THE DAILY REVIEW.

VOL. IX. WILMINGTON, N. C., THURSDAY, JULY 23, 1885. NO. 170

PLEASE NOTICE We will be glad to receive communication from our friends on any and all subjects, general interest but the name of the writer must always be stated to the Editor. Communications must be written on one side of the paper. Personalities must be avoided. And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so stated in the editorial column.

The *Daily Review* has the largest circulation of any newspaper published in the city of Wilmington.

The death of Rev. Dr. Samuel Irons-Prime is deeply regretted.

William Tinsley, of Cincinnati, the oldest architect in the United States, has just died, aged 81.

The Great Eastern has been purchased by the British Government for use as a coal hulk at Gibraltar.

Nearly a million copies of the penny New Testament issued by the British Bible Society nine months ago have already been sold.

Baltimore American: Earl Spencer will have to look to a future generation for a ratification of his record as lord lieutenant of Ireland.

Herr Milch, the Bavarian aeronaut, has just come to grief, after making more than 200 ascensions in safety. His balloon collapsed at a height of nearly a mile.

Gen. Nincom P. Banks is posing as one of the philosophers of the Concord School of Philosophy and will be called upon to narrate what he doesn't know about Goethe.

Mrs. Surra's relatives say that the proposal to erect a monument to her as a martyr, which has just been made by "Brick" Pomeroy, does not meet with their approval.

The author of "Silver Threads Among the Gold" was one of the men who drew prizes in the Administration Lottery. He has been made a Postmaster, with a salary of \$242 per year.

It is reported, on authority, by the *New York Sun*, that on the Pall Mall *Gazette's* black list the names of some Americans, occasionally resident in London, are to their infamy recorded.

Mr. John Roach's son melodramatically declares that no private creditor shall lose a dollar by the old gentleman's failure. It is only the poor old government that's to be gouged, as usual.

It is noted by the Boston Traveller that Gustave de Wolf, the bogus German baron, now under arrest for forgery in Montreal, "while in Boston moved in good society." Of course he did.

The Indiana editors recently discussed the question, "Is it the duty of a political editor to defend the unworthy candidate?" It was finally decided that it all depended upon the value of the county printing.

Norfolk has recently been all torn up by placards on church doors denouncing the present style of apparel worn by ladies as being more in harmony with votaries of the shrine of Babel than the humble penitent seeking peace with God.

Mrs. Mary Jane Morgan, widow of Charles Morgan, owned pictures and bric-a-brac valued at \$2,000,000. She was one of the kindest and most generous patrons of art that this country has seen, and many a young painter will regret her sudden death.

New York World: It is a droll exhibition to see the miniature Southern Brigadier, who has taxed the navy-yard and postoffices for political contributions at every election in late years, declaring for Civil Service Reform and denouncing the Democracy as a party of spoils.

Three sons and two daughters of Gen. Robt. E. Lee survive him. His sons are farmers in Virginia and the daughters are both great travellers—the elder having explored Australia, Japan, China, India and Egypt, in addition to the European circuit of sights.

The Hartford Courant notes some anomalies in the "hard times." Money is said to be scarce for debt-paying and marketing, but not for baseball gate money. The times are hard, but money piles up in all kinds of banks at the East. Business is dull, but not profitable. Possibly men spend money for diversion, just to avoid dangerous reflections and morbid humors.

The probabilities of life for moderate drinkers and total abstainers, according to a comparative table furnished in *Le Journal d'Hygiene*, are that a moderate drinker at 20 years of age may expect to live 15.6 years; at 30, 13; at 40, 11.6; at 50, 10.8; at 60, 8.9. The probabilities for total abstainers are: At 20 years, 44.2; at 30, 36.5; at 40, 28.5; at 50, 21.25; at 60, 15.285.

Base Ball.
The Seaside, after four consecutive defeats with the Hendersons and Raleighs, in their match game with the Durhams yesterday, were declared the victors in a score of 8 to 1. Our home team have met with rather bad luck in their recent games, but we hope that they have now recovered their former prestige and will maintain it to the end of the season. The attendance of spectators was not so large as upon previous occasions.

The Weather.
From all the reports received from other large towns and cities it appears that Wilmington was the coolest city yesterday in the State. At Weldon the thermometer indicated 100 degrees, at Raleigh 102 degrees and in other places considerably above the 91 degrees indicated here. Our people, without a dissenting voice, were emphatically of the opinion that it was hot enough here, and when we hear of the heat at other places we are satisfied to remain here and keep as cool as the nature of our duties and the condition of the atmosphere will permit.

Criminal Court.
The following have been the proceedings before this tribunal since our last report:
State vs. Edward Thomas and Andrew Russ, assault and battery. Not guilty as to Thomas and guilty as to Russ and the latter sentenced to 12 months in the County House of Correction.
State vs. John Anderson, breaking into storehouse. Guilty and sentenced to two years in State Penitentiary.
State vs. N. Richardson, assault and battery. Defendant submitted and judgment suspended.
State vs. J. Whitney, larceny. Not guilty and defendant discharged. Ordered that the prosecutor, Richard Byrd, pay the costs of the case.

Business was quite dull on the wharf this afternoon.

The streets were pretty well washed by the showers of this afternoon.

Call at JACOB'S Hardware Depot and examine his fine assortment of fishing poles and lines.

The only cases for the Mayor's consideration this morning were a number of dealers who had failed to pay their license tax, which were settled.

Blue, white, grey, brown and olive flannel shirts, are sold by DYER. The visitors to the mountains will take notice.

The Chicago Board of Trade adjourned for the day at 1 o'clock this afternoon out of respect to the memory of General Grant.

Seventy-five cents only for the best white unlaundried shirt in the city, at the Wilmington Shirt Factory, No. 27 Market st., J. ELSBACH, Prop.

The crossing for drays and carriages at the foot of Market street is in a miserable condition and is without doubt the roughest thoroughfare in the city.

The American flag was hoisted at half mast on the Custom House and Signal Office this afternoon in respect to the memory of ex-President U. S. Grant.

Matters before the Criminal Court are being pushed with business like dispatch, and there is every prospect that the docket will be cleared by to-morrow night.

There are only three American vessels now in this port. These are the *Regulator*, loading; brig *Charlotte*, loading and the *Schr. Isaac L. Clark*, in distress.

At 3 o'clock this afternoon the thermometer in this office registered 88 degrees. At 12 o'clock it was at 93, but the mercury soon fell when the rain storm came up.

Nearly all with whom we have spoken upon the subject complain that the watermelons this year are not near as good and luscious as usual, and attribute the cause to too much wet weather.

Yesterday was the hottest day thus far this season, the thermometer at the signal station indicating 94 degrees. The hot wave is travelling South and has not yet reached Atlanta, but will probably hit that place hard by to-morrow morning.

Some sections of this county have been blessed with so much rain as to ensure good harvests and we learn that in some places the crops are suffering for moisture. It is to be hoped that the showers of to-day reached those sections and that vegetation will flourish in consequence.

Our good friend, Mr. W. W. Larkins, of Long Creek, has sent us in a box of Irish potatoes that are prolific in production and varied in shape. They are all in knots, there being in one bunch seven potatoes joined together, in another eight and in another nine.

The ladies of the Front Street M. E. Church will give another of their enjoyable excursions to the "Rocks," Smithville and the Forts on the steamer *Passport* to-morrow. The management of these excursions have always been successful in securing a pleasant party and no pains will be spared to make this equal to its predecessors.

Now is the season for painting your houses. Go to JACOB'S Hardware Depot and buy your paints, if you want to save money.

Personal.
We were pleased to receive a call today from Mr. J. D. Sessoms, of Blockers, Cumberland county, who is in the city on a short visit.

Mr. S. VanAmringe, Jr., has returned to the city. He left here for Liverpool on the British barque *Susie L. Campbell* and returned on the Cunard steamer *Urania* to New York.

Mr. R. J. Scarborough and wife left on this morning's train for Ocean View, N. J., where they will make their future home. He is quite feeble yet, but his physician thought that he would be able to endure the fatigue of the journey without serious consequences.

Mr. John Grant, who was so seriously injured on the day of the reception of the Newbern firemen, has so far recovered that he was able to be out and walked around the square yesterday. He will be obliged, however, to carry his wounded arm in a sling for some weeks longer.

Graduated.
We notice in the *Augusta Chronicle*, among the list of graduates at Athens, Ga., recently, the name of Mr. P. D. Langdon, son of Capt. P. H. Langdon, formerly of this city, but now of Augusta. In its comments the *Chronicle* says:
The most meritorious performance by the Augusta delegation, however, is that of young Langdon in carrying off the degree of A. M. It is not often that a boy can take A. M. and the measles the same year, but Paul has done it, and comes out unscathed from the contest. Unless we are misinformed, he is the first Augusta man to take this degree since W. H. Fleming, Esq., bore it off several years ago, and is perhaps the youngest man who ever took it at the University. Augusta is justly proud of the standing of her boys at college, and the *Chronicle* wishes that the success which has crowned their lives at school may follow them through life.

The Industrial School.
The first regular working session of the Brooklyn Hall Industrial School was held at 4 o'clock yesterday afternoon. The heat was almost overpowering, but notwithstanding this fact there was a large attendance of officers, teachers and pupils. The hours appropriated for the session were devoted in a great measure yesterday to the arrangement of the several classes and to the perfecting of plans for the greater usefulness of the school. The officers and teachers were imbued with an earnestness of purpose and a devotion to the work which spoke well for the future of the enterprise, and the children, ranging from four to twelve years of age, were delighted with the novelty and attractiveness of the occasion. The meetings will be held regularly on each Wednesday afternoon, beginning at 4 o'clock and closing at 6 o'clock.

Indications.
For the South Atlantic States, generally fair weather, except occasional local showers on the coast, winds generally from South to West, with stationary temperature.

Fine Showers.
At about 2 o'clock this afternoon the city was visited by a refreshing and much needed shower which had the effect of materially cooling the atmosphere. The rain poured down quite briskly for awhile and the peals of thunder were frequent and the flashes of lightning vivid, but we have heard of no damage to person or property as yet.

Struck by Lightning.
There were very heavy showers yesterday afternoon along some portions of the line of the Carolina Central Railroad. At Laurel Hill the thunder and lightning were terrific. The electric fluid struck and almost entirely demolished the storehouse of Mr. J. F. McNair, at that place. This is the only serious damage of which we have heard. No persons were injured so far as we have been able to learn.

The New Postage Rates.
It seems from the experience of post-office officials that the rates of postage fixed by the new law, which went into effect on the 1st inst., are not fully understood by the whole public. The clause fixing the rate of drop letters at one cent applies only to postoffices where the carrier system is not in operation. Where letters are collected and delivered by carriers the rate for a local or drop letter is the same as for one to be transmitted by mail, namely, two cents.

A Caution.
This is an intensely hot season of the Summer, and people cannot be too careful in what they eat and drink as well as to avoid as much as possible undue exposure to the rays of the sun. Parents should be extremely cautious in these matters with their little children and should exercise a strict scrutiny in regard to the quality as well as quantity of food the little ones eat, and should not permit them to be exposed any more than possible to the sun. This is emphatically a season to invite disease and more than ordinary care is requisite to prevent its attacks. Little children, with no knowledge or thought of possible consequences, are liable to eat and drink entirely too much, especially if the food is luscious, and they will not hesitate to romp and race in the sun, to their certain injury, if they are not held in check by the wisdom and care of their parents or others having authority over them. Teach them to eat sparingly and do not permit them to get overheated in their play and the physician's bill will be lighter and the anxiety and solicitude of watching over the couch of a helpless and suffering loved one will be obviated.

Do not forget the Lawn Party which is to be given to-morrow night in the Parsonage yard by the Young People's Association of St. Paul's Lutheran Church. This Association is composed mainly of the German young ladies and gentlemen of the city, and they will do all in their power for the entertainment of their guests.

The moonlight excursion to the Rocks, on the steamer *Passport*, next Tuesday night will be one of the very best of the season. Good music for dancing, free use of the bath houses and a tip top sheephead supper, gotten up in Mrs. Mayo's best style, will be among the inviting features of the occasion.

It will be to your interest to call and see our goods and prices before you spend a dollar. Never before could you make a dollar go as far in clothing as at the present time. We have yet a large stock of Summer Clothing, which *must go*. We do not intend carrying over one dollar's worth this Fall, so have put prices where we know they cannot help but go. You know our reputation; when we say goods are cheap you know they are. SHIRER, the Old Reliable Clothier, 124 Market st. Sign of the Golden Arm.

We noticed quite a fine display of dog collars at JACOB'S Hardware Dept.
