THE DAILY REVIEW.

VOL. IX.

WILMINGTON, N. C. FRIDAY, AUGUST 14, 1885.

NO. 189

PLEASE NOTICE. We will be glad to receive communication from our friends on any and all subjects of general interest but the name of the writer must always be placed to the Editor. Communications must be written on one side of the paper. Personalities must be avoided. And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so stated in the editorial columns.

With the view of finally settling the question as to whether the bones of Columbus rest in Havana or San Domingo, the latter government has invited a large number of savants to attend an international congress, which will open in the capital of that republic on the 10th of September next, when it will submit its proofs that San Domingo possesses the only real bones in existence.

The Philadelphia Press, a first class journal, states that Secretary Bayard's attention has been called already to the case of the American citizen, Thomas Moran, who for nearly twenty months past has been languishing in a South American prison for the atrocious crime of defending himself against a would-be murderer. The Boston Herald, whose editor writes from personal knowledge of the outrage, brings the facts to the attention of the American Minister, and calls upon him to see that justice is not denied his countryman. We hope that the interference of our Government will be prompt and effective, as a more flagrant outrage has rarely been recorded.

The Fruit Fair at Greensboro is a pronounced success.

Our streets are kept in an excellent condition, and as a consequence our city is remarkably healthy.

"It is so, and everybody says so, so, so, so it is. The finest assortment of suitings ever shown is now at John Dyers.

Now is the season for painting your houses. Go to JACOB'S Hardware Depot and buy your paints, if you want to save money.

Schr. Mollie J., Capt. Saunders, was spoken yesterday off Frying Pan Shoals lightship, three days out from Norfolk, Va., and wanted to be reported.

Gent's Wamsutta Jeans Drawers, equal to linen, all sizes, at 60 cents, at the Wilmington Shirt Factory, No. 27 Market st., J. ELSEBACH, Prop.

Schooner J. P. Wyman, Torrey, cleared to-day for Cape Haytien, Hayti, with 145,000 feet lumber, valued at \$2,196 75, shipped by Messrs. Northrop & Cumming.

People living near the intersection of Mulberry and McRae streets are annoyed nightly by the frequent reports of pistols, which are discharged at almost all hours of the night.

On account of the sickness of Mayor Hall, Alderman Clayton Giles presided at the City Court this morning. There was one case of disorderly conduct for which a fine of \$2 was imposed with the alternative of five days in the city prison.

Through the exertions of Hon. Wharton J. Green, Representative from the Third Congressional District, good and true Democratic postmasters have been appointed for Kenansville, Warsaw, Jacksonville, Manly, Fremont, Rocky Point, Mount Olive and Point Caswell.

Messrs H. Brunhild & Bro. don't stay now where they used to, but have moved several doors lower up to No. 114 North Water street, where they will be glad to meet and serve their many friends and customers. See their advertisement in another column.

Religious News.

A protracted meeting has been held recently at French's Creek Baptist Church, in Bladen county, which was of unusual interest and resulted in several conversions. The services were conducted by Rev. E. W. Wooten, the pastor of the church, assisted by Revs. C. L. Powell and David Clark. The meeting closed on Monday last, at which time four persons—all females—were baptised and admitted to membership in the church.

John Henry pleaded with Annella, And all his passion tried to tell her, "He said, 'John H., your words you waste, Your teeth betray a want of taste, Your breath offends me, so I say, Use SOZODONT or stay away.'"

There is no scientific reason, says the Lancet, to suppose that in the act of driving persons are gifted with a power of foreseeing the future. Mistakes are often made as to the mental condition of the moribund, because allowance is not made for that cerebral excitement which occurs during the disturbance of the circulation and surcharge of the blood with carbonic acid gas.

To Neutralize Offensiveness
In many forms we use disinfecting agents. Impure breath, caused by bad teeth, tobacco, spirits or catarrh, is neutralized by SOZODONT. 'Tis a healthful beautifier, and a great luxury as a dentifrice. The repulsive breath is by its use rendered as fragrant as a rose, and coldness by friends or lovers will be no longer noticed.

The Next.
The next moonlight excursion on the Passport will be given on the night of the 20th inst. It will be gotten up under the auspices of Capt. J. W. Harper and Mr. George N. Harris, who are making every exertion to have it eclipse any of its predecessors. The moon will be at its best on that night; there will be good music for dancing and the boat will make a long stop at the Rocks. Pigfish and surf bathing, and "don't you forget it!"

Where is Our Little Cannon?
Under the above heading we find the following, which we clip from the Laurinburg Exchange:

We are requested to ask this question of the citizens of Wilmington, who borrowed it for their grand Democratic jubilee last November. It was to be returned immediately, but no cannon yet. It was lent in good faith and this failure to return it is very unbecoming in the borrowers. Our latest information is that the beach at Wrightsville Sound now often echoes with the sound of its booming at the yacht races. Send it up right away, save hard feelings and never prove recreant to a faithful promise again.

Death of Mr. Litchford.

J. J. Litchford, Esq., of Raleigh, who has been seriously sick for several weeks with typhoid fever, died yesterday at the residence of his sisters in that city, aged 66 years. Mr. Litchford was a native of Petersburg, Va., but has made Raleigh his home since boyhood. He had occupied many prominent positions of trust in the State, among which may be mentioned that he was at one time a director of the Deaf and Dumb and Blind Institute; was for a long time Secretary of the Democratic State Committee and at the time of his death was Distributing Clerk at the Raleigh Postoffice, a position which he had held ever since Capt. S. A. Ashe became postmaster. He was a prominent Odd Fellow, and in all the relations of life had the confidence and esteem of his fellow men. He was unmarried, having lost his wife several years ago. He leaves three sons and three daughters, besides several sisters, to whom his decease will be an almost irreparable loss.

Personal.

Mr. Donald McRae and Dr. W. G. Thomas are in the mountains.

Mrs. W. H. Green and children are rustivating at Lenoir, in Caldwell county.

Mrs. W. L. DeRosset and family and Mrs. G. G. Thomas and family are at Hillsboro.

Mrs. F. W. Foster is on a visit to her father, Mr. William Hall, at Salem Forsyth county.

Mrs. Thomas B. Harris is getting rid of the heat of the city by sojourning for a season at Hickory.

We regret to state that Mayor Hall is quite sick and confined to his house with a painful affection of the face.

Mr. Charles Murphy, Superintendent of streets, is quite sick and unable to attend to the duties of his position.

Miss Emma Hussey, an accomplished young lady and genuine Duplin county Democrat, has been appointed postmistress at Warsaw, in that county. It is an excellent appointment.

Mr. W. M. Bruce, of Washington, D. C., arrived in the city last night and will make Wilmington his future home. His family is expected to arrive in a few days.

Capt. Henry Savage, we regret to learn, is seriously sick, at his residence on the Sound, although the latest report of his condition, received here at about noon to-day, was that he was some what better.

We regret to learn that the condition of Capt. J. C. Borden, who has been in feeble health for many weeks, is not so favorable as it has been. His brothers, Messrs E. B. and W. H. Borden, of Goldsboro, have been summoned to his bedside.

Mr. R. M. Wescott, of French's Creek, Bladen county, was in the city to-day and gave us the pleasure of a call. He reports that the crops were never in a more flourishing condition, but that the cholera prevails to a considerable extent among the hogs in that section, and that a good many have died from that disease.

There was a large party went down the river on Capt. Harper's regular family excursion this morning. These excursions on the Passport are very popular and are much enjoyed.

The Othello, New Emerald, Zeb Vance and New Excelsior Penn. are the leading cook stoves, both in quality and price. They can be seen at JACOB'S Hdw. Depot.

Old Currency.

Dr. R. F. Sanders, of Pender county, sent to our office to-day three specimens of paper money, which were issued before the formation of our government. They consisted of a thirty dollar bill, which entitled "the bearer to thirty Spanish milled dollars or the value thereof in gold or silver," and were issued "under a resolution of Congress passed at Baltimore, February 25, 1777;" a five dollar bill issued under the same authority at "Philadelphia, November 2, 1776," and a ten dollar North Carolina note, "by authority of Congress at Halifax, April 3, 1776." The two first named bills were printed upon both sides and bore the imprint of Hall & Sellers. The North Carolina note was printed upon one side only and was adorned with the picture of a big turkey gobbler in the left hand lower corner. All the bills were in a remarkable state of preservation considering their age, although the ink had so faded with the lapse of time as to make it impossible to decipher the signatures with certainty.

The Oxford Orphan Asylum.

EDITOR DAILY REVIEW:—A brief description of the above institution will be of interest to a large majority of your readers and especially among the masonic fraternity. Yesterday in company with a friend who has recently moved to this place from Fayetteville, we were invited by Dr. B. F. Dixon, the superintendent of the institution, to come up and visit the different buildings, and we were paid for our trip a thousand fold. It is a source of great pride and gratification to know that these poor unfortunate orphans are under the charge of gentlemen and ladies who treat them as they would their own flesh and blood. Dr. Dixon and his most estimable wife devote their entire time to the welfare of these children.

The institution now numbers 180, the pupils being about equally divided between the boys and the girls. The female department is in the asylum proper, while the boys are in a separate brick building about one eighth of a mile distant. Between the two there is a large spacious frame building which is used only as a hospital for contagious diseases, and here let me say that last winter it was filled to its utmost capacity, when nearly all of these children had the measles. At one time there were 115 cases in the asylum and only four deaths occurred, showing conclusively that the greatest care and attention was bestowed upon them.

There are six teachers, all females; two sewing matrons in charge of the two sewing rooms; a housekeeper for each building; a hospital matron, and a gentleman in charge of the farm. There is a very good library which is being daily added to from many parts of the country. Music is taught in the school, so as to give all who have a talent in that way an opportunity to develop it.

It may not be known to many of your readers that the little newspaper published by this institution, called the *Orphan's Friend*, is printed entirely by the larger boys in the asylum, and they do most excellent job work. This is known to masons, but not to those generally outside of the fraternity. Bill heads, letter heads and cards of every description are very handsomely printed by these boys, and lodges in the State would be doing the institution great service in sending them their printing. The main building is heated by a furnace in the basement, while the building for the boys and the hospital is heated by fireplaces.

I do not know who designed the main building, but he was no architect surely. I refer only to the spiral stairs. The board of directors of the institution ought at once to have a change made in this. Should a fire occur on the upper or lower floor it would be no easy matter to save these children, and the directors should undoubtedly give this matter their prompt attention, and it can be done at a trifling expense.

Another suggestion I would most respectfully make to the directors; in speaking of improvements, I would have a number of brick walks laid in the beautiful grounds, so that in muddy weather the little folks would not sink in mud up to their eyebrows, and it would be money well spent. Bricks are cheap and it should be done at once, before the winter season sets in.

The new building, to be occupied by the superintendent, is now going up, and will be in cottage style, and when completed will add greatly to the lawn. The grove surrounding the asylum is beautiful.

The masonic fraternity and the good people of North Carolina, may well congratulate themselves upon the fact that they have selected the right man for the position of superintendent. I doubt if another man in the State could be found who would fill the place of Dr. Dixon, and this is meant in no flattering spirit, but is the simple truth.

In connection with the *Orphan's Friend*, I neglected to mention that it is ably presided over by Mr. L. Thomas, who superintends the printing and is an experienced printer. The asylum is a credit to the Masonic fraternity, under whose fostering care it was started, and has saved many thousand children from ruin. Let the good work go on. It is certainly causing your greed upon the waters.
