THE DAILY REVIEW.

VOL. IX. WILMINGTON, N. C. TUESDAY, AUGUST 18, 1885. NO. 192

PLEASE NOTICE We will be glad to receive communication from our friends on any and all subjects; general interest but the name of the writer must always be stated to the Editor. Communications must be written on one side of the paper. Personalities must be avoided. And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so stated in the editorial columns.

It is said at the State Department that there is no foundation for the report that Mr. Kelley is to succeed Mr. Adee as Third Assistant Secretary of State.

John Sherman tried to float the bloody shirt in Ohio but it was a flat failure. The sanguinary garment was buried in Grant's Grave, never, we trust, to be resurrected.

The Grand Army of the Republic say that the monument to Gen. Grant must be erected in Washington. They claim to have 300,000 members and proposed subscription of ten cents from each will raise \$30,000.

We clip the following from the Goldsboro Messenger's Washington City correspondence:

I saw Hon. Wharton J. Green this morning and had a long conversation with him about the Administration, the course of politics and his own work here in the Postoffice Department.

Col. Green is impressed with the ability, resolution and singleness of purpose of the President. He thinks that very nearly all the offices will be filled by Democrats within the first nine months of the Administration—certainly before the end of the first year. It seemed to him that the earnest desire of Mr. Cleveland to give the public service a higher tone by getting only honest and capable men in office should have met from some public men who recommend persons for office a better recognition than it had. As the President said, he had been outrageously treated in some instances. It was Col. Green's opinion that within two years the Cleveland Administration would make large gains in popular respect and esteem. The President was a solid man, not showy at all, but certainly very able—he had convictions, and was not afraid to put them into action. He rated the ability and public character of Mr. Cleveland much higher than he had done at the time when he was first suggested for the Presidency. Indeed, he might say, that he thought Mr. Cleveland was likely to make one of our very ablest Chief Executives.

Col. Green has wound up his business here for the present. Out of twenty-three fourth-class postoffices he has had all filled except Swansboro and one still smaller, and these would have been supplied with Democratic postmasters if there had been entire accord among the people as to the men to be recommended. Col. Green does not care to say more with regard to the remaining Presidential offices in his District, Goldsboro and Fayetteville, than that they will be filled on the return of the President. About one hundred and twenty persons have applied for the position of railway postal route agent, and not more than three, possibly not more than two, can be gratified. It is almost incredible how the people rush for this onerous and vexatious employment. As a possible deterrent, I will state that one or two who have received such an appointment in North Carolina have tried it for a few days or weeks and thrown it up in disgust. One young man afterward accepted a private engagement which paid less money.

Col. Green has succeeded in getting the Department to establish several new post offices and postal routes in his District.

There was another fine shower this afternoon.

The receipts of cotton at this port today foot up 6 bales.

The Raleigh Visitor would do well to revise its list of U. S. Signal stations.

Gent's Wamsutta Jeans Drawers, equal to linen, all sizes, at 60 cents, at the Wilmington Shirt Factory, No. 27 Market st., J. ELSBACH, Prop.

We learn that there is much need of rain in the vicinity of Point Caswell, and in several localities along the line of the Wilmington & Weldon Railroad.

Mr. E. T. Boykin, State Senator from Sampson county, was in the city today en route for Elizabethtown, in Bladen county, where he goes on professional business.

The water in the river is very low and navigation is exceedingly difficult. The *Bladen*, which is of lighter draft than the rest, is the only boat which succeeded in getting through last week.

All Ready.
The pilot boat *Uriah Timmons*, Capt. C. C. Morse, which has been here for several weeks, went down the river last Saturday all ready for the work of the Fall and Winter. Capt. Morse has been in quite feeble health, but we are glad to know that his condition has very much improved.

At Quarantine.
Nor. barque *Abel*, Danielsen, from Buenos Ayres, South America, and Nor. barque *Mozart*, Geruldsen, from Cape Vincent, Cape Verde, and Nor. brig *Emma*, Andersen, from Buenos Ayres, S. A., are in below and anchored at the Quarantine Station. They are all consigned to Messrs Heide & Co.

To Remove.
Miss E. Karrer will remove on October 1st to one of the handsome new stores in the Vollers' building, opposite the New Market. In consequence of this fact she will sell off all of the goods she now has in store at greatly reduced prices, so as to make room for the large and handsome stock with which she will open in the new store.

Lawn Party.
The members of the colored Presbyterian Church, on Chestnut street, between Seventh and Eighth, had a lawn party and festival in the grove which surrounds their house of worship last night. The grounds were lighted with Chinese lanterns, which were suspended upon the trees, and the sight was very pleasant. We learn that it was conducted with good order and was a most pronounced success.

City Court.
There was quite a full docket for the Mayor's consideration this morning:—
Drake, colored, for disorderly conduct, was sent below for 10 days.

Amelia Bradley, colored, the captain of a female base ball club which played a match game on Dickinson's Hill yesterday afternoon, was charged with disorderly conduct, and a fine of \$10 or 30 days in the city prison was the penalty imposed.

Jane Outlaw, colored, and represented by several witnesses as a genuine, unadulterated virago and by others as one of the most amiable of damsels was charged with disorderly conduct; the weight of testimony was against her and she was fined \$5.

A Remedy for Poison Oak.
Dr. S. B. Brown, U. S. N., Mare Island, Cal., believes that he has found a specific for the eruption caused by contact with poison oak, &c. He writes: "This specific is bromine. I have used it with the same unvarying success in at least forty cases. The eruption never extends after the first thorough application and it promptly begins to diminish. Within twenty-four hours, if the application be persisted in, the patient is entirely cured. I use the bromine dissolved in olive oil, in cosmoline, or in glycerine. The application with glycerine is painful, and I think possesses no advantage to compensate for irritation. The strength of the solution is ten to twelve drops of bromine to the ounce of oil, used by rubbing gently on the affected part three or four times a day, and especially on going to bed at night. The bromine is so volatile that the solution should be renewed within twenty-four hours of its preparation."

It is Impossible.
For any concern that pays for their goods to undersell SHRIER, for the two following reasons:
1st. SHRIER pays spot cash for every dollar's worth of goods purchased.
2d. Our light expenses and economical arrangements enable us to sell goods at the very smallest profit possible, and our percentage of profit is frequently much less than it costs other clothiers to pay for their enormous daily expenses. In other words SHRIER'S expenses average about one-third or less. This being the case, our doing a big business lowers the percentage. We will cheerfully refund your money if goods are not found satisfactory and will gladly send goods to your homes for comparison with goods from other stores. It pays to trade at the Old Reliable's all the year round. Convince yourself of the fact. SHRIER, the Old Reliable Clothier, 114 Market st. Sign of the Golden Arm.

Indications.
For the South Atlantic States, light local rains, followed by fair weather, variable winds and stationary temperature.

We noticed quite a fine display of dog collars at Jacon's Hardware Depot.

Hymeneal.
Our gallant friend, Capt. John W. Harper, was married last night in this city to Miss Julia Esther, daughter of the late Capt. Richard Foley, of Baltimore. The marriage was a private one, no cards having been issued. Capt. Harper has won a beautiful bride and is, in common with his thousands of friends, not only in this section but over a large portion of the two Sister States, wish him many happy years of conjugal bliss.

An Heirloom.
Thomas A. Davis, colored, who lives on Myrtle Grove Sound, was in the city to-day and showed us a remarkable case with a remarkable history. The case is of the ordinary length and is of the bone of some monster animal or fish, and is surmounted with an iron head. It was presented to his great-grandfather, James Davis, more than 160 years ago, and has descended from father to son until it has come into the possession of its present owner. We are at a loss to know of what kind of a bone it was made, but are rather of the opinion that it was originally a part of a whale's jawbone.

Sad Death.
We are grieved to announce the death of Miss Minnie, youngest child of Rev. W. M. Kennedy, which occurred at her father's residence in Warsaw, Duplin county, during the early morning hours of to-day. Her disease was typhoid fever, with which she had been sick for several weeks. She was a lovely young lady, kindly affectionate in her disposition, gentle in her manners, bright and interesting, with a well cultured intelligence, and was beloved by all who had the pleasure of her acquaintance. We knew her as a bright, vivacious child and predicted for her a life of much usefulness. Her death will be a terrible blow to her parents, brothers and sisters, and will be a sad loss to the society in which she moved. Our earnest sympathy and condolence are extended to the stricken and bleeding hearts of those who loved her so fondly, in this their hour of sad bereavement.

Personal.
Dr. W. J. H. Bellamy is off on a short vacation.
Mr. John D. Kerr, of Sampson county, is in the city to-day.
Maj. Jno. W. Dunham, Clerk of the Criminal Court, has gone to Lenoir for a few weeks.
Mr. J. Kent Brown, who has been very ill, has left the city in search of improved health.
Col. T. F. Toon, of the W. C. & A. R. R., has just recovered from a short but serious spell of sickness.
Mr. W. J. Montgomery, editor of the *Marion, S. C. Index*, is in the city and registered at the Purcell House.
Mr. H. G. Smallbones has returned from a short visit to Pittsboro, where he went to visit his family who are spending the Summer in that pleasant old town.
Miss Emma Hussey, the newly appointed postmistress at Warsaw, has been on a visit to the family of Mr. A. S. Heide, in this city, and left for home yesterday morning to assume the duties of her new position.
Mr. Charles Murphy, superintendent of streets, who has been sick and confined to his house for several days, is so much better as to be able to be out again. He is yet quite weak, but is progressing favorably.
Capt. Alex. Strauss, formerly of this city, where for many years he was one of the partners in the Cape Fear Building Company, but now of Florida, was in the city to-day. He is on his way North and took advantage of the opportunity to stop over one day to see some of his old friends.
Ex-Mayor S. H. Fishplate, who has been absent from the city for about two weeks, has returned. During his absence he has been in the Western portion of the State, but the most of his time was passed at Greensboro. He speaks with much pride of the Fruit Fair which was held while he was at Greensboro, and which he attended. The display of fruit, in his opinion, was better as to quality, quantity and variety than any of the preceding exhibitions, and the attendance was very much larger than ever before. Mr. Fishplate had an excellent time while he was gone and returns in the best of health and spirits. He will leave next week for the North and will visit Saratoga before his return. It is uncertain how long he will be absent, but it will probably be several weeks.

Not the Milk.
On Sunday night, while at the Fifth Street M. E. Church, some of the family of Mr. A. L. Bilbro were taken seriously sick and were compelled to return home and send for a physician. It seemed that they had been poisoned by something which they had eaten and the trouble was attributed at first to milk. Dr. F. W. Potter, the physician, interrogated them as soon as they were able to talk with the following result: Mr. A. L. Bilbro ate of boiled beef, waermelon and milk and was very sick, vomiting considerable blood. Mrs. Bilbro took a little of the juice of the melon, drank no milk save that which was in her coffee, but ate of the beef and was also very sick. Their daughter, aged about 13 years, partook of beef, melon and milk and was very sick. Miss Jennie Lane, who is stopping with the family, ate neither melon nor milk, but partook of the beef and was equally as sick as the others. The food was eaten at supper and from the above it would appear very manifest that it was the beef which caused the trouble. The family are getting better, although they are yet quite sick.

Now is the season for painting your houses. Go to JACOB'S Hardware Depot and buy your paints, if you want to save money.

Our young friend, Mr. Jas. W. Monroe, was so unfortunate as to lose to-day a gold Masonic pin. It is chiefly valuable to him because of association and the finder will be liberally rewarded.

Mr. Henry Morrissey, one of the most prominent citizens of Sampson county, died of apoplexy, on Saturday last, age nearly 60 years. Mr. Morrissey was an excellent farmer, a kind neighbor and a good citizen and was much respected by all who knew him.

Street Music.
The Cornet Concert Club, with 12 pieces, marched up Front Street this morning in their new uniforms playing some of their excellent music, preparatory to going down the river on the *Passport*. The music was of a fine order and was rendered with excellent taste, and the bystanders were lavish in praise of the performers. Their excursion down the river was largely attended by our citizens.

Yachting.
The third regatta of the season of the Carolina Yacht Club will be sailed over the Wrightsville course to-morrow. The following yachts have entered for the race:
