

The Daily Review has the largest bona fide circulation, of any newspaper published in the city of Wilmington.

It is a fact of some general interest that spot cotton is being sold in American markets one-half to three-fourths of a cent cheaper than a month ago, while cotton goods, except print cloths, have been held about steady. Manufacturers' margins have, therefore, improved, being previously uncomfortably close.

The Syracuse Courier says that there are strong indications that the friends of ex-President Arthur throughout the State are actively moving to put that gentleman prominently forward in Republican politics in New York. It is even said that they hope to nominate him for Governor this fall, as a stepping stone from which to get back to the White House in 1888.

The banks in the New York Clearing house that pay 2 1/2 per cent. interest have decided to reduce the rate to 2 per cent., claiming that they cannot afford to pay more. The margins deposited by traders on the Produce Exchange are affected by this, and members are trying to combine and prevent the reduction from 2 1/2 per cent.

Senator Don Cameron, who is now visiting his brother-in-law, Gen. Nelson A. Miles, at Fort Vancouver, on the Pacific coast, gave an order before he left for the sale of his residence at Washington. A gentleman named Morgan, from New York, made an offer of \$90,000 for the house just as it stands, furniture and all; but Don says that if he can't get a clear \$100,000 he will not sell.

Whether or not one could catch a ball thrown from the top of Washington Monument led the catcher of a local baseball club to make a similar trial recently from the top of the waterworks standpipe in Erie, Pa. The height was 248 feet, and upon the seventh attempt the deed was accomplished, but the catcher declared the sphere weighed a ton. The difficulty is not in the ball veering to either side, but in its accelerated velocity.

The old notion of "combating" with medicines such diseases as lung inflammation has given place to more enlightened views. The system of the late Dr. Hughes Bennett is described as "treatment by restoratives directed to further the natural progress of the disease and supporting the vital strength." The Lancet states that the Doctor had 105 cases of uncomplicated inflammation of the lungs which he treated on this principle, without a single death.

A Mexican historian makes a new attempt to show that America was discovered in the fifth century, A. D., by a party of Buddhist monks from Afghanistan, of whom one, Hwui Shan, returned to Asia after an absence of forty-one years. A short account of the land which he visited, supposed to be Mexico, was included in the official history of China. There is proof that Hwui Shan actually visited some unknown Eastern region, and the traditions of Mexico contain an account of the arrival of monks.

According to the Progres Medical, the mortality among children "brought up on the bottle" is frightfully large. Of 4,510 infants under one year who died of gastro-intestinal troubles in Paris in 1882, it is found by recent investigations that very nearly the whole number were victims of artificial alimentation, wholly or in part, or had been fed prematurely with solid food. At the dispensary of the Societe Philanthropique not a single case of the disease was found in infants fed in conformity with natural laws.

England is the largest importer of wool in Europe, requiring 290,000,000 feet per annum more than she produces. As much as neither Canada nor the United States can much longer spare large quantities, and since no European country can now produce much more than is required for home consumption, while almost all of them are importers, Great Britain must ere long depend on her own resources. There are extensive tracts of land in Ireland and Scotland that might be profitably devoted to forest culture.

A. Halter Gross, of Philadelphia, has declined the appointment as consul to Athens, Greece. When spoken of about the matter Mr. Gross said when the appointment was made it was thought that he would be the only representative of the United States in that country. The recent appointment of

We thank Mr. C. M. D. Humphrey, of the New Market, for a fine Florida cabbage, sent in to us to-day, as a specimen of what he is able to furnish in the vegetable line. He has others on hand for sale, as well as a fine variety of vegetables of all kinds.

Quite a number of our people went down the river yesterday as far as the "Rocks," on the steamer Louise, and passed the day in fishing. We learn that they had very fair luck, but would probably have had better if the wind had been more favorable.

We are requested to state that the notice by Mr. Geo. W. W. Davis, in the REVIEW and Star of the 4th and 5th inst., in regard to certain persons collecting money under the false pretense of aiding him, had no reference to those who aided in founding him last week, but to two women who pretended to be on such an errand, one of whom professed to be a fortune teller.

The following resolution, which was adopted by the Ladies' Memorial Association upon a previous occasion, is appropriate at the present time:

Resolved, That as the number of soldiers who have died since the war has increased to such an extent and the membership and interest in the Association have decreased so greatly, as well as the small contributions for that purpose, that the Association continue to erect the memorial stone over those who pass away; but the decorations be confined, according to the original design of the Association, to those who lost their lives during or at the close of the war, together with the usual mound decorations for those whose ashes mingle with other soil.

There will be an especial opportunity afforded on Saturday afternoon for the ladies of Wilmington to prove that two decades of years have not obliterated the memory of our Fallen Braves, sleeping in Oakdale. The Ladies' Oakdale Memorial Association will meet at the School House in the rear of St. James' Church, at that time, for the purpose of wreathing laurel crowns for the graves of our heroes, and will be grateful for any assistance kindly tendered, and any addition of memberships will be gladly received by that body. Contributions of flowers will also be much appreciated on Monday, (Memorial Day) and those who contribute will please send them to the school House as early after 9 o'clock a. m. as convenient.

The choir which has volunteered for the occasion is composed of the following real talent:
Organist—Miss DeRosset.
Soprano—Mrs. Meares, Mrs. Waddell, Mrs. Robinson and Mrs. Watters.

It was quite cool last night for the time of year.

For Waccamaw.

Miss Annie Hart gave the pupils of her school the pleasure of an excursion to Lake Waccamaw to-day. The weather has been all that could be desired and we trust that no accident will occur to mar the joyousness of the occasion.

Fine Cattle.
We saw three very fine and fat beef cattle this morning which were raised and fattened in Sampson county by Mr. Thomas L. Radcliffe. Mr. George F. Tilley was the purchaser here and some of our citizens may be sure of some good, nice beef in a day or two.

Railroad Meeting.
In making up our report of the meeting of the stockholders of the Carolina Central Railroad yesterday, the following was received after we had gone to press:

Mr. Isaac Bates was elected one of the directors, but declined to serve when it was too late to supply his place with a representative of Wilmington, hence the old board, with the exception of C. Goddard and Dr. C. H. Roberts, were re-elected. Maj. Winder and Maj. Stedman going out.

Looking Seawards.
A gentleman who recently spent a week in Charlotte tells us that the people of that city and section are looking with longing eyes towards the coast this Summer. The attractions presented in the mountains seem to have become about exhausted and the longing is now for salt water, "a wet sheet and a flowing sea." Smithville seems to be the point at which they are looking most intensely and the outlook now is for a gay season this Summer in that good old town.

Hotel Brunswick.
The Hotel Brunswick, having been thoroughly overhauled and renovated, will be open the public for the Summer season on and after the 18th inst., by which time the Passport will have begun her regular Summer schedule. This hotel will offer the attractions of a good table, a well ordered house and the amusements generally found at first-class Summer resorts. A good band of music has been engaged, and the pavilion will be found a cool and pleasant resort for the guests of the hotel.

Rat Catching.
At the store on South Front street, now occupied by Messrs. Giles & Murchison, nine rats were caught last night in a trap. This morning they were carried out into the street and four or five rat dogs were called to catch them as they were taken out of the traps. This occasioned quite a collection of people who wanted to see the fun. The dogs all seemed to be ready for the sport, but one of the number, belonging to Mr. Arthur Holmes, seemed to understand the business and was more active than the rest, for he caught eight rats of the nine. He was a small, shaggy dog and as a beauty would not stand much of a chance in a prize bench show, but as a rat catcher he was a pronounced success and could discount all the others.

All in need of a Canary or Mocking Bird Cage, will do well to call at JACOBI'S Hardware Depot, and examine his large and fine stock.

Praise Worthy Bestowed.
We clip the following from the Nashville, Tenn., Daily American. It quotes the language of one of our Christian ministers and fellow citizens and shows that he possesses grateful memories of the people with whom he was at one time intimately associated:

The Rev. F. W. E. Peschau, of Wilmington, N. C., formerly pastor of the German Lutheran Church in this city, and who has been spending a few days here with friends, has left for home in time to conduct the Sunday services at his own church in Wilmington. Mr. Peschau retains his membership in the Royal Arcanum here, and at the meeting of its council on Monday evening last he was called upon to speak. He did so, and in the course of his remarks said he loved Nashville for her noble men and women; for her public and her benevolent institutions; for her schools, her colleges and universities; but especially did he love the people here for the personal reason that when he came to this city, the pastor of a comparatively poor church in an obscure part of the town, the best citizens took him by the hand and encouraged him in his labors. They took him into their hearts and did not ask about his wealth or the power of the almighty dollar. He said he ought to love the people of Nashville, and would be an ingrate if he did not. The Council was delighted with his speech, which was earnest and really eloquent.

To every Housekeeper a good substantial cook stove is an important necessity and our readers will find the best at Factory prices at JACOBI'S Hardware Depot.

Without Foundation.
A rumor was on our streets to-day that Mr. H. L. Leonard, of Bladen Co., had been missing since last Monday night and there were grave fears that he had been foully dealt with. We are glad to state, however, that there was no foundation for the story as Mr. Leonard was seen within a day or two at Elizabethtown, Bladen Co., and was alive and well.
