intered at the Postoffice at Wilmington, N.

MONDAY, AUGUST 24, 1885.

A prominent official in Washington on Taesday said: "The number of cases where it appears that unfit men are appointed on recommendations is small. We examine papers as well as we can, and often revoke a bad appointment even after it has been made, though the fact doesn't get into the newspapers. We have been so annoyed an lembarrassed by insincere endorsements that the Administration is going to adopt a new policy. It the error is discovered in time, and the claimant does not get his place, we will simply notify the endorsers of the facts in the case, and urge upon them the importance of greater care in the future; but if a bad appointment is made, and leads to criticism and a public scandal, we shall take pains to publish all the names of endorsers, as our vouchers, so to speak. Of course, w understand how difficult it is for a man to refuse to sign a petition for a fellow townsman and friend for office. But these written endorsements are all we have to go on in many cases, and citizens must feel their responsibility in

According to the London Globe, somebody has anearthed an old phophecy for the year 1886 of a decidedly uncomfortable nature. It appears that Dispensary Medical Association, But in the Church of Oberemmel, near the falo N. Y. city of Treveri, in Germany, there is a stone tablet some centuries old on which is cut the prophetic verse-in prose it may be rendered: "When Mark shall sings a sweet Western poetess. Oh: bring us Easter, and Anthony shall sing praises at Pentecost, and John Call. shall swing the censer at the feast of earth resound with weepings and wailings." Now it so happens that next year Easter falls on St. Mark's day, Pentecost on that of St. Anthony of Padua, and the Corpus Domini comes on St. John the Baptist's day, June 24. Here, then, are the first conditions of the prophecy fulfilled, so that now believers in prophecies and anxious mindinsanity and leading to misery, decay and ed persons generally have only to sit able that can possibly happen to this poor old planet and the dwellers thereon between January and December, 1886 And really, it the cyclones, and earthquakes, and epidemics, and "wars and rumors of wars" of the last three or four years are to be eclipsed, the prospect is not an agreeable one

The sales of wool at the East show no signs of a reaction from the activity of the past six weeks. Prices tend upward, and the volume of sales is beavier than at the like period last year -A clear advance of Ic. per pound since July I has been made on several varieties. In the east business in dry goods is fair. The most noteworthy advance is in bleached cottons, in which prices have advanced 24 per cent. Brown sheetings are higher in one of two instances. Stocks of cottons Dr. Dodd's Nervine No. 2. are relatively small, and the restriction of output continues. The improve ment in iron at Pittsburgh, Philadelphia, Cincinnati, St. Louis and Chica go is mainly in pipes and plates. for which orders have increased. There has, however, been considerable enthusiasm respecting the gain. The improvement in prices for steel rails, reported general at \$1.50@\$2 per ton, has amounted to less than \$1 in reality. The intention of the Long Branch conference of steel rail makers is to put prices up to \$30 per ton, against nomi nully \$27 50. The Rensselaer Iron & Steel works, New-York state, having reorganized with new capital, will build furnaces and continue work. The wheat market has been quite depressed, and within two weeks has declined foc per bushel, from influences heretotore noted. Corn remains partly in sympathy, but relatively firmer.

The White Mountain forests have within a few years passed from the earlier proprietors into the hands of speculators, rai road companies, and other parties, who have no interest in them beyond the sale of the timber for the making of money.
