A queer story about Senator Blair, to whi ha New Hampshire correspondent of the Boston Advertiser refers in a dispatch published in that paper on Friday last, directs attention to ways in which the Senate's power to confirm or reject the President's appointments may be abused. The story is that the Senator has written to the Hon. Frank Jones, "who is regarded as the chief patronage manager" in the State, a letter in which he "offers to support the President's nominations" if the President or his political representatives will agree that several of the Senator's 'particular friends and supporters" now holding important Federal officers in New Hampshire shall not be disturb-The Advertiser's correspondent how would he fix up the rabbit? adds: "The information upon which the report is based is trustworthy, and it is now positively stated on the au thority of a close friend and confidant of Mr. Jones that the latter has the letter in his possession."

The Hon, W. C. Goudy, the Democratic member of the National committee from Illinois and the foremost law yer of the West, has been in Saratoga for the last two weeks drinking the waters. In speaking of Cleveland and the Administration he said recently: "I am pretty well contented with the President upon the whole. It is right that he should be conservative and go ahead slowly. He has done a great deal to establish confidence throughout the country in the Democratic party which will stand us well in future campaigns. There were peo ple throughout the country before election who actually believed that Democratic success meant the assumption of the Confederate war debt, the re-enslavement of the negro and the entire surrender of the Government to the forces which conconspired to destroy it Even these ignorant and prejudiced people havbeen made to see that Democratic suc cess is a contribution to the further prosperity of the conctry, and that that party can be trusted to even a greater degree than the Republican."

There is one Justice, however, who is intending to retire, who has not been thought of as an outgoing permanent cure of Nervous Debility. Judge. This is Justice Miller, of Iowa. He is now at Block Island. From a gentleman who has been recently in company with him I have learned this piece of news: The Judge several years ago was obliged to submit to a severe surgical operation. The Justice has been warned that he Cumm ng, Copartners trading as Northrop Imported & Domestic Beer, and that he must retire from work and give strict attention to his health by leading a quiet life if he wishes to live long. William J C ughlin, of Somerville, Mass., says: In the fall of 1876 I was taken with BLEEDING LUNGS followed by a severe cough. I lost my appetite and flesh, and was confined to my bed. In 1877 I was admitted to the Hospital. The doctors said I had a hole in my lung as big as a half collar. At one time a report went round that I was dead. I gave up hope, but a friend told me of DR WILLIAM HALL'S BAL SAM FOR THE LUNGS. I got a bottle, when, to my surprise. I commerced to feel better, and to day I feel better than for three years past.

MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes.
