bar Association." held in Montgomery on Dec. 3rd, in which the name of our young townsman, Mr. Alex. T. Mr. London read before the Association a paper on "The Code of Civil Procedure as Administered in North Carolina," which was so well received that it was ordered to appear in the printed report of the proceedings and it is embodied therein.

#### Some Just Complaints.

Some of our subscribers in the Rocky Point section publish to-day in the RE-VIEW a complaint in regard to mail ir regularities which calls for prompt attention. And they are not the only sufferers under the existing order of things. The people of Wilmington have cause for complaint also. The mail matter which leaves here in the morning on the W. & W. R. R. for Long Creek and Point Caswell lays over for twenty-four hours at Rocky Point, simply because the mail carrier leaves that place an hour or more before the mail arrives there. #### Treatment for Pneumonia.

There has been more pneumonia in this section this season than in years. and many cases of it have proved fatal. In view of its contined prevalence it may not be amiss to quote a correspondent of the New York World who says he has been twice down with it and that it can be cured if the person will 'apply promptly over the lungs a poultice or draft made of mustard and flaxseed, keeping quiet and warm in bed." We would not advise personal or domestic treatment in the case of any dangerous malady like pneumonia; the wise thing to do in every such instance is to call in promptly an intelligent and prudent physician. But there are localities in which much time is lost before the services of a physician can be se. cured, and in a case of this kind some simple family treatment like that indicated is certainly advisable.

#### War News.

There was quite a buzz of excitement on the streets to-day on account of the European warinews. A dispatch was received here this forenoon stating that hostilities were actually begun on the 31st ult., by the Russians making an attack on the Afghans, by which the latter were defeated with great slaughter and driven from their position. The attack was premeditated and not an accidental meeting of the forces, and was prompted by reported out rages upon Russian subjects. In consequence of this news Russian and Enslish securities have fallen off con siderably, and the markets have be come very unsettled. Cotton has fallen off 15 points in Liverpool, while mea's and breadstuffs of all kinds have advanced. This act of the Russians has been taken in England as a positive and direct declaration of war, and measures are being taken accordingly.

To us it seems like the commencement of prolonged hostilities in which it is more than probable that more European nations will become involved
