

THIS PAPER published every evening, Sundays excepted by JOSH T. JAMES, EDITOR AND PROPRIETOR. SUBSCRIPTIONS POSTAGE PAID: One year \$4.00, six months \$2.00, Three months \$1.00; One month, 35 cents. The paper will be delivered by carriers free of charge, in any part of the city, at the above rates, or in remote parts, at the above rates, plus postage per week. Advertising rates low and liberal. Advertisers will report any and all fall-calls to receive their paper regularly.

THE DAILY REVIEW.

VOL. IX. WILMINGTON, N. C., FRIDAY, JULY 17, 1885. NO. 165

PLEASE NOTICE. We will be glad to receive communication from our friends on any and all subjects, general or local, but the name of the writer must always be placed to the Editor. Communications must be written on one side of the paper. Personalities must be avoided. And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so stated in the editorial columns.

LOCAL NEWS.

INDEX TO NEW ADVERTISEMENTS.
C. W. YATES—Stationery
HEINBERGER—The Hewgag
F. C. MILLER—Tar Heel Liniment
R. M. McINTIRE—Cheap White Lawns
MUNDS BROTHERS—Killed for 25 Cents

Only four bales of cotton received at this port to-day.

At 3 o'clock this afternoon the thermometer in our office indicated 90 degrees.

A gentleman in whom we have great confidence told us this morning that it would be a hot day!

Steamboatmen report that the river is again getting extremely low, which much retards navigation.

It is said that a district about to be attacked by the cholera is at once forsaken by swallows and sparrows.

There has been an Easterly breeze blowing to-day, which somewhat modified the extreme heat of the sun.

There will be a meeting of the Directors of Clinton & Point Caswell railroad held in this city on the 28th inst.

The time to buy fish during this hot weather is early in the morning, and then they should be cooked as quickly as possible or they will be spoiled for eating.

For the match game of base ball at Goldsboro yesterday between the Henderson and Goldsboro nines, the latter were declared the victors in a score of 5 to 4 for the Hendersons.

Lookout, boys! The cerkis is coming! Mr. Charles Sirvalls, the advance agent of Cole's Circus, was in Raleigh a few days since, and he will probably be in Wilmington before long.

There was a large party at Wrightsville yesterday. The picnic party of St. Paul's Lutheran Church caused a great many to go, and we are glad to learn that they had a pleasant time.

We have seen it stated in some of the papers that pigs have been known to live to the age of twenty years, but we had always understood that they became hogs long before arriving at that age.

It is said that the vocabulary of a child five years old does not exceed two or three hundred words, but that of a full grown woman with a new bonnet that don't suit her would exhaust a pocket dictionary in ten minutes.

Attention Cornet Concert Club; Every man must have an abundance of clean linen: The encampment at Asheville, and the place to buy furnishing goods; Dyer's, are the talk of the town.

The North Carolina Association of Druggists will hold its annual convention at Greensboro, N. C., on the 12th and 13th of August next—the same time at the Fruit Growers' Fair will be held.

We learn that the Wilmington & Weldon Railroad Co., will soon commence the erection of a large brick warehouse at Battleboro. Such a building is much needed at that place and will be a great accommodation to the public.

Indications. For the South Atlantic States, generally fair weather, variable winds and nearly stationary temperature.

City Court. There were two cases of drunk and disorderly before the Mayor this morning. In the first case a fine of \$5 was imposed and in the second judgment was suspended, with the understanding that the offender must obtain employment or leave the town within 24 hours.

"Tickets, Gentlemen." At the last regular monthly drawing of the Louisiana Lottery the following numbers, draw the principal prizes: Ticket, No. 8900 drew the capital prize of \$75,000; 48,954 drew \$25,000; 12,580 drew \$10,000; 71,650 and 95,149 each drew \$6,000, and tickets 17,312, 27,935, 58,593, 60,099 and 65,885 drew \$2,000 each.

Noisy. This city is becoming noted for its base drums and tin horns. We hear it stated, by a gentleman whose business makes him a frequent visitor here, that it is impossible to get out of hearing of the sound of an engine bell before you will hear a base drum or a tin horn, and that, very frequently, you will hear them both at the same time. Can this be thus?

Coming.

By means of that remarkable instrument of modern research, the spectroscopic, the otherwise absolutely imperceptible motion of so called fixed stars is not only detected but measured. Sirius is found to be now approaching the earth at the rate of twenty miles a second, while a few years ago this notable star was receding from us twenty-five miles each second.

Religious News.

Rev. E. S. Alderman, who is at home spending his vacation, takes but little time for rest or pleasure. He will begin a protracted meeting at Lisbon, Sampson county, on the 26th inst., which is the fourth Sunday in this month, which will be continued for several days. He is a talented young gentleman and as an earnest, faithful and devoted preacher will prove, before many years, one of the shining lights of the Baptist clergy of North Carolina.

Spoiling the Trees.

A hideous looking cross between a bug and a worm is playing havoc with the foliage of the cedar and trees of the same genus in the city. These creatures feed upon the foliage and in a short time, with the large number of them and their seemingly ravenous appetites, they will strip a tree of every vestige of green leaves, leaving only bare branches, which have the appearance of having been scorched by fire.

A gentleman in this city who has quite a number of these trees in his yard, put a colored man to picking off the worms, or bugs, this morning, and by noon he had succeeded in gathering a gallon bucket full from a single tree.

Base Ball.

The Raleigh Base Ball Club arrived last night and registered at the Commercial Hotel. The following are the names of the members:

D. Bennett, C. Jordan, C. Separk, D. Anderson, L. Perry, C. Haynes, Geo. Cain, J. Fitzsimmons, M. Kennedy, E. Lewis and W. Houseman.

They play with the Seaside this afternoon and also to-morrow afternoon, and as they now stand as the champions of the State, they will undoubtedly do their level best in the two games here not to have their record lowered.

Influence of the Moon.

The popular impression or belief that the moon exerts an influence upon vegetation or upon animals is a relic of the ancient superstition of paganism under which the sun and moon and stars were worshiped as deities. There is nothing in the moon or in its influence upon terrestrial affairs which can possibly make any apparent effect upon the growth of any plant. If any possible effect can be produced at all it is through the influence of the moon's light, but this is so very weak as compared with sunlight as to be of very little account. We do not even know if the light has any effect whatever upon growing plants; it is certain that it cannot affect in any way seeds which are buried in the ground.

Fruit Growers' Fair.

We have received the premium list of the North Carolina Fruit Growers' fourth annual fair, which will be held at Greensboro, N. C., on the 12th and 13th of August next. Extensive arrangements are being made to have this fair the most notable in the quality, quantity and variety of fruits exhibited which has been held. Hon. James W. Reid will open the exposition on Wednesday, August 12th, with an address appropriate to the occasion, and Hon. Norman J. Coleman, U. S. Commissioner of Agriculture, and other eminent speakers are expected to be present and make addresses. Arrangements have been made with the authorities of the different railroad and express companies for greatly reduced rates for visitors and packages of fruits. We hope that this section will be well represented, as fruit growing is rapidly becoming one of the most important and valuable industries of the State, and this section cannot afford to be backward in the matter.

Must be Sold.

In order to gain sufficient room to place our mammoth stock of fashionable clothing now in course of manufacture, we have made another sweeping reduction on Spring and Summer weight clothing—a reduction from 25 to 50 per cent, below their former price. Your chances have never been so great. SHRIER, the Old Reliable Clothier, 114 Market street. Sign of the Golden Arm.

It is about time for another cool wave, and we know it would be hailed with delight.

There was a large crowd went to the base ball grounds this afternoon. The game possesses peculiar fascinations for our young people and we know a good many who would hardly be called juvenile who take much delight in witnessing the exciting sport.

The Newbern firemen, who left here yesterday morning, received quite an ovation upon their arrival at Goldsboro, where they were obliged to wait for some hours. The Goldsboro Fire Department turned out to bid them welcome, and there was a grand time.

All the little vexations of life have their uses as a part of our moral discipline. They afford the best trial of character. Many a man who could bow with resignation, if told that he was to die, is thrown off his guard and out of temper by the slightest opposition to his opinions or his projects.

To be beautiful in person, we must not only conform to all the laws of physical health, and by gymnastic arts and artificial appliances develop the elements of our physical being in symmetry and completeness, but we must also train the mind and develop the affections to the highest possible degree.

Not Yesterday.

We understood that the Wilmington District Conference of the M. E. Church would be held at Smithville yesterday, and we so announced it. We are now told that it will be held on Thursday, the 23rd inst., which we presume is correct as it was not held yesterday.

Personal.

We are glad to know that the condition of Mr. John Grant continues to improve. Mr. R. J. Scarborough, for many years a well-known saloon keeper, but who has been an invalid for several months, has concluded to remove to the North with his family and pass the remainder of his days with his step daughter, Mrs. Williams, at Ocean View, N. J. He will start for his new home on Thursday the 23rd inst.

Ice Water.

The latest theory concerning Bright's disease and other affections of the kidneys is that they are due to the moderate use of ice water and other chilled beverages. Thirty or forty years ago, a physician asserts, when people slaked their thirst with fresh water, from well or pump, kidney disease was virtually unknown. Now, however, the general use of ice in every household and saloon and the multiplication of soda fountains cause thousands of persons to abruptly shock their heated, internal organs with freezing draughts, and kidney troubles are prevalent.

Carrot Pie.

A nourishing and healthy pie is made of carrots, supplying sulphur, iron and other substances needed to make rich and pure blood. Boil the carrots soft, and mash through colander. For one pie use four large spoonfuls of carrot, two eggs, a pint of milk, and flavor with nutmeg and sugar. For crust, mix equal quantities of white cornmeal and flour with a little salt, and mix with enough sweet cream to roll out like dough. Bake carefully, eat fresh, and if you are dyspeptic you will make it again.

Industrial School.

An Industrial School, designed for giving instruction in the various branches of what should form a household education, was organized at Brooklyn Hall yesterday afternoon, under the auspices of the ladies of the First Baptist Church. There was a large attendance and the meeting of organization was marked with much earnestness. The following were the officers elected: Superintendent—Miss Cornelia Alderman.

Assistant Superintendents—Mrs. E. T. Davis and Mrs. H. H. Foster. Secretary—Mrs. W. L. Meadows. Treasurer—Mrs. J. F. Divine. Organist—Miss Godie E. Taylor. The meetings will be held semi-weekly, on Tuesdays and Fridays, hereafter, and the work in which these Christian ladies are engaged gives great promise of good to the community.

Smithville and the Sound.

ARE THE PLACES FOR PLEASURE and recreation, and JOHN WEINER'S Barber Shop is the place for Hair Cutting, Egg Shampooing, Shaving and Hair Dyeing of every shade. None but first class workmen employed and the finest Perfumes used. Give him a call at No. 23 Market street, between Water and Front sts., Wilmington, N. C. may 26 1/2

Jerseys a specialty.

July 17

The Hewgag.

A NEW MUSICAL INSTRUMENT. It consists of a banjo head and short neck. A single string runs from the pin under the key-board, and is picked by means of a little wheel which is worked by a crank, thus producing a constant tremulo. A child can play it, and yet by practice very beautiful effects can be produced. Call and see the HEWGAG. Price only \$3. For sale at HEINBERGER'S, Live Book and Music Store.

Bargains, Bargains.

CITIZENS OF WILMINGTON, CONSULT your own interest and buy country produce of J. R. MARSHALL, 24 North Water St. Consignments are rushing in. Why stand ye idle? July 16

more money than at anything else by taking an agency for the best selling book out. Beginners succeed grandly. None fail. Terms free. HALLIST BOOK CO., Portland, Maine. dec 1 d&w 17

THE DAILY REVIEW.

THE DAILY REVIEW has the largest circulation of any newspaper published in the city of Wilmington.

A Papal Consistory has been appointed at the Vatican, when six Cardinals will be made.

The French Republic is fifteen years old, older than either of its predecessors because it is likely to be permanent?

A correspondent of the New York Sun says that, at the present rate, it will take eight years to fill the Federal offices with Democrats.

Five hundred and eighty-eight deaths and one thousand one hundred and ninety-seven new cases" was the cholera score in Spain last week.

A Minnesota paper asserts that Sam Houston influenced 90,000 Southern soldiers to join the Union armies, and that they saved the country from secession.

Complaints against the Administration, when traced to their last analysis, in nine cases out of ten, emanate from some man who is waiting for an office that does not come last enough.

The Prohibition candidate for Governor of Ohio, in a recent speech, declared that the purpose of his party was to break down the Republican party first in order to annihilate the Democratic party afterward.

The unwise policy of secrecy as to the advance of cholera from Spain into France cannot be maintained much longer. Cholera has certainly appeared at Marseilles, Toulon and Aix, and may be at other places.

President Cleveland is reported as having said with some emphasis that when a politician deceived him once in making a recommendation to office, that would end that man's influence with his Administration.

"The soil the negro's only hope," is the way a correspondent of the New York Evening Post states it. Political economists are pretty well agreed that it is about the only hope of any people. It is a certain refuge.

While Emperor Williams was taking a drive at Ems on Sunday, a miserably dressed man threw a flower-pot at his carriage, exclaiming: "Thus will the empire break." No damage was done. The man was arrested. He is supposed to be insane.

The Philadelphia Times says: It is not in the nature of things that an industrial depression, caused chiefly by over-production, can be long continued. There are signs that the depression in this country, which has been so general, will shortly give place to renewed business life. Let the croaker go to the rear now and give business a chance.

John Russell Young, who has just returned from the "Flowery Kingdom," says that America is weakening the British monopoly of Chinese trade, and that American ships are more frequently seen on the coast of China than formerly. The withdrawal of the Pacific Mail steamers from Australia, however, does not encourage expectations of a rapid extension of our shipping on the Pacific Ocean.

The Munster Bank, whose suspension has caused great consternation in Ireland, has \$7,500,000 capital to \$5,000,000 liabilities, it is said, and the calamity which has befallen the institution through the disclosure of the fact that its directors were allowed to borrow money without ample security is a warning which should be heeded the world over. The strongest bank may expect a stamped of depositors if it operates such irregularities.

Mr. Stillaber, the "Mrs. Partington," over 70 and a cripple. For thirty years rheumatism has tortured him, and he has completely lost the use of his lower limbs. Locomotion, save in a wheeled chair, is impossible with him. He can neither stand nor walk, while in these respects he is as helpless as a babe, his general health is good, his appetite generous and his spirits are unclouded. Some of the most of his sayings have been written when he was in acute pain.

We will sell all wool white flannel shirts FOR THIS WEEK ONLY at 50c at the Wilmington Shirt Factory, 27 Market st., J. EISEBACH, Prop. if

These Blind Doors have arrived. Those in want of them can now be supplied at JACOB'S Hdw. Depot. †
