THIS PAPER may be found on the table at Geo. P. Rowell & Co's Newspaper Advertising Bureau, (10 Spruce St.), NEW YORK.

So many adverse criticisms have been made upon the fact that Prof. Phillips has gone to Germany—at his own expense by the way—to perfect his studies in chemistry and mineralogy.

There has been much unjust criticism in some of the State papers with regard to the action of the trustees in permitting Dr. Phillips to go abroad this summer. It has been regarded as an evidence of Dr. Phillips' unfitness for the position.

These critics seem to labor under the impression that all you have to do to get a good dinner is to hire a cook—no kitchen, no pans, no pots, no stove necessary.

Had Liebig himself risen from his grave and offered as a candidate he could not have been set to work; so Dr. Phillips' absence from work now is not a question of competency.

Had Liebig himself risen from his grave and offered as a candidate he could not have been set to work; so Dr. Phillips' absence from work now is not a question of competency.

Quite a number of prominent educators in the State could assume the duties of the position, though Dr. Phillips cannot, says one. Now, so far from that being true, there is perhaps not another man in the State except the director of Charlotte mint who has ever spent three weeks at assay work.

ALTHOUGH OPPOSED TO PATENT MEDICINES, says Mr. A. J. Gifford, Master Mechanic of the Lowell division of the Boston & Lowell Railroad.

There cannot be a more worthy improvement of friendship than in a fervent opposition to the sins of those we profess to love.

possible after it is won. Among the many candidates for this chair of agricultural chemistry there were none of established reputation. Two men, indeed, known in scientific circles, responded with me on the subject, but when they learned the salary and the facts about the laboratory they declined having more to do with it.

Only two other candidates could be said to rival Dr. Phillips in qualifications; one from New England, the other a native of England, a resident of Virginia.

The Toronto Morning News says there are some new developments in connection with the distribution of the Lawrence Towley estates in England, which it will doubtless interest claimants to hear about.

Italy has a new iron-clad called the Morosini. The name is singularly inappropriate—a Schelling would soon subdue it.—Binghamton Republican.

Even Patti is writing her memoirs. Book agents in search of territory may be interested in knowing that the chapters devoted to her matrimonial experiences will cover a great deal of ground.—Chicago Herald.

Useful knowledge can have no enemies, except the ignorant; it cherishes youth, delights the aged, is an ornament in prosperity, and yields comfort in adversity.

Dr. W. D. Wright, Cincinnati, O., sends the subjoined professional endorsement: "I have prescribed DR. WILLIAM HALL'S BALSAM FOR THE LUNGS, in a great number of cases and always with success.
