WILMINGTON, N. C.

THURSDAY AUGUST 6, 1885

Entered at the Postoffice at Wilmington, N. C., as second-class matter.

THIS PAPER

may be found on file at Geo. F. BOWELL & CO.'S Newspaper Advertising Bureau (10 Spruce St.), where advertising contracts may be made for it in NEW YORK.

All the London papers dwell on the fact that the last business of Sir Moses Montefiore was to draw a check for a present to Princess Beatrice and to dictate a charming letter of presentation. Sir Moses Montefiore died of congestion of the lungs. His death was peaceful and painless.

An article in the *Temps* urging the Government to increase the force of cavalry on the eastern and southern frontiers of France is causing a good deal of excitement in Germany. This is chiefly due to the fact that France has already eleven regiments on a war footing established on the frontier, while Germany has only ten, and these ten never have their full complement of officers and men. The German military authorities are meditating an increase of troops and a material strengthening of the field batteries on the frontier.

The July cotton report to *Bradstreet's*, based on 1,072 replies from correspondents in 597 out of 653 cotton-growing counties in the South, indicates good progress by the crop during July, thus continuing the favorable report of June. The dry weather complained of in some of the States has not yet assumed the proportions of a drought, but telegrams from the cotton belt under date of July 30th, reported the plant as suffering for lack of rain. The injury as yet is material, but a continued drought would materially change the prospects of the crop in some of the States. The damage from shedding and rust is slight as yet, and that by worms, confined almost entirely to Texas, is not likely to be serious. The worm pest appears to be of a local character, not at all assuming wide proportions.

The Hon. Edgar M. Johnson, of Cincinnati, the law partner of Governor Hoadly, says: "Governor Hoadly will not be a candidate. I have his word for it and I know he means it. The last thing he said to me before leaving was that under no circumstances would he accept the nomination, even if tendered unanimously. I believe he would even refuse in convention if an attempt was made to force it upon him. I am certain also that President Cleveland had not asked Governor Hoadly to be the Administration candidate in Ohio. There is a very warm friendship between the President and the Governor, but I know Mr. Hoadly to be a candidate for no office, appointive or elective. He will return to his law business after his term expires on January 1. He does so much because I wish it. My health is failing and I must have a year's rest."

A dispatch from the City of Mexico says: "La *Semana Mercantil*, an organ of the National Bank, in this week's issue, gives currency to a report of a heavy English loan to Mexico. The sum mentioned is \$100,000,000, the first instalment to be from \$15,000,000 to \$20,000,000. The same paper reports that a British agent has brought forward the idea of the purchase of American railways by English companies. It is said a decree for the recognition of the debt forms part of the basis of the projected loan. All this is in line with the projected Anglo-Mexican trade alliance which is being advocated here. English manufacturers view with anxiety the diversion of the trade of the country to the United States, and are thinking how to bind Mexico in a close commercial alliance with England, as has been done in the case of Chile."

A melancholy incident is mentioned in connection with the failure of the Munster Bank. Mr. William L. Perrier, Jr., died suddenly at his residence, Maryborough, near Cork. Mr. Perrier, who was about 40 years old, was the only son of Mr. William L. Perrier, a director of the bank, and was himself largely interested in its affairs. Though the deceased gentleman died from an acute attack of diarrhoea, there is reason to believe his death was accelerated by the shock he received in consequence of the suspension of the bank. It is stated that a lady whose entire property was invested in the bank has lost the use of her reason. There are other instances of individual suffering, but the reports showing the ability of the bank to realize its assets have greatly comforted depositors. The inconvenience to traders by being suddenly deprived of their credit balances on current accounts, and having, in fact, their working capital shut up, has been very keenly felt, but in most cases the other banks have given accommodation to persons who are able to show their deposit receipts or credit balances in the suspended concern.

It is said that Charles Scribner's sons have engaged Mr. W. A. Patton, formerly of the *New York World*, to be business manager of a new magazine soon to be established and to be called *Scribner's Monthly*. When the Scribners sold their interest in the magazine formerly known by that name, but now called the *Century*, they agreed, after the usual custom, not to embark in any new magazine enterprise until after the lapse of a specified time. That time will expire during the year 1826 and it is the purpose of the firm to establish its new magazine next year. It is said that the magazine, will contain very few pictures and only those of the best kind. It is whispered that certain unpublished letters and biographical materials relating to Thackeray, which have been jealously withheld from the public until now, will constitute a principal literary feature of the early numbers.

Man's inhumanity to woman makes countless thousands mourn, would be an applicable rendering of Pope's line in view of the indignities she has suffered and pains undergone at the hands of unskillful physicians and quacks. Naturally modest she suffers on until forced to consult a physician regarding some female difficulty which she well knows is sapping her strength. All this embarrassment can be avoided and a cure effected by purchasing Dr. Pierce's "Favorite Prescription" of your druggist, and taking as directed. Price reduced to one dollar.

AUGUST ANTICS.

A scientific journal tells how to prevent hicough. Another good way is to refrain from going out between the acts.—*Norristown Herald*.

An exchange says: "Gas corrodes brass." This accounts for the blotches so often seen on the face of the festive drummer.—*St. P. Herald*.

"Yes, indeed, Brown is a very sick man." "When was he taken ill?" "Yesterday morning I was called to attend him." "Ah, that accounts for it." And now those physicians pass each other as perfect strangers.—*Boston Post*.

After a man has been elected sheriff of a Kentucky county and has served out six months of his term, he begins to appreciate the blessing of having a stone wall or a log house between him and the other man—the one he intends to arrest.—*Pittsburg Telegraph*.

Testimony of Mr. Goward of Lowell, Mass.

"I always keep 'Favorite Remedy' in the house. I have had many letters of inquiry about my case, and I always recommend it as one of the best of medicines for *Kidney and Liver troubles* for I have used most all other medicines for similar complaints without benefit." Such an emphatic endorsement from such a source, ought to be convincing to all sufferers.

1885. Harper's Magazine.

ILLUSTRATED.

With the new volume, beginning in December, HARPER'S MAGAZINE will conclude its thirty-fifth year. The oldest periodical of its type, it is yet, in each new volume, a new magazine, not simply because it presents fresh subjects and new pictures, but also, and chiefly, because it steadily advances in the method of its magazine-making. In a word, the Magazine becomes more a faithful mirror of current life and movement. Leading features in the attractive programme for 1885 are: new serial novels by Constant Fenimore Woolson and W. D. Howells; a new novel, entitled "The Red Glove," descriptive illustrated papers by F. D. Millet, R. Swain Gifford, E. A. Abbey, H. Gibson, and others; Goldsmith's "The Stockbroker," illustrated by Abbey; important papers on Art, Science, &c.

Sixteen Pages every Saturday. Oftentimes Twenty Pages. Sometimes Twenty-four Pages.

FIVE DOLLARS A YEAR.

The foremost purpose of BRADSTREET'S is to be of practical service to business men. Its special trade and industrial reports; its weekly epitomes of bankruptcies throughout the United States and Canada, and the summaries of assets and liabilities, are alone worth the subscription price; its synopses of recent legal decisions are exceedingly valuable. As commercial transactions, in the widest sense, are coming to be more and more conducted on a statistical basis, the information contained in BRADSTREET'S is of the first importance both to producers and middlemen.

The Trade and Agricultural Situation throughout the United States and Canada is reported by Telegraph to BRADSTREET'S up to the hour of publication.

ECZEMA or SALT RHEUM

ANOTHER CLEAR AND POSITIVE RECOVERY. AN ELDERLY LADY'S LETTER.

"People often express their wonder at the numerous cases of 'SALT RHEUM' cured by Dr. DAVID KENNEDY'S FAVORITE REMEDY—accounts of which are brought to their notice through the newspapers. Although no other known medicine has anything like the same effect, it is not strange that 'FAVORITE REMEDY' should accomplish these results, and I gladden the hearts of so many sufferers. The reason is the 'SALT RHEUM' is one of the most loathsome of skin diseases. It is really a 'leucor' of the blood; and this new and scientific preparation is adapted, beyond all others, to purify the blood and keep it so by relieving the stomach, Liver, and Kidneys.

Among the numerous letters received by Dr. Kennedy testifying to the efficacy of his medicine, the following will be found of first interest to our readers, who may accept our assurance of its perfect authenticity and truthfulness:

Dr. D. Kennedy, Rondout, N. Y.

DEAR SIR:—I have been for three years a sufferer from 'SALT RHEUM' in the form of a skin eruption on my face, for which I was for a long time under medical treatment. I placed myself again in the hands of the physicians who do, I have no doubt, all that could be done. One thing is sure, however—I was none the better for all the medicine they gave me. The painful and unsightly disease made continual progress, until I began to fear I should never get rid of it. I used it, and within a much shorter time than I would have believed possible, I received a permanent cure. I am now perfectly free from 'SALT RHEUM'. What a comfort this is, and how it places your wonderful medicine in my opinion, you may guess at, but never know I keep it now constantly in the house, as a family medicine. Yours truly,

MRS. DINAH PHAIR.

Mrs. Phair is a widow lady in advanced life, of simple but cheerful character. Some time since, when on a visit in Kansas, she found a cure of 'SALT RHEUM' could not get 'FAVORITE REMEDY', sent to New York City for it, and cured the case.

For all diseases of the Blood, Liver, Kidneys, Bladder and Digestive Organs, DR. DAVID KENNEDY'S 'FAVORITE REMEDY' is the only medicine. N. Y. July 25 d&w nm

Harper's Bazar.

ILLUSTRATED.

HARPER'S BAZAR is the only paper in the world that combines the choicest literature and the finest art library of each issue. The fashions and methods of household adornment, the newest Paris and New York styles, with the usual patterns, are given in its cut patterns, by enabling ladies to be their own dressmakers, save many times the cost of subscription. Its papers on cooking, the management of servants and housekeeping in its various details are eminently practical. Much attention is given to the interesting topic of social etiquette, and its illustrations of art, needle work are acknowledged to be unequalled. Its literary merit is of the highest excellence, and the unique character of its humorous pictures has won for it the name of the American Punch.
