The Daily Review has the largest circulation, of any newspaper published in the city of Wilmington.

The various theological seminaries are now in the midst of their commencement. The classes have been larger than usual in several of them, and the interest is greater than ever. One-fourth of the year's graduates of Princeton are to go as foreign missionaries.

German statistics show that there has been an almost unprecedented increase of students during the last decade, and at the present moment Germany, with a population of 45,250,000, has 25,000 students attending her universities, while England, with a population of 26,000,000, has only 5,500 students at Oxford and Cambridge.

Chicago has time for little else than to brag of her magnificent temple for the Board of Trade. The building, with the land, cost about \$1,800,000. Its length is 225 feet, its breadth 176 feet, its height 160 feet, the height of its tower 304 feet. The room in which the operations of the board are to be carried on is 161 feet long, 141 wide and 80 feet high. Around it are many elaborately finished offices, with every convenience known to science for the facilitating of trade.

Rev. Myron W. Reed, of Indianapolis, has made the discovery that all Scandinavians move West as near their own parallels as they can. They like the pine better than the sycamore. They are scattered thickly in Minnesota, Dakota and Montana. The Hollander found as near what he left as he could and settled in the valleys of the Hudson and Mohawk rivers, and there built a house like the one he remembered.

A colony of infidels was founded five years ago in Barton county, Missouri. A correspondent of the St. Louis Globe-Democrat, who spent a day and a half in the new town, called Liberal, says that the experiment is a failure; that the town, instead of keeping pace with other towns of the same age, has fallen far behind them, and instead of being the happy, prosperous community it promised to be, is shrivelled, contracted, torn in two by dissensions, and in a condition where only prompt action on the part of its friends toward a complete reorganization will save it from disintegration.

THE DAILY REVIEW.

VOL. IX. WILMINGTON, N. C., MONDAY, MAY 18, 1885. NO. 114.

Wilmington Light Infantry.

This admirable organization, whose record since its formation in 1853, forms such a glorious part of the history of the Cape Fear region and of the State, will celebrate its anniversary on the 20th inst., by a target practice at 4 p. m. on the West side of the river, to which the friends of the company are cordially invited to be present.
As a matter of interest we publish the names of the veteran corps, honorary members and reserve corps of the organization:

Savage, Henry Savage, W. H. Shaw, John Scholar, J. C. Smith, S. A. Swann, W. M. Swann, W. R. Utley, H. B. Willis.

HONORARY MEMBERS.

D. Radcliff, F. W. Kerchner, Geo. W. Bailey, Jas. I. McRae, M. P. Taylor, John C. James, Thos. C. James, W. L. DeRosset, R. H. Beery.

RESERVE CORPS.
Capt. R. H. Beery, Sergt. N. F. Parker, Corp. W. B. McKoy, F. L. Maundrum, drummer.

The Infantry now numbers nearly 70 members, rank and file, is under excellent discipline, and is remarkably proficient in drill. They hope to parade 100 strong before many months, and will work earnestly with that object in view. With the active aid of the ladies and the friendly interest of the Veterans, this will no doubt be accomplished.
The Company will attend the festival given for their benefit by the ladies of the city on Wednesday and Thursday evenings, in full dress uniform, and we trust that the public generally will manifest their pride in the grand and historic organization by a large attendance and a liberal patronage upon that occasion.

Honest Admiration

Is the tribute always paid **SHIRER**. We endeavor to give the public better value for less money than any concern in this city. Our prices will convince you of the fact. Take a look around the different stores, get well posted, and then examine our great bargains. The Old Reliable spares no pains to suit you, and patrons appreciate square and honest dealing all the year round. You can save from \$3 to \$5 in ten minutes' time by visiting **SHIRER** and selecting suits for yourself or boys. **SHIRER**, the Old Reliable Clothier, 114 Market street.

The Graded School.

The various Graded Schools of our city will receive visits from the parents and friends of the pupils at from half past 10 a. m., to 12 m. on the following days:
Peabody School, colored, Tuesday May 19th.
Williston School, colored, Wednesday May 20th.
Heavenway School, white, Thursday May 21st.
Union School, white, Friday May 22nd.
It is hoped that the parents and relatives of the pupils and all who feel an interest in the cause of education will attend and see the progress which has been made.

Animalcules in Drinking Water.

There has recently been a good deal of sensation among different classes of our population, both white and colored, on account of the presence of red worm-like objects in drinking water. These worms, if we may so call them, have been alleged to have been produced in the stomach of a sick person in this city and as this marvel gained more publicity, it was discovered by two or three persons, that their spring or well water contained these same objects.

The subject has been kindly investigated for the State Board of Health by Dr. Salmon, of the Bureau of Animal Industry, at Washington, D. C., and he reports that the entomologist of the Agricultural Department pronounces them the larvae of gnats and of course they are no more harmful than wiggle-tails, the larvae of the mosquito, and not any more likely to have been generated in the human stomach.

The Newton Normal School.

The Faculty of the State Normal School, which begins at Newton, N. C., on July 1, 1885, and continues four weeks, is about complete. It will contain the names of the following well-known instructors, who, with one exception, are North Carolina teachers, and are well acquainted with the educational wants of our State: M. C. S. Noble, Supt. City Graded Schools, Wilmington, N. C.; Edward P. Moses, Supt. Graded School, Goldsboro, N. C.; W. A. Blair, Supt. High Point Graded School; Henry Houck, Deputy Supt. Public Instruction Pennsylvania; J. J. Blair, Haverford College, Pennsylvania; J. A. Foil, Associate Principal Catawba High and Normal School; Miss Nellie Cook, Prin. Union Graded School, Wilmington, N. C.
*We are sure that those who attended the last session of the Newton Normal will be pleased to know that they will have the opportunity of hearing so many of last year's teachers. With this carefully selected Faculty we predict that the Newton Normal, which has increased in reputation every year, will again lead the State in numbers and enthusiasm.

Base Ball.

The Seaside Base Ball Club left the city this morning for Goldsboro, where they play the first game of their tour of the State this afternoon. During their absence they will play two games at Goldsboro, Raleigh, Durham, Oxford and probably Henderson. It is not yet certain concerning the last named place as the club there has but recently joined the State League. The club, as it left the city, consisted of Messrs. Boatwright, Carmichael, Empie, Harriss, Kooekogey, Kuriz, Moore, Rosenthal and Waddell, with Mr. W. B. Davis as manager and Mr. E. H. Freeman as scorer. The regular first baseman Mr. Beery, did not accompany them on account of business engagements, but it is probable that he will join them before the tour is ended. The club left in the very best of spirits, but with an idea that they had got some hard work to do before they return. The discipline of the Club is excellent, and contracts prohibiting the use of liquors and specifying the hours for retiring to rest have been signed by all the players who went on the trip. This is wise, for the scores made during the tour of the Raleighs show that there will be no child's play in the business, and to hope for success the players must take every precaution necessary to preserve their health, strength and activity. The record of the games will be watched with a good deal of interest by our citizens. We hope for a good, square, honest struggle, with no favoritism, and with these we expect that the Seaside will make a good record.

We noticed quite a fine display of dog collars at JACOBI'S Hardware Depot.

The roses and other flowers this year seem to be considerably larger and more brilliant in their colors than usual.

The school children who have been kept at their books nearly all the time since last October, begin to look forward to the pleasures of the Summer vacation, which is now near at hand.

The Durham Reporter reaches this office at odd times; whenever it has nothing else to do. This morning we received the issues of the 11th, 12th, 13th, 14th, 15th and 20th inst. all at one time.

Workmen were busy to day in putting up and arranging the stands for the festival in the City Hall for the benefit of the Wilmington Light Infantry which will be held on the nights of the 19th and 20th inst.

The Young People's Association connected with St. Paul's Lutheran Church have chartered the steamer *Passport* for a trip down the river on the 27th inst.

Club Room.

The Seaside Base Ball Club have rented and fitted up a room immediately over Kasprowicz' cigar store as a club room, where its members can meet for the transaction of business or to engage in pleasant conversation. There are plenty of chairs for the accommodation of the members and the walls are ornamented with several illustrations, the most of them representing scenes upon the "diamond field." It is a nice comfortable, cosy place.

Musical.

The new organ at the Front Street M. E. Church, gives entire satisfaction, as well it may, for it is a superb instrument and is capable of almost untold possibilities. We have heard organs of greater power, but it is plenty large enough for that building, and is one of the sweetest, purest toned instruments to which we have ever listened. Prof. E. VanLaer, who is temporarily the organist, is delighted with it, and it is a pride and pleasure for him to show its capabilities to willing and appreciative listeners. He is a musician who loves his art, and as a consequence, he is an expert and scientific organist, as well as popular teacher.

Mammoth Sales.

The largest sale at auction of dry goods which was ever made in this country took place in New York on the 13th inst., when 20,000 packages were disposed of, the amount of sales reaching to nearly \$2,000,000 dollars. The time occupied in selling this immense quantity of goods was 7 hours. The prices realized were entirely satisfactory, having been much better than was by many anticipated. Dry goods houses from every prominent city in the country were represented, but the only purchasers from North Carolina were Messrs. Aaron & Rhienstein, of this city, who bought largely in order to be prepared to supply their important and constantly increasing trade in this State and South Carolina. The goods are such as are especially adapted to the wants of this section and for which there is always a ready demand, a fact which these business men, with their keen foresight, were not slow to avail themselves of and profit by.

Criminal Court.

The Summer term of the Criminal Court of New Hanover county, began at the Court House in this city at 10 o'clock a. m. to-day with Judge O. P. Meares presiding and Solicitor B. R. Moore as the prosecuting officer. There is a large docket and the business of the term was conducted with dispatch. By an enactment of the last legislature only 12 grand jurors were requisite who were as follows:

R. F. Langdon, foreman, D. D. Cameron, W. W. Hodges, Sterling Sallings, George Moseley, S. S. Miniz, W. B. Bowden, George Barr, D. S. Bender, J. C. Bizzell, Joseph Mitchell and H. Hutaf.

These having been duly sworn were charged by the Judge, after which the following cases were heard during the morning hours:

State vs. Chester Lamb, assault and battery. Defendant submitted and judgment was suspended.
State vs. W. A. Adler, misdemeanor. Defendant submitted and judgment was suspended.
State vs. Boyd Curry, misdemeanor. Defendant submitted and judgment was suspended.
The Court then took a recess until 3 o'clock this afternoon, and had concluded no further business when our report closed.
