RUSSIA'S ADVANCE.

Conflicting Reports About the Occupation of Maruchak.

LONDON, April 30.—In the House of Lords this afternoon Lord Granville announced that telegrams had been received from Sir Peter Lumsden, which contradicted the reports of a Russian occupation of Maruchak.

Notwithstanding this statement, it is now quite certain that the Russians have taken Maruchak, and that Sir Peter Lumsden, when he informed the Government to the contrary, had allowed himself to be fooled by the Governor of Herat. This is the second mistake that Sir Peter has made regarding the purposes and achievements of the Russians.

Very many sensational rumors are in circulation, and officers of the Naval Reserve are rapidly joining men-of-war, but the situation has really undergone no change since last night.

In the House of Commons this afternoon Lord Edmund Fitzmaurice, Under Secretary for Foreign Affairs, said the Government were as yet without information of a second engagement between the Afghan and Russian troops and believed that the Afghans still hold Bala-Murghab.

As against this a despatch from Brussels, says the St. Petersburg correspondent of the Independence, reiterates the statement that there has been a fresh engagement between the Afghans and Russians, and that the latter were repulsed. He asserts that the report has been officially confirmed.

It is known that Earl Granville's note, besides asking for an arbitration inquiry into the Komaroff incident, offered to end the dispute by conceding to Russia the Lessor line, under a distinct pledge that it shall be the abiding limit of the Russian frontier.

The response of M. de Giers will reach here on Monday. It will announce the acceptance of the Lessor line, but a refusal to hold an inquiry into the Komaroff incident.

The forecast of Mr. Childers of the deficit in the budget for the ensuing financial year, which is estimated at £14,932,000, has created a sensation. It is the largest deficit since the Crimean war. Mr. Childers said it would require a great demand upon the patriotism of the people.

The budget submitted to-day by Mr. Childers is generally admitted to be the best that could be expected under the circumstances. The frugality of the civil estimates for the ensuing year is shown by the fact that the proposed expenditures, including the \$55,000,000 war credit, are but \$9,362,180 in excess of the estimate for 1883-84, which amounted to \$43,997,820.

The Situation

[Herald Cablegram.]

LONDON, May 1

The situation may perhaps best be summed up this morning by quoting the usually conservative Berlin correspondent of the Daily Telegraph:—"I gave you yesterday to understand," he says, "that the question of peace or war would be decided within a week. I can now add that definite information on this all important point will be forthcoming on Monday or Tuesday next at the latest. It is, indeed, possible that all suspense will be at an end this week.

Everything depends on the answer now awaited from Russia to the firm demands recently put forward by our Government. I cannot, with the date at my disposal, hold out much hope that Russia's reply will be of a satisfactory character. To go no further, the account just published by the Russian Official Gazette shows that the Czar's government maintains its ground with regard to Komaroff's conduct.

The Moscow Gazette actually has the face to accuse the British officers attached to the frontier commission of untruthfulness. Then the intelligence of the renewed advance of the Russian troops tends to confirm the impression that the affair has now passed the bounds of diplomatic action, and developed into a purely military question to be solved *vis et armis*."

War is not likely to break out till both the disputing parties begin to issue documents."

Orton's Missing Witness.

DES MOINES, Iowa, April 30.—The noted Tichborne case involving an English baronetcy and immense estate in England, has come to have a local interest in Des Moines. At the close of the trial Arthur Orton, claiming to be Roger Tichborne, the heir to the title and property, was declared an imposter and sentenced to twelve years imprisonment. At the time it was claimed by Orton's counsel that the testimony of one man, whose whereabouts they were unable to locate, would fully establish the identity of his client. He could not be found, and Orton was transported. About one year ago his term of banishment expired, and he returned to England, and again began the task of proving himself to be Roger Tichborne.

Marshal Hafner, of Des Moines, among other peace officers, was corresponded with in relation to the missing witness, and some four weeks ago became satisfied that he had located him in California. In fact, the Marshal discovered another man that personally knew the witness, and had been assured by him that he could fully identify Orton and Tichborne. This intelligence Mr. Hafner sent to London by the parties having the matter in charge, who immediately forwarded to him \$500 with which to prosecute the search for the witness. Accordingly the Marshal sent the Clerk of the Police Court to the Pacific slope on this errand, and this morning was rewarded by a telegram from him dated at San Francisco, saying that he had seen the man and ascertained that his evidence

would be all that was expected. McCord will be home on Tuesday. Marshal Hafner to-day cabled the report to London.

STATE NEWS.

Wadesboro Times: Anderson Ratliff, colored, a notorious ex-penitentiary convict, was shot and mortally wounded on Sunday afternoon last upon the premises of Mr. Henry Haynie, who lives a few miles south of this place. Mr. John Polk lost a horse on Monday in a singular manner. He ran upon a hoe, and the handle firing up pierced his side, killing him instantly.

News and Observer: During April 44 drummers' licenses were issued from the State treasury, to firms in all parts of the country. A report is current here that an Englishman of influence, living at Washington, has made inquiries as to the practicability of procuring colored men to volunteer for foreign service. The matter has created considerable talk. Some say that a liberal bounty and fair pay would secure many such volunteers; others say that no one could be obtained for that purpose.

Hickory Carolinian: A double burial service is not often witnessed in this part of the country, and the hand of bereavement and affliction is not often laid so heavily as on Mr. H. C. Warwick, who lately moved here from Shelby. About two weeks ago his wife died. Last Monday morning, April 27th, his baby daughter, Myrtle Ivy, aged 10 months, followed her mother and in the afternoon of the same day his father, Michael Warwick, aged 75 years, 5 months and 25 days, ended his earthly pilgrimage. The two last were buried at the same time on Tuesday evening.

Charlotte Observer: If there are any ex-Confederate soldiers in this county who are entitled to pensions, they are slow in making it known. So far, not a single application paper has been called for. The shipment of lumber from Western North Carolina to Europe amounts to 275 car loads, instead of 225 as we stated yesterday. If it could all be hauled at one trip it would require a train 10,000 feet long to carry it.

As the passenger train on the Chester & Lenoir narrow gauge railroad, was crossing the high trestle over Crocker's Creek last Wednesday, the tender jumped the rails and the wheels bounced over the cross-ties for a distance of 150 yards. None of the cars left the track and the train was finally stopped without any damage having been done to it, but the fireman, a colored man, at the first sign of danger made a wild leap from the cab and landed on the rocky bed of the creek below the trestle, striking squarely on his head. When the train hands reached him he was found to be in a dying condition, with his skull badly shattered. There were no hopes of his recovery.

Goldsboro Argus: Messrs. Geo. Crabtree, of Washington, and Charley Thacker, of Greensboro, had quite an experience yesterday. They had been out to the asylum near this city, and returning attempted to ford the river instead of crossing the bridge. In doing so their horse mired, and in the animal's efforts to free itself it broke loose from the buggy and gained the opposite bank, leaving George and Charley seated in the vehicle in the middle of the stream. "And there they sat and sat," and watched pennies to see which one should get out into the river and pull the buggy and his confederate ashore. The lot fell to Charley, and out he jumped into the rolling Neuse, up to his neck and swung into the de horsed buggy with a movement shoreward, but it was no go; Charley was not "equivalent to the occasion."

So George had to "pile out" and help, and a nice double team never pulled a buggy. They left the vehicle on the river bank, and dripping wet, struck out for the city afoot, at a 2-30 gait, in order to be in advance of a pair of huge chills they saw "a-coming down the road." The boys got here first, though pretty well winded, and when last heard from were recuperating nicely.

MISCELLANEOUS.

WHY WILL YOU Throw away ten, fifty, yes one hundred dollars or more every year when you can save that amount by trading with SHRIER, who is always ready to show goods? And it does not cost a cent to see them. It is only a matter of five minutes time and we are willing to stand or fall in any sensible man's opinion on the result. The fact is that while we have been for years in business, we never saw the time when people looked so closely at goods as they do to-day, and nothing ever pleases us better, for our Clothing, as everybody admits, are the choicest in style and quality. All we have to prove to the most suspicious buyer is that our prices are the lowest, and this is why we want every one to come and see our offers. We have only one thing to say and that is: We guarantee to give you full value for your money every time, and will refund money if you are dissatisfied. Call and convince yourself of the fact.
