News and Observer.

News from Gov. Jarvis. MOUTH OF THE AMAZON RIVER, June 26, 1885-We are now ascending the mighty Amazon and in about three hours we will be at the city of Para where I will mall this. We have had a most delightful trip, a fine ship, a polite, skilful captain, a smooth-sea and a number of agreeable passengers. Mrs. Jarvis has stood the voyage splendidly and I am glad to say has had al most absolute exemption from that terrible sea sickness which she anticipated. Instead of the burning heat I expected, we have had it cool and all the time pleasant. The sun is now far to the north of us. We have passed under him and have left him far behind us and still we have experienced no weather that was at all uncomfortable. In fact, I am sure we have been more comfortable than you have been in Raleigh, for there has not been a moment of our time when we telt like taking off a coat or vest- to make us more comfortable, and I doubt it you can say this. I dwell upon this fact because it has been such an agreeable surprise to me. So cool was it last depot destroying the store of Hendernight when we crossed the equator that son & Kirkman, dealers in groceries. some of the passengers got their over coass and wraps. Think of a man with an overcoat on at the equator! It is contrary to all of my preconceived F Cansey. The fire communicated with notions of the equator. Last night was the store of Wahrton & Stratford and the close of the markets: a beautiful moonlight night and our splendid ship glided over the bright all. It is supposed to have originated market opened at 871 and closed at 881 moonlit waters with a grace and a in the cellar of Henderson & Kirk- for August. than two or three miles from the land to the south of us. Out to the north of us the river stretches away for a hun- in Greensboro since 1871. dred miles and more before land can be seen except here and there a few small islands which stand out in the river. So the great empire of Brazil is now in full view and in a few hours I shall stand upon its soil and shall hope that our long distance ahead of us yet, wil keep us on our journey for two weeks more. Para is about eighty miles up the river, and from Para to Rio is about twenty two hundred and fifty miles. This will begin to give you some idea of the vastoe's of this great empire. While we have quite a dis tance to travel, the worst of the journey is over, for we will soon be running along the coast and making frequent stops at large and interesting cities. We have been wonderfully blessed during our whole yoyage with delightful weather and a smooth sea, but the captain tells us he rarely ever has it any worse than this trip has been. It this be so, our sight seeing people could not take a more pleasant and New York & Wilmington interesting trip than this. We ran for two days just along the West India Islands in the Caribbean sea, within a few miles of the islands, and there too I met with a great surprise. Instead of the low lands we are accustomed to on islands, the lands on these are from one to five thousand feet high, While passing along by these islands the water was as placid as a lake, while up from this mighty sea shot these mountains, clad in perpetual verdure. Noth ing could be more wonderful or beautiful. \* \* \* \* Truly.

#### The Crazy Quilt.

The new and fashionable device of the young ladies for using up old bits of silk and satin is one of the most popular means of spending spare evenings. The quilt is of more colors toan ever appeared in Joseph's coat. The proper way of using a "crazy quilt" is to throw it over a weary person who suffers with debility and lies on a lounge. Administer Brown's Iron Bitters, and his joy will be complete. Crazy quilts have to be made to order, but you can buy Brown's Iron Bitters of any drug-
